Total All Funds	\$ 6,547,939,623	1,891,884,066	4,656,055,557	5,500,254,776	1,150,698,707	4,349,556,069

¹ The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services cannot directly expend any receipted money from the fund, as it could during the fiscal year ended June 30, 2020.

³ Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to \$750 million.

⁴ This appropriation's expenditures for the fiscal year ended June 30, 2021, are a placeholder intended for the State Emergency Management Federal Stimulus Fund's Department of Mental Health Staff Offering Support Program appropriation. SAM II adjustments to reflect this were not fully processed by March 2021. Once processed, this appropriation's authority and expenditures for the fiscal year ended June 30, 2021, will return to zero. This stipend appropriation was obsoleted in September 2020, when it was replaced by an equivalent stipend appropriation also in the State Emergency Management Federal Stimulus Fund.

⁵ This appropriation's expenditures include \$3,408,507 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

2020 ANNUAL REPORT

Nicole Galloway, CPA
MISSOURI STATE AUDITOR'S OFFICE

Letter from Nicole Galloway

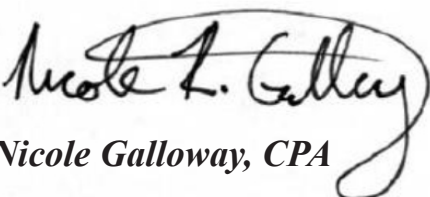

This past year, the global pandemic created struggles for families throughout the state. In my office, we made necessary changes to ensure the health and safety of our employees and members of the general public, but our work on behalf of Missourians continued. We released 131 reports in 2020 that hold government accountable to you — the citizens we serve.

As your State Auditor, I am dedicated to being a strong, independent watchdog for all Missourians. Taxpayers deserve to get the most from their government. And each day, I bring my experience as a certified public accountant and certified fraud examiner to do just that.

Our audit reports reveal evidence of theft and abuse of taxpayer dollars, highlight inefficiencies in government and bring to light mismanagement affecting services to the public. Our audits get results, including changes to operations, more effective processes, and, at times, criminal charges brought against public officials. Since 2015, our audits have identified more than \$380 million in government waste, fraud, abuse and mismanagement.

My dedicated team works to hold government at all levels accountable, and I am proud of our integrity and professionalism. My office frequently receives independent reviews of audit processes and office operations. In 2020, we received the highest rating possible during an independent review by the National State Auditors Association. This is the second time my office has received this distinction under my leadership.

It is my honor to serve as your advocate, ensuring government at all levels is efficient, effective and transparent.

Nicole Galloway, CPA

Duties of the State Auditor

The State Auditor's Office is Missouri's independent watchdog for taxpayers. The Missouri Constitution and state law give the State Auditor authority to audit:

- All state agencies, boards and commissions
- Public employee retirement systems
- Public employee healthcare systems
- The state court system
- School districts
- Counties that do not have a county auditor
- Other political subdivisions upon petition by the voters of those subdivisions

The State Auditor's Office works to ensure the proper use of public funds and to improve the efficiency and effectiveness of Missouri government.

Audits examine financial accountability; look for waste, abuse and fraud; and evaluate whether government organizations and programs are achieving their purposes and operating economically and efficiently. All audits are performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States.

Since 2015, more than **\$380 million** has been uncovered in government waste, fraud, abuse and mismanagement.

Audits and investigations have resulted in **79 criminal charges** against public officials.

Fighting Fraud and Abuse

Auditor Galloway launched her Public Corruption and Fraud Division in 2019. The team -- a dedicated group of attorneys, auditors and investigators -- has a demonstrated history of working with local, state and federal law enforcement to pursue justice for taxpayers. Since 2015, audits and investigations have resulted in 79 criminal charges against public officials.

City of Coffey

Former Coffey city clerk Mary Lou Browning pleaded guilty to felony charges of stealing and forgery. The charges were filed after the audit of the small northwest Missouri town found more than \$60,000 was missing. Browning was later sentenced to 15 years in prison and ordered to pay restitution.

City of Center

Tracey Ray, the former clerk of the City of Center, faces federal criminal charges of wire fraud and theft. The audit found she had misappropriated more than \$300,000 in taxpayer funds and used them to pay her personal credit card bills.

“Each time we uncover fraud and abuse,
it puts others on notice that
public corruption will not be tolerated.”

-Nicole Galloway, CPA

City of Parma

Criminal charges were filed against three former Parma city officials after an audit found at least \$115,582 was misappropriated from the city. This included payroll overpayments, improper payments to the mayor, the city clerk, and to city officials and others who were related to the mayor or the city clerk. The case is ongoing.

Madison County

Kelcey Gresham, the former deputy collector for Madison County, pleaded guilty to a felony stealing charge. An audit from Auditor Galloway's Public Corruption and Fraud Division discovered more than \$13,000 went missing from the Madison County Collector's office between January 2017 and October 2018. The audit showed that property tax bills were paid, but then deleted from the system and the payments were not deposited into county accounts. Under the terms of the guilty plea, Gresham must pay restitution and was placed on probation for five years.

City of Glasgow

Kevin Atwood, the former city administrator and police chief in Glasgow, pleaded guilty to receiving stolen property. The 2018 audit of Glasgow found thousands of dollars went missing while Atwood was managing the city's accounting functions.

Plattsburg Special Road District

Ava Langner, former secretary/treasurer of the Plattsburg Special Road District, pleaded guilty to a criminal charge of theft in federal court. A 2019 audit found district taxpayers had been defrauded of more than \$286,000 over a seven-year period.

St. Louis College Prep

Michael Malone, the former executive director of the now-closed St. Louis College Prep, pleaded guilty to federal charges of wire fraud. A 2019 audit found falsified attendance records at the charter school led to \$1.4 million in overpayments to the school. Auditor Galloway worked with the U.S. Attorney's Office and FBI on the criminal investigation that resulted in the plea, which was filed in the U.S. District Court for the Eastern District of Missouri. Malone was later sentenced to prison and ordered to repay millions of dollars in public funds.

Putnam County Memorial Hospital

In 2020, the head of a hospital management company and nine other people were charged in a federal indictment with conspiring to operate a multi-state \$1.4 billion billing scheme that used rural hospitals to submit fraudulent claims. In 2017, an audit of Putnam County Memorial Hospital found \$90 million in illegal billings were passed through the 15-bed hospital in northern Missouri. The Public Corruption and Fraud Division worked with federal law enforcement agencies in Missouri, Florida and Washington, D.C. to share information and support a national investigation involving rural hospitals throughout the country. In 2019, the former CEO of Putnam County Memorial Hospital pleaded guilty to federal health care fraud charges.

PUBLIC CORRUPTION AND
FRAUD DIVISION

HOW WE INVESTIGATE

We receive information on allegations of improper governmental activities

Information is submitted to the State Auditor's Whistleblower Hotline. Under state law, individuals who make a report may choose to remain anonymous until they affirmatively consent to having their identity disclosed.

We review the submitted information

Each year, we receive hundreds of tips from citizens, public employees and government officials. When information is received, it is reviewed for relevance and completeness. Whistleblowers who provide contact information may be contacted for additional information.

We investigate the allegations

When allegations of fraud or abuse are reported, the Public Corruption and Fraud Division will complete an initial review to determine if allegations are credible. If not deemed credible or if insufficient documentation is provided, the case is closed. If deemed credible, the next step of the investigation proceeds.

The State Auditor's Whistleblower Hotline is a resource to report potential wrongdoing.

Whistleblowers can submit information by emailing **moauditeauditor.mo.gov**, calling toll-free **1-800-347-8597** or using an online reporting form at **auditor.mo.gov**

NICOLE GALLOWAY, CPA
MISSOURI STATE AUDITOR'S OFFICE

Ensuring Accountability

Holding state government accountable for billions in federal stimulus dollars

Auditor Galloway announced efforts to ensure oversight and transparency of the state’s distribution and spending of federal funding for COVID-19 relief. These efforts include:

An online tool to give Missourians a detailed look at expenditures. The COVID-19 Response page tracks not only how much is received and expended in relief funds, but also lists which state and local government departments, vendors and expense categories are receiving the most funding. The information is available at auditor.mo.gov/covidtracking

The office also issues monthly reports detailing state government’s use of federal stimulus dollars intended for the COVID-19 response. In 2020, Auditor Galloway issued seven of these reports, which have continued in 2021.

Auditor Galloway’s efforts are similar to work performed by the previous State Auditor’s administration, which reviewed the state’s use of funds received through the American Recovery and Reinvestment Act of 2009. Under the Missouri Constitution, the State Auditor has a duty to ensure the accuracy of the state’s accounting of its spending.

Inadequate oversight enabled former St. Louis County Executive and his appointees to abuse their positions

In May 2019, the St. Louis County Council unanimously passed a resolution requesting Auditor Galloway perform a review of county operations during the term of former County Executive Steve Stenger, who pleaded guilty to federal charges related to a pay-to-play scheme. The report found Stenger and former St. Louis Economic Development Partnership (SLEDP) CEO Sheila Sweeney abused their positions as part of the scheme involving procurements and the awarding of contracts. The audit also brought to light inadequate oversight by the County Council and the SLEDP Board that enabled them to do so.

The audit found that lack of adequate oversight by the County Council allowed Stenger to take actions that were not in the best interest of taxpayers. Because of the lack of due diligence, the county committed to a 20-year lease that is expected to cost \$67 million over the lease term, the county exchanged property appraised for \$1.3 million for property appraised for \$560,000, and the County’s Executive Office was able to shift almost \$4 million in personnel costs to other departments. The audit also found that the County Auditor position has been ineffective in providing oversight of county operations.

Federal Relief Funds Received by Missouri for COVID-19 Response

Track federal relief funds received by Missouri for COVID-19 response at auditor.mo.gov/covidtracking

Setting an Example

Professionalism and integrity

In December, our office received the highest rating possible during a routine review by the National State Auditors Association (NSAA). This is the second time the office has received this distinction under Auditor Galloway's leadership. The NSAA reviews are done every three years; the previous peer review was completed in 2017.

An external peer review enables the State Auditor's office to obtain an independent assessment of whether or not its system of quality control is adequate to ensure compliance with Government Auditing Standards. This review covered quality control processes in place between Sept. 1, 2019 and Aug. 31, 2020. The review was conducted under the NSAA's External Peer Review Program, which is administered by National Association of State Auditors, Comptrollers and Treasurers.

The State Auditor's Office frequently receives independent reviews of audit processes and office operations. In April 2018, the Missouri General Assembly issued two separate audits of the Missouri State Auditor's Office, which found overall operations are managed professionally and cybersecurity measures are effective.

"We have incredible professionals in my office dedicated to the work that we do.

This is a fantastic recognition of how we conduct audits."

-Nicole Galloway, CPA

Commitment to transparency

In 2020, Auditor Galloway announced that Sunshine Law requests submitted to her office, and responses to those requests, would be publicly available online and free of charge. More than 200,000 pages of responsive documents and materials can be viewed online at auditor.mo.gov

Sunshine Law requests made to the State Auditor's Office and corresponding responses can be reviewed by year from August 2015 to the present. New requests and responses are posted on a rolling basis. This practice is the first of its kind by a Missouri statewide elected official.

Work life balance

Throughout her time as a statewide official, Auditor Galloway has advocated for family-friendly policies. In 2017, she made changes to her own office leave policies to allow for bonding time after the birth or adoption of a child. Additionally, her office was a leader in ensuring domestic violence is a covered leave category under existing workplace protections. In 2020, Auditor Galloway expanded these policies to allow her employees to take up to 12 weeks of paid parental leave after the birth or adoption of a child. Auditor Galloway then issued a letter to the Governor calling on him to enact these updated family-friendly policies, which mirror those signed into law in 2020 for federal employees.

Good stewardship of taxpayer dollars

At the end of Fiscal Year 2020, Auditor Galloway announced she returned \$150,000 from her office's budget. At the end of the last five fiscal years, she returned a total of more than \$2.3 million from her budget to the General Revenue Fund. This is possible because of the efforts by Auditor Galloway to ensure high standards of good stewardship to the office's operations.

"Mothers and fathers should not have to choose between their jobs and having meaningful time with their new or expanding families."

-Nicole Galloway, CPA

Auditor Galloway met with members of the Hispanic Leaders Group of Greater St. Louis in her Capitol office in February.

Thorough, Comprehensive Reviews

Jackson County

Auditor Galloway accepted a request by the Jackson County Legislature to conduct an audit of Jackson County. Audit work began after meeting with legislators and county officials to hear concerns and receiving feedback from citizens. During 2020, Auditor Galloway released five reports on Jackson County government, making recommendations to ensure transparency and more effective use of taxpayer dollars. These reports reviewed the county’s processes for:

The Jackson County Community Backed Anti-Crime Tax (COMBAT) Fund: The audit found COMBAT revenue allocations had not been updated in 25 years and there is insufficient monitoring of spending to ensure appropriate uses of COMBAT funds.

Contracting: the report found lack of transparency in how the county spent millions of taxpayer dollars on legal, lobbying and other professional services. The audit identified \$2.7 million in contracts that were not competitively bid and another \$1.3 million in contracts that went years without being reevaluated.

Budgeting: the report made recommendations to ensure transparency in county spending.

Payroll and Personnel: the report found concerns with the allocation from different funds to pay salaries and with the handling of vehicle allowances.

Assessments and Other Areas of County Government: The report found Jackson County needs to improve controls and procedures in its assessment department to ensure effective and efficient future reassessments.

City of St. Louis

The City of St. Louis Board of Aldermen requested a comprehensive audit of the City of St. Louis. In 2020, Auditor Galloway issued eight reports on offices and city departments. These reports covered the Office of Public Administrator, Treasurer’s Office, Department of Public Safety, Collector of Revenue, Department of Health, St. Louis Agency on Training and Employment, and Comptroller.

Additionally, Auditor Galloway released a report on the city’s use of Tax Increment Financing (TIF) for redevelopment projects. The audit recommended improvements to provide additional clarity and transparency for the city’s use of TIF and ensure the city is looking out for taxpayers when awarding these incentives.

Audit work is ongoing and reports will be issued on all city departments and elected offices.

Clay County

An audit of Clay County was initiated after a citizen petition was submitted to the State Auditor’s Office and then verified to have more than the minimum 5,590 signatures of county residents who are registered voters. The Clay County Commission filed a lawsuit to prevent the Auditor from conducting the citizen-mandated audit, but a court ruling dismissed the lawsuit and confirmed the Auditor’s legal authority. In a second case, the Clay County Circuit Court in October 2020 affirmed the Auditor’s authority to access routine records and information associated with the audit. The County Commission appealed both rulings, but newly elected commissioners later dropped all legal objections to ongoing audit work.

In 2020, the State Auditor’s Office released reports on the Clay County clerk, public administrator and recorder of deeds. Additional audit work on other Clay County offices is ongoing.

Top: A group from the Gateway Region YMCA visited the Capitol in February to learn more about government and the work of the State Auditor's Office.

Bottom: At a press conference, Auditor Galloway provided an update on audit work in the City of St. Louis.

Covid-19 response funding

The office has released monthly reports detailing state government's use of federal stimulus dollars intended for the COVID-19 response. Through Dec. 31, 2020, the state of Missouri had received \$3.3 billion and spent \$2.3 billion of the assistance.

Management & spending of federal funds

This year's annual Statewide Single Audit :

- \$12 billion in federal funds
- 12 major federal programs
- Reported eight findings at three state agencies

Financial reporting

The Missouri State Auditor's Office received:

- 954 financial reports from municipalities
- 2,242 financial reports from other political subdivisions

Review of property tax rates

The State Auditor's Office reviews rates to determine whether the rates are compliant with state law and to monitor rate adjustments to ensure revenue neutrality, as required by law. In 2020, staff reviewed 4,840 property tax rates of 2,802 taxing authorities.

Missouri State Auditor

Greene County

Sheriff

Report No. 2021-029

June 2021

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Greene County Sheriff

Cash and Receipting Controls and Procedures	The Sheriff has not adequately segregated accounting duties and does not ensure supervisory reviews of detailed accounting and bank records are performed for the Jail Administration Division. The Sheriff needs to improve receipting, recording, reconciling, transmitting, and depositing procedures.
Bank Reconciliations and Liabilities	The Sheriff has not established adequate procedures for reconciling the civil process, inmate trust fund, commissary, and property room bank accounts, and procedures to follow up on old outstanding checks and reconciling items identified in the bank reconciliations need improvement. Monthly lists of liabilities are not prepared to reconcile to the available cash balances.
Purchasing and Disbursement Procedures	The Sheriff does not ensure compliance with the county's purchasing guide regarding requirements for electronic quotes and requisitions for purchases exceeding \$500. The Sheriff does not always work with the county's Purchasing department to ensure that purchase orders are completed when required by the purchasing guide and that bids are obtained when purchases with a single vendor exceed \$6,000 within a 90 day period. The Sheriff does not limit petty cash purchases to \$25 as stated in the county's purchasing guide and several petty cash purchases included sales tax.
Other Procedures	The Sheriff does not charge or collect sales tax on commissary sales, and no sales taxes are remitted to the Department of Revenue. The Sheriff does not have adequate procedures to ensure inmates receive their remaining account balance upon release and has not disbursed the money owed to some former inmates.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	12
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

Sheriff
Greene County, Missouri

The State Auditor was requested under Section 50.057, RSMo, to audit Greene County. We have audited certain operations of the Greene County Sheriff in fulfillment of our duties. The county engaged KPM CPA & Advisors to audit the county's financial statements for the years ended December 31, 2019, and 2018. The scope of our audit included, but was not necessarily limited to, the 2 years ended December 31, 2019. The objectives of our audit were to:

1. Evaluate the Sheriff's internal controls over certain management and financial functions.
2. Evaluate the Sheriff's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

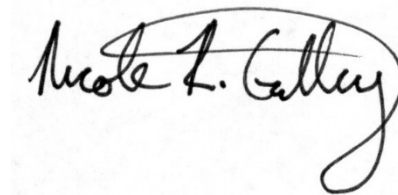

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design, implementation, and operating effectiveness of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the Sheriff and was not subjected to the procedures applied in our audit of the Sheriff.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Greene County Sheriff.

An additional report, No. 2020-050, *Greene County*, was issued in August 2020. Additional work related to the operations of the County Commission is still in process, and any additional findings and recommendations will be included in a subsequent report.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly legible. The initials "R." are written between the first and last names.

Nicole R. Galloway, CPA
State Auditor

Audit Staff:	Samantha A. Brown

Greene County
Sheriff

Management Advisory Report - State Auditor's Findings

**1. Cash and
Receipting Controls
and Procedures**

Cash and receipting controls and procedures need improvement. The office collected money from inmates, paper service fees, concealed carry weapon permit fees, bonds, prisoner board, and other miscellaneous receipts totaling approximately \$11,200,000 and \$8,800,000 during the 2 years ended December 31, 2019, and 2018, respectively.

1.1 Segregation of duties

The Sheriff has not adequately segregated accounting duties and does not ensure supervisory reviews of detailed accounting and bank records are performed for the Jail Administration Division. The Accounts Payable Coordinator is responsible for the inmate trust fund bank account, including recording and depositing money received that is not processed through the kiosk machines; preparing and generally signing checks; and preparing the bank reconciliations. The Accounts Payable Coordinator is also responsible for the recording, depositing, disbursing, and reconciling duties involving the commissary bank account. The Sheriff or other supervisory personnel do not perform a documented independent review of the accounting and bank records to ensure all money received is properly recorded, deposited, and disbursed.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of recording, depositing, disbursing, and reconciling money received. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential.

**1.2 Receipting, recording,
reconciling, transmitting,
and depositing**

The Sheriff needs to improve receipting, recording, reconciling, transmitting, and depositing procedures. We reviewed the procedures of the various divisions of the Sheriff's office and identified the following concerns.

Jail Administration Division

The Jail Administration Division clerks do not always issue receipt slips for money collected. In addition, the Accounts Payable Coordinator does not account for the numeral sequence of receipt slips, and does not reconcile receipt slips written to the money transmitted to the County Treasurer for deposit. The Jail Administration Division collects only cash receipts. Our review of cash receipts collected and transmitted from October 2018 through March 2019, determined receipt slips were not issued for 64 of 319 payments collected (20 percent). In addition, a cash count performed on February 20, 2020, identified receipt slips were not issued for 7 payments collected.

Civil Division

The Civil Division clerks do not account for the numerical sequence of receipt numbers, and money received is not always deposited intact. For example, we noted 88 receipts were entered into the computer system on September 20, 2019, and these receipts were included in deposits made on September 20, 23, and 25, 2019. However, these receipts were not deposited in sequence, because 9 receipts entered into the computer system before

Greene County
Sheriff
Management Advisory Report - State Auditor's Findings

10:00 a.m. on September 20, 2019, were not deposited until September 25, 2019, while 44 receipts entered into the computer system after 10:00 a.m. on September 20, 2019, were deposited on September 23, 2019.

In addition, checks are not restrictively endorsed immediately upon receipt. The endorsement is applied at the time of deposit. A cash count performed on February 20, 2020, identified 39 checks on hand that had not been restrictively endorsed.

Records Division

The Records Division clerks do not issue prenumbered receipt slips for money collected. Instead, invoices are prepared when records are requested and printed from the computer system and then also used as receipt slips. These invoices are not sequentially numbered. In addition, the method of payment (cash or check) is not always recorded on these invoices and the Records Division Supervisor does not reconcile the composition of receipts to the composition of transmittals to the County Treasurer.

Also, checks are not restrictively endorsed immediately upon receipt. The endorsement is applied at the time the monthly transmittal is prepared. A cash count performed on February 20, 2020, identified 16 checks on hand that had not been restrictively endorsed.

Conclusion

Failure to implement adequate receipting, recording, reconciling, transmitting, and depositing procedures increases the risk that loss, theft, or misuse of money could occur and go undetected.

Recommendations

The Sheriff:

- 1.1 Segregate accounting duties or ensure independent or supervisory reviews of detailed accounting and bank records are performed and documented.
- 1.2 Issue prenumbered receipt slips for all money received, indicate the method of payment on all receipt slips, account for the numerical sequence of receipt slips, reconcile the composition of receipts to the composition of transmittals, and deposit all payments received intact. Also, ensure all checks are restrictively endorsed upon receipt.

Auditee's Response

- 1.1 *We are working to ensure independent review and documentation of accounting and bank records. For budget year 2022, we will be requesting additional full-time staff to reach these goals. In the meantime, we will continue working closely with the County Auditor who will provide direct oversight.*
- 1.2 *We have already implemented these recommendations which were revealed to us during the audit process. We are working to ensure*

Greene County
Sheriff
Management Advisory Report - State Auditor's Findings

that pertinent staff remain trained and follow process improvements that have been implemented.

2. Bank Reconciliations and Liabilities

Civil process bank account

The Sheriff has not established adequate procedures for reconciling the civil process, inmate trust fund, commissary, and property room bank accounts, and procedures to follow up on old outstanding checks and reconciling items identified in the bank reconciliations need improvement. In addition, monthly lists of liabilities are not prepared to reconcile to the available cash balances.

The Civil Sergeant does not prepare adequate bank reconciliations for the civil process bank account, a cumulative book balance is not maintained, and a monthly list of liabilities is not prepared to reconcile to the available cash balance.

Civil Division personnel do not maintain a cumulative book balance to reconcile to the bank balance; instead, spreadsheets are maintained to document monthly deposit activity and checks issued to ensure all money deposited is disbursed. At December 31, 2019, the bank statement balance totaled \$58,802. After deducting the disbursement of December 2019 collections totaling \$33,279, the remaining balance was \$25,523. Sheriff's office personnel provided a written response indicating this balance was money provided by the County Treasurer to open the account and to provide a starting balance. In October 2020, we requested documentation to support the account's opening balance; however, as of March 2021, no information had been provided.

Inmate trust fund bank account

The Accounts Payable Coordinator does not prepare adequate bank reconciliations for the inmate trust fund bank account. Old outstanding checks and other reconciling items are not resolved timely. At December 31, 2019, the inmate trust fund bank account had 233 outstanding checks totaling \$2,861, 9 deposit reconciling items totaling \$430, and 4 disbursement reconciling items totaling \$946, that have been outstanding for more than one year, with some outstanding checks dating back to 2013 and some reconciling items dating back to 2014. Sheriff's office personnel indicated they have attempted to resolve the old reconciling items with the software vendor but have not been successful.

As of December 31, 2019, the book balance of \$188,568 exceeded the reconciled bank balance of \$188,525, resulting in a shortage of \$43. Sheriff's office personnel indicated they cannot identify this difference. Also, a monthly list of liabilities is not prepared to reconcile to the available cash balance. At our request, Sheriff's office personnel provided documentation identifying liabilities totaling \$165,037, consisting of active inmate balances (\$39,871), released inmate balances (\$14,652), and amounts due to the commissary bank account for December 2019 inmate commissary purchases

Greene County
Sheriff
Management Advisory Report - State Auditor's Findings

(\$110,514), leaving an unidentified balance of \$23,488. No documentation was provided to identify what was included in this remaining balance.

Commissary bank account

The Accounts Payable Coordinator does not prepare adequate bank reconciliations for the commissary bank account. Old reconciling items are not resolved timely. At December 31, 2019, the commissary bank account had 12 deposit reconciling items totaling \$549 and 6 disbursement reconciling items totaling \$216, that have not been resolved and dated back to at least 2016. Sheriff's office personnel indicated they have attempted to resolve the old reconciling items with the software vendor but have not been successful. In addition, a monthly list of liabilities is not prepared to reconcile to the available cash balance. The reconciled bank balance was \$11,714 at December 31, 2019. No documentation was provided to identify what was included in this balance.

Property room bank account

The Administration Clerk does not prepare adequate bank reconciliations for the property room bank account because differences are not resolved timely. At December 31, 2019, the bank balance of \$80,521 exceeded the book balance of \$80,416 by \$105. Sheriff's office personnel indicated this difference existed at the end of 2018, and they contacted the County Auditor's office for assistance with the reconciliation. After we inquired about the difference, the County Auditor provided a spreadsheet of account activity in August 2020, which identified the difference as an outstanding check for \$152 from March 2018 and a duplicate entry of \$47 for interest earned on the account in July 2018.

In addition, a monthly list of liabilities is not prepared to reconcile to the available cash balance. Liabilities of this account include seized cash and interest amounts earned on the bank balance. Approximately \$9,400 in this account is accumulated interest since 2004.

Conclusion

Performing adequate monthly bank reconciliations helps ensure accurate records are kept and increases the likelihood errors will be identified and corrected timely. In addition, procedures to routinely follow up on reconciling items are necessary to prevent the accumulation of money in the accounts, ensure accounting records are accurate, and ensure money is appropriately disbursed to the payee or as otherwise provided by state law.

Also, regular identification and comparison of liabilities to the available cash balances is necessary to ensure records are in balance, sufficient cash is available for the payment of amounts due, and all money in the bank can be identified. Prompt follow up on discrepancies is necessary to resolve errors. The Sheriff should also determine how interest earned on the property room bank account should be handled, and disburse interest earnings accordingly.

Greene County
Sheriff
Management Advisory Report - State Auditor's Findings

Recommendation

The Sheriff establish procedures to ensure adequate monthly bank reconciliations are performed and to routinely investigate outstanding checks and other reconciling items. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the money should be disbursed in accordance with state law. In addition, monthly lists of liabilities should be prepared and reconciled to available cash balances. Any differences should be promptly investigated and resolved. The Sheriff should also determine how the interest earned on the property room bank account should be disbursed.

Auditee's Response

Procedures are now in place to ensure adequate bank reconciliations are performed. We will ensure the investigation of outstanding checks and other reconciling items, and will reconcile the available cash balance to a list of liabilities. We have ensured the return of unclaimed monies in accordance with state law. Although not cited in the report, the Sheriff's office has not been made aware of any fraud, misuse or loss of county assets. The unidentified money from the civil process and inmate trust fund bank accounts have now been transferred to the County Treasurer. The remaining balance in the commissary bank account is being utilized for cash flow and purchases. It is reviewed on a monthly basis. Unless otherwise directed by the court, interest from the property room bank account is used to maintain the property room. These funds will be utilized for equipment, facility maintenance, and supplies related to evidence storage.

3. Purchasing and Disbursement Procedures

Controls and procedures over purchasing and disbursements need improvement.

The purchasing guide for Greene County indicates the county Purchasing department is responsible for the centralized coordination of county purchasing; the procurement of supplies, equipment, services; and the construction for all county departments. The Purchasing department's responsibilities include issuing bids, request for proposals, and contracts. Purchases of goods or services totaling \$500 or less from a single vendor may be initiated by a county office or department without prior approval from the Purchasing department. The requesting office or department is supposed to check with the Purchasing department to verify purchases with a single vendor have not totaled \$6,000 or more within a 90 day period. For purchases that exceed \$500, but are less than \$6,000, 3 electronic quotes are to be obtained and a requisition completed by the county office or department requesting the purchase. The Purchasing department and the County Auditor will review the requisition and a purchase order will be prepared by the Purchasing department. For purchases totaling \$6,000 or more, the Purchasing department will coordinate with the requesting county office or department to ensure bids are obtained as required by state law.

Greene County
Sheriff
Management Advisory Report - State Auditor's Findings

3.1 Purchasing procedures

The Sheriff does not ensure compliance with the county's purchasing guide regarding requirements for electronic quotes and requisitions for purchases exceeding \$500. Also, the Sheriff does not always work with the county's Purchasing department to ensure that purchase orders are completed when required by the purchasing guide and that bids are obtained when purchases with a single vendor exceed \$6,000 within a 90 day period.

For 18 disbursements reviewed (exceeding \$500 but less than \$6,000), documentation was not provided to indicate electronic quotes had been obtained for 6 disbursements (33 percent).

For 29 disbursements reviewed (exceeding \$500) requiring requisitions and purchase orders, documentation was not provided to indicate these items were completed for 5 disbursements (17 percent).

For 1 disbursement reviewed when purchases to the same vendor totaled more than \$6,000 in a 90 day period, bids were not obtained.

Section 50.660, RSMo, requires competitive bidding when county contracts and purchases with a single vendor exceed \$6,000 within 90 days.

To reduce the risk of loss, theft, or misuse of funds and ensure compliance with state law and county policies, the Sheriff should obtain electronic quotes and prepare requisitions when required by the county's purchasing guide, and work with the county's Purchasing department to verify that purchase orders are completed when required and purchases with a single vendor do not require competitive bidding.

3.2 Petty cash purchases

The Sheriff does not limit petty cash purchases to \$25 as stated in the county's purchasing guide. In addition, several petty cash purchases included sales tax. Documentation of petty cash purchases by employees for the Sheriff's office and the jail are forwarded to the County Treasurer for reimbursement.

During our review of 4 monthly petty cash reimbursements, we noted 15 petty cash purchases, totaling \$870, exceeding the \$25 limit. These purchases included office supplies, repair and maintenance costs, investigative costs, fuel reimbursements, kitchen supplies, and other supplies. Because these purchases were reimbursed using petty cash, they did not go through the normal county procurement process. In addition, sales tax was paid on 14 of 37 (38 percent) of these purchases because employees did not ensure the vendor received documentation of the county's sales tax exemption status.

To reduce the risk of loss, theft, or misuse of funds, the Sheriff should ensure all petty cash purchases comply with the limit set in the county's purchasing guide. Petty cash systems are established to handle only low cost purchases where it would not be practical or efficient to use an organization's normal

Greene County
Sheriff
Management Advisory Report - State Auditor's Findings

purchasing and disbursement process, but the systems are not intended to bypass those processes. In addition, sales tax should not be paid on purchases because the county is a tax exempt entity.

Recommendations

The Sheriff:

- 3.1 Obtain electronic quotes and prepare requisitions when required by the county's purchasing guide and work with the county's Purchasing department to verify that purchase orders are completed when required and purchases with a single vendor do not require competitive bidding.
- 3.2 Ensure petty cash purchases do not exceed the \$25 limit as stated in the county's purchasing guide and ensure sales tax is not paid on purchases.

Auditee's Response

- 3.1 *We have now established additional procedures and oversight to ensure compliance with the Greene County purchasing policies.*
- 3.2 *We have provided the necessary policy training to the pertinent staff and we are in compliance with the county's petty cash policies. We will continue to work with vendors and suppliers to ensure that we are not paying sales tax on purchases.*

4. Other Procedures

The Sheriff does not charge or collect sales tax on commissary sales, and does not have adequate procedures to ensure an inmate's remaining balance is refunded upon release. Commissary sales totaled approximately \$1,100,000 during each of the years ended December 31, 2019, and 2018.

4.1 Sales tax

The Sheriff does not charge or collect sales tax on commissary sales, and no sales taxes are remitted to the Department of Revenue (DOR). Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax.

To ensure sales taxes are properly handled, the Sheriff should contact the DOR for guidance on establishing procedures for charging and collecting sales tax on commissary sales, and ensure all future sales tax collections are remitted to the DOR.

4.2 Inactive inmate account balances

The Sheriff does not have adequate procedures to ensure inmates receive their remaining account balance upon release and has not disbursed the money owed to some former inmates. As of December 31, 2019, the Sheriff's office was holding \$14,652 for 1,105 former inmates in the inmate trust fund bank account. Of this amount, nearly all of it relates to inmates released prior to 2015, with the oldest balance dating back to 1998.

Greene County
Sheriff
Management Advisory Report - State Auditor's Findings

Follow up on inactive accounts is necessary to ensure money is appropriately disbursed to former inmates or as otherwise provided by state law. In addition, establishing procedures to timely return remaining balances to former inmates will allow the Sheriff to more adequately safeguard any money being held and reduce the risk of its loss, theft, or misuse.

Recommendations

The Sheriff:

- 4.1 Contact the DOR for guidance on establishing procedures for charging and collecting sales tax on commissary sales, and ensure future sales tax collections are remitted to the DOR.
- 4.2 Return inmates their remaining account balance upon release. In addition, the Sheriff should attempt to return unclaimed balances to the former inmates. If the payee cannot be located, the amount should be disbursed in accordance with state law.

Auditee's Response

- 4.1 *We will work with the Missouri Department of Revenue to seek guidance on the taxation of commissary items.*
- 4.2 *Inmates are currently receiving their account balances upon release. Historical, unclaimed balances that predate the current Sheriff have now been transferred to the County Treasurer to be disbursed in accordance with state law.*

Greene County

Sheriff

Organization and Statistical Information

The Sheriff is the chief law enforcement officer of the county. The Sheriff's duties are defined in state law, and include keeping the county jail, transporting prisoners to state penitentiaries, and serving various legal papers and processes. The Sheriff's office collects payments for various fees, bonds, and other miscellaneous receipts.

Jim Arnott currently serves as the Greene County Sheriff. He was first elected to this position in 2008, and has served in this capacity since January 2009. The Sheriff oversees the daily operation of the Sheriff's office and county jail, and employed approximately 400 full-time employees on December 31, 2019.

Other Information

In November 2017, voters approved a 1/2-cent sales tax for the purpose of general revenue. The county issued \$64,470,000 in Certificates of Participation (COPS) in September 2018 to provide funding for several capital projects including an expansion of the Greene County Justice Center, renovations to the Judicial Courts Facility, and a new Operations Center to house the Building Operations and General Services departments. The new sales tax revenues, which are accounted for in the General Revenue II Fund, are used to make the payments on the COPS. The COPS are scheduled to be paid off in 2038. The remaining principal and interest due at December 31, 2019, was \$61,350,000 and \$26,356,875, respectively.

Property Tax System**

Report No. 2021-028

June 2021

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Stone County Collector and Property Tax System

Background	The County Collector bills and collects property taxes for the county and most local governments. Vicki A. May served as County Collector until her resignation effective February 28, 2021. Anna Burk was appointed the Stone County Collector and sworn into office on March 4, 2021.
Findings	The audit identified no significant deficiencies in internal controls and no significant noncompliance with legal provisions. No findings resulted from our audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

County Commission
and
County Collector
Stone County, Missouri

We have audited the County Collector and Property Tax System of Stone County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On February 28, 2021, a vacancy occurred in the office of the County Collector of Stone County. A successor was appointed and sworn into office effective March 4, 2021. The scope of our audit included, but was not necessarily limited to, the year ended February 28, 2021. The objectives of our audit were to:

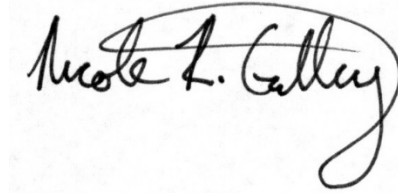

1. Evaluate the county's internal controls over significant property tax functions.
2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We reviewed receipt and disbursement transactions, addition and abatement activity, commissions, and the annual settlement; and performed sample testing of some of these areas using haphazard and judgmental selection, as appropriate. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any funds owed to the county or the former County Collector. For the areas audited, we identified (1) no significant deficiencies in internal controls and (2) no significant noncompliance with legal provisions. No findings resulted from our audit of the County Collector and Property Tax System of Stone County.

In-Charge Auditor:	Joyce Thomson

Stone County Collector and Property Tax System

Organization and Statistical Information

The County Collector bills and collects property taxes for the county and most local governments. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Vicki A. May served as County Collector until February 28, 2021. Anna Burk was appointed the Stone County Collector and sworn into office on March 4, 2021.

During the year ended February 28, 2021, the County Collector received compensation of \$58,500. Compensation was in accordance with statutory provisions.

The seal of the Missouri State Auditor is a circular emblem. It features a central shield with a balance scale and a plow. The shield is surrounded by a wreath. The outer ring of the seal contains the text "SEAL OF THE STATE AUDITOR" at the top, "JULY 1820" on the left, "MISSOURI 1892" on the right, and "WE STAND DIVIDED" at the bottom.

Elementary and Secondary Education Funding Trends

Report No. 2021-027

May 2021

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Elementary and Secondary Education Funding Trends

Funding Trends

State funding for elementary and secondary education has kept up with inflation over the past decade, but continues to be significantly less than state funding provided by other states. Missouri also continues to fund elementary and secondary education from local sources at a significantly higher level than the national average.

State Adequacy Target Trends

The State Adequacy Target (SAT) paid to school districts, which is used as the measure of whether the state's Foundation Formula has been "fully funded," has remained relatively level over the past decade in current dollars, but has declined when adjusted for inflation. In addition, state law defining the SAT has changed in recent years to reduce the amount of state funding considered to be "adequate."

Due to the nature of this report, no rating is assigned.

2. State Adequacy Target Trends	9

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly,
and
Charles Shields, Board of Education President
and
Dr. Margie Vandeven, Commissioner of Education
Jefferson City, Missouri

We have audited certain aspects of the Department of Elementary and Secondary Education funding trends. We analyzed historic state and local funding for school districts to determine trends and gaps in funding levels. The objectives of our audit were to:

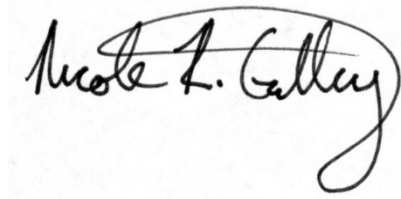

1. Evaluate elementary and secondary education funding trends.
2. Evaluate Missouri elementary and secondary education funding trends relative to other states.

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Government Auditing Standards require us to obtain and report the view of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Due to the nature of this report, and due to the majority of the findings being legislative in nature, we were unable to obtain views of responsible officials for the findings, conclusions, and recommendations outlined in the Management Advisory Report.

For the areas audited, we identified (1) multiple trends in elementary and secondary education funding, including overall state funding has generally kept up with inflation, but state adequacy targets have not, and (2) state funding for education lags behind state funding levels of other states.

The accompanying Management Advisory Report presents our findings arising from our audit of elementary and secondary education funding trends.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Elementary and Secondary Education Funding Trends

Introduction

Background

For school year 2019-2020, Missouri had 555 public and charter school districts with a fall enrollment of 875,043 students. School districts receive funding for different programs from different sources (local, state, and federal). The amount of basic state aid distributed to Missouri's public school districts is calculated by what is commonly referred to as the Foundation Formula.

Foundation Formula

The Foundation Formula, which is defined by Section 163.031, RSMo, is a complex computation based on several factors. Funds received through the Foundation Formula must be used primarily to pay teachers' salaries in the school district. Missouri last restructured its funding formula for elementary and secondary education with the passage of Senate Bill 287 in 2005. Minor revisions to the formula have been made since then. The Foundation Formula allocates state funding to school districts based on the districts' average daily attendance (ADA), increased by the weighted categories of free and reduced lunches, Special Education, and limited English proficiency students; multiplied by the State Adequacy Target (SAT); multiplied by the Dollar Value Modifier; and reduced by the local effort. The SAT is the average operating expenditures of the top 25 percent of school districts with the highest scores on the Annual Performance Report, and that component indicates whether the Foundation Formula is "fully funded." The Foundation Formula contains a hold harmless provision, which states no district shall receive less state aid per student under the formula than it received in school years 2005 and 2006.

Following the recession in 2007-2008, the legislature updated Section 163.011, RSMo, by passing Senate Bill 291 in 2009 that removed a 5 percent growth cap on operating expenditures from the SAT calculation, causing a significant increase to the SAT in 2009. The state relied upon funding from the State Lottery to cover the funding gap left by the state appropriations, but it was not enough to fully fund the Foundation Formula. The formula was not "fully funded" from 2013 through 2017. The legislature re-established the 5 percent cap when calculating the SAT with the update to Section 163.011, RSMo, by Senate Bills 586 and 651 in 2016. As a result, the Foundation Formula has been fully-funded in fiscal years 2018 through 2020. See MAR finding number 2 for additional detail.

Other State Funding Mechanisms

Thirty-six states, the District of Columbia, and the United States territory of Puerto Rico use a foundation formula funding mechanism. This mechanism allocates education funding based on various criteria. A state's weighted ADA then gets multiplied by the state adequacy target and dollar value modifier, which then subtracts the amount of local funding to equal the state funding to be distributed.

Eight states use a Resource-Allocation model funding mechanism. States using this mechanism distribute funds based on the cost of resources, such as

Elementary and Secondary Education Funding Trends

Introduction

staffing and course materials. For example, the state would provide funding for a set number of teacher positions based on student counts.

Four states use a hybrid of the Foundation Formula and the Resource-Allocation funding mechanisms. States using this mechanism often combine elements of the Foundation Formula and Resource-Allocation models, and various costs factors.

Vermont and Wisconsin each use a unique funding mechanism different than the other mechanisms. Vermont's funding system does not have a fixed funding amount set by the state, but the school districts determine their own funding levels and split the funding between the school district and the state. Wisconsin's funding system uses a combination of formulas to allocate funding to school districts with some distributions performed on the basis of per student value of taxable property or by program cost.

Figure 1 provides the breakdown of the different funding mechanisms in the country.

Figure 1: Usage of funding mechanisms

Source: Prepared by SAO from the Education Commission of the States' 50-State Comparison: K-12 Funding.

Scope and Methodology

Our analysis focused on the funding trends at the state level and per student and district. The scope of our audit included, but was not necessarily limited to, the 10 years ended June, 30, 2020.

Our methodology also included gathering information regarding the funding levels of Missouri's elementary and secondary education, information and statistics of other states' funding of education, and also researching the changes in legislation over the years.

Elementary and Secondary Education Funding Trends

Introduction

To evaluate elementary and secondary education trends for the state as a whole, on a per district basis, and on a per student basis; we obtained financial data from the Department of Elementary and Secondary Education.

To evaluate elementary and secondary education trends relative to other states, we used information from the National Education Association's Ranking of States and Estimates of School Statistics, and the Education Commission of the States' 50 State Comparison: K-12 Funding.

Elementary and Secondary Education Funding Trends

Management Advisory Report

State Auditor's Findings

1. Funding Trends

State funding for elementary and secondary education has kept up with inflation over the past decade, but continues to be significantly less than state funding provided by other states. Missouri also continues to fund elementary and secondary education from local sources at a significantly higher level than the national average.

Figure 2 shows Missouri's elementary and secondary education funding from state and local sources for the past decade, adjusted for inflation.

Figure 2: Missouri's elementary and secondary education funding from state and local sources, adjusted for inflation, fiscal years 2011 to 2020, in billions

Source: SAO prepared from the Missouri Department of Elementary and Secondary Education's (DESE) State Annual Secretary of the Board Reports and adjusted for inflation using Consumer Price Index data from the Bureau of Labor Statistics <<https://data.bls.gov/timeseries/CUUR0000SA0/>>

Revenue per ADA

Missouri's total (state, local, and federal) funding per Average Daily Attendance (ADA) and the national average steadily decreased from 2011 to 2014, then significantly increased from 2015 to 2019 with the national average increasing at a higher rate. In 2020, Missouri's total funding per ADA decreased while the estimated national average for 2020 continued to increase. See the trends as shown in Figure 3.

Elementary and Secondary Education Funding Trends Management Advisory Report - State Auditor's Findings

Figure 3: Missouri's elementary and secondary education funding per ADA compared to the national average, adjusted for inflation, fiscal years 2011 to 2020

Source: SAO prepared from the National Education Association's (NEA) Ranking of States and Estimates of School Statistics for the National Average, the Missouri Department of Elementary and Secondary Education's (DESE) Annual Secretary of the Board Reports, and adjusted for inflation using Consumer Price Index data from the Bureau of Labor Statistics <<https://data.bls.gov/timeseries/CUUR0000SA0>>

State funding portion significantly less than national averages

In 2020, Missouri was ranked 49th in the nation in the percentage of school funding coming from state resources (32 percent), according to NEA data. As a result, Missouri districts must rely on local funding sources at a significantly higher rate than the national average. Nationally, school districts receive slightly more funding for elementary and secondary education from state sources than they do from local sources. In Missouri, this ratio is significantly different, with districts receiving an average of 60 percent of funding from local sources, versus approximately 30 percent from the state formula. The remaining portion of funding is from federal sources and is consistent from state to state. Figure 4 shows this trend comparison from fiscal year 2011 to 2020. Federal sources are not depicted.

Figure 4: Percentages of source funding, national average and Missouri, fiscal year 2011 to 2020

Source: SAO prepared from the NEA's Ranking of States and Estimates of School Statistics

Elementary and Secondary Education Funding Trends Management Advisory Report - State Auditor's Findings

Conclusion

Total state funding provided to Missouri school districts has kept up with inflation over the past decade. However, state funding per-student is consistently lower than the national average, and Missouri school districts consistently rely on local funding at a significantly higher rate than the national average.

2. State Adequacy Target Trends

The State Adequacy Target (SAT) paid to school districts, which is used as the measure of whether the state's Foundation Formula has been "fully funded," has remained relatively level over the past decade in current dollars, but has declined when adjusted for inflation. In addition, state law defining the SAT has changed in recent years to reduce the amount of state funding considered to be "adequate."

The SAT is the calculated amount of state funding paid per student, based on the average operating expenditures of the top 25 school districts with the highest Annual Performance Report¹ scores. The SAT paid to schools districts ranged from \$6,117 (2011) to \$6,375 (2020) per student. Figure 5 shows the calculated SAT amount compared to the actual amount distributed, on average, per student for fiscal years 2011 through 2020, adjusted for inflation.

Figure 5: Comparison of calculated SAT to actual SAT, adjusted for inflation, fiscal year 2011 to 2020

Source: Prepared by SAO from the DESE's State Aid Payments Data - Basic Formula Actual Payments Report, and adjusted for inflation using Consumer Price Index data from the Bureau of Labor Statistics <<https://data.bls.gov/timeseries/CUUR0000SA0>>

As shown in Figure 5, the Foundation Formula was not fully funded for 5 of 10 years from 2011 to 2020. In 2016, Senate Bills 586 and 651 reinstated a 5

¹ The Annual Performance Report evaluates the performance standards set by the Missouri School Improvement Program.

Elementary and Secondary Education Funding Trends Management Advisory Report - State Auditor's Findings

percent cap on school districts' operating expenditures for the purpose of calculating the SAT that had been removed from state law in 2009. The implementation of the 5 percent cap resulted in the reduction of the SAT for the 2017 and subsequent school years. As shown in Figure 5, since the reinstatement of the 5 percent growth cap, the SAT has not kept up with inflation. The state target for funding per student has steadily decreased over the last 10 years, when adjusted for inflation.

The SAT is intended to ensure the adequacy of state funding to the state's school districts, however, the current formula to calculate the amount distributed has not kept up with inflation.

Recommendation

The General Assembly continue to monitor and evaluate the state's Foundation Formula to ensure the SAT keeps up with inflation and is providing the desired level of funding to school districts.

Auditee's Response

Due to the legislative nature of the recommendation, no management response can be obtained.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 56 political subdivisions required to file a financial report by April 30, 2021, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in April 2021, after their filing deadline. The filing status for these 14 entities is presented in summary on page 3 and by individual entity in Appendix B-F.

Monthly Report on Political Subdivision Filings

April 2021

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 56 political subdivisions, other than cities, towns, and villages, with a fiscal year end of October 31, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 56 political subdivisions, 49 filed an annual financial report timely.

This report also includes the filing status for 14 political subdivisions, other than cities, towns, and villages, that filed their financial report in April 2021, after their filing deadline.

Appendix A
Status of Political Subdivisions Required to File Annual Financial Reports
Reports Due April 30, 2021

Fiscal Year Ended October 31, 2020

Primary County	Reporting Entity	Filed Annual Financial Report	Date Filed

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by April 30, 2021, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 14 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in April 2021, after their filing deadline. The filing status for these 14 cities and 3 villages is presented in summary on page 4 and by individual entity in Appendixes B to F.

Monthly Report on Municipal Court and Revenue Filings

April 2021

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 14 cities with a fiscal year end of October 31, 2021, whose financial report was due by April 30, 2021. Of the 14 municipalities, 11 filed the financial report timely. Of the 13 municipalities required to file an addendum, 7 filed timely. Of the 6 municipalities required to file a certification, 3 filed the certification timely.

Monthly Report on Municipal Court and Revenue Filings
February 2021
Executive Summary

This report includes the filing status for 14 cities and 3 villages that filed at least one of the items (financial report, addendum, or certification) in April 2021, after their filing deadline. Of these municipalities, 14 filed an annual financial report, 4 filed an addendum, and 2 filed a certification.

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the Fiscal Year 2020 State of Missouri Single Audit

Background	A single audit requires an audit of the state's financial statements and expenditures of federal awards. The state spent approximately \$17.1 billion in federal awards during the fiscal year ended June 30, 2020. Our Single Audit involved audit work on 15 major federal programs administered by 9 state agencies, with expenditures totaling approximately \$12.6 billion.
Medicaid Nursing Facility Cost Report Audits	As noted in our previous audit, the Department of Social Services (DSS) MO HealthNet Division (MHD) did not ensure periodic audits of cost reports or other financial information of nursing facilities participating in the Medical Assistance Program (Medicaid) were conducted as required.
Medicaid National Correct Coding Initiative	The DSS-MHD has not fully implemented the Medicaid National Correct Coding Initiative edits in the Medicaid Management Information System (MMIS) as required. In addition, the MHD did not ensure confidentiality agreements containing required elements to protect the confidentiality of the edit files were in place with the MMIS contractor.
Medicaid and CHIP MAGI-Based Participant Eligibility	As noted in our previous audit, the DSS did not have sufficient controls to ensure compliance with the eligibility redetermination requirements of the Medicaid and the Children's Health Insurance Program (CHIP) for participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI), prior to suspension of the requirements in March 2020.
Adoption Assistance Eligibility and Payments	As similarly noted in our 6 previous audits of the Adoption Assistance program, the DSS made payments on behalf of ineligible children and did not have sufficient controls to prevent and/or detect certain unallowable payments. From the Adoption Assistance program, the DSS - Children's Division made payments on behalf of 5 ineligible children with backdated subsidy agreements, and made an unallowable payment for an additional child.
Medicaid Developmental Disabilities Comprehensive Waiver Per Diem Rates	As noted in our prior 5 audit reports, the Department of Mental Health - Division of Developmental Disabilities continued to pay historical per diem rates to providers for residential habilitation services provided to participants of the Home and Community Based Services, Developmental Disabilities Comprehensive Waiver (Comprehensive Waiver) program, but did not retain adequate documentation to support these rates. As a result, the DD could not demonstrate some amounts paid were allowable costs of the Comprehensive Waiver program.
CSFP Food Inventory	The Department of Health and Senior Services - Bureau of Community Food & Nutrition Assistance (BCFNA) did not establish adequate controls to ensure compliance with federal requirements regarding accountability of USDA-donated foods distributed through the Commodity Supplemental Food Program (CSFP). The BCFNA did not perform annual inventories of food bank storage facilities.
DPS-OTAG Cooperative Agreement Final Accounting	The Department of Public Safety - Office of the Adjutant General (DPS-OTAG) does not have adequate controls and procedures to ensure a final accounting and/or a written request(s) for extension is filed for each National Guard Military O&M Projects program cooperative agreement appendix as required.

Because of the nature of this audit, no rating is provided.

State of Missouri - Single Audit

Introduction and Summary

Year Ended June 30, 2020

Introduction

The United States Congress passed the Single Audit Act Amendments of 1996 to establish uniform requirements for audits of federal awards. The Office of Management and Budget (OMB) issued Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) to set forth uniform cost principles and audit requirements for federal awards to nonfederal entities and administrative requirements for all federal grants and cooperative agreements.

A single audit under the Uniform Guidance requires an audit of the state's financial statements and expenditures of federal awards. The audit is required to determine whether:

- The state's basic financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles.
- The schedule of expenditures of federal awards is stated fairly in all material respects in relation to the financial statements as a whole.
- The state has adequate internal controls to ensure compliance with federal award requirements.
- The state has complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs.
- The summary schedule of prior audit findings prepared by the state materially represents the status of the prior audit findings.

The Single Audit report includes the federal awards expended by all state agencies and offices that are part of the primary government. The report does not include the public universities and other component units, which are legally separate from the state and audited by other auditors. The state expended approximately \$17.1 billion in federal awards during the state fiscal year ended June 30, 2020.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2020

Summary of Single Audit Results

Financial Statements

The following is the summary of our Single Audit results for the state fiscal year ended June 30, 2020.

We issued our audit report (Report No. 2021-006¹) of the state's Comprehensive Annual Financial Report (Annual Report), as of and for the year ended June 30, 2020, in February 2021. In addition, we issued our Comprehensive Annual Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2021-017²) in March 2021. In that report, we reported two findings related to internal control deficiencies. The agencies prepared a Corrective Action Plan (CAP) for each finding. The CAPs were submitted to the Office of Administration (OA) and are in the Corrective Action Plans section of this report. The state agencies prepared and submitted to the OA the status of the prior financial statement audit findings. They are presented in the Summary Schedule of Prior Audit Findings section of this report.

Federal Awards

We issued our report on the accompanying Schedule of Expenditures of Federal Awards (SEFA). The state's SEFA, which does not include federal award expenditures of the public universities and other component units, reported the state expended approximately \$17.1 billion in federal funds in state fiscal year 2020. Our report expressed the opinion that the SEFA is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We audited 15 major federal programs with expenditures totaling approximately \$12.6 billion, administered by 9 state agencies.

We issued a qualified opinion on 2 major federal programs and an unmodified opinion on 13 major federal programs. A qualified opinion is issued when the audit of a major federal program detects material noncompliance with direct and material compliance requirements. A qualified opinion was issued on the following major programs administered by the Department of Social Services:

Children's Health Insurance Program
Medicaid Cluster

In total, we reported 7 audit findings related to 5 major federal programs at 4 state agencies. We identified over \$190,000 in known questioned costs related

¹The Comprehensive Annual Financial Report is available online at:
<<https://oa.mo.gov/accounting/reports/annual-reports/comprehensive-annual-financial-reports>>.

²See report at <https://app.auditor.mo.gov/Repository/Press/2021017_8051878923.pdf>.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2020

to federal awards. Of the 7 audit findings, 4 were repeated from prior Single Audits. These findings have been reported for 2 to 7 years.

Of the 7 federal award audit findings, 6 related to internal control deficiencies. We consider 2 findings of internal control deficiencies to be material weaknesses and 3 to be significant deficiencies.

The state agencies' responses to the audit findings are included in this report. The state agencies prepared a CAP for each audit finding and submitted them to the OA. They are presented in the Corrective Action Plans section of this report.

In addition, the state agencies prepared and submitted to the OA the status of the prior audit findings. They are presented in the Summary Schedule of Prior Audit Findings section of this report.

Expenditures of federal awards increased significantly in state fiscal year 2020. The increase was primarily due to the additional federal funding made available to Missouri state agencies to help pay for the state's emergency response to the Coronavirus Disease 2019 (COVID-19).

**Total Expenditures of Federal Awards
5 Year Comparison**

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2020

Of the 20 state agencies and offices that expended federal awards, 6 agencies and offices spent the majority of the awards (96 percent) during state fiscal year 2020.

Expenditures of Federal Awards by State Agency

The state expended federal awards received from 24 federal agencies. Most of the federal award expenditures (97 percent) were from programs of 6 federal agencies.

Expenditures of Federal Awards by Federal Agency

Overall, the state expended federal awards in 308 programs. These programs are listed in the accompanying Schedule of Expenditures of Federal Awards.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2020

The Uniform Guidance requires federal programs to be labeled Type A programs or Type B programs based on a dollar threshold. For the state of Missouri, the Uniform Guidance defines the dollar threshold as \$30 million since the federal award expenditures exceeded \$10 billion, but were less than or equal to \$20 billion.

Programs with federal award expenditures over \$30 million are Type A programs and programs with federal award expenditures under \$30 million are Type B programs. Of the 308 federal award programs, 31 were Type A programs and 277 were Type B programs.

**Type A and Type B Programs
Number of Programs**

■ Type A Programs ■ Type B Programs

The 31 Type A programs had expenditures totaling approximately \$16.4 billion, or 96 percent of total expenditures. The 277 Type B programs had expenditures totaling approximately \$649 million, or 4 percent of total expenditures.

**Type A and Type B Programs
Expenditures of Federal Awards**

■ Type A Programs ■ Type B Programs

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2020

The Uniform Guidance requires the auditor to perform risk assessments on Type A programs and to audit as major each Type A program assessed as high risk based on specified risk factors. We performed a risk assessment on each Type A program and determined 17 of the 31 Type A programs were low risk and did not need to be audited as major. In accordance with the Uniform Guidance, we audited as major the 14 Type A programs assessed as high risk.

The Uniform Guidance also requires the auditor to perform risk assessments on larger Type B programs to determine which are high risk and need to be audited as major. The dollar threshold to determine the larger Type B programs is 25 percent of the Type A threshold, or \$7.5 million. We performed risk assessments on the 24 larger Type B programs and determined 1 program was high risk. In accordance with the Uniform Guidance, we audited the program as major.

The programs audited as major are listed in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. We audited 74 percent of total state fiscal year 2020 federal expenditures.

NICOLE GALLOWAY, CPA

Missouri State Auditor

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Honorable Michael L. Parson, Governor
and
Members of the General Assembly

Report on Compliance for Each Major Federal Program

We have audited the state of Missouri's compliance with the types of compliance requirements described in the Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the state's major federal programs for the year ended June 30, 2020. The state of Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

The state of Missouri's basic financial statements include the operations of the public universities and other component units, which expended federal awards, and which are not included in the state's Schedule of Expenditures of Federal Awards during the year ended June 30, 2020. Our audit, described below, did not include the operations of these component units because the component units engaged other auditors to perform an audit of compliance, if required.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the state of Missouri's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the state's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of the state's compliance.

Basis for Qualified Opinion on Certain Major Federal Programs

As described in the accompanying Schedule of Findings and Questioned Costs, the state of Missouri did not comply with requirements regarding the following:

Finding Number	CFDA Number(s)	Program (or Cluster) Name	Compliance Requirement(s)
2020-001	93.775 93.777 93.778	Medicaid Cluster	Special Tests and Provisions
2020-002	93.767 93.775 93.777 93.778	Children's Health Insurance Program and Medicaid Cluster	Special Tests and Provisions

Compliance with such requirements is necessary, in our opinion, for the state of Missouri to comply with the requirements applicable to those programs.

Qualified Opinion on Certain Major Federal Programs

In our opinion, except for the noncompliance described in the "Basis for Qualified Opinion" paragraph, the state of Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Children's Health Insurance Program and the Medicaid Cluster for the year ended June 30, 2020.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the state of Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2020-003, 2020-004, 2020-005, 2020-006, and 2020-007. Our opinion on each major federal program is not modified with respect to these matters.

The state of Missouri's responses to and corrective action plans for the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and Corrective Action Plans. The state's responses and corrective action plans were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Report on Internal Control Over Compliance

Management of the state of Missouri is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the state's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the state's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2020-001 and 2020-002 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2020-003, 2020-006, and 2020-007 to be significant deficiencies.

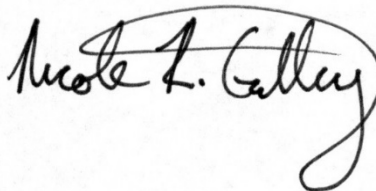

The state of Missouri's responses to and corrective action plans for the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and Corrective Action Plans. The state's responses and corrective action plans were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2020, and the related notes to financial statements, which collectively comprise the state's basic financial statements. We issued our report thereon dated February 25, 2021, which contained qualified opinions on the governmental activities and the General Fund, a major fund, and unmodified opinions on all remaining opinion units.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state of Missouri's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

State of Missouri - Single Audit

Notes to the Schedule of Expenditures of Federal Awards

Year Ended June 30, 2020

1. Significant Accounting Policies

The following is a summary of the significant accounting policies used by the State of Missouri.

A. *Purpose of Schedule and Reporting Entity*

The accompanying Schedule of Expenditures of Federal Awards (Schedule) of the State of Missouri is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), the U.S. Office of Management and Budget (OMB) 2020 Compliance Supplement, and the 2020 Compliance Supplement Addendum. The Schedule is not a required part of the State's basic financial statements. The Uniform Guidance requires a schedule that shows total federal awards expended for each federal financial assistance program, the Catalog of Federal Domestic Assistance (CFDA) number, and the total amount provided to subrecipients from each federal program. Federal financial assistance programs that have not been assigned a CFDA number are identified as CFDA Number XX.Uxx, where XX represents the federal grantor agency and Uxx represents an unknown extension number. Appendix VII of the supplement states that expenditures of federal awards made under the Coronavirus Preparedness and Response Supplemental Appropriations Act, the Families First Coronavirus Response Act, the Coronavirus Aid, Relief and Economic Security Act (CARES Act), and the Paycheck Protection Program and Health Care Enhancement Act should be identified separately on the schedule with the inclusion of the prefix "COVID-19-" in the name of the federal program.

The Schedule includes all federal awards expended by the State during the year ended June 30, 2020, except for those programs administered by public universities and other component units, which are legally separate from the State. They are responsible for engaging other auditors to perform audits in accordance with the Uniform Guidance, if required.

To compile the Schedule, the Office of Administration required each department, agency, and office that expended direct and/or indirect federal funding during the state fiscal year to prepare a schedule of expenditures of federal awards. The schedules for the departments, agencies, and offices were combined to form the Schedule of Expenditures of Federal Awards for the State of Missouri.

B. *Basis of Presentation*

The accompanying Schedule includes the federal award activity of the State of Missouri for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance, which defines federal awards as federal financial assistance and cost-reimbursement contracts that non-federal entities receive or administer in the form of grants, loans, loan guarantees, non-cash assistance, property (including donated surplus property), cooperative agreements, interest

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2020

subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include other contracts that a federal agency uses to buy goods or services from a contractor. Because the Schedule presents only a selected portion of the operations of the State, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the State.

C. Basis of Accounting

Most expenditures presented in the Schedule are reported on the cash basis of accounting, while some are presented on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in Office of Management and Budget Circular A-87, *Cost Principles for State, Local, or Indian Tribal Governments*; or the cost principles contained in the Uniform Guidance; wherein certain types of expenditures are not allowable or are limited as to reimbursement.

D. Indirect Cost Rate

The state agencies administering the federal programs presented in the Schedule did not elect to use the de minimis cost rate per the Uniform Guidance.

2. Unemployment Insurance Expenditures

The Unemployment Insurance program (CFDA No. 17.225) is administered by the Department of Labor and Industrial Relations through a unique federal-state partnership that was founded upon federal law but implemented through state law. Benefits are paid from federal funds and state unemployment taxes that are deposited into the state's account in the Federal Unemployment Trust Fund. The state's administrative expenditures incurred under this program are funded by federal grants. For the purposes of presenting the expenditures of this program in the Schedule, both state and federal funds have been considered federal awards expended. The breakdown of the state and federal portions of the total program expenditures for the fiscal year ended June 30, 2020, is as follows:

State Portion (Benefits Paid)	\$ 837,820,563
Federal Portion (Benefits Paid)	1,600,457
Federal Portion (Administrative Costs)	38,779,165
Federal Portion (Benefits Paid) - CARES Act Related	2,299,396,130
Federal Portion (Employer Reimbursements) - CARES Act Related	178,010
Federal Portion (Administrative Costs) - CARES Act and Families First Coronavirus Response Act Related	2,320,674
Total Program Expenditures	\$ 3,180,094,999

3. Special Supplemental Nutrition Program for Women, Infants and Children (WIC) Rebates

The State received cash rebates from an infant formula manufacturer totaling \$31,708,650 on sales of formula to participants in the WIC program (CFDA No. 10.557) administered by the Department of Health and Senior Services (DHSS). This amount was excluded from total program expenditures. Rebate contracts with infant formula manufacturers are authorized by 7 CFR Section 246.16a as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food benefit costs. The state was able to extend program benefits to more persons than could have been served this fiscal year in the absence of the rebate contract.

4. Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) Prescription Drug Rebates

The state received cash rebates from drug manufacturers totaling \$537,961,338 (federal share) on purchases of covered outpatient drugs for participants in the Medicaid and the CHIP (CFDA Nos. 93.778 and 93.767) administered by the Department of Social Services - MO HealthNet Division. This amount was excluded from total program expenditures. Rebate contracts with drug manufacturers are authorized by 42 USC Section 1396r-8 as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for medical assistance costs.

5. HIV Care Formula Grants Prescription Drug Rebates

The State received cash rebates from drug manufacturers totaling \$59,661,184 on purchases of covered drugs for participants in the HIV Care Formula Grants program (CFDA No. 93.917) administered by the DHSS. If program expenditures are available the rebates will offset the program expenditures resulting in a reduction in expenditures incurred by the program. Of the amount of rebates received, \$52,870,285 reduced total program expenditures and these expenditures were not reported on the SEFA. The remaining rebates of \$6,790,899 did not offset program expenditures and were not used to reduce program expenditures. The allowable use of drug rebates is restricted by 42 USC Section 300ff-26(g).

6. Federal Loan Guarantees

Because of the Healthcare and Education Affordability Reconciliation Act enacted March 30, 2010 (Public Law 111-152), the authority to make or ensure loans under the Federal Family Education Loans program (CFDA No. 84.032) ended June 30, 2010. The Department of Higher Education and Workforce Development (DHEWD) will continue to act as the federal Department of Education's agent in fulfilling the responsibilities related to the outstanding guarantees. The original principal outstanding of all loans

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2020

guaranteed by the DHEWD is \$897,617,247 as of June 30, 2020. The balance of defaulted loans (including principal and accrued interest) that the federal Department of Education imposes continuing compliance requirements of the DHEWD is \$186,879,720 as of June 30, 2020.

7. Non-cash Assistance

The Schedule contains values for non-cash assistance for several programs.

Supplemental Nutrition Assistance Program (CDFA No. 10.551) expenditures totaling \$1,252,185,325 represent actual disbursements for client purchases of authorized food products through the use of the electronic benefits card program administered by the Department of Social Services - Family Support Division (DSS-FSD).

The Department of Elementary and Secondary Education distributes food commodities to school districts under the National School Lunch Program (CFDA No. 10.555). Distributions are valued at the cost of the food paid by the federal government and totaled \$30,179,094.

The DSS-FSD, through the Summer Food Service Program for Children (CFDA No. 10.559), provides United States Department of Agriculture (USDA)-donated foods to providers who serve free healthy meals to children and teens in low-income areas during the summer months when school is not in session. The DSS-FSD, through the Emergency Food Assistance Program (Food Commodities) (CFDA No. 10.569), provides USDA-donated foods for disaster relief and to six non-profit food banks for distribution to food pantries and community groups for feeding those in need. Distributions are valued at the federally assigned value of the product distributed and totaled \$90,052 for the Summer Food Service Program for Children and \$11,718,250 for the Emergency Food Assistance Program and \$22,471,390 for Trade Mitigation.

The DHSS distributes food commodities to low-income persons under the Commodity Supplemental Food Program (CFDA No. 10.565). Distributions are valued at the cost of the food paid by the federal government and totaled \$8,389,338.

The Department of Public Safety distributes excess federal Department of Defense (DOD) equipment to state and local law enforcement agencies under the DOD Excess Property Program (CFDA No. 12.U01). Property distributions totaled \$3,567,163 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 23.34 percent of the historical cost, or \$832,576.

The State Agency for Surplus Property distributes federal surplus property to eligible donees under the Donation of Federal Surplus Personal Property

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2020

program (CFDA No. 39.003). Property distributions totaled \$6,842,833 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 23.34 percent of the historical cost, or \$1,597,117.

The DHSS distributes vaccines to local health agencies and other health care professionals under the Immunization Cooperative Agreements program (CFDA No. 93.268). Distributions are valued at the cost of the vaccines paid by the federal government and totaled \$65,533,541.

The DHSS received donated equipment/supplies from Heart to Heart International, Inc. for activities related to the Centers for Disease Control (CDC) Opioid Crisis Grant Project under the Activities to Support State, Tribal, Local and Territorial (STLT) Health Department Response to Public Health or Healthcare Crises program (CFDA No. 93.391). Donated items are valued at the cost of the equipment purchased with funding from grant number 1 NU1ROT000013-01-00 from the Federal Department of Health and Human Services and totaled \$11,000.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

Section II - Financial Statement Findings

The findings related to the financial statement audit are reported in the Comprehensive Annual Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2021-017³) issued in March 2021. That report included the following findings:

FS2020-001. Department of Revenue Financial Reporting Controls

FS2020-002. Department of Social Services Financial Reporting Controls

³See report at <https://app.auditor.mo.gov/Repository/Press/2021017_8051878923.pdf>.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

Section III - Federal Award Findings and Questioned Costs

2020-001. Medicaid Nursing Facility Cost Report Audits

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.778 Medical Assistance Program 2019 - 1905MO5MAP and 1905MO5ADM 2020 - 2005MO5MAP and 2005MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance

As noted in our previous audit,⁴ the MHD did not ensure periodic audits of cost reports or other financial information of nursing facilities participating in the Medical Assistance Program (Medicaid) were conducted as required. During the year ended June 30, 2020, the MHD made payments totaling approximately \$1.2 billion to over 500 nursing facility providers on behalf of Medicaid recipients.

In the Missouri Medicaid State Plan (State Plan), the DSS provided assurances and outlined procedures designed to collect and audit uniform cost reports from the nursing facilities. State Plan Attachment 4-19-D, Findings and Assurances, states the MHD requires the filing of uniform cost reports by each participating provider and provides for periodic audits of financial and statistical records of the providers. Cost reports serve as the primary method for nursing facilities to provide financial information to the MHD.

According to MHD records, no nursing facility cost report audits were completed during the year ended June 30, 2020. Our previous audit noted only a few cost report audits were completed in recent years. MHD officials indicated the department outsourced the collection and audits of nursing facility cost report data in May 2019; however, as of June 30, 2020, the contractor was still developing the necessary mechanisms and procedures to perform the audits and had not completed any audits. In addition, the MHD has not developed procedures to monitor and ensure the contractor collects and audits the nursing facility cost reports in accordance with the State Plan.

The DSS Corrective Action Plan (CAP) and Summary Schedule of Prior Audit Findings for prior audit finding number 2019-006 asserts the State Plan Attachment 4-19-D, Findings and Assurances, is not part of the State Plan because the federal legislation that previously required the filing of cost reports and audits was repealed in 1997. However, this attachment is included in the State Plan document and 42 CFR Section 430.12(c)(1)(i) requires the

⁴See single audit report at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding number 2019-006.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

State Plan to be amended whenever necessary to reflect changes in federal law, regulations, policy interpretations, or court decisions. The DSS Summary Schedule of Prior Audit Findings further states the DSS would submit a State Plan Amendment by the end of October 2020. However, the state plan amendment, submitted in December 2020, included no revisions or modifications to the Findings and Assurances attachment.

To ensure compliance with the State Plan, the MHD should establish internal controls over required cost report audits. When providers do not have periodic audits, there is an increased risk the submitted cost reports are not accurate and complete. Rule 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." In addition, 2 CFR Section 200.318(b) requires non-federal entities to "maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders."

Recommendation

The DSS through the MHD develop and implement procedures to monitor and ensure the contractor completes periodic audits of cost reports of nursing facilities in accordance with the State Plan.

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The DSS CAP states the DSS disagrees that a plan for periodic audits and procedures, as well as a plan for monitoring the contractor, had not been developed. However, as discussed with DSS officials, the finding does not state a plan for periodic audits and procedures had not been developed. In fact, the finding outlines key components of the department's plan, including outsourcing of the audits to a contractor and the contractor's development of mechanisms and procedures to perform the audits. The finding states the MHD has not developed procedures to monitor and ensure the contractor performs the cost report audits as required. The DSS CAP states since the DSS worked with the contractor through development and implementation of the plan, including review and approval of various processes and documents, the DSS has monitored the contractor. While such monitoring is necessary during the development phase, it is also critical that the DSS establish procedures to monitor the contractor's performance.

As described in the finding, the DSS CAP outlines the department's disagreement that the State Plan Attachment 4-19-D, Findings and Assurances is part of the approved State Plan. The CAP also states the DHHS - Centers for Medicare and Medicaid Services (CMS) has indicated the

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

Findings and Assurances section is not part of the State Plan; however, DSS officials could not provide documentation from the DHHS-CMS supporting this statement.

Because the DSS failed to comply with the State Plan requirement regarding nursing facility cost report audits during the year ended June 30, 2020, the finding is valid.

2020-002.
Medicaid National Correct
Coding Initiative

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.767 Children's Health Insurance Program 2019 - 1905MO5021 2020 - 2005MO5021 93.778 Medical Assistance Program 2019 - 1905MO5MAP and 1905MO5ADM 2020 - 2005MO5MAP and 2005MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance

The MHD has not fully implemented the Medicaid National Correct Coding Initiative (NCCI) edits in the Medicaid Management Information System (MMIS) as required. In addition, the MHD did not ensure confidentiality agreements containing required elements to protect the confidentiality of the edit files were in place with the MMIS contractor. During the year ended June 30, 2020, the MHD made Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) payments, subject to NCCI edits and confidentiality agreements, totaling approximately \$8 billion.

The DSS contracts for the operation and maintenance of the MMIS. Medical providers submit fee-for-service claims for services provided to Medicaid and CHIP participants in the MMIS, and payments are made through the MMIS. To help ensure only allowable claims are paid, system edit checks flag and/or deny payment on suspicious or unusual claims. Title 42 USC 1396b(r) requires the MHD to completely and correctly implement specific NCCI methodologies and edits into the MMIS. The purpose of the NCCI is to promote correct coding, prevent coding errors, prevent coding manipulation, and reduce improper payments. The DHHS - Centers for Medicare and Medicaid Services (CMS) published the Medicaid NCCI Policy Manual and the Medicaid NCCI Technical Guidance Manual to provide specific requirements and assist state Medicaid agencies to implement the NCCI methodologies.

The two NCCI edit categories are Procedure-to-Procedure (PTP) edits that are designed to identify pairs of procedure codes that should not be reported together; and Medically Unlikely Edits (MUE) that limit the number of units

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

of service allowed for certain services and items. The DHHS-CMS provides PTP and MUE edit files to the MHD quarterly. Each quarterly edit file contains all current edits and replaces the previously provided edit file. Section 7 of the Medicaid NCCI Technical Guidance Manual requires the MHD to implement the edit files into the MMIS on the first day of each quarter. If the applicable edit files are not implemented by the first day of the second month of the quarter, the MHD is required to reprocess any claims processed with outdated edits once the updates are implemented.

Section 7 of the Medicaid NCCI Technical Guidance Manual limits access to the NCCI edit files to the MHD and allows the MHD to share the edit files with the MMIS contractor only if appropriate confidentiality agreements are in place. The manual requires that confidentiality agreements include the following elements to protect the confidentiality of the edit files: (1) limit disclosure to only those responsible for the implementation, (2) prohibit disclosure of confidential information to the public, (3) limit contractors' use of confidential information to implementation of the NCCI methodologies, (4) prohibit public disclosure of new, revised or deleted Medicaid NCCI edits prior to disclosure on the Medicaid NCCI webpage, (5) restrict implementation of new, revised, or deleted Medicaid NCCI edits prior to the first day of the calendar quarter, (6) restrict release of additional information for selected individual edits or limited ranges of edits to the discretion of the state Medicaid agency and, (7) impose penalties, up to and including the loss of contract, for violations of any confidentiality agreement relating to the use of the edit files.

NCCI edit files

The MHD has not fully implemented NCCI edit files in the MMIS as required.

Rather than quarterly implementation, the MHD through the MMIS contractor, implements the PTP edit files annually; and the MHD does not reprocess claims upon implementation of the edits. For example, the MMIS contractor implemented the PTP edit file for the quarter ended March 31, 2020, on January 29, 2020; and the MHD did not reprocess claims paid for the quarters ended June 30, 2019, September 30, 2019, and December 31, 2019, with the updated edits. MHD officials indicated the edit files are not implemented quarterly because the MMIS contract includes only a limited number of programming hours dedicated to mandated system changes and the contract is subject to state appropriations.

The MHD has not implemented any of the MUE edit files received. MHD officials indicated they believe implementation of the MUE edit files is not necessary because the MMIS includes edits for state-specific maximum quantities for each procedure code. However, the state-specific edits cannot replace the MUE edits because the state-specific edits could be more or less restrictive than the MUE edits.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

Confidentiality
agreements

The MHD did not ensure confidentiality agreements containing required elements were in place to protect the confidentiality of the edit files. The confidentiality agreements signed by the MMIS contractor and its employees did not include any of the seven elements required by the Medicaid NCCI Technical Guidance Manual.

Conclusion

In addition to noncompliance with 42 USC 1396b(r), the failure to fully implement the NCCI edits and reprocess claims paid with incorrect edits increases the risk that coding errors or irregularities will go undetected, and improper payments will be made. Also, without including the required elements in confidentiality agreements signed by the MMIS contractor and its employees, there is an increased risk of improper implementation, disclosure, and/or misuse of confidential NCCI information.

To ensure compliance with the NCCI requirements, the MHD should establish internal controls over NCCI edits. Rule 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD strengthen controls over the NCCI requirements to ensure NCCI edits are fully implemented and reprocess claims paid when edits are not implemented timely, as required. In addition, the DSS should ensure confidentiality agreements contain all elements required by the Medicaid NCCI Technical Guidance Manual.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2020-003.

State Agency:	Department of Social Services (DSS) - MO
	HealthNet Division (MHD) and Family Support
	Division (FSD)
Type of Finding:	Internal Control (Significant Deficiency) and
	Noncompliance
Questioned Costs:	\$1,928

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

As noted in our previous audit,⁵ the DSS did not have sufficient controls to ensure compliance with the eligibility redetermination requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI), prior to suspension of the requirements in March 2020. Of the approximately 989,000 Medicaid and CHIP participants as of June 30, 2020, approximately 654,000 (66 percent) were MAGI-based participants.

To ensure MAGI-based participants continue to be eligible for benefits, 42 CFR Section 435.916 requires a redetermination of eligibility once every 12 months, or when circumstances affecting a participant's eligibility change. The regulation requires termination of benefits when a participant no longer meets eligibility requirements. On March 19, 2020, the eligibility redetermination and most termination requirements were temporarily suspended in response to the COVID-19 public health emergency and the suspension remained in effect through the end of the audit period. All validly enrolled participants on March 19, 2020, remained continuously enrolled except for participants who requested removal, relocated to another state, or died.

The Medicaid Eligibility Determination and Enrollment System (MEDES), implemented in January 2014, tracks eligibility information for MAGI-based participants, including redetermination due dates; and in some cases, performs redeterminations. Other redeterminations are performed manually by FSD eligibility specialists. Eligibility information is transferred from the MEDES into the Medicaid Management Information System (MMIS), the Medicaid claims payment system, nightly. MEDES operations have been problematic since implementation and manual overrides to individual cases to compensate for system errors and limitations were not identified and corrected after the system errors and limitations were resolved.

To test compliance with eligibility requirements in effect prior to suspension of certain requirements, we reviewed eligibility documentation for 60 MAGI-based participants enrolled during the period July 2019 to February 2020, of which 54 participants required a redetermination during that period. We identified 1 participant (2 percent) for which the DSS did not perform an eligibility redetermination as required. The participant was last determined eligible in September 2018, and a redetermination was required in September 2019. DSS officials indicated the redetermination was not performed due to system limitations. DSS officials explained there was a period of time when the MEDES was incorrectly closing some eligible cases before a

⁵See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding number 2019-005.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

redetermination could be performed. To prevent affected cases from being closed, DSS personnel manually override system controls. However, once these system limitations were corrected in June 2017, the DSS did not remove the previously-established system overrides, which prevented the system from identifying the cases as needing redeterminations. The participant became ineligible in January 2019 when he moved out of state. The DSS was notified of the move, but the DSS failed to terminate his benefits and close the case. Because the DSS did not perform an eligibility redetermination when required, the DSS did not identify the participant as ineligible. Medicaid capitation payments made during the year ended June 30, 2020, on behalf of the ineligible participant, totaled \$2,803. We question the federal share, or \$1,928 (68.78 percent).

The failure to implement adequate internal controls to ensure annual eligibility redeterminations are performed as required can result in Medicaid and CHIP payments being made on behalf of ineligible individuals, which are unallowable costs of the federal programs. Rule 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Managed Care Program
audit

In an audit of the DSS Managed Care Program (State Auditor's Office Report No. 2020-088,⁶ issued in November 2020), we similarly disclosed significant internal control deficiencies related to MEDES limitations and weaknesses, and resulting noncompliance. Details of the findings, identified improper payments, and recommendations are included in that report.

Recommendation

The DSS through the MHD and the FSD strengthen internal controls over MAGI-based participant eligibility to ensure eligibility redeterminations are completed as required, once the COVID-19 public health emergency has expired and the suspended requirements are reinstated. In addition, the DSS should review and correct the eligibility and payments for the ineligible participant identified in this finding.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

⁶See report at <https://app.auditor.mo.gov/Repository/Press/2020088_7166367580.pdf>.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

State Agency:	Department of Social Services (DSS) - Children's Division (CD) and Division of Finance and Administrative Services (DFAS)
Type of Finding:	Internal Control (Deficiency) and Noncompliance
Questioned Costs:	\$14,465

As similarly noted in our 6 previous audits⁷ of the Adoption Assistance program, the DSS made payments on behalf of ineligible children and did not have sufficient controls to prevent and/or detect certain unallowable payments. From the Adoption Assistance program, the CD made payments on behalf of 5 ineligible children with backdated subsidy agreements, and made an unallowable payment for an additional child. During the year ended June 30, 2020, the CD paid Adoption Assistance program benefits totaling about \$60 million for approximately 14,000 children.

The Adoption Assistance program assists families in adopting eligible children with special needs by providing subsidy payments to adoptive parents. To be eligible to receive benefits under the program, eligibility requirements outlined at 42 USC Section 673 must be met. Among other things, the DSS is required to enter into adoption subsidy agreements with adoptive parents who receive subsidy payments on behalf of the child. The nature of services to be provided and nonrecurring expenses to be paid must be stated in the subsidy agreement as required by 45 CFR Section 1356.40 and 45 CFR Section 1356.41. Subsidized costs may include maintenance, child care, and nonrecurring adoption expenses.

The subsidy agreement must be signed and in effect prior to or at the time of the final adoption decree per federal regulations and DSS policy. The DSS Child Welfare Manual Adoption Subsidy policy requires subsidy agreements be signed by both the adoptive parent(s) and the DFAS Director to be considered in effect. Subsidy agreements are established by case workers and reviewed by supervisors in the local offices. After the subsidy agreements are signed by the adoptive parent(s) and reviewed and approved by local office supervisors, the agreements are sent to the Central Office Procurement Unit (formerly the Contract Management Unit (CMU)) where the DFAS Director's (previously the CD Director's) signature is applied by Procurement Unit staff.

In previous years, the Director's signature was applied with a signature stamp but is now applied as an electronic signature.

To test compliance with these requirements, we reviewed eligibility and payment documentation for 60 children receiving Adoption Assistance.

⁷See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2019-001, 2018-004, 2015-005, 2014-008, 2011-15, and 2009-14.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

Assistance payments totaling approximately \$264,900 were made on behalf of these children during the year ended June 30, 2020. We identified payments made on behalf of 5 children ineligible for Adoption Assistance benefits and an unallowable payment for 1 other child.

Backdated subsidy
agreements

For 5 cases with subsidy agreements prior to May 2008, the DSS did not maintain adequate documentation to support that the subsidy agreements were signed and in effect prior to or at the date of adoption because the CD Director's signature date was backdated.

For 4 of these cases, the date of the CD Director's signature precedes the adoptive parent(s)' signature date(s); and for 1 case, the date of the CD Director's signature precedes that of the Children's Services Worker, Circuit Manager, and Regional Director; indicating the CD Director's signature (and thus, the effective date of the agreement) was backdated. Although all signature dates were before the adoption date for each of these cases, because the CD Director's signature was backdated, we could not determine whether the subsidy agreement was signed and in effect prior to the adoption decree. CD officials indicated DSS policy prior to May 2008 allowed backdating of subsidy agreements by CMU personnel, and they backdated the agreements because of a backlog in processing and submitting them to the CMU. During the year ended June 30, 2020, payments totaling \$20,540 were made on behalf of these 5 children, for which there is not adequate documentation to support that the subsidy agreements were signed and in effect prior to or at the date of the adoption decree. We question the federal share, or \$14,087 (approximately 69 percent). Payments for these 5 children were charged to the Adoption Assistance program from July 2003 to June 2020.

In May 2008, the CD issued a policy memo prohibiting backdating of subsidy agreements. The subsidy agreements for all 5 cases were established prior to this directive. DHHS - Administration for Children and Families (ACF) decision letters regarding prior audit findings have required the DSS to pay back the costs associated with backdated subsidy agreements identified in the audits. Although it is likely additional children adopted prior to May 2008 are ineligible due to backdated subsidy agreements, recent decision letters stated the ACF does not expect the CD to identify and resolve the backdated subsidy agreements.

Unallowable assistance
payment

For 1 case, an unallowable assistance payment was claimed for an eligible child. For the month the child was adopted, November 2019, the CD paid and claimed both an Alternative Care payment of \$576 and an Adoption Assistance payment of \$622. We question the federal share, or \$378 (approximately 66 percent), for the unallowable Alternative Care payment.

The unallowable payment occurred because CD personnel did not follow policies and procedures related to children who have a change in placement,

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

such as moving from the Alternative Care program to the Adoption Assistance program. The Family and Children Electronic System Payment Handbook requires CD personnel to update the placement in the system immediately upon change, and to review pending payments the following day to identify and correct any pending overpayments. Since these procedures were not performed as required, the overpayment occurred without detection. Ensuring this policy is followed for changes in placement can prevent unallowable costs. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the CD and the DFAS enforce policies and procedures regarding Adoption Assistance payments. The DSS should review and correct the eligibility and payments for the children identified in this finding.

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The DSS Corrective Action Plan states the DSS agrees with correcting the payments for the ineligible children and unallowable payments identified in this finding. The DSS disagrees that policies and procedures regarding Adoption Assistance eligibility determinations need to be enforced because the DSS implemented processes in fiscal year 2008 prohibiting backdating of subsidy agreements and continues to provide training regarding dating of subsidy agreements and allowable costs. However, as noted in the finding, children with backdated subsidy agreements are not eligible for Adoption Assistance program benefits and similar errors of noncompliance will continue until all children with backdated subsidy agreements age out of the program. Therefore, this finding is valid.

**2020-005.
Medicaid Developmental
Disabilities
Comprehensive Waiver
Per Diem Rates**

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.778 Medical Assistance Program 2019-1905MO5MAP and 1905MO5ADM 2020-2005MO5MAP and 2005MO5ADM
State Agency:	Department of Mental Health (DMH) - Division of Developmental Disabilities (DD)
Type of Finding:	Noncompliance
Questioned Costs:	\$173,694

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

As noted in our prior 5 audit reports,⁸ the DD continued to pay historical per diem rates to providers for residential habilitation services provided to participants of the Home and Community Based Services (HCBS), Developmental Disabilities Comprehensive Waiver (Comprehensive Waiver) program, but did not retain adequate documentation to support these rates. As a result, the DD could not demonstrate some amounts paid were allowable costs of the Comprehensive Waiver program.

The DD with its six habilitation centers and five regional offices is responsible for the direct administration of various Medical Assistance Program (Medicaid)-funded HCBS programs for children and adults with disabilities, including the Comprehensive Waiver program. Various types of services are allowed under the waiver, including residential habilitation services provided to 1,638 participants in group homes and 5,460 participants served by individualized supported living (ISL) providers during the year ended June 30, 2020. Residential habilitation services include care, supervision, and skills training in activities of daily living, home management, and community integration. Providers are paid a per diem rate for each participant receiving these services, based on the individual's needs. Certain costs, such as room and board, are not allowed to be included in per diem rates under the waiver program. During the year ended June 30, 2020, per diem payments for group home services totaled approximately \$130 million, and per diem payments for ISL services totaled approximately \$660 million.

In October 2013, the DD began phasing in acuity-based per diem rates to replace historical rates for residential habilitation services, and renewed the Comprehensive Waiver in July 2016 to include the new rates. However, these acuity-based per diem rates were not fully phased in as of June 30, 2020. Payments at the historical per diem rates are expressed as a percentage of the acuity-based rates, but some of these rates exceed 100 percent of the acuity-based rates. For participants who received residential habilitation services during the year ended June 30, 2020, DD officials indicated the DMH paid acuity-based per diem rates for approximately 91 percent of the participants in group homes and approximately 59 percent of the participants in ISL placements, and historical per diem rates for the remaining 9 percent and 41 percent, respectively. DMH officials indicated the per diem rates for the remaining group homes are expected to be standardized when the Comprehensive Waiver is renewed in late 2021. A corrective action plan approved by the federal DHHS - Centers for Medicare and Medicaid Services

⁸See single audit reports at <<https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>>, finding numbers 2019-007, 2018-014, 2017-017, 2016-006, and 2015-015.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

(DHHS-CMS), Division of Medicaid Field Operations - North in June 2019, stated the rates for ISL providers are planned to be implemented by 2024.

To test compliance with various Comprehensive Waiver program requirements, we tested 60 payments to service providers during the year ended June 30, 2020. Of these 60 payments, 27 were to ISL providers, and 10 were to group homes for habilitation services. The DD did not retain documentation to support the per diem rate, paid at a historical rate exceeding acuity-based rates, for 1 of the 10 group home habilitation service payments tested. The DD retained the group home individual plan of care and cost of living allowance (COLA) notices supporting some per diem rate increases. However, these documents did not show how the rate was originally determined or what costs were included in the per diem rate. The remaining 27 ISL and 9 group home payments were based on acuity-based per diem rates or historical rates that were less than or equal to acuity-based rates. Payments to a provider for habilitation services provided to the 1 participant during the year ended June 30, 2020, for which the historical per diem rate was not supported and exceeded the acuity-based rate, totaled \$258,550. We question the federal share, or \$173,694 (67.18 percent).

Audits performed by the DHHS - Office of Inspector General (DHHS-OIG), *Missouri Claimed Unallowable and Unsupported Medicaid Payments for Group Home Habilitation Services*, released in August 2015, and *Missouri Claimed Unallowable and Unsupported Medicaid Payments for Individualized Supported Living Habilitation Services*, released in March 2016, noted similar concerns with unsupported per diem rates for some group home payments and noted some ISL payments included unapproved and unallowable costs.

Payments to providers for those participants that have not been transitioned from the historical per diem rates to the acuity-based per diem rates, and at rates that exceed 100 percent of the acuity-based rates, are not adequately supported and documented as required by federal regulations. Similar errors of noncompliance will likely continue until all participants are transitioned to the acuity-based rate model.

Without proper documentation of the payment rates, the DD cannot demonstrate that payments based on these rates are proper and only include allowable costs. Rule 42 CFR Section 447.203(a) states, "[t]he agency must maintain documentation of payment rates. . . ." Rule 2 CFR Section 200.403(g) states costs must be adequately documented to be allowable. Also, the approved DD Comprehensive Waiver Program Application, Appendix I: Financial Accountability, section I-2(e), states "[r]ecords documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of the waiver services for a minimum period of 3 years." Adequate

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

documentation of habilitation services per diem rates is necessary to ensure compliance with the federal requirements related to the Comprehensive Waiver program and to ensure only allowable costs are included in the per diem rates.

Recommendation

The DMH through the DD continue to transition all per diem rates paid to providers for residential habilitation services provided under the Comprehensive Waiver program from historical rates to acuity-based rates and ensure documentation to support per diem rates is maintained as required.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DMH Corrective Action Plan states the DMH disagrees with the finding because all existing rates are now a factor of a rate study, the rate study serves as the documentation for all residential rates paid, and any other forms of documentation are irrelevant. However, as stated in the finding, payments to providers for any participants at historical per diem rates that exceed 100 percent of amounts calculated using the rate study are not adequately supported and documented, as required by federal regulations. Therefore, this finding is valid. Similar errors of noncompliance will likely continue until all participants are at or below 100 percent of the amounts calculated using the approved rate methodology.

2020-006.
CSFP Food Inventory

Federal Agency:	United States Department of Agriculture (USDA)
Federal Program:	10.565 Commodity Supplemental Food Program 2019 - 19CSFP 2020 - 20CSFP
State Agency:	Department of Health and Senior Services (DHSS) - Bureau of Community Food & Nutrition Assistance (BCFNA)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance

The BCFNA did not establish adequate controls to ensure compliance with federal requirements regarding accountability of USDA-donated foods (USDA Foods) distributed through the Commodity Supplemental Food Program (CSFP). The BCFNA did not perform annual inventories of food bank storage facilities.

The DHSS contracts with 6 food banks to distribute USDA Foods to eligible low-income senior citizens. The food banks order food directly from the USDA, then distribute the food to food pantries. During the year ended June 30, 2020, the DHSS distributed USDA Foods valued at approximately \$8.4 million to the 6 food banks, through the CSFP.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

Rule 7 CFR Section 250.19(a) requires the maintenance of accurate and complete records with respect to the receipt, distribution/use, and inventory of USDA Foods; and provides the failure to maintain such records is considered prima facie evidence of improper distribution or loss of USDA Foods, and may result in a claim against the distributing agency for loss or misuse of USDA Foods. Rule 7 CFR Sections 247.28 and 250.12(b) require distributing agencies to conduct annual physical reviews of USDA Food inventories at all storage facilities, and reconcile physical and book inventories. The distributing agency must report donated food losses to the USDA - Food and Nutrition Service (FNS) and ensure restitution is made for such losses.

Each month, the food banks provide inventory information to the BCFNA including beginning inventory balances, units received, units disbursed, units disposed of, and ending inventory balances. BCFNA personnel reviewed this information, but did not perform physical inventories to verify the accuracy of the reported balances.

In addition to noncompliance with federal regulations, the failure to perform annual physical inventories, and reconcile the inventories to food bank inventory records, reduces the control and accountability over USDA Foods and increases the potential that loss, theft, or misuse will go undetected. Also, without effective internal controls over food bank inventories, the BCFNA cannot ensure complete and accurate inventory records are maintained. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DHSS through the BCFNA develop procedures to ensure annual physical inventories of USDA Foods at food bank storage facilities are performed, documented, and reconciled to food bank inventory records as required. In addition, discrepancies should be reported to the USDA-FNS as required.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

State Agency: Department of Public Safety (DPS) - Office of the
Adjutant General (OTAG)
Type of Finding: Internal Control (Significant Deficiency) and
Noncompliance

The DPS-OTAG does not have adequate controls and procedures to ensure a final accounting and/or a written request(s) for extension is filed for each National Guard Military O&M Projects program cooperative agreement (CA) appendix as required. The DPS-OTAG expended approximately \$52.4 million in National Guard Military O&M Projects program funds during the state fiscal year ended June 30, 2020.

The DOD - National Guard Bureau (NGB) entered into a master cooperative agreement (MCA) with the DPS-OTAG to provide support to the Army and Air National Guard in minor construction, maintenance, repair or operation of facilities, and mission operational support to be performed by the state. The MCA consists of the agreement and an appendix for each functional area.

National Guard Regulation (NGR) 5-1, Chapter 11-10, requires the DPS-OTAG to provide the United States Property and Fiscal Office (USPFO) a final accounting of all funding and disbursements under each CA appendix within 90 days of the end of the federal fiscal year, or upon termination of the CA appendix, whichever is earlier. If unliquidated claims and undisbursed obligations will remain outstanding for 90 days or more after the close of the federal fiscal year, the DPS-OTAG is required to submit a request for extension that includes a detailed listing of all uncleared obligations and a projected timetable for their liquidation and disbursement. Subsequent extension requests must be submitted every 90 days while there are unliquidated claims or undisbursed obligations. Costs not disclosed in the extension requests are not eligible for reimbursement by the NGB.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2020

The DPS-OTAG is responsible for ensuring final accounting and extension requests are filed; however, the DPS-OTAG has not established procedures to monitor and ensure these documents are filed timely, as required. Instead, DPS-OTAG personnel indicated they rely on federal employees (CA program managers and the Grants Officer Representative) to identify when the final accounting or a written request for an extension is required. Our review of 4 CA appendices requiring extension requests during the state fiscal year ended June 30, 2020, identified 1 CA appendix (25 percent) for which the OTAG had not submitted an extension request in accordance with National Guard regulations. For this CA appendix, an extension request was due on March 1, 2020, but was not submitted to the USPFO until March 31, 2020.

To ensure compliance with National Guard regulations, the DPS-OTAG should establish internal controls over final accounting and extension requests. The failure to submit final accounting and extension requests as required could result in ineligible reimbursements, and/or federal agency sanctions or disallowances. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DPS through the OTAG establish controls and procedures to ensure a final accounting of all funding and disbursements and/or a written request(s) for extension is filed for each CA appendix in compliance with National Guard regulations.

Auditee's Response

We agree with the auditor's finding. Our corrective action plan includes our planned actions to address the finding.

Additional State Auditor's Reports

The Missouri State Auditor's Office regularly issues audit reports on various programs, agencies, and divisions of the state of Missouri. Audit reports may include issues related to the administration of federal programs. We reviewed the audit reports issued from April 2020 to April 2021 and the following report relates to a federal program.

Report Number	Report Name
----------------------	--------------------

2020-088	Medicaid Managed Care Program
----------	-------------------------------

All reports are available on the Missouri State Auditor's Office website: <http://auditor.mo.gov>.

State of Missouri - Single Audit

Summary Schedule of Prior Audit Findings

Year Ended June 30, 2020

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The Uniform Guidance requires the auditor to follow up on prior audit findings; perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and report, as a current year audit finding, when the auditor concludes the schedule materially misrepresents the status of any prior audit finding.

Director

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The Schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The attached documents are the Summary Schedule of Prior Audit Findings for the year ended June 30, 2020, and includes all findings from the audit for the Fiscal Year ended June 30, 2019, and certain findings from the audits for the Fiscal Years ended June 30, 2018, 2017, 2016, 2015, 2014, 2013, 2012, 2011, and 2010.

These documents were prepared by the applicable State agencies as noted with each prior year finding.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

2019-001. Adoption Assistance Eligibility and Payments

Federal Agency: Department of Health and Human Services
Federal Program: 93.659 Adoption Assistance
State Agency: Department of Social Services (DSS) - Children's Division (CD) and Division of
Finance and Administrative Services (DFAS)
Questioned Costs: \$17,600 (2019)
Similar Finding: 2018-004

DSS controls over eligibility and assistance payments were not sufficient to prevent and/or detect payments made on behalf of ineligible children and unallowable assistance payments. An adoption subsidy agreement was not signed and in effect prior to or at the date of adoption; and for some cases, the CD Director's signature date or the subsidy agreement effective date was backdated. Criminal background check results were not received until after the date of the subsidy agreement and adoption decree for a case; and a state-only contract was incorrectly coded and claimed to the Adoption Assistance program. In addition, the CD made a regular maintenance payment twice, for the same month; and a Guardian Ad-Litem payment was inappropriately claimed.

Recommendation:

The DSS through the CD and the DFAS strengthen and enforce policies and procedures regarding Adoption Assistance eligibility determinations and assistance payments. These procedures should ensure all adoption subsidy agreements are signed and in effect prior to the adoption, criminal background checks are obtained for all prospective adoptive parents, and payments are allowable. The DSS should review and correct the eligibility and payments for the children identified in this finding.

Status of Findings:

The DSS has modified the contract language on the current and the prior subsidy contracts to indicate the Department approval signature is the Authorized Signature of the Department of Social Services. Additionally, DSS continues to provide training and assistance to staff regarding adoption assistance agreement requirements and quality assurance reviews to ensure agreements have proper signatures and effective dates. The DSS reviewed and corrected applicable child and eligibility determinations in FACES to ensure accuracy. There continues to be ongoing training with IV-E Benefit Program Specialists of allowable assistance payments in accordance with IV-E regulations. The unallowable assistance payments identified in the SFY2019 Adoption Assistance review have been corrected and recouped in the FACES system.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

2019-002. Department of Social Services Public Assistance Cost Allocation Plan

Federal Agency: Department of Health and Human Services
Federal Program: 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
93.563 Child Support Enforcement
93.659 Adoption Assistance
93.667 Social Services Block Grant
State Agency: Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS)
Similar Finding: 2018-005A

The DFAS did not have a documented system of internal controls to ensure the AlloCAP system provided for accurate, allowable, and proper allocations in accordance with the proposed public assistance cost allocation plan (PACAP). In addition, the DFAS did not implement procedures to document each change made to the proposed PACAP or the AlloCAP system or approval of the changes, and did not document procedures to test the changes for accuracy and consistency with the proposed PACAP.

Recommendation:

The DSS through the DFAS implement internal controls and procedures over the PACAP and the AlloCAP system to ensure costs charged to federal programs are accurate, allowable, properly allocated, and consistent with the proposed and/or approved PACAP. Internal controls should be adequately documented and monitored for compliance with applicable requirements. These controls should include sufficiently detailed policies and procedures; documentation of the reason, justification, and approvals of changes to the proposed PACAP and the AlloCAP system; documented testing of system changes; and a complete log of all changes.

Status of Findings:

DSS Response: The DSS firmly disagrees with this finding/recommendation.

Audit Requirements for Federal Awards are covered under 2 CFR 200. Under section 200.516 subpart 7, auditors are required to indicate whether an audit finding represents an isolated instance or a systematic problem. Instances identified must be related to the universe and the number of cases examined and be quantified in terms of dollar value. The auditor should report whether the sampling was a statistically valid sample.

As noted in the audit finding, the sample selected included 17 cost centers allocated during the quarter ending June 30, 2019 and for every cost center examined, it was determined all costs were supported and allocated in accordance with the proposed Public Assistance Cost Allocation Plan (PACAP). No deviations were found in the tested sample to support that the DSS did not effectively design, implement, or put controls in place to prevent detection of non-compliance. In the prior year audit the sample selected included 14 cost centers allocated during the quarter ending March 31, 2018 and for every cost center examined, it was determined all costs were supported and allocated properly as well. Thus DSS has demonstrated consistently the system in place produces accurate results.

DSS offered additional cost pools for sampling; however the SAO audit crew conveyed, as those programs were not in the scope of the SWSA, a sample from grants outside of the scope would not be taken and reviewed.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

Since results of the tested sample supports the Department's position, the DSS has provided sufficient evidence to demonstrate internal controls and procedures to ensure costs charged to federal programs are accurate, allowable, and properly allocated. Therefore DSS disagrees with the finding as 100% of the sample taken was accurate and compliant with federal requirements. Additionally DSS further disagrees with the finding as it is based on grants not sampled in this audit.

Effective October 1, 2017, the DSS transitioned from utilizing an indirect cost rate methodology allocated manually on a spreadsheet to implementing a PACAP to directly allocate through cost pools which is allocated systematically in a proprietary cost allocation system. Implementation of a thoroughly documented PACAP coupled with the AlloCAP system supports that DSS has strengthened internal controls and procedures. Cost Allocation Services (CAS) requires DSS to document quarterly changes in a specific format, consisting of submission of summary of changes in Section III of the PACAP as well as submitting the PACAP in track change format from the previous version. DSS has been in compliance with this requirement each quarter, which was demonstrated through the documentation provided to the SAO audit crew. Additionally, the DSS has provided documented evidence to support the internal controls and procedures over PACAP and AlloCAP which includes but is not limited to: (1) the Chief Financial Officer and the Assistant Chief Financial Officer sign the internal approval sheet of PACAP changes prior to submission and the Chief Financial Officer signs each formal PACAP submission; (2) the Cost Allocation Manager submits PACAP narrative and a summary of quarterly changes to the Grants Unit to assist the Grants Unit in ensuring that AlloCAP matches the PACAP narrative exactly; (3) the AlloCAP manual outlines procedures for the quarterly cost allocation process; (4) the AlloCAP quarterly preparation is documented on grant approval tracking sheets with signatures from the Grants Unit Manager, Assistant Chief Financial Officer, and Chief Financial Officer each quarter prior to grant claiming; and (5) reports are produced directly from the AlloCAP system showing the allocation methodology matches the PACAP as submitted quarterly. Specifically the Chart of Accounts reports produced from AlloCAP from present quarter compared to prior quarter document the changes were in accordance with the submitted PACAP.

The DSS' internal controls were and continue to be a component of the successful implementation of the PACAP and AlloCAP system in order to ensure accuracy and compliance with federal requirements as supported by the sample results reviewed under this audit.

DSS had a conversation regarding the prior year finding with the prior year audit crew. Although DSS disagreed with the prior finding, DSS was willing to consider further steps to implement if these steps would provide a greater comfort level. The signature page was discussed and implemented in addition to the current adequate process as requested.

Corrective action planned is as follows: Not applicable

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

2019-003. CSBG and CSE Program Subrecipient Risk Assessments

Federal Agency: Department of Health and Human Services
Federal Program: 93.563 Child Support Enforcement (CSE)
93.569 Community Services Block Grant (CSBG)
State Agency: Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS) and Family Support Division (FSD)

The DSS did not prepare and document risk assessments for subrecipients of the CSBG and CSE programs to determine the nature, timing, and extent of monitoring procedures.

Recommendation:

The DSS through the DFAS and the FSD develop controls and procedures to ensure evaluations of each CSBG and CSE program subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward are performed, documented, and used for monitoring decisions as required by federal regulations.

Status of Finding:

Child Support Enforcement (CSE) created a risk assessment tool and completed documentation of risk assessments in April 2020. The Community Services Block Grant (CSBG) created a preliminary risk assessment tool and completed documentation of certain risks in June 2020. CSBG will continue to refine its risk assessment tool and incorporate additional areas of risk in accordance with Uniform Guidance and national CSBG best practices.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

2019-004. CSBG Program Reporting

Federal Agency: Department of Health and Human Services
Federal Program: 93.569 Community Services Block Grant (CSBG)
State Agency: Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS)

The DSS did not have adequate procedures for preparation of the annual CSBG program federal financial report (SF-425), and as a result, amounts on the interim SF-425 report were misstated for the federal fiscal year ended September 30, 2018 (FFY18) grant. On the FFY18 grant interim SF-425 report, the DFAS reported unliquidated obligations as the total unspent FFY18 grant award of \$11.6 million rather than the total unpaid FFY18 contract amounts of \$3.8 million. By incorrectly reporting unliquidated obligations as the unspent FFY18 grant award, the DFAS overstated unliquidated obligations and understated the resulting unobligated balance at September 30, 2018, by about \$7.8 million.

Recommendation:

The DSS through the DFAS establish controls and procedures to ensure CSBG program federal financial reports are accurately prepared in accordance with federal requirements. In addition, the DSS should review, revise, and resubmit previously submitted inaccurate federal reports.

Status of Finding:

DSS Response: The DSS disagrees with this finding. In accordance with the DSS' 12/21/2018 response letter to the Administration for Children and Families (ACF) CSBG Missouri State Assessment Draft Monitoring Report, the accounting methodology employed for drawing and disbursing the CSBG award funds to eligible entities was based on the "first-in, first-out" approach. While the DSS contended the accounting records and methodologies were in compliance with the general terms and conditions of the grant and 45 CFR 75.309(a)(b), it acknowledged ACF's request to discontinue the "first-in, first-out" approach. On 6/26/2019 following issuance of the ACF CSBG Missouri State Assessment Final Monitoring Report, the DSS again acknowledged ACF's request to discontinue use of the "first-in, first-out" accounting method and confirmed the work being completed with the Community Action Agencies and other internal actions to affect the change that was implemented on October 1, 2019. As such, the difference between records referenced in the finding is due to the accounting methodology employed for drawing and disbursing CSBG award funds to eligible entities during the referenced time period.

Additionally, on September 30, 2020, the DSS awarded a contract for an independent and objective audit to be conducted on the FFY 2016 CSBG grant award.

Corrective action planned is as follows: Not applicable. The DSS disagrees with this finding and does not plan to resubmit the previously submitted FFY 18 federal reports.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

2019-005. Medicaid and CHIP MAGI-Based Participant Eligibility

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD) and
 Family Support Division (FSD)
Questioned Costs: \$2,832

The DSS did not have sufficient controls to ensure compliance with eligibility redetermination requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). In addition, the DSS did not have sufficient controls to ensure the eligibility status was updated in the Medicaid Management Information System (MMIS), the Medicaid claims payment system, when participants were determined to be ineligible for benefits. The DSS did not perform the required eligibility redeterminations for some participants and a system error prevented a participant's case from being closed in the MMIS.

Recommendation:

The DSS through the MHD and the FSD strengthen internal controls over MAGI-based participant eligibility to ensure eligibility redeterminations are completed as required and that participants' eligibility statuses in the MMIS are accurate. In addition, the DSS should review and correct the eligibility for the ineligible participant identified in this finding.

Status of Finding:

The DSS is in the process of developing a monthly report to identify overdue annual reviews. To address accuracy in the MMIS, in August 2020 the DSS implemented a Continuous Case Improvement review on MAGI cases targeting the findings of this audit. The DSS will develop training and guidance for staff when needs are identified. The DSS completed the action to close the eligibility case noted in the recommendation in March 2020.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

2019-006. Medicaid Nursing Facility Audits

Federal Agency: Department of Health and Human Services
Federal Program: 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)

The MHD did not establish adequate internal controls to ensure audits of financial records of nursing facilities participating in the Medical Assistance Program (Medicaid) were conducted as required. The MHD did not establish a plan for providing periodic audits of cost reports or other provider financial information of participating providers, and only a few cost report audits were performed in recent years. In addition, the MHD did not ensure required independent financial audit reports were received for any of the facilities that began participating in the Medicaid program during the previous 2 years.

Recommendation:

The DSS through the MHD establish and enforce a plan for periodic audits of cost reports or other financial information of nursing facilities and ensure independent audits are obtained in accordance with the State Plan.

Status of Finding:

DSS partially agrees with the finding.

DSS agrees the State Plan language should be reviewed and updated. However, Attachment 4-19D (or TN00-18) Findings and Assurances that the State Auditor references in the finding is not part of Missouri's State Plan.

The DSS disagrees with the remainder of the findings. The Findings and Assurances that outlined procedures to collect uniform cost reports and the periodic audit of financial and statistical records was an annual assurance and finding required until the Boren Amendment and its corresponding regulations were repealed by the Balanced Budget Act of 1997. The purpose of the Boren Amendment was to require the State Medicaid Agency to consider the costs of efficient and economic providers in setting rates. In considering the costs of the efficient and economic providers, the State Medicaid Agency was required to collect uniform cost reports and audit financial and statistical records of the providers, among other requirements. Once the Boren Amendment was repealed, the costs of efficient and economic providers did not need to be considered in setting rates. The Findings and Assurances that the State Medicaid Agency provided each year were no longer required after 2000, and were no longer considered part of the State Plan. The DSS will submit a State Plan Amendment to remove references related to the provisions of the Boren Amendment by the end of October 2020.

The finding states that MHD is not fulfilling the requirement of periodic auditing of providers' financial and statistical records; however, MHD provided a list of financial and statistical records that it audits or reviews, which in addition to cost reports, includes provider credit balance reports, Certificate of Need (CoN) reports, and NFRA cycle reports.

The Auditor's report stated that MHD performed 0 cost report audits in 2019. MHD provided supplemental documentation of 5 cost report audits before the finding was complete; however, these audits were not reflected in the finding.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

In the Auditor's report it is documented that MHD did not receive independent audits in 2019 for new facilities established in the past two years. MHD received independent audits from two facilities in FY2019. Of the remaining new facilities that entered the nursing facility program in the last two years, the independent audits are not due until 2020/2021.

MHD has contracted with an outside vendor to perform audits of the nursing facility cost reports to assist with changes that resulted from new legislation. The contractor will collect the cost reports from the providers and ensure the cost reports are complete and submitted on a timely basis. In addition, the vendor will ensure the independent audits are received according to the State Plan.

MHD has worked with the outside vendor throughout SFY 2020 to successfully implement the nursing facility cost reporting functions for over 500 nursing facilities with the contractor. MHD has had regular communication with the contractor, providing input, reviewing information, and providing approvals of various documents and steps. MHD worked with the contractor to develop a mechanism to electronically collect, maintain, and transfer cost report data; ensure providers were informed of and had training for the new cost report processes; develop the audit guide or Agreed Upon Procedures (AUP); develop the Audit Adjustment Report (AAR); and, audit the cost reports. As part of the cost report collection procedures, the contractor has staff dedicated to reviewing the documents that have been submitted and will send an email to the provider requesting any missing information. Upon MHD's approval of the AUP and AAR, the contractor audit staff began performing audits of the 2019 cost reports on May 7, 2020.

2019-007. Medicaid Developmental Disabilities Comprehensive Waiver Per Diem Rates

Federal Agency: Department of Health and Human Services
Federal Program: 93.778 Medical Assistance Program
State Agency: Department of Mental Health (DMH) - Division of Developmental Disabilities (DD)
Questioned Costs: \$244,757 (2019)
Similar Findings: 2018-014, 2017-017, 2016-006, and 2015-015

The DD continued to pay historical per diem rates to providers for residential rehabilitation services provided to participants of the Home and Community Based Services, Developmental Disabilities Comprehensive Waiver (Comprehensive Waiver) program, but did not retain adequate documentation to support these rates. As a result, the DD could not demonstrate some amounts paid were allowable costs of the Comprehensive Waiver Program.

Recommendation:

The DMH through the DD continue to transition all per diem rates paid to providers for residential habilitation services provided under the Comprehensive Waiver program from historical rates to acuity-based rates and ensure documentation to support per diem rates is maintained as required.

Status of Findings:

The Centers for Medicare and Medicaid Services (CMS) has notified the Division that it is suspending a disallowance for this finding, as it did with the previous year's finding 2018-014, pending completion of a corrective action plan that has been approved for the Division of Developmental Disabilities. The result of the corrective action plan will be to align rates paid to providers with the approved rate methodology for this service.

FS2019-001. Department of Social Services Financial Reporting Controls

State Agency: Department of Social Services (DSS)

The DSS - Division of Finance and Administrative Services (DFAS) did not have adequate controls and procedures over financial reporting of federal grant accounts receivables. As a result, the accounts receivable data submitted to the Office of Administration - Division of Accounting (DOA) for inclusion of *Missouri Comprehensive Annual Financial Report* (Annual Report) for the year ended June 30, 2019, was misstated.

Recommendation:

The DSS through the DFAS implement controls and procedures to prepare and submit accurate accounts receivable reports to the DOA.

Status of Finding:

The DSS disagrees with this finding. The Department has internal controls and procedures in place to prepare and submit accurate accounts receivable reports to the Division of Accounting. In fact, the accounts receivable balance was correct as originally reported.

Although the department did revise the SFY 2019 accounts receivable report after submission and upon discussion with the SAO, the department's original position, in reporting the accounts receivables as received after August (or as a deferred inflow for reporting purposes) was a more conservative approach for the financial statements. Additionally, the DSS does view this as a difference of opinion in how this information is captured, as a revenue versus as a deferred inflow.

The department does and continues to submit accurate accounts receivable reports to the Division of Accounting.

Corrective action plan is as follows: Not applicable.

2018-007. Child Care Payments

Federal Agency: Department of Health and Human Services
Federal Program: 93.575 Child Care and Development Block Grant
93.596 Child Care Mandatory and Matching Funds of the Child Care and Development Fund
State Agency: Department of Social Services (DSS) - Children's Division (CD) and Family Support Division (FSD)
Questioned Costs: \$586 (2018)
Similar Findings: 2017-010, 2016-002A, 2015-002, 2014-005, 2013-009, 2012-11A&B, 2011-14A, and 2010-16A

DSS controls over Child Care Development Fund (Child Care) subsidy provider payments were not sufficient to prevent and/or detect improper payments to child care providers. The DSS had only limited procedures to monitor payments to providers, and overpayments were made to some providers.

Recommendation:

The DSS through the CD and the FSD continue to review, strengthen and enforce policies and procedures regarding Child Care subsidy provider payments. These procedures should include sufficient monitoring of provider payments and follow up on errors identified.

Status of Findings:

The Child Care Business Information Solution (CCBIS) will replace paper attendance records and will capture attendance electronically. This will allow for greater control of attendance tracking, invoicing, and monitoring for provider compliance. The CCBIS was fully implemented as of the end of SFY 2020.

Claims have been entered or adjustments have been made for agreed upon unallowable costs.

2018-009. Foster Care Case Management Contract Payment Reviews

Federal Agency: Department of Health and Human Services
Federal Program: 93.658 Foster Care - Title IV-E
State Agency: Department of Social Services (DSS) - Children's Division (CD) and Division of Finance and Administrative Services (DFAS)
Questioned Costs: \$172

The DFAS did not establish adequate internal controls to ensure certain Foster Care assistance payments to foster care case management (FCCM) contractors were allowable and adequately supported.

Recommendation:

The DSS through the CD and the DFAS strengthen monitoring controls and procedures over FCCM contractor payments to ensure costs claimed to the Foster Care program as assistance payments are allowable and adequately supported. Detailed reviews of data submitted by the FCCM contractors should include reviews of foster care payment rates and supporting documentation.

Status of Finding:

The DSS disagrees with this recommendation.

The Foster Care payment was allowable as the child was IV-E eligible and in a reimbursable placement. The rate paid should have been slightly less due to the child's age. This occurred due to timing of system changes with the FCCM and is a unique instance. Based on the finding, the selected sample population of \$271,000 included 60 items of which \$50,700 and 9 children correspond to FCCMs. The sample identified \$266 (\$172 federal share) of questioned costs pertaining to FCCMs which results in a potential deviation of 0.10% of the total and 0.52% corresponding to FCCMs and is deemed by the DSS to be immaterial. In addition to the immateriality of questioned costs, the DAB upheld that FCCMs are a contractor of the DSS pursuant to decision 2681. In accordance with the DAB decision, the DSS will not request documentation from FCCMs for review that would be required of a subrecipient as doing so would be imposing extraneous requirements of contractors. As evidenced by the sample tested under this audit, the DSS has demonstrated sufficient monitoring controls and procedures over FCCM contractor payments to ensure accuracy and compliance with federal requirements.

Additionally, child placement and IV-E eligibility are not uploaded to the system by the vendor. Placement and eligibility for all children in the care of Children's Division are housed in the same area of the system regardless of internal versus external case management.

Payment data for children case managed by a FCCM is uploaded to the state's system. Once payments are uploaded, the data runs through case management and eligibility code to determine the payment fund to assign. The system is programmed to only allow a IV-E Foster Care claim if the child is determined to meet Title IV-E eligibility criteria and is in an allowable placement to Title IV-E. Therefore, payments for foster care could only be claimed to the grant if the child was in a foster home setting where a family would receive a payment to meet the needs of the child(ren) in their care and if both the child and the placement were eligible.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2020

2018-010. TANF Work Participation Sanctions

Federal Agency: Department of Health and Human Services
Federal Program: 93.558 Temporary Assistance for Needy Families (TANF)
State Agency: Department of Social Services (DSS) - Family Support Division (FSD)
Questioned Costs: \$171

The FSD did not have adequate controls to ensure TANF program recipients who failed to meet work participation requirements were sanctioned. The FSD's procedures to monitor subrecipients responsible for referring TANF program recipients to the FSD for failure to meet work participation requirements were not sufficient; and as a result, a recipient was not sanctioned and continued to receive full benefits.

Recommendation:

The DSS through the FSD continue to review, strengthen, and enforce controls to ensure TANF program recipients who fail to meet work participation requirements are sanctioned as required, or referred to the FSD for exemption.

Status of Finding:

The DSS disagrees with this audit finding. Although it is important to continue to review, strengthen, and enforce controls regarding TANF work participation sanctions, the DSS asserts the amounts referenced in this finding are immaterial. Regarding the immateriality, there was an error rate of less than 2% regarding the costs under review and an error rate of 5% regarding the cases under review.

The DSS agrees that internal controls are imperative to reducing errors and has successfully implemented controls to ensure clients are timely sanctioned. While the TANF regulations do not provide a threshold or an acceptable error rate, this is below what is required in other programs.

2018-011. TANF Subrecipient Risk Assessments

Federal Agency: Department of Health and Human Services
Federal Program: 93.558 Temporary Assistance for Needy Families (TANF)
State Agency: Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS) and Family Support Division (FSD)

The DSS did not prepare risk assessments for some TANF program subrecipients to determine the nature, timing, and extent of monitoring procedures. DFAS and FSD subrecipient monitoring procedures were not based on documented risk assessments.

Recommendation:

The DSS through the DFAS and the FSD strengthen controls and procedures to ensure evaluations of each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward are performed and used for monitoring decisions as required by federal regulations.

Status of Finding:

The DSS continues to perform risk based monitoring of subrecipients in accordance with Uniform Guidance. In addition, DSS has developed a standardized process to document risk assessments performed and is working to implement this process across the department.

CORRECTIVE ACTION PLANS

The State of Missouri's Office of Administration, Division of Accounting respectfully submits the following Corrective Action Plans for the findings related to the Statewide Single Audit for fiscal year ended June 30, 2020. Each Corrective Action Plan was prepared by the State agency noted.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2020**

State Agency: Department of Revenue (DOR)

Audit Finding Number: FS2020-001 DOR Financial Reporting Controls

Name of the contact person

Responsible for corrective action: Julie Ruetters

Anticipated completion date for corrective action: June 30, 2021

Corrective action planned is as follows:

The Department of Revenue took corrective action following the State Auditor's Office notification of the finding with the motor vehicle sales tax accounts receivable reports reported to the Office of Administration - Division of Accounting (DOA), and restated and resubmitted the motor vehicle sales tax accounts receivable reports for fiscal years ended June 30, 2019 and 2020. The Department of Revenue will also be evaluating and performing a detailed review of the future data extracted from the system; and, developing a new methodology for reporting the allowance for uncollectible accounts receivables going forward.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2020**

State Agency: Department of Social Services (DSS)

Audit Finding Number: FS2020-002 – DSS Financial Reporting Controls

Name of the contact person responsible for corrective action: Tara Giordano

Anticipated completion date for corrective action: June 30, 2021

Recommendation: The DSS through the DFAS implement controls and procedures to prepare and submit accurate accounts payable reports to the DOA.

DSS Response: The DSS agrees with this finding. The DSS had a transition of staff during the timeframe for completing the accounts payable reports. DSS is currently in the process of developing and formalizing written policies and procedures for preparing accounts payable reports. New team members responsible for report preparation will receive training by the Accounts Payable Manager or their designee.

Regarding the supervisory review, the review occurred and it was determined the accounts payable report was within a reasonable range of a normal submission.

Corrective action planned is as follows: As noted above, the DSS is currently taking measures to develop and formalize written policies and procedures for future accounts payable reporting.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2020**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD)

Audit Finding Number: 2020-001 – Medicaid Nursing Facility Cost Report Audits

Name of the contact person responsible for corrective action: Rebecca Rucker

Anticipated completion date for corrective action: Not Applicable

Recommendation: The DSS through the MHD develop and implement procedures to monitor and ensure the contractor completes periodic audits of cost reports of nursing facilities in accordance with the State Plan.

DSS Response: DSS partially agrees with this finding.

The DSS disagrees that a plan for periodic audits and procedures, as well as a plan for monitoring the contractor, had not been developed. The DSS through MHD established the plan and procedures during SFY 2020. MHD worked closely with the contractor to develop the processes for the contractor to collect the cost reports electronically, create a data base for the nursing facility cost report data, and worked with the contractor in the development and approval of the audit guide. SFY 2020 was devoted to the development and implementation of the plan and processes for the contractor to conduct the periodic audits. MHD worked with the contractor throughout the development and implementation stages, including the review and approval of various processes and documents, therefore monitoring the contractor in SFY 2020.

MHD agrees with the portion of the finding to ensure that periodic audits are completed. Even though audits were started in SFY 2020, no audits were completed by June 30, 2020 due to the amount of time it took to get all the processes in place for the new contractor, as noted above, and due to the Public Health Emergency (PHE). During the PHE, sections of the nursing facility regulation relating to cost report submission due dates and the withholding of payments for late cost report submissions were suspended (13 CSR 70-10.015, (10)(A)5. and 6.).

The agency does not agree with the recommendation and does not believe that corrective action is required. Explanation and specific reasons are as follows:

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

Since the plans and procedures are now established, audits will be completed in accordance with the agreed upon schedule with the contractor going forward and therefore, no further corrective actions need to be taken. MHD will work with the contractor to determine the appropriate cost reports to audit. MHD, through the contractor, does not expect that it will always audit all cost reports for a given cost report year, but may do a sample of approximately 20%-30% of the total cost reports.

MHD would like to address some issues related to the findings described in the SAO's Schedule of Findings and Questioned Costs draft report:

Specific to the statements in the finding pertaining to the Findings and Assurances, MHD disagrees that the Findings and Assurances are part of the approved State Plan. If the Findings and Assurances were given to the SAO as part of the approved State Plan, it was included in error. The approved State Plan includes the pages that describe the policy and reimbursement for the nursing facility program. The Findings and Assurances were additional information that CMS used to review in conjunction with the State's cover letter that included the standard funding questions, the 179 Transmittal Form, and any other Requests for Additional Information (RAI) in approving proposed pages amending the State Plan. With the repeal of the Boren Amendment, the Findings and Assurances were no longer required to be submitted. MHD has discussed this with CMS and they indicated that the Findings and Assurances are not part of the State Plan.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2020**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD)

Audit Finding Number: 2020-002 – Medicaid National Correct Coding Initiative Finding

Name of the contact person responsible for corrective action: Kim Johnson, Nanci Nikodym, and Holly Hern

Anticipated completion date for corrective action: July 1, 2022 estimated

Regarding the anticipated completion date, updates to address this finding require changes to the Medicaid Management Information System (MMIS). These system changes are substantial. MHD anticipates the implementation date of the changes to be July 2022, barring any unforeseen issues.

Recommendation: The DSS through the MHD strengthen controls over the NCCI requirements to ensure NCCI edits are fully implemented and reprocess claims paid when edits are not implemented timely, as required. In addition, the DSS should ensure confidentiality agreements contain all elements required by the Medicaid NCCI Technical Guidance Manual.

DSS Response: DSS agrees with the auditor's finding. The Corrective Action Plan includes planned actions to address the finding. The MO HealthNet Division (MHD) will fully implement National Correct Coding Initiative (NCCI) edits. One of the components to fully implement NCCI edits is to update the edits on a quarterly basis. System work will be needed to complete this task. Once completed, the NCCI edits will be updated quarterly and claims will be reprocessed.

Another component to fully implement NCCI edits is to follow the medically unlikely edits (MUE) provided by the Centers for Medicare and Medicaid (CMS). This is similar to the current MHD maximum quantity. Currently MHD partially follows MUEs. There are maximum quantities that differ from the MUEs. System work will also be needed to complete this task.

In addition, MHD worked with the MMIS fiscal agent to update the existing confidentiality agreement required by all employees/contractors to include new requirements covering NCCI file edits confidentiality. This change was put into

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

place on March 15, 2021; therefore, no additional corrective action is needed for this portion of the finding.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2020**

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD) and Family Support Division (FSD)

Audit Finding Number: 2020-003 – Medicaid and CHIP MAGI-Based Participant Eligibility

Name of the contact person responsible for corrective action: Heather Atkins

Anticipated completion date for corrective action: September 1, 2021, or upon expiration of requirements suspended due to the Public Health Emergency

Recommendation: The DSS through the MHD and the FSD strengthen internal controls over MAGI-based participant eligibility to ensure eligibility redeterminations are completed as required, once the COVID-19 public health emergency has expired and the suspended requirements are reinstated. In addition, the DSS should review and correct the eligibility and payments for the ineligible participant identified in this finding.

DSS Response: The DSS agrees with the finding. Missouri Eligibility Determination and Enrollment System (MEDES) functionality to complete annual redeterminations was not complete until 6/2018. Prior to full implementation, MEDES was unable to complete systematic auto renewals and population of required pre-populated review forms. Since full implementation in 2018, FSD has strengthened controls as the system has been updated to automatically initiate the annual eligibility redetermination process. DSS staff will continue to strengthen controls and monitor the process to ensure eligibility redeterminations in MEDES are completed as required, once the COVID-19 public health emergency (PHE) has expired and the suspended requirements are reinstated. Additionally, the DSS has taken actions to close the eligibility case noted in the recommendation. DSS will also correct the payments for the ineligible participant noted in the recommendation.

The questioned costs identified in this finding are \$1,928, federal share. The total computable amount is \$2,803 which is .00009% of the SFY 2020 Medicaid expenditures of approximately \$3.1 billion for the MAGI population.

It should also be noted that the SAO reviewed 60 ABD participants enrolled during the period of July 2019 to February 2020 and no errors were found.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

Corrective action planned is as follows: The DSS has developed a monthly report to identify overdue reviews. Upon the expiration of the PHE, the DSS will begin analyzing the reports to determine if additional policy or system updates are necessary and start the process of removing the previously-established system overrides on cases with an override to allow the system to identify the cases needing redeterminations.

State of Missouri - Single Audit
Corrective Action Plans
Year Ended June 30, 2020

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2020**

State Agency: Department of Social Services (DSS) – Children’s Division (CD)
and Division of Finance and Administrative Services (DFAS)

Audit Finding Number: 2020-004 – Adoption Assistance Eligibility and Payments

Name of the contact person
responsible for corrective action: Amy Martin and Jodi Lodewegen

Anticipated completion date for corrective action: April 30, 2021

Recommendation: The DSS through CD and the DFAS enforce policies and procedures regarding Adoption Assistance payments. The DSS should review and correct the eligibility and payments for the children identified in this finding.

DSS Response: The DSS partially agrees with this finding.

The DSS agrees with correcting the payments for the children identified in this finding. The questioned costs of \$14,465 out of the annual \$44 million federal share claim will be returned on the March 2021 quarterly report filed no later than April 30, 2021. Since 97% of the questioned costs were due to action taken before the 2008 policy change, this is not indicative of current caseload or practices.

The DSS disagrees with strengthening and enforcing policies and procedures regarding Adoption Assistance eligibility determinations. The Department implemented new processes in FY 2008 regarding backdating subsidy agreements as stated in prior audit responses. Additionally, as noted by the SAO, DHHS – Administration for Children and Families (ACF) has issued decision letters regarding this matter. The DSS continues to provide new worker and refresher trainings to adoption assistance staff regarding adoption assistance agreement requirements and quality assurance reviews to ensure service start dates of the agreement are as of or after the Director’s signature on the agreement and ensuring start dates are on or prior to the date of adoption to assure eligibility for IV-E funds. The DSS continues provide training to IV-E Benefit Program Specialists on reviewing adoption assistance payments to ensure they are allowable. Additionally, DSS has internal steps in place to ensure agreements have proper signatures and effective dates.

State of Missouri - Single Audit
Corrective Action Plans

**State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2020**

State Agency: Department of Mental Health

Audit Finding Number: 2020-005 Medicaid Developmental Disabilities
Comprehensive Waiver Per Diem Rates

Name of the contact person
Responsible for corrective action: Bryan Connell

Anticipated completion date for corrective action: Not applicable

The agency does not agree with the audit finding and believes that a corrective action is not required. Explanation and specific reasons are as follows:

Although some rates are at a level established prior to the rate methodology change, as stated the last two years, all existing rates are now a factor of the rate study and therefore any other forms of documentation are irrelevant. The rate study serves as the documentation for all residential rates paid. The Division of Developmental Disabilities is under a corrective action plan (CAP) with the Centers for Medicare and Medicaid Services (CMS) that requires the division to standardize its Individualized Supported Living rates according to the current approved rate methodology (which is based on the rate study) by July 1 2024.

State Agency: Missouri Department of Health and Senior Services

Audit Finding Number: 2020-006 Commodity Supplemental Food Program
(CSFP) Food Inventory

Name of Contact Person responsible for Corrective Action Plan: Gail Ponder,
Senior Program Specialist

Anticipated Date for Completion of Corrective Action: Fall 2021

Corrective Action Plan is as follows:

The DHSS agrees with the auditor's finding.

Through clarifying correspondence with USDA, Missouri was notified in June 2020 of this requirement. As a result of the COVID-19 outbreak in the spring of 2020, the CSFP program was not allowed to complete this requirement as food banks were not allowing outside individuals into their facilities due to the potential threat of COVID-19.

The DHSS Corrective Action Plan (CAP) includes our planned actions to address the finding as follows:

The USDA and CSFP staff have discussed these requirements. As a result of these discussions, CSFP will perform the required inventory reviews during the summer and fall of 2021.

CSFP staff will continue to work with the USDA regarding any questions about the regulations and the completion of the physical inventory of the food banks. A spreadsheet will be developed prior to conducting the first inventory. CSFP staff will request that USDA review and approve the spreadsheet to verify information to be captured will satisfy federal regulations. CSFP staff will add an annual physical inventory requirement to the CSFP Policy and Procedures Manual.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Parma, Missouri

We have conducted follow-up work on audit report findings contained in Report No. 2020-038, *City of Parma* (rated as Poor), issued in July 2020, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.
2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:
 - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
 - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
 - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
 - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by the City Clerk and held discussions with the Mayor and a Board member to verify the status of implementation for the recommendations. Documentation provided by the city included Board meeting minutes, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during March and April 2021.

Nicole R. Galloway, CPA
State Auditor

City of Parma

Follow-Up Report on Audit Findings

Status of Findings

1. **Misappropriated Monies** From April 14, 2015, through April 16, 2019, monies totaling at least \$115,582 were misappropriated from the city. Payroll overpayments totaling \$43,620 were made to the Mayor, City Clerk, and Water Supervisor, and improper withdrawal and payments totaling \$39,238 were made by/to the Mayor, City Clerk, Water Supervisor, and Alderman Wofford's business. Improper purchases totaling \$25,680 were made by the Mayor, City Clerk, and Water Supervisor, and the purchaser of some items was unknown. Improperly recorded utility payments totaling \$533 and utility adjustments totaling \$4,625 were applied to the accounts of the Mayor, the Water Supervisor, Alderman Wofford, Alderwoman Jones, and a church, and we estimated \$1,886 of additional improper utility adjustments were made to their accounts during periods that records were not available.

In addition, the Mayor and City Clerk falsified Board meeting minutes and financial reports, and the list of bills prepared for Board meetings by the City Clerk were incomplete and inaccurate. Most of these inaccurate financial reports prepared for Board meetings were reviewed and signed by the Mayor.

The State Auditor's Office (SAO) was notified on April 17, 2019, of fires that destroyed most of city hall and the city's computers, some city records, and the Mayor's home. Ongoing investigations into the fires were being conducted by the New Madrid County Sheriff's office.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of the payroll overpayments, improper withdrawal and payments, improper purchases, improperly recorded utility payments and improper adjustments, and falsified records; and take the necessary actions to obtain restitution.

Status

In Progress

In November 2020, the Prosecuting Attorney of New Madrid County filed felony criminal charges against the former Mayor, the former City Clerk, and the former Water Supervisor. The former Mayor and the former City Clerk were charged with two counts of receiving stolen property and two counts of forgery. The former Water Supervisor was charged with one count of receiving stolen property. All three cases are still ongoing as of April 2021. The Board of Aldermen indicated it will continue to work with law enforcement officials regarding criminal prosecution and will take the necessary actions to obtain restitution.

-
2. **Oversight, Annual Audits, and City Code and Ordinances** The Board did not establish adequate oversight or obtain annual audits as required by state law. City code and ordinances also needed improvement.

City of Parma
Follow-up Report on Audit Findings
Status of Findings

2.1 Oversight and segregation of duties

The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the Mayor and City Clerk.

Recommendation

The Board of Aldermen segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

Status

In Progress

The Board indicated it reviews vendor invoices and approves all checks monthly before disbursement, with the exception of payroll since it is paid weekly. All disbursements, including payroll, are listed on the city's profit and loss report, which is presented to the Board for review at each monthly meeting. However, the Board does not document its review and approval of the invoices or the profit and loss report, but Board members indicated they will start signing the invoices and the monthly profit and loss report.

The City Treasurer reconciles bank statements monthly. The Board is given a fund balance report for review at each meeting. As of the April 2021 Board meeting, bank statements are now presented to the Board at Board meetings.

Utility spreadsheets prepared by the City Clerk are presented to the Board for review each month; however, utility reports generated from the utility system were not presented for the Board's review. The City Clerk indicated reports generated from the utility system will be provided to the Board going forward.

2.2 Annual audits

The city did not obtain annual audits as required, and city officials did not know when the last audit of city finances occurred.

Recommendation

The Board of Aldermen obtain annual audits of the waterworks and sewerage system as required by state law.

Status

In Progress

The City Clerk indicated no annual audits of the waterworks and sewerage system have been completed or are scheduled to be completed. The City Clerk indicated this will be discussed at the next Board meeting.

2.3 City code and ordinances

The Board had not complied with city code and had not established or updated city code or ordinances as appropriate. Monthly Board meetings were frequently canceled by the Mayor or not held in compliance with City Code and Board meeting minutes were not located for several monthly Board meetings. The city also did not have ordinances establishing the compensation of city officials and employees and did not establish or update city codes/ordinances for changes in various city procedures. The Mayor appointed an Alderwoman to serve on the Board; however, she was not a

City of Parma
Follow-up Report on Audit Findings
Status of Findings

resident of the city for one year preceding her appointment as required by city code.

Recommendation

The Board of Aldermen update city code as procedures change, establish the compensation of city officials and employees by ordinance, and ensure compliance with city code.

Status

In Progress

The Board has held monthly meetings and maintained meeting minutes for each meeting for the past 6 months except for February 2021, which was canceled due to inclement weather. In addition, documentation showing all Board members were residents of the city for one year preceding appointment/election is maintained by the City Clerk.

The city does not have ordinances establishing the compensation of city officials and employees. The city has not established or updated ordinances regarding payments for utility services or weekly pay periods; however, the Board did adopt new personnel policies that address probationary periods, working with relatives, overtime, holidays, and paid vacations. The City Clerk indicated changes to ordinances will be discussed at the next Board meeting.

3. Disbursements and Bond Requirements

Controls and procedures over disbursements needed improvement, and the city did not fund and maintain account balances in accordance with bond requirements.

3.1 Board review and approval process

The City Clerk did not provide bank statements, a complete and accurate list of bills, complete and accurate financial information, or monthly utility reports to the Board for review at monthly meetings. Board members indicated they did not review bank statements. The list of bills provided to the Board for review and approval was not compared to invoices and actual checks written. Board members did not review invoices, several payments were made with no supporting documentation, checks were often issued out of numerical sequence, and documentation of the receipt of goods or services on the invoices was not required. The Board and City Clerk also failed to monitor the city's cash balance and the city incurred overdraft fees.

Recommendation

The Board of Aldermen review bank statements monthly and properly monitor bank account balances to avoid bank fees. The Board should also ensure an accurate and complete monthly list of bills is prepared and compared to invoices and checks written. In addition, the Board should ensure invoices are adequately reviewed and checks are issued in numerical sequence, and require documentation of receipt of goods and/or services prior to payment of invoices.

City of Parma
Follow-up Report on Audit Findings
Status of Findings

Status

Implemented

The Board is given a fund balance report for review at each meeting. As of the April 2021 Board meeting, bank statements are now presented to the Board at monthly meetings. The Board indicated it approves all checks before disbursement, with the exception of payroll since it is paid weekly. The City Clerk prints the checks and presents them to the Board along with the vendor invoices for review each month. All disbursements, including payroll, are listed on the city's profit and loss report, which is presented to the Board for review at each monthly meeting. Our comparison of the February 2021 financial report to actual checks written and invoices showed the report provided to the Board was complete and accurate. Our review of the February 2021 bank statements for several accounts showed that checks were issued in numerical sequence and no overdraft fees were charged to the city. We also reviewed vendor invoices and noted employee signatures documenting the receipt of goods and/or services were on the invoice.

3.2 Bond requirements

The Mayor and City Clerk did not fund and maintain account balances in accordance with bond requirements.

Recommendation

The Board of Aldermen ensure compliance with funding requirements of bond agreements.

Status

Implemented

The city is currently making monthly deposits of \$229 into a Debt Service Reserve (Savings) account as required by the 2009 bond requirements. As of February 28, 2021, the account had a balance of \$4,457. The city will continue making the \$229 monthly payment until it reaches the required (fully funded) balance of \$27,480.

3.3 Excessive and
unauthorized transfers

The Mayor and/or City Clerk made excessive and unauthorized transfers between various bank accounts. These transfers from restricted monies to other accounts allowed improper disbursements to occur and not be detected.

A review of the city's bank statements indicated 423 transfers were made between bank accounts, and 88 of these transfers were for amounts less than \$1,000. The majority of these transfers were not approved by the Board and inappropriately made from various restricted accounts.

Recommendation

The Board of Aldermen monitor and reduce the number of transfers made between bank accounts, and ensure transfers are not prohibited by state law.

City of Parma
Follow-up Report on Audit Findings
Status of Findings

Status

Implemented

We reviewed the February 2021 bank statements and financial activity and noted the Board had reduced the number of transfers made between accounts to only those necessary and appropriate. All transfers are listed on the profit and loss report that is presented and reviewed by the Board at monthly meetings.

3.4 Conflicts of interest

The Board did not adequately monitor city activities for conflicts of interest.

- The city paid \$6,000 to Fry Maxx Janitorial Service, a business owned by the City Clerk's husband, and paid \$2,100 to the City Clerk's husband without properly soliciting bids as required by state law. The city also paid \$600 to Frye's Chillin and Grillin Barbeque, another business owned by the City Clerk's husband, to provide catering services without soliciting bids.
- The city paid \$558 to Alderman Wofford's auto body shop on November 9, 2018, and \$1,092 on January 8, 2019, without properly soliciting bids as required by state law. The city also paid Alderman Wofford's auto body shop \$3,411 from April 2016 through April 2019 without properly soliciting bids. In addition, the city paid the Mayor's mother (who is also Alderman Wofford's wife) for decorations for main street and city hall without soliciting bids.

Recommendation

The Board of Aldermen refrain from entering into business transactions with related parties unless such services or transactions are properly bid in accordance with state law.

Status

Implemented

The City Clerk indicated the city has not entered into business transactions with any Board member or employee of the city. Our review of the February 2021 bank statements and financial activity did not show any payments made to Board members or city employees, except for normal payroll and reimbursement of expenses.

3.5 Questionable and unnecessary purchases

Numerous questionable, unreasonable, and/or unnecessary purchases were made totaling \$6,221. Some of these purchases were made using the city's Walmart credit card and some of the disbursements were made by city check.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of personal, unsupported, and excessive purchases and take the necessary actions to obtain restitution. The Board should also ensure all disbursements are necessary and prudent uses of public funds.

City of Parma
Follow-up Report on Audit Findings
Status of Findings

Status

In Progress

The Board of Aldermen is continuing to work with law enforcement officials regarding criminal prosecution of personal, unsupported, and excessive purchases and is waiting to take the necessary actions to obtain restitution once the criminal cases are concluded. In addition, the Board indicated it is ensuring disbursements are necessary and prudent uses of public funds by providing more oversight over disbursements and implementing stronger controls over reimbursements. For example, the city canceled the city's Walmart credit card and now reimburses employees for expenses after invoices/receipt slips are submitted. Our review of February 2021 invoices did not identify any personal, unsupported, or excessive purchases.

3.6 Untimely payments

The Board did not ensure some bills were paid timely resulting in late fees and finance charges. As of April 16, 2019, 72 invoices totaling \$54,220 were outstanding over 30 days, including \$1,536 of late fees and finance charges due. Based on records maintained by the City Clerk, as of March 1, 2020, the city still owed \$5,956 of the \$54,220 due.

Recommendation

The Board of Aldermen ensure all invoices are paid timely.

Status

Implemented

As of March 11, 2021, the city still owes one vendor \$1,311, and has agreed to make monthly payments. We reviewed all vendor invoices for February 2021, and no late fees or penalties were assessed and/or paid by the city.

3.7 Fuel use

The city did not maintain mileage and fuel logs. As a result, fuel use was not reconciled to fuel purchases. The amount of fuel purchased at local gas stations appeared excessive. The city issued 498 checks to local gas stations typically in whole dollar amounts ranging from \$10 to \$80 totaling \$22,955, and the city issued an average of 26 checks a month to the local gas stations.

Recommendation

The Board of Aldermen ensure a documented periodic reconciliation of fuel purchased to fuel used is performed with any significant differences investigated.

Status

Implemented

The City Clerk reconciles fuel used to fuel purchases and investigates significant differences. Fuel use logs are maintained for the city's bulk fuel tanks, and fuel is no longer being purchased at local gas stations.

4. Payroll and Related
Matters

Significant improvement over payroll controls and procedures was needed.

City of Parma
Follow-up Report on Audit Findings
Status of Findings

4.1 Payroll taxes and unreported compensation

The City Clerk did not timely file and remit various payroll taxes, and as a result, the city was assessed over \$114,000 in past due taxes, interest, and penalties.

- The City Clerk did not timely file 941 forms and remit applicable payroll taxes to the Internal Revenue Service (IRS).
- The City Clerk did not timely file and remit applicable payroll taxes to the Missouri Department of Revenue (DOR).
- The City Clerk did not timely file quarterly contribution and wage reports and remit unemployment taxes to the Missouri Department of Labor and Industrial Relations, Division of Employment Security.

Also, some of the payroll overpayments, and most of the improper payments identified in MAR finding number 1 were not subject to payroll tax withholdings and were not included on the employees' W-2 forms.

Recommendation

The Board of Aldermen establish procedures to ensure all compensation is properly reported and payroll taxes are properly withheld and remitted to the appropriate taxing entities timely. In addition, the Mayor's, City Clerk's, and Water Supervisor's W-2 forms should be amended as appropriate.

Status

In Progress

The city has paid the balance of all past due taxes owed to the IRS, but has not paid past due interest and penalties totaling \$26,205. However, the city filed an appeal with the IRS to forgive the interest and penalties due. In addition, the city has paid all past taxes and interest and penalties due to the DOR and Division of Employment Security.

We reviewed payroll records for February 2021, and determined compensation was properly reported and payroll taxes were properly withheld and timely remitted to the appropriate taxing entities. The Board indicated it reviews a disbursement report each month to ensure payroll taxes are remitted each month to the IRS, DOR, and Division of Employment Security. The City Clerk indicated the Board plans to amend the W-2 forms for the Mayor, City Clerk, and the Water Supervisor once the criminal cases are concluded.

4.2 Payroll advances/loans

The Mayor and City Clerk issued payroll advances/loans to employees totaling \$5,400 in violation of the Missouri Constitution. Payroll deductions totaling \$1,225 were withheld from subsequent checks leaving an outstanding balance of \$4,175.

Recommendation

The Board of Aldermen discontinue the practice of providing payroll advances to employees. The Board should continue to work with law

City of Parma
Follow-up Report on Audit Findings
Status of Findings

enforcement officials regarding criminal prosecution of the unpaid payroll advances and take the necessary actions to obtain restitution.

Status

In Progress

The City Clerk indicated payroll advances to employees have been discontinued. We reviewed payroll reports for the first quarter of 2021, and no payroll advances/loans were made. In addition, the Board is continuing to work with law enforcement officials regarding criminal prosecution of the unpaid payroll advances and is waiting to take action to obtain restitution once the criminal cases are concluded.

**4.3 Timesheets/cards and
leave records**

Timesheets/cards were not prepared by some city employees and timesheets/cards prepared by other employees were not retained or located at city hall. In addition, compensatory time/overtime hours worked were not consistently documented on payroll records for some employees. Leave records were also not maintained for city employees.

Recommendation

The Board of Aldermen ensure timesheets/cards are prepared, retained, and properly signed and approved, and leave records are maintained.

Status

Implemented

During our review of February 2021 payroll transactions, we noted timesheets/cards were prepared and signed by each employee and approved and retained by the City Clerk. Leave records were maintained for each employee.

**4.4 Personnel policies and
files**

The city did not have personnel policies to address timesheets/cards, leave records, hours of work, and how overtime and compensatory time was to be calculated. In addition, the city did not compensate employees for overtime in compliance with FLSA requirements. Personnel files for most employees were also not located at city hall, and documentation of salary amounts and/or rates of hourly pay were not available.

Recommendation

The Board of Aldermen adopt detailed personnel policies, ensure compliance with the FLSA, and maintain personnel files for all city employees.

Status

In Progress

The Board revised the city's personnel policies on August 13, 2020, to address leave records, hours of work, and how overtime and compensatory time is calculated. The personnel policy does not address timesheets/cards; however, the Board indicated it plans to update the personnel policy to address timesheets/cards. Currently, timesheets/cards are being signed by the employees and reviewed by the City Clerk. We reviewed payroll transactions

City of Parma
Follow-up Report on Audit Findings
Status of Findings

for February 2021, and noted employees were compensated for overtime in compliance with FLSA requirements. In addition, salary amounts and/or rates of hourly pay are included in the personnel files, and personnel files of all city employees were located at city hall during a visit to the city in March 2021.

4.5 Questionable payroll payments

Questionable payroll payments were made to the City Clerk for vacation leave and compensatory time/overtime, and to the Water Supervisor for overtime.

Recommendation

The Board of Aldermen ensure reviews of payroll records are performed to ensure the propriety of payroll payments, and review the questionable payroll payments and consider working with law enforcement officials regarding criminal prosecution of the questionable payments.

Status

In Progress

The Board indicated it now reviews a report of all disbursements, including payroll, at each monthly meeting to ensure there are no questionable payments. We reviewed the first quarter of 2021 payroll transactions and noted no questionable payroll payments made to employees. The Board also indicated it is continuing to work with law enforcement officials regarding criminal prosecution of the questionable payments.

4.6 Garnishments

The City Clerk failed to garnish wages and remit child support garnishments withheld to the Missouri Department of Social Services (DSS) Family Support Payment Center as required.

Recommendation

The Board of Aldermen ensure compliance with court orders by withholding garnishments from wages when required and paying monies withheld to the applicable party.

Status

In Progress

We reviewed the first quarter payroll report for 2021, and noted the city was making weekly disbursements to the Family Support Payment Center in compliance with court ordered garnishment withholdings. The Board consulted with legal counsel and decided to delay taking action regarding child support withheld from a past employee's wages until after the criminal cases are concluded.

5. Utility System Controls and Procedures

Utility system controls and procedures needed improvement.

5.1 Adjustments

Improper adjustments were made or were likely made to the utility accounts of the Mayor, Water Supervisor, Alderman Wofford, Alderwoman Jones, and a church. The adjustments were made without obtaining independent

City of Parma
Follow-up Report on Audit Findings
Status of Findings

approval or maintaining adequate documentation to support the reason for the adjustments.

Recommendation

The Board of Aldermen ensure all adjustments are independently approved and supporting documentation is retained.

Status

Implemented

The City Clerk prepares a monthly reconciliation of amounts billed to amounts collected, amounts adjusted, and amounts delinquent on a spreadsheet and presents this spreadsheet to the Board for review each month. If adjustments need to be approved before the monthly Board meeting, the City Clerk will contact Board members for prior approval, and the Board will formally approve the adjustments at the next Board meeting. For example, in February 2021, large water leaks occurred due to cold weather, and a \$5,886 adjustment to water bills was approved by the Board on March 5, 2021.

5.2 Utility reconciliations

City personnel did not prepare proper reconciliations related to utility services.

Recommendation

The Board of Aldermen ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and of gallons of water billed to gallons pumped, and investigate significant differences.

Status

Partially Implemented

The City Clerk prepares a monthly reconciliation of amounts billed to amounts collected, amounts adjusted, and amounts delinquent on a spreadsheet and presents this spreadsheet to the Board for review each month.

A monthly reconciliation of total gallons of water billed to gallons of water pumped cannot be prepared because the control panel reporting the gallons pumped is broken. The City Clerk indicated the cost to repair the panel is expensive; therefore, there is no immediate plan to repair it.

5.3 Utility deposits

Refundable utility deposits held in the Water and Sewer Deposit Escrow bank account were not accounted for properly. The City Clerk and former City Collector did not keep a listing of deposits held and were not tracking deposits. On October 4, 2019, the estimated liability for water meter deposits totaled \$22,710. However, the Water and Sewer Deposit Escrow bank account only had a balance of \$2,525 and the Water/Sewer/Garbage bank account only had a balance of \$1,662, resulting in an estimated shortage of \$18,523.

City of Parma
Follow-up Report on Audit Findings
Status of Findings

Recommendation	The Board of Aldermen ensure a list of utility deposits is prepared and reconciled to the balance of deposits held monthly and promptly investigate any differences.
Status	In Progress The city has established a separate bank account for current utility deposits on hand, and the City Clerk reconciles the balance in the account to the utility system monthly. The City Clerk also maintains a list of customers who made utility deposits in previous years. Due to the financial condition of the city, the city has not been able to set aside money for all these deposits. The Board indicated as the financial condition of the city improves, it will ensure the utility deposit account is properly funded for all deposits.
5.4 Sales tax	The City Clerk did not file returns with the DOR or remit sales taxes collected related to water services provided, which totaled \$9,650.
Recommendation	The Board of Aldermen ensure sales taxes collected are reported and remitted timely.
Status	Implemented The city has paid the balance of all past due sales tax and penalties and interest owed. The Board indicated it reviews and approves the disbursement of sales taxes to the DOR before each disbursement is made from the Water/Sewer/Garbage bank account.
6. Budgets and Financial Reporting	The city did not prepare annual budgets, file annual financial reports timely, or publish semiannual financial statements in compliance with state law.
6.1 Budgets	Neither the Board nor the City Clerk prepared budgets for the 2 years ended June 30, 2019. There was no evidence in Board meeting minutes indicating a budget was adopted and approved for these 2 years.
Recommendation	The Board of Aldermen prepare budgets that contain all information required by city code and state law.
Status	Partially Implemented A city budget was prepared for the year ended June 30, 2021. However, the budget did not include all the required elements. The budget document did not include a budget message, actual or budgeted amounts for the 2 preceding years, the actual beginning and estimated ending cash balance for each fund, or a budget summary.

City of Parma
Follow-up Report on Audit Findings
Status of Findings

6.2 Financial reporting	Neither the Board nor the City Clerk submitted a financial report to the SAO as required by state law for the year ended June 30, 2018. As a result, fines totaling \$47,500 were imposed. The DOR reduced the city's sales and use tax distributions each year as partial payments, and the city owed \$44,199 to the DOR as of January 31, 2020.
Recommendation	The Board of Aldermen submit annual financial reports to the State Auditor's Office as required by state law.
Status	Implemented The city timely submitted annual financial reports for the years ended June 30, 2019, and 2020, to the SAO as required by state law.
6.3 Published financial statements	The City Clerk did not prepare and publish financial statements for the 4 years ended June 30, 2018, as required by city code and state law.
Recommendation	The Board of Aldermen ensure publication of the city's semiannual financial statements as required by city code and state law.
Status	Implemented The semiannual financial statement for the period ending December 31, 2020, was prepared and posted on the city's bulletin board at city hall. We observed this posting during a visit to the city in March 2021.
7. Electronic Data Security	Controls over some city computerized applications were not sufficient to prevent unauthorized access, and sufficient plans and processes were not in place for recovering systems and data.
7.1 User identifications and passwords	The Mayor, City Clerk, and former City Collector shared the user identification and password for the city's utility software application, allowing them access to all utility functions.
Recommendation	The Board of Aldermen require unique user identifications for each software application and require passwords remain confidential and be changed periodically.
Status	Implemented The City Clerk, City Treasurer, and Administrative Assistant each have a unique user identification for each software application. According to the City Clerk, passwords are changed every 3 months.
7.2 Contingency plan and backup data	The city had not developed a formal, written contingency plan for resuming normal business operations and recovering computer systems and data in the

City of Parma
Follow-up Report on Audit Findings
Status of Findings

event of a disaster or other extraordinary situations. While city personnel indicated they backed up electronic data periodically, the backup data was stored on-site at city hall. As a result, both the computers and backup data were destroyed during a fire.

Recommendation

The Board of Aldermen develop a formal, written contingency plan that is periodically tested, evaluated, and updated as needed. The Board should also store backup data in a secure off-site location.

Status

In Progress

A formal, written contingency plan has not been developed. The City Clerk indicated this will be discussed at the next Board meeting. The city is storing backup data in a secure off-site location. The utility system is backed up by the utility system software provider and city computers are backed up to "the cloud" (i.e., electronically off-site) daily.

Missouri State Auditor

City of Excelsior Springs

Report No. 2021-022

May 2021

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Excelsior Springs

Financial Condition	The Golf Fund and Airport Fund are in poor financial condition and have reported operating losses the last several years. Deficit cash balances have been avoided for both funds by receiving advances from the General Fund. These advances, as of September 30, 2020, have accumulated to \$978,676 in the Golf Fund and \$69,294 in the Airport Fund. Storage rates at the airport are not supported by a cost study or other documentation. The City Council budgeted deficit cash balances of \$465,190 and \$61,345 for the Golf and Airport Funds, respectively, for the year ended September 30, 2020. The airport facility has several hangars and a building no longer used for airport operations. While the golf course and airport provide benefits to city residents and the General Fund has an adequate financial condition, the city should take steps to minimize losses in these funds.
Allocations and Restricted Funds	The Finance department provided no documentation to support monthly transfers made to the General Fund from 13 other restricted funds for the allocation of administrative and other indirect costs. A total of \$448,388 was transferred from various funds to the General Fund, but city personnel could not explain how these amounts were determined or provide support for the amounts allocated to the various funds.
Cash Handling Controls and Procedures	Improvement is needed in the handling of fees collected at the Finance, Parks and Recreation, and Public Works departments; golf course; and Community Center. Controls over non-monetary adjustments posted to the golf course accounting system need improvement.
Disbursements	The city has not solicited bids for information technology services since approximately 2000, and trash services since 2007. The city did not solicit competitive quotations for other products or services purchased during the year ended September 30, 2019. The city's procedures to account for fuel use at the golf course are not adequate.
Utilities	The city improperly records penalties for late payments of water, sewer, and trash bills to the General Fund, instead of the Water, Pollution Control, and Refuse Funds, and the revenue from the penalties was not used for allowable purposes. Controls over non-monetary adjustments posted to customer utility accounts need improvement.

Sunshine Law

Some issues discussed in closed meetings were not allowable under the Sunshine Law and the City Council does not review and approve closed meeting minutes. The Council does not prepare meeting minutes for most Council work sessions, and city personnel do not maintain adequate records of requests for records to show compliance with state law.

In the areas audited, the overall performance of this entity was Fair .*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information	16
---	----

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the City Council
City of Excelsior Springs, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Excelsior Springs. We have audited certain operations of the city in fulfillment of our duties. The city engaged RSM US LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended September 30, 2019. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended September 30, 2019. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

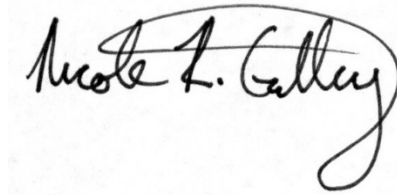

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Excelsior Springs.

An additional report, No. 2020-020, *Seventh Judicial Circuit, City of Excelsior Springs Municipal Division*, was issued in April 2020.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

City of Excelsior Springs

Management Advisory Report

State Auditor's Findings

1. Financial Condition

The Golf Fund and Airport Fund are in poor financial condition, have reported operating losses the last several years, and have only avoided deficit cash balances by receiving advances from the General Fund. In addition, the City Council has approved deficit budgets for both funds in recent years and city officials needs to consider ways to more efficiently utilize vacant space at the airport.

Golf course subsidization

The city has historically operated its golf course at a loss and advances from the General Fund have been necessary the last several years to prevent deficit cash balances in the Golf Fund. From 2017 to 2020, these advances totaled \$643,934, resulting in cumulative advances due to the General Fund of \$978,676, as of September 30, 2020. In addition to the advances, the Golf Fund was subsidized by a \$30,000 transfer in from the General Fund during the year ended September 30, 2017. The Golf Fund revenues, expenditures, operating loss, transfers in/out, capital contributions, and advances provided by the General Fund, according to information obtained from the city's independent audit report for the last 4 years were:

	Year Ended September 30,			
	2020	2019	2018	2017
Revenues	\$ 912,703	907,162	625,253	705,590
Expenditures	1,086,641	1,348,952	950,714	895,123
Operating loss before transfers and contributions	(173,938)	(441,790)	(325,461)	(189,533)
Capital contribution		1,648,105		
Transfers in			80,881	113,742
Transfers out	(39,891)	(41,519)	(41,836)	(41,746)
Change in Net Position	(213,829)	1,164,796	(286,416)	(117,537)
Advances provided by the General Fund	\$ 94,263	347,932	201,171	568

According to the City Manager, the new clubhouse and other amenities included in the Golf Course TIF project, along with other capital improvements made at the golf course, have helped increase the number of golf memberships and rounds of golf played. While the operating loss was reduced significantly during 2020, continued monitoring of the financial condition of the Golf Fund is necessary.

Airport subsidization

The city has also historically operated its airport at a loss and advances from the General Fund have been necessary the last several years to prevent deficit cash balances in the Airport Fund. From 2017 to 2020, these advances totaled \$35,986, resulting in cumulative advances due to the General Fund of \$69,294, as of September 30, 2020. The Airport Fund revenues, expenditures, operating loss, transfers out, and advances provided by the General Fund,

City of Excelsior Springs
Management Advisory Report - State Auditor's Findings

according to information obtained from the city's independent audit report for the last 4 years were:

		Year Ended September 30,			
		2020	2019	2018	2017
Revenues	\$	11,922	10,740	14,381	19,609
Expenditures		38,786	46,104	52,730	56,564
Operating loss before transfers		(26,864)	(35,364)	(38,349)	(36,955)
Transfers out		(5,317)	(5,800)	(5,800)	(5,800)
Change in Net Position		(32,181)	(41,164)	(44,149)	(42,755)
Advances provided by the General Fund	\$	4,084	10,249	12,296	9,357

Storage rates at the airport are not supported by a cost study or other documentation showing how the rates were determined and have not been updated in recent years according to the City Manager.

Budget deficits

The City Council budgeted deficit cash balances of \$465,190 and \$61,345 for the Golf and Airport Funds, respectively, for the year ended September 30, 2020. The cash balances of both funds have been deficit budgeted since at least the 2017 budget. Section 67.010.2, RSMo, prohibits deficit budgeting from any fund.

Airport utilization

The airport facility has several hangars and a building no longer used for airport operations. Golf course equipment was stored at the airport during construction of the new clubhouse and pavilion between October 2017 and March 2019, but the unused areas of the airport have not been used since then. City officials solicited proposals for an outside operator to use the space, but they indicated they received no viable proposals. They also indicated they have had numerous discussions regarding use of the vacant hangars and building by other city departments, but no decisions have occurred. The grant agreement associated with capital improvements made to the airport in 2016 would require a pro-rated repayment of the \$450,000 grant if the airport closed within 20 years of the improvements. As a result, making more effective use of the vacant hangars and building could potentially help offset some of the operating losses because closing the airport is not economically feasible.

Conclusion

While the golf course and airport provide benefits to city residents and the General Fund has an adequate financial condition, the city should take steps to minimize losses in these funds. To maximize receipts and effectively utilize city assets, golf course rates should continue to be monitored and airport

City of Excelsior Springs Management Advisory Report - State Auditor's Findings

storage rates should be reassessed and supported by a current cost study. In addition, a plan should be developed to use the vacant hangars and building at the airport.

Recommendation

The City Council closely monitor the ongoing financial condition of the Golf and Airport Funds, consider options to minimize losses, and discontinue deficit budgeting these funds. In addition, ensure a cost study is performed of airport hangar rates and the vacant hangars and building are used effectively.

Auditee's Response

The City Council acknowledges that it is legal and within their authority to subsidize Golf and Airport Funds, but also agrees that options to minimize losses should be considered. Excelsior Springs has a history of providing amenities to its residents and tourist alike, both the airport and golf course contribute to our historical values for rest and relaxation. Actions over the last several years have been taken to make improvements to both airport and golf course properties in order to better position these operations in their markets to improve their revenue potential.

Proposals have been solicited to operate both the airport and golf course. A management agreement has been executed with a professional golf management company to manage the golf course effective February 1, 2021. No responsive proposals were received for the airport. Interest has been expressed from local pilots to manage the property with continued subsidies from the city.

- *The city will consider all options to ensure both the Airport and Golf Funds have a positive net position, by either forgiving all or a portion of the existing fund advances to both the Airport (\$61,345) and Golf Funds (\$978,676); and/or*
- *The city will consider an annual budgeted transfer of funds to either the Golf or Airport Fund, or both to end a practice of deficit budgeting.*
- *The city will work towards establishing a presence at the airport to maintain the property, making more effective use of vacant hangars and buildings, which do not restrict the use of the runway for aviation.*
- *The city will work towards completing a cost study or other documentation showing how the rates were determined for airport hangars and golf charges.*

2. Allocations and Restricted Funds

Indirect costs

The city has not established adequate procedures to allocate administrative and other indirect costs to restricted funds to ensure the money in those funds is only used for the restricted purposes.

The Finance department provided no documentation to support monthly transfers made to the General Fund from 13 other restricted funds for the allocation of administrative and other indirect costs. Finance department personnel indicated allocations are made to reimburse the General Fund but

City of Excelsior Springs Management Advisory Report - State Auditor's Findings

they could not explain how the total indirect costs were determined and had no documentation to support the amounts allocated to the various funds. The city has made these type of transfers for years, but has not prepared a cost allocation plan since 2011.

The amounts transferred from various funds to the General Fund for administrative and other indirect costs for the year ended September 30, 2019, were:

Fund	Allocated Costs
Water	\$ 180,000
Pollution Control	120,000
Refuse	42,700
Golf	35,698
Construction Services	26,000
Capital Improvements	10,325
Transportation Trust	8,333
General	6,500
Parks and Recreation	6,000
Airport	5,800
Elms Hotel Tax Increment Financing District	2,500
Vintage Development Tax Increment Financing District	2,299
Public Safety Sales Tax	1,838
Elms Hotel Event Fees	395
Total	\$ 448,388

Disbursements for certain funds are limited by law to specific activities. Generally accepted accounting principles require the city to retain documentation showing that disbursements from these restricted funds were associated with the specific activities allowed by law. The proper allocation of expenses is necessary for the city to accurately determine the results of operations of specific activities, thus enabling the city to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenditures to city funds should be based on specific criteria, such as the number of hours worked by each employee, if possible, or by determining a reasonable basis to allocate costs from shared functions/employees benefiting multiple funds.

Recommendation

The City Council ensure administrative and indirect costs are allocated based on specific criteria and retain documentation to support the allocations.

Auditee's Response

The former Administrative Services Director began preparing an updated cost allocation plan in early 2020, which establishes specific criteria for allocating costs. While this plan did a good job of allocating costs based on

City of Excelsior Springs
Management Advisory Report - State Auditor's Findings

the number of transactions, we plan to conduct a time study to ensure the estimates of employees time for various functions included in the calculations are reasonable and adequately supported. The city plans to finalize this plan and utilize it to determine indirect cost transfers for each fund for the year ended September 30, 2022. We will ensure documentation is retained to support the allocations.

3. Cash Handling Controls and Procedures

Improvement is needed in the handling of fees collected at the Finance, Parks and Recreation, and Public Works departments; golf course; and Community Center. These types of receipts are at greater risk since there are numerous collection points throughout the city with a variety of handling and record-keeping methods. As a result of the numerous control weaknesses, there is less assurance all city money has been handled and accounted for properly.

3.1 Receipting and transmitting

We noted several concerns with the receipting and transmittal of city money.

Accounting for receipt slips

Golf course personnel do not account for the numerical sequence of receipt slips issued to ensure all money collected is accounted for properly.

Manual receipt slips

The procedures associated with the issuance of manual receipt slips need improvement.

- Public Works department personnel do not account for the numerical sequence of manual receipt slips issued to ensure all money collected is accounted for properly.
- The Finance department does not ensure all manual receipt slips issued are subsequently posted to the accounting system. Finance department personnel indicated manual receipt slips are issued when the accounting system is unavailable and subsequently posted to the accounting system. The carbon copy of the manual receipt slips issued are not kept so it is not possible to determine how many manual receipt slips were issued and if they were subsequently posted to the accounting system.

Restrictive endorsement

City personnel do not restrictively endorse checks and money orders immediately upon receipt. The endorsement is applied by Finance department personnel after receipts are transmitted by each department for deposit.

Transmitting

Transmittal procedures at the Parks and Recreation department and golf course need improvement.

The Parks and Recreation department does not issue receipt slips for all money received or make transmittals intact or timely to the Finance department. During our cash count completed on January 7, 2020, we identified 2 checks, totaling \$100, both dated in April 2018, and \$153 in cash

City of Excelsior Springs Management Advisory Report - State Auditor's Findings

that had not been receipted. According to Parks and Recreation department personnel both checks and \$57 in cash were donations and the remaining \$96 in cash was concession sales for an event held on November 9, 2019. However, that cash was not included in the November 19, 2019, transmittal. Department personnel also indicated \$20 in cash was accidentally withheld from the November 19, 2019, transmittal. Finance department personnel identified and documented the \$20 shortage when the transmittal occurred.

The composition of receipt slips issued at the golf course is not compared to the composition of amounts transmitted by an independent person. Documentation submitted to the Finance department with transmittals does not include a listing of all receipts slips issued to allow a reconciliation of the composition to be made by Finance department personnel.

Conclusion

Failure to implement adequate receipting and transmitting procedures increases the risk that loss, theft, or misuse of money received will go undetected.

3.2 Golf course non-monetary adjustments

Controls over non-monetary adjustments posted to the golf course accounting system need improvement. Non-monetary adjustments are any transactions where money is not received; however, the amount due in the accounting system has been changed. Golf course personnel post non-monetary adjustments to the accounting system, such as writing off charges in both the Pro Shop and restaurant, and do not maintain documentation to support the reason for the adjustment. These employees collect money and post receipts to the accounting system and there is no independent supervisory review of these adjustments. In addition, a listing of all adjustments posted is not generated and compared to approved adjustments. As a result, there is an increased risk of theft and misuse occurring without being detected.

To ensure non-monetary adjustments are valid and approved, adjustment transactions should be approved before they are made in the computer system and the posted adjustments should later be compared to the list of approved adjustments. Review and approval of adjustments by an independent person is necessary to ensure adjustments made are proper.

Recommendations

The City Council:

- 3.1 Require the issuance of prenumbered receipt slips for all money received and ensure all manual receipts slips are posted timely to the accounting system. In addition, account for the numerical sequence of receipt slips, restrictively endorse all checks and money orders immediately upon receipt, transmit receipts intact and timely, and require an independent person reconcile the composition of receipt slips to the composition of transmittals.

City of Excelsior Springs
Management Advisory Report - State Auditor's Findings

Auditee's Response

3.2 Ensure all non-monetary adjustments made at the golf course are properly approved, compared to actual changes posted to the computer system, and documentation of all such adjustments is retained.

3.1 *Because the city maintains numerous collection points throughout our operations (Finance, Parks, Public Works, Golf, and Community Center) the city will prepare a training module to convey proper cash handling procedures that can be utilized by all employees that handle money, with specific attention to the concerns expressed by the auditors in their recommendations.*

Each department will maintain a log of any manual receipts slips issued. The log will be provided to the Finance department to confirm that manual receipt slips were issued numerically and subsequently posted to the accounting system. Each department will be required to receipt all monies received, restrictively endorse checks and money orders immediately upon receipt, and transmit all funds collected timely to the Finance department, including a listing of all receipt slips issued. The Finance department will account for the numerical sequence of receipt slips issued and perform a reconciliation of the composition of receipt slips to the composition of amounts transmitted.

3.2 *Each department will maintain a log of all non-monetary adjustments where money is not received, such as writing off charges. The log will document the reason for the adjustment and independent supervisory review of all adjustments will be performed and documented.*

4. Disbursements

Improvement is needed in the city's bidding practices. In addition, controls over fuel usage at the golf course are not sufficient.

4.1 Bidding

The city has not solicited bids for information technology (IT) services since approximately 2000, and trash services since 2007. The city paid \$48,363 to the IT Contractor and \$794,905 to its trash service provider during the year ended September 30, 2019. In addition, the city did not solicit competitive quotations for the purchase of carbon dioxide for \$1,070 or vehicle repairs for \$1,698. City personnel indicated quotations were sought for the carbon dioxide purchase but they could not locate the documentation. The city's purchasing policy requires competitive quotations from at least 3 vendors for purchases from \$1,000 to \$9,999 and sealed bids for purchases over \$10,000.

Routine use of a competitive procurement process for major purchases and services ensures the city has made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in city business. Documentation of the various proposals received, the selection

City of Excelsior Springs Management Advisory Report - State Auditor's Findings

process, and criteria should be retained to demonstrate compliance with applicable laws or regulations and support decisions made.

4.2 Fuel usage

The city's procedures to account for fuel use at the golf course are not adequate. The city maintains 3 bulk fuel tanks at the golf course and purchased bulk fuel totaling \$14,503 during the year ended September 30, 2019. Mileage and fuel logs are not maintained for vehicles and equipment. In addition, the bulk tanks do not have meters to track the gallons of fuel pumped. As a result, fuel use is not reconciled to fuel purchases.

Mileage and fuel logs are necessary to document the appropriate use of vehicles and equipment and to support fuel purchases. Without sufficient information, city officials cannot evaluate the propriety and reasonableness of fuel pumped/used or reconcile amounts used to fuel billings. Failure to account for fuel purchases and fuel usage could result in loss, theft, or misuse going undetected.

Recommendations

The City Council:

- 4.1 Ensure sealed bids and quotations are solicited for all applicable purchases and services in accordance with city policy.
- 4.2 Require usage and fuel logs be maintained for all vehicles and equipment at the golf course and install meters on bulk tanks. In addition, ensure fuel logs are reconciled to fuel purchases. Any significant discrepancies should be investigated.

Auditee's Response

- 4.1 *The city believes these purchases of carbon dioxide and IT and trash services represent unique circumstances, but acknowledges there is room for improvement.*
 - *Comments confirm that IT services have not been bid since 2000, a period of time that covers a significant revolution of technology, which makes it difficult to define and transfer knowledge of our systems. We have developed a Request for Qualifications for this service, which includes a definition of the services desired and a list of potential interested bidders. We however need to wait until our newer employees obtain a higher degree of utilization of the systems they are using before we consider the potential loss of knowledge that could occur with a change.*
 - *The trash services requires the successful bidder to supply an expansive list of equipment and individual trash containers, which requires a longer contract than would be typical, but acknowledge contract amendments that increase the period of*

City of Excelsior Springs Management Advisory Report - State Auditor's Findings

service need to be contained. The trash service was bid in 2020 and allows for an initial term with two possible time extensions.

- *Carbon dioxide is now one of 5 consumable items that are exempted from the approval process of the purchasing policy; however whenever possible the city does seek competitive quotations.*

4.2 *The city will take steps to measure the fuel usage at the golf course. While only equipment, golf carts, and mowers use fuel and none of these have odometers, a gauge on the dispensing tanks is possible and a log of when equipment is fueled is possible.*

5. Utilities

Improvement is needed in procedures for handling restricted utility revenues and adjustments to utility accounts. The city provides water, sewer, and refuse services. The city collected approximately \$8 million in utility revenues during the year ended September 30, 2019.

5.1 Penalties

The city improperly records penalties for late payments of water, sewer, and trash bills to the General Fund, instead of the Water, Pollution Control, and Refuse Funds. Additionally, the revenue from the penalties was not used for allowable purposes. Late payment penalties totaled \$103,739 during the year ended September 30, 2019. There is no evidence the City Council approved recording penalty revenue to the General Fund and the former Director of Administrative Services indicated penalty revenue has been recorded this way for many years. If the City Council intends to transfer any restricted revenues to the General Fund, this action should be formally approved, done in accordance with state law, and reflected in the budgets and financial statements as transfers from the applicable restricted fund. Failing to account for the late payment penalties within the various city funds gives the appearance that utility penalties are not restricted revenues.

To ensure restricted revenues are used for the intended purpose, payments received should be credited to the appropriate funds. In addition, Section 250.150.1, RSMo, restricts the use of sewer system revenue for operating the system, payment of bonds, establishment of a reserve, fulfillment of any agreements contained in ordinances, and payment of costs of improvements of such system. Section 250.150.2, RSMo, prohibits the transfer of that money except by action of the city governing body and only after all system operation and maintenance expenses and debt payments have been paid.

5.2 Non-monetary adjustments

Controls over non-monetary adjustments posted to customer utility accounts need improvement. Finance department clerks post non-monetary adjustments to waive customer late charges, adjust usage for inaccurate meter readings, or reduce a balance due to water leaks. These employees collect money and post receipts to the accounting system and only adjustments over \$20 are required to be approved by an independent person. Documentation to

City of Excelsior Springs
Management Advisory Report - State Auditor's Findings

support the reason for the adjustment is not retained. In addition, a listing of all adjustments posted is not generated and compared to approved adjustments. As a result, there is an increased risk of theft and misuse occurring without being detected.

To ensure non-monetary adjustments are valid and approved, all adjustment transactions should be approved before they are made in the computer system and the posted adjustments should later be compared to the list of approved adjustments. Review and approval of adjustments by an independent person is necessary to ensure adjustments made are proper.

Recommendations

The City Council:

- 5.1 Ensure penalties for late utility payments are recorded as a revenue in the proper funds, those funds are used only for allowable purposes, and any transfers of restricted revenue are approved and made in accordance with state law.
- 5.2 Ensure all non-monetary adjustments to utility accounts are properly approved, compared to actual changes posted to the computer system and documentation of all non-monetary adjustments are retained.

Auditee's Response

- 5.1 *Following auditor comments, the city ended the practice of recording penalties in the General Fund, a practice that began in the 1980s. Penalties are now received in the Water Fund. The City Council will consider other alternatives to replace the lost revenue in the General Fund, which might be achieved from an increase in transfers due from indirect allocations or the initiation of a gross receipts surcharge on its utility funds, as authorized by the Missouri Supreme Court in the City of Hermann decision.*
- 5.2 *The Finance department will maintain a log of all non-monetary adjustments where money is not received, such as waiving customer late charges, adjustment for inaccurate meter readings, or to reduce a balance due to water leaks. Any adjustment over \$20 requires independent review. Documentation to support the reason for the adjustment will be noted in the log, and notation of independent approval before posting in the computer system.*

Auditor's Comment

- 5.1 Penalties should be distributed and recorded to the Water, Pollution Control, and Refuse Funds, as applicable, instead of solely distributed and recorded to the Water Fund.

6. Sunshine Law

The City Council's procedures for complying with the Sunshine Law and maintaining minutes of meetings need improvement. The Council generally meets twice monthly in both regular and work sessions and holds special

City of Excelsior Springs
Management Advisory Report - State Auditor's Findings

meetings when necessary. The Council held 20 closed meetings from October 1, 2018, to May 20, 2020.

6.1 Closed meetings

Some issues discussed in closed meetings were not allowable under the Sunshine Law. For example, the Council discussed removal of the hangar doors on one of the hangars at the airport and the upcoming petition audit. In addition, the Council does not review and approve closed meeting minutes. Closed meeting minutes are only signed by the City Attorney, who prepares them.

Section 610.022.3, RSMo, mandates that the discussion topics and actions in closed meetings must be limited to only those specifically allowed by law as announced in the justification for closing the meeting. In addition, meeting minutes should be signed by the preparer and subsequently approved by the Council to provide an independent attestation that the minutes are a correct record of matters discussed and actions taken during meetings.

6.2 Work sessions

The Council does not prepare meeting minutes for most Council work sessions. Work sessions are typically held twice monthly, on Friday mornings before a Monday regular session is scheduled. Minutes are not kept for these work sessions, other than sessions held in August and September 2019 to discuss budget issues.

Section 610.020.7, RSMo, requires minutes of meetings be maintained as a record of business conducted and to provide an official record of actions and decisions.

6.3 Record requests

City personnel do not maintain adequate records of requests for records to show compliance with state law. While city personnel could produce actual request letters and their response letters, a log of requests is not maintained for providing other important information, such as the date a request was received, when records were provided, or important communications related to these requests. We reviewed 5 sunshine requests, and related documentation, received during 2019 and determined one request did not have documentation to support when the request was received and one request took 12 days for the city to provide a response.

Section 610.023, RSMo, provides each request for access to public records shall be acted upon as soon as possible, but in no event later than the end of the third business day following the date the request is received by the custodian of records. To ensure compliance with state law, the city should document adequate information in a log to determine if requests are completed timely and all requests are adequately filled. Necessary information includes, but is not limited to, the date of request, a brief description of the request, the date the request is completed or reason why the request cannot be completed, and any associated costs of filling the request.

City of Excelsior Springs
Management Advisory Report - State Auditor's Findings

Recommendations

The City Council:

- 6.1 Ensure only topics allowed by state law are discussed in closed Council meetings and meeting minutes are signed by the preparer and approved by the Council.
- 6.2 Ensure meeting minutes are kept for all work sessions.
- 6.3 Ensure requests for information are responded to timely and maintain a public request log to help ensure compliance with state law.

Auditee's Response

- 6.1 *The City Council will ensure topics discussed in closed meetings are allowable and will begin review and approval of closed meeting minutes immediately. In closed session, previous minutes will be available for review and Council members will sign the minutes to indicate they have been reviewed.*
- 6.2 *An audio recording and handwritten summary of all work sessions is maintained, but the meeting summary will also be signed by Council members.*
- 6.3 *To supplement records requests, a log of all requests will be maintained by the City Clerk, to include the date and time the request is received, a brief description of the request, the date the request is completed or reason why the request cannot be completed, and any associated costs of filling the request.*

City of Excelsior Springs

Organization and Statistical Information

The City of Excelsior Springs is located in Clay County and Ray County. The city was incorporated in 1881 and is currently a third-class city operating under the provisions for a city manager form of government. The city employed 113 full-time employees and 172 part-time employees on September 30, 2019.

City operations include utility services (water, sewer, and trash), police, fire, ambulance, maintenance of streets, recreational facilities (parks and Community Center), golf course, and a hospital.

Mayor and City Council

The city government consists of a five-member City Council, elected at large for 3-year terms. Annually the Council selects one of its members to serve as mayor and another as mayor pro tem, who assumes mayoral responsibilities in the mayor's absence. The Mayor is paid \$350 per month and Councilmembers are paid \$250 per month. The compensation of these officials is established by ordinance. The Mayor and Councilmembers as of September 30, 2019, are identified below.

Brad Eales, Mayor (1)
Sharon Powell, Chairman Pro Tem (2)
Ambrose Buckman, Councilman (3)
Brent McElwee, Councilman
Sonya Morgan, Councilwoman (4)

- (1) Stephen Spear was elected to the Council in April 2021.
- (2) Elected Mayor by Council members in June 2020.
- (3) Andrew Kowalski was elected to the Council in June 2020.
- (4) Elected Chairman Pro-Tem by Council members in June 2020.

Other Principal Officials

The City Manager and City Clerk are appointed by the City Council. The City Attorney is a contracted position. The City Manager appoints various individuals to serve as department heads. The city's principal officials at September 30, 2019, are identified below:

Molly McGovern, City Manager
Shannon Stroud, City Clerk
Steve Marriott, Director of Administrative Services (1)
Chad Birdsong, Director of Public Works
Nate Williams, Director of Parks and Recreation
Clinton Reno, Police Chief
Melinda Mehaffy, Director of Economic Development
Jesse Hall, Community Center Director
Paul Tribble, Fire Chief (2)
John McClelland, City Attorney (3)

- (1) Steve Marriott resigned in June 2020 and Vonda Floyd was appointed Director of Finance in September 2020. That position replaced this position.
- (2) Paul Tribble retired in June 2020 and Bill Stewart was appointed Interim Fire Chief in June 2020.
- (3) Paul Campo became City Attorney in March 2020.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 96 political subdivisions required to file a financial report by March 31, 2021, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in March 2021, after their filing deadline. The filing status for these 15 entities is presented in summary on page 3 and by individual entity in Appendix B-E.

A handwritten signature in black ink that reads "Nicole R. Galloway". The signature is written in a cursive style with a large, looping "G" at the end.

Nicole R. Galloway, CPA
State Auditor

Monthly Report on Political Subdivision Filings

March 2021

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 96 political subdivisions, other than cities, towns, and villages, with a fiscal year end of September 30, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 96 political subdivisions, 80 filed an annual financial report timely.

This report also includes the filing status for 15 political subdivisions, other than cities, towns, and villages, that filed their financial report in March 2021, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by March 31, 2021, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 63 cities and 2 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in March 2021, after their filing deadline. The filing status for these 16 cities and 9 villages is presented in summary on page 4 and by individual entity in Appendixes B to D.

Monthly Report on Municipal Court and Revenue Filings

March 2021

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 63 cities and 2 villages with a fiscal year end of September 30, 2020, whose financial report was due by March 31, 2021. Of the 65 municipalities, 51 filed the financial report timely. Of the 60 municipalities required to file an addendum, 38 filed timely. Of the 41 municipalities required to file a certification, 29 filed the certification timely.

Monthly Report on Municipal Court and Revenue Filings
February 2021
Executive Summary

This report includes the filing status for 16 cities and 9 villages that filed at least one of the items (financial report, addendum, or certification) in March 2021, after their filing deadline. Of these municipalities, 16 filed an annual financial report, 7 filed an addendum, and 5 filed a certification.

NICOLE GALLOWAY, CPA

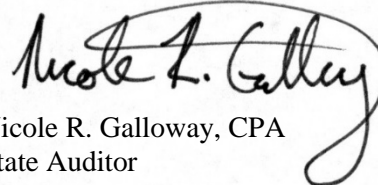

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of March 2021 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In March, the state spent \$441 million from federal COVID-19 assistance (Appendix A). Through the end of March, the state has received \$3.93 billion and spent \$3.52 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$873 million) and funding passed through to counties and the City of St. Louis (\$521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.

Federal Funding for COVID-19 Response

March 2021

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of March 31, 2021, approximately \$18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
March 2021
Executive Summary

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).
- Not charge premiums that exceed those that were in place as of January 1, 2020.
- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of March 31, 2021, approximately \$36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population. In early July, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

Federal Funding for COVID-19 Response
March 2021
Executive Summary

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
 - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
 - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially

⁴ U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

March 2021
Executive Summary

dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
 - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
 - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
 - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
 - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used

Federal Funding for COVID-19 Response
March 2021
Executive Summary

to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government.

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to June 30, 2021. At March 31, 2021, no transferred funds remained outstanding.

Under the CARES Act, the state has also been awarded as of March 31, 2021, approximately \$3.41 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has also been awarded as of March 31, 2021, approximately \$2.75 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

Under the American Rescue Plan Act of 2021, the state has also been awarded as of March 31, 2021, approximately \$2.35 billion of additional or new funding under various federal grant programs for elementary school funding, laboratory expansion capacity for school testing, vaccine preparedness and

Federal Funding for COVID-19 Response
March 2021
Executive Summary

access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding.

In March, the state spent \$441 million from federal COVID-19 assistance (Appendix A). Through the end of March, the state has received \$3.93 billion and spent \$3.52 billion from this assistance. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$873 million) and funding passed through to counties and the City of St. Louis (\$521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendix C.

Secretary of State Federal Stimulus Fund	3,416,234	0	0	0	0	3,416,234
Total all Funds	\$ 639,124,798	119,905,170	440,581,381	0	6,609,848	311,838,739

¹ During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, in January 2021 the SOS began using this fund again to receive refunds of unspent awards previously issued to subrecipients during the fiscal year ended June 30, 2020. The refunds reduce previous disbursements, and will be returned to the federal government. Cumulative refunds total \$189,462, including \$24,071 received in March 2021. No additional refunds are anticipated in April 2021.

² This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during fiscal year ended June 30, 2021 as disbursements, due to changes in the appropriation process in this fiscal year for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

³ The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earns, must be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred \$250 million in May 2020, and repaid the full \$250 million in December 2020, plus \$200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

Secretary of State Federal Stimulus Fund	4,070,342	654,108	0	0	3,416,234
Housing Assistance Stimulus Fund ⁴	0	323,715,323	323,715,323	0	0
Total all Funds	\$ 3,930,563,876	3,517,933,101	589,598,625	690,390,661	311,838,739

¹ During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, in January 2021 the SOS began using this fund again to receive refunds of unspent awards previously issued to subrecipients during the fiscal year ended June 30, 2020. The refunds reduce previous disbursements, and will be returned to the federal government. Cumulative refunds total \$189,462, including \$24,071 received in March 2021. No additional refunds are anticipated in April 2021.

² This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during fiscal year ended June 30, 2021 as disbursements, due to changes in the appropriation process in this fiscal year for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

³ The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earns, must be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred \$250 million in May 2020, and repaid the full \$250 million in December 2020, plus \$200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

⁴ In February 2021, the General Assembly authorized a transfer of up to \$324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The \$323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2021. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

Total All Funds	\$ 6,547,939,623	1,821,384,601	4,726,555,022	5,500,254,776	1,150,698,707	4,349,556,069

¹ The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services cannot directly expend any receipted monies from the fund, as it could during the fiscal year ended June 30, 2020.

³ Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to \$750 million.

⁴ This appropriation's expenditures for the fiscal year ended June 30, 2021, are a placeholder intended for the State Emergency Management Federal Stimulus Fund's Department of Mental Health Staff Offering Support Program appropriation. SAM II adjustments to reflect this were not fully processed by March 2021. Once processed, this appropriation's authority and expenditures for the fiscal year ended June 30, 2021, will return to zero. This stipend appropriation was obsoleted in September 2020, when it was replaced by an equivalent stipend appropriation also in the State Emergency Management Federal Stimulus Fund.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

NICOLE GALLOWAY, CPA

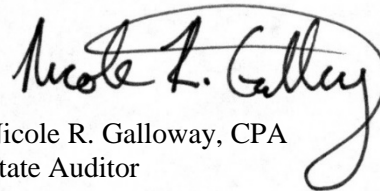

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of February 2021 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In February, the state spent \$477 million from federal COVID-19 assistance (Appendix A). Through the end of February, the state has received \$3.81 billion and spent \$3.08 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$813 million) and funding passed through to counties and the City of St. Louis (\$521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, and other disaster relief purposes.

Federal Funding for COVID-19 Response

February 2021

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of February 28, 2021, approximately \$18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
February 2021
Executive Summary

- Not charge premiums that exceed those that were in place as of January 1, 2020.
- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of February 28, 2021, approximately \$36.2 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population. In early July, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

⁴ U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Federal Funding for COVID-19 Response
February 2021
Executive Summary

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
 - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
 - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
 - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.

Federal Funding for COVID-19 Response
February 2021
Executive Summary

- Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
 - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
- Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government.

⁵ U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Federal Funding for COVID-19 Response
February 2021
Executive Summary

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to June 30, 2021. At February 28, no transferred funds remained outstanding.

Under the CARES Act, the state has also been awarded as of February 28, 2021, approximately \$3.38 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has also been awarded as of February 28, 2021, approximately \$2.7 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

In February, the state spent \$477 million⁶ from federal COVID-19 assistance (Appendix A). Through the end of February, the state has received \$3.81 billion and spent \$3.08 billion from this assistance. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$813 million) and funding passed through to counties and the City of St. Louis (\$521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, workforce development, economic development

⁶ This amount differs from the total disbursements shown in Appendix A, due to adjustments (\$327 million) in the schedule's presentation discussed in footnotes 2 and 3 of that appendix.

Federal Funding for COVID-19 Response
February 2021
Executive Summary

programs for small businesses, COVID-19 dedicated personnel costs, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendix C.

¹ During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, in January 2021 the SOS began using this fund again to receive refunds of unspent awards previously issued to subrecipients during the fiscal year ended June 30, 2020. The refunds reduce previous disbursements, and will be returned to the federal government. Cumulative refunds total \$165,391, including \$49,070 received in February 2021. Additional refunds are anticipated in March 2021.

² This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during fiscal year ended June 30, 2021 as disbursements, due to changes in the appropriation process in this fiscal year for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

³ We have removed the Federal Budget Stabilization Fund from this schedule. The fund is funded through transfers from the FMAP Enhancement Fund. The fund's appropriations would not need to be spent for COVID-19 related purposes. The FMAP Enhancement Fund had a fund balance of \$410,642,576 at the end of February.

⁴ The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earns, must be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred \$250 million in May 2020, and repaid the full \$250 million plus \$957,214 in earned interest in December 2020. However, in February 2021 the OA corrected the earned interest to \$200,111 (a reduction of \$757,103 in transfers in), after detecting an error in the initial calculation. The earned interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

⁵ In February 2021, the General Assembly authorized a transfer of up to \$324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The \$323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2021. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

¹ The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services cannot directly expend any receipted monies from the fund, as it could during the fiscal year ended June 30, 2020.

³ Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to \$750 million.

⁴ This appropriation's expenditures for the fiscal year ended June 30, 2021, are a placeholder intended for the State Emergency Management Federal Stimulus Fund's Department of Mental Health Staff Offering Support Program appropriation. SAM II adjustments to reflect this were not fully processed by February 2021. Once processed, this appropriation's authority and expenditures for the fiscal year ended June 30, 2021, will return to zero. This stipend appropriation was obsoleted in September 2020, when it was replaced by an equivalent stipend appropriation also in the State Emergency Management Federal Stimulus Fund.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

CITIZENS SUMMARY

Findings in the Comprehensive Annual Financial Report Report on Internal Control, Compliance, and Other Matters

Department of Revenue Financial Reporting Controls	The Department of Revenue does not have adequate controls and procedures over financial reporting of motor vehicle sales tax accounts receivable. As a result, net accounts receivable and related liability balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the <i>Missouri Comprehensive Annual Financial Report</i> for the year ended June 30, 2020, were overstated by at least \$292 million.
Department of Social Services Financial Reporting Controls	The Department of Social Services - Division of Finance and Administrative Services does not have adequate controls and procedures over financial reporting of accounts payable. As a result, accounts payable data submitted to the DOA for inclusion in the <i>Missouri Comprehensive Annual Financial Report</i> for the year ended June 30, 2020, was overstated by approximately \$17.5 million.

Because of the nature of this audit, no rating is provided.

State of Missouri - Comprehensive Annual Financial Report

Report on Internal Control, Compliance, and Other Matters

Introduction

Summary of Financial Statement Audit Results

We issued our audit report (Report No. 2021-006¹) of the state's Comprehensive Annual Financial Report (Annual Report), as of and for the year ended June 30, 2020, on February 25, 2021. The state's financial statements covered approximately \$47 billion in total assets and approximately \$31 billion in total expenses for state fiscal year 2020. Our report expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

In connection with the audit, we tested internal controls and compliance with laws and regulations. The results of our tests are contained herein in our Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*. We reported two findings related to internal control deficiencies. These findings were at the Department of Revenue and the Department of Social Services. We consider these findings to be a material weakness and a significant deficiency. The state agencies' responses to the findings are included in this report. The agencies prepared a Corrective Action Plan (CAP) for each finding. The CAPs were submitted to the Office of Administration (OA) and will be included in the Corrective Action Plans section of the State of Missouri - Single Audit Report, to be issued later.

The state agencies prepared and submitted to the OA the status of the prior audit findings. They will be presented in the Summary Schedule of Prior Audit Findings section of the State of Missouri - Single Audit Report.

¹ The Annual Report is available online at: <<https://oa.mo.gov/accounting/reports/annual-reports/comprehensive-annual-financial-reports>>.

NICOLE GALLOWAY, CPA

Missouri State Auditor

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Michael L. Parson, Governor
and
Members of the General Assembly

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the state's basic financial statements, and have issued our report thereon dated February 25, 2021. Our report expressed qualified opinions on the governmental activities and the General Fund, a major fund, because we were not allowed access to tax returns and related source documents for income taxes. Approximately 26 percent of governmental activity revenues and 31 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded. Our report expressed unmodified opinions on all remaining opinion units.

Our report on the state of Missouri's financial statements includes a reference to other auditors who audited the financial statements of:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Conservation Employees' Insurance Plan; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan which represent 71 percent of the assets and 11 percent of the revenues of the governmental activities.
2. The State Lottery, a major fund, and the Petroleum Storage Tank Insurance Fund which represent 16 percent of the assets and 35 percent of the revenues of the business-type activities.
3. The aggregate discretely presented component units.
4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation agency funds which represent 93 percent of the assets and 97 percent of the additions of the fiduciary funds.

This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

The financial statements of the Conservation Employees' Insurance Plan, the Missouri State Employees' Insurance Plan, and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board, the Missouri Agricultural and Small Business Development Authority, and the State Environmental Improvement Energy Resources Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the state of Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the state's internal control. Accordingly, we do not express an opinion on the effectiveness of the state's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying Schedule of Findings, we identified certain deficiencies in internal control that we consider to be a material weakness and a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the state's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings as finding number FS2020-001 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings as finding number FS2020-002 to be a significant deficiency.

Compliance and Other Matters

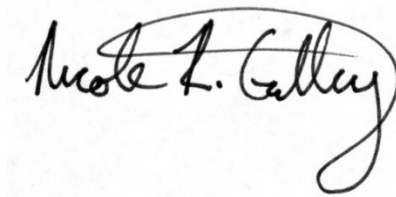

As part of obtaining reasonable assurance about whether the state of Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

State's Responses to the Findings

The state of Missouri's responses to the findings identified in our audit are described in the accompanying Schedule of Findings. The state's responses were not subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

State of Missouri - Comprehensive Annual Financial Report

Report on Internal Control, Compliance, and Other Matters

Schedule of Findings

FS2020-001.

Department of Revenue Financial Reporting Controls

The Department of Revenue (DOR) does not have adequate controls and procedures over financial reporting of motor vehicle sales tax accounts receivable. As a result, net accounts receivable and related liability balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the *Missouri Comprehensive Annual Financial Report* (Annual Report) for the year ended June 30, 2020, were misstated. If the misstatements had not been identified during the audit, net accounts receivable and related liability balances for governmental and agency funds would have been overstated by at least \$292 million in the Annual Report.

To determine and submit net accounts receivable and related liability balances for delinquent motor vehicle sales taxes to the DOA, the DOR - Administration Division first obtains reports totaling gross accounts receivable and the allowance for uncollectible accounts generated from the computerized Delinquent Fee system maintained by the DOR - Motor Vehicle and Driver Licensing Division. The Administration Division then allocates the gross accounts receivable and uncollectible amounts to certain governmental and agency funds. Our review and testing of the accounts comprising the gross accounts receivable and uncollectible amounts, and allocations of these amounts identified the following concerns.

- The Delinquent Fee system does not include complete and accurate data for some transactions; therefore, the accounts receivable reports generated from the system, and used to determine balances reported to the DOA, were inaccurate. Our testing of individual motor vehicle sales tax accounts receivable balances as of June 30, 2020, identified some accounts that included no local sales tax rate, and some accounts that had no or an incorrect vehicle purchase price recorded, resulting in inaccurate amounts due from taxpayers for state and local sales taxes.
- The gross accounts receivable amount was understated by approximately \$94 million because old accounts from fiscal years 1989 through 2011 were included in the allowance for uncollectible accounts report, but were not included in the gross accounts receivable report.
- The allowance for uncollectible accounts report was understated by at least \$386 million because the methodology for determining uncollectible amounts was not representative of actual historical collection activities. Our analysis of delinquent motor vehicle sales tax accounts receivable balances from fiscal years 2011 through 2020, noted there is minimal collection on delinquent amounts after the first year.
- The gross accounts receivable and uncollectible amounts were not properly allocated to the governmental and agency funds because no consideration was given for the portion related to local sales taxes. As a result, the gross accounts receivable and uncollectible amounts allocated

State of Missouri - Comprehensive Annual Financial Report
Report on Internal Control, Compliance, and Other Matters
Schedule of Findings

to the governmental funds were overstated and amounts allocated to the agency funds were understated.

Once these issues were identified and brought to the DOR's attention, the Administration Division made corrections to include previously omitted amounts in the gross accounts receivable amount, to revise the methodology for determining uncollectible amounts, and to correctly allocate the gross accounts receivable and uncollectible amounts for local sales taxes to the agency funds. The Administration Division submitted revised reports for the motor vehicle sales tax accounts receivable and related liability balances to the DOA. DOR officials indicated they will continue to reevaluate the calculations and methodologies going forward. Had the corrections not been made, the net accounts receivable and related liability amounts would have been overstated by at least \$292 million.

These misstatements relate to the net accounts receivable and related liability balances for several governmental and agency funds reported within various opinion units of the Annual Report. The DOA made corrections to the Annual Report prior to its completion and similarly restated year ended June 30, 2019, amounts.

It is essential the DOR establish controls and procedures to prepare and submit accurate accounts receivable balances to the DOA. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states management is responsible for the design, implementation, and operating effectiveness of the internal control system and that control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

Recommendation

The DOR implement controls and procedures to prepare and submit accurate motor vehicle sales tax accounts receivable reports to the DOA.

Auditee's Response

The DOR understands the auditor's finding. The DOR wants to reassure our customers that the finding does not have any effect on them or result in any added cost to them. Our Corrective Action Plan includes our planned actions to address the finding.

FS2020-002. Department of Social Services Financial Reporting Controls

The Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS) does not have adequate controls and procedures over financial reporting of accounts payable. As a result, accounts payable data submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the *Missouri Comprehensive Annual Financial Report* (Annual Report) for the year ended June 30, 2020, was misstated. If the misstatement had not been identified during the audit,

State of Missouri - Comprehensive Annual Financial Report
Report on Internal Control, Compliance, and Other Matters
Schedule of Findings

accounts payable would have been overstated by approximately \$17.5 million in the Annual Report.

To compile the accounts payable balances for the Annual Report, the DOA provides the DFAS a statewide accounting (SAM II) system report of transactions coded as year-end accounts payable. DFAS personnel review the transactions and supporting documentation, and prepare and submit to the DOA a report of additional accounts payable. This report includes adjustments to the SAM II system report, plus accounts payable balances associated with non-SAM II transactions.

The DFAS has not documented the process, procedures, or internal controls for reporting accounts payable data to the DOA. In addition, during the audit, DFAS personnel had difficulties explaining the procedures performed and locating documentation supporting the year ended June 30, 2020, additional accounts payable report. DFAS personnel stated the report was prepared by a different employee than in previous years, the employee resigned, and complete documentation was not retained.

For the year ended June 30, 2020, the DFAS identified transactions totaling approximately \$8.74 million incorrectly coded in the SAM II system that were included in the SAM II system accounts payable report. Rather than reporting a negative adjustment to subtract these transactions from the accounts payable balances, the DFAS incorrectly made a positive adjustment, causing the additional accounts payable reported to the DOA to be overstated by approximately \$17.5 million. This error was not detected in the DSS supervisory review of the additional accounts payable report. After our inquiries, DFAS personnel submitted to the DOA a revised additional accounts payable report.

It is essential the DFAS establish controls and procedures to prepare and submit accurate accounts payable reports to the DOA. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states management is responsible for the design, implementation, and operating effectiveness of the internal control system and that control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

Recommendation

The DSS through the DFAS implement controls and procedures to prepare and submit accurate accounts payable reports to the DOA.

Auditee's Response

The DSS agrees with this finding. The DSS had a transition of staff during the timeframe for completing the accounts payable reports. The DSS is currently in the process of developing and formalizing written policies and procedures

State of Missouri - Comprehensive Annual Financial Report
Report on Internal Control, Compliance, and Other Matters
Schedule of Findings

for preparing accounts payable reports. New team members responsible for report preparation will receive training by the Accounts Payable Manager or his/her designee.

Regarding the supervisory review, the review occurred and it was determined the accounts payable report was within a reasonable range of normal submission.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 20 political subdivisions required to file a financial report by February 28, 2021, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in February 2021, after their filing deadline. The filing status for these 12 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name and title.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

February 2021

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 20 political subdivisions, other than cities, towns, and villages, with a fiscal year end of August 31, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 20 political subdivisions, 12 filed an annual financial report timely.

This report also includes the filing status for 12 political subdivisions, other than cities, towns, and villages, that filed their financial report in February 2021, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by February 28, 2021, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 6 cities, 1 town, and 4 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in February 2021, after their filing deadline. The filing status for these 19 cities, 1 town, and 3 villages is presented in summary on page 4 and by individual entity in Appendixes B to D.

Monthly Report on Municipal Court and Revenue Filings

February 2021

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 6 cities, 1 town, and 4 villages with a fiscal year end of August 31, 2020, whose financial report was due by February 28, 2021. Of the 11 municipalities, 6 filed the financial report timely. Of the 9 municipalities required to file an addendum, 4 filed timely. Of the 3 municipalities required to file a certification, 1 filed the certification timely.

Monthly Report on Municipal Court and Revenue Filings
February 2021
Executive Summary

This report includes the filing status for 19 cities, 1 town, and 3 villages that filed at least one of the items (financial report, addendum, or certification) in February 2021, after their filing deadline. Of these municipalities, 20 filed an annual financial report, 4 filed an addendum, and 3 filed a certification.

C	Law Enforcement Agencies Not Filing a 2020 ACA Form - Equitable Sharing Agreement and Certification	15

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to file a copy of the federal form entitled "ACA Form - Equitable Sharing Agreement and Certification" regarding federal seizures and the proceeds therefrom to the State Auditor's Office. Although Section 513.653.1, RSMo, only requires my office to receive these reports, we compiled the information the law enforcement agencies filed with us. We have not audited the forms submitted and, accordingly, do not express an opinion or any other form of assurance on them, including whether or not an agency is in compliance with the statute. The primary objectives of this compilation were to:

1. Identify the reporting status of law enforcement agencies.
2. Summarize the information reported.

Conclusions regarding compliance cannot be made for law enforcement agencies that did not submit a form.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits: Kelly Davis, M.Acct., CPA, CFE
Senior Analyst: Jill Wilson, MBA

Compilation of 2020 Federal Forfeiture Reports

Executive Summary

Executive Summary

Section 513.653, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to annually file a copy of the federal form entitled "ACA Form - Equitable Sharing Agreement and Certification" regarding federal seizures and the proceeds received therefrom with the State Auditor's Office (SAO) by February 15th for the previous calendar year. The law provides that any law enforcement agency that intentionally or knowingly fails to comply with the reporting requirement shall be ineligible to receive state or federal funds that would otherwise be paid to such agency for law enforcement, safety, or criminal justice purposes.

The U.S. Departments of Justice and Treasury publication, *Guide to Equitable Sharing for State, Local, and Tribal Law Enforcement Agencies*, states "the Department of Justice and Department of Treasury Asset Forfeiture Programs are, first and foremost, law enforcement programs. They remove the tools of crime from criminal organizations, deprive wrongdoers of the proceeds of their crimes, recover property that may be used to compensate victims, and deter crime." Any state or local law enforcement agency that directly participates in an investigation or prosecution resulting in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. Equitably shared funds must be used for law enforcement purposes, except as noted in the publication, and must increase or supplement the resources of the receiving law enforcement agency. In addition to reporting requirements under state law, there are also various program mandated accounting, reporting, and audit requirements.

To determine the law enforcement agencies to notify of the required filing with the SAO, we requested information from the Missouri Department of Public Safety (DPS). The DPS compiled a list of law enforcement agencies using information from the Peace Officer Standards and Training program and the Justice Assistance Grants distribution lists. The SAO notified the listed agencies of the requirement to submit a copy of the required form if the agencies participated in the federal forfeiture system. According to DPS personnel, the list does not represent a complete list of all agencies, but includes all agencies with commissioned officers or drug task forces receiving funding from the DPS.

The list we received from the DPS included 671 agencies. Officials from 2 political subdivisions associated with agencies on the list indicated those agencies were not in operation during 2020. Those agencies are identified on Appendix C. This report indicates agencies that filed copies of the form by February 28, 2021.

Compilation of 2020 Federal Forfeiture Reports Executive Summary

The following table summarizes these reports.

Reporting Status	Number	Percentage
Number of agencies reporting (Appendix A and B)	146	21.76
Number of agencies not reporting (Appendix C)	525	78.24
Total Possible Reports	671	100.00

A total of 146 agencies filed a copy of the federal form with the SAO. These agencies are identified on Appendixes A and B.

Of the 671 agencies included in the list provided by DPS, 525 did not provide a copy of the form. Agencies were not required to provide a copy of the form if they did not participate in the federal forfeiture system. These agencies are identified on Appendix C.

Conclusions regarding compliance cannot be made for non-reporting agencies. This compilation work is not an audit and, as such, no verification was performed as to whether these agencies did or did not participate in the federal forfeiture system.

Note: This appendix shows the categories on the Annual Certification Report section of the ACA Form - Equitable Sharing Agreement and Certification and what each agency reported.

- A The agency submitted a copy of the form after the February 15, 2021 deadline.
- B The agency's form reported no activity in the Justice Funds section of the annual certification.
- C The agency filed a 2019 form after February 29, 2020.
- D The ending balance from 2019 does not agree with the beginning 2020 balance.
- E The agency did not file a form in 2019, but has a beginning balance in 2020.
- F The agency marked through data that was on the form filed with the federal government and wrote in a new value. We have reported the information as it was filed with the federal government.

A Officials from the political subdivision reported this law enforcement agency did not operate in 2020.

B The law enforcement agency reported an ending balance for 2019, but did not file a report for 2020.

* The law requires filing if an agency participates in the federal forfeiture system. If these agencies did not participate, the lack of filing a report does not constitute noncompliance.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of January 2021 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In January, the state spent \$29 million from federal COVID-19 assistance (Appendix A). Through the end of January, the state has received \$3.68 billion and spent \$2.29 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$402 million) and funding passed through to counties and the City of St. Louis (\$521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, and other disaster relief purposes.

Federal Funding for COVID-19 Response

January 2021

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of January 31, 2021, approximately \$18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
January 2021
Executive Summary

- Not charge premiums that exceed those that were in place as of January 1, 2020.
- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of January 31, 2021, approximately \$36.2 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population. In early July, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

⁴ U.S. Department of the Treasury, *Coronavirus Relief Fund Guidance for State, Territorial, Local, and Tribal Governments*, September 2, 2020,

Federal Funding for COVID-19 Response
January 2021
Executive Summary

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
 - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
 - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.
4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:

Federal Funding for COVID-19 Response
January 2021
Executive Summary

- Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
 - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
 - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
- Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government.

⁵ U.S. Department of the Treasury, *Coronavirus Relief Fund Frequently Asked Questions*, p.14, October 19, 2020, <<https://home.treasury.gov/system/files/136/Coronavirus-Relief-Fund-Frequently-Asked-Questions.pdf>>, accessed October 30, 2020.

Federal Funding for COVID-19 Response
January 2021
Executive Summary

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to June 30, 2021. At January 31, no transferred funds remained outstanding.

Under the CARES Act, the state has also been awarded as of January 31, 2021, approximately \$3.35 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has also been awarded as of January 31, 2021, approximately \$2.2 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding.

In January, the state spent \$29 million from federal COVID-19 assistance (Appendix A). Through the end of January, the state has received \$3.68 billion and spent \$2.29 billion from this assistance. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$402 million) and funding passed through to counties and the City of St. Louis (\$521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendix C.

Federal Budget Stabilization Fund ³	0	0	13,015,145	78,090,861	0	65,075,716
Total all Funds	\$ 932,749,291	402,214,569	29,067,424	78,090,861	4,189,753	1,379,797,544

¹ During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, in January 2021 the SOS had to use this fund again because the SOS received refunds of \$116,321 in unspent awards previously issued to subrecipients during the fiscal year ending June 30, 2020. The refunds reduce previous disbursements, and will be returned to the federal government. Additional refunds are anticipated in February and March 2021.

² For the fiscal year ended June 30, 2021, this fund was only authorized an appropriation to transfer up to \$158 million in receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Through December 2020, \$158 million was transferred from this fund to the General Revenue Fund. The transfers used federal COVID-19 funding to reimburse expenditures that were previously incurred using state funds in the General Revenue Fund. In the interest of displaying the net effect of these transfers, which ultimately represented use of COVID-19 funding, we reclassified them from transfers out to disbursements in this statement. In January 2021, all \$158 million was transferred back to this fund. Of that amount, \$78,090,861 was then transferred to the Federal Budget Stabilization Fund (see footnote 3), leaving \$79,909,139 in this fund (reclassified as negative disbursements) for potential future transfers. The Department of Social Services is awaiting further legislative decision items or accounting transfers to use \$246,696,777, the portion of the remaining fund balance that exceeds the \$158 million transfer limit. Transfer activity does not appear under the FMAP Enhancement Fund in Appendix C.

³ The \$78,090,861 transferred to this fund from the FMAP (Federal Medical Assistance Percentage) Enhancement Fund (see footnote 2) enables the Department of Higher Education and Workforce Development (DHEWD) to support various universities. The \$13,015,145 in January 2021 disbursements are the first of 6 monthly payments through June 2021 and related appropriations are listed in Appendix C. While the disbursements are not necessarily made for COVID-19 purposes, we present them in this statement because the transfer originates from the FMAP Enhancement Fund, whose receipts reflect COVID-19 related funding sources. The legislature considers the presented Federal Budget Stabilization Fund's transfer and disbursements as a supplement to the General Revenue Fund. The intent of the transfer was to partially restore General Revenue reductions the legislature previously imposed in the DHEWD's fiscal year 2021 budget. This intent is corroborated by the reimbursement nature of disbursements within the FMAP Enhancement Fund. Revenue from federal reimbursements for state expenditures from the General Revenue Fund would not be restricted as to how the legislature could choose to spend it.

Federal Budget Stabilization Fund ⁴	0	13,015,145	78,090,861	0	65,075,716
Total all Funds	\$ 3,677,332,089	2,286,319,974	344,731,266	355,945,837	1,379,797,544

¹ During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, in January 2021 the SOS had to use this fund again because the SOS received refunds of \$116,321 in unspent awards previously issued to subrecipients during the fiscal year ending June 30, 2020. The refunds reduce previous disbursements, and will be returned to the federal government. Additional refunds are anticipated in February and March 2021.

² For the fiscal year ended June 30, 2021, this fund was only authorized an appropriation to transfer up to \$158 million in receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Through December 2020, \$158 million was transferred from this fund to the General Revenue Fund. The transfers used federal COVID-19 funding to reimburse expenditures that were previously incurred using state funds in the General Revenue Fund. In the interest of displaying the net effect of these transfers, which ultimately represented use of COVID-19 funding, we reclassified them from transfers out to disbursements in this statement. In January 2021, all \$158 million was transferred back to this fund. Of that amount, \$78,090,861 was then transferred to the Federal Budget Stabilization Fund (see footnote 3), leaving \$79,909,139 in this fund (reclassified as negative disbursements) for potential future transfers. The Department of Social Services is awaiting further legislative decision items or accounting transfers to use \$246,696,777, the portion of the remaining fund balance that exceeds the \$158 million transfer limit. Transfer activity does not appear under the FMAP Enhancement Fund in Appendix C.

³ The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earns, must be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred \$250 million in May 2020, and repaid the full \$250 million plus \$957,214 in earned interest in December 2020. The earned interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 purposes. The OA identified an error in the interest calculation in February and made corrections adjusting the interest repaid to \$200,111 that month.

⁴ The \$78,090,861 transferred to this fund from the FMAP (Federal Medical Assistance Percentage) Enhancement Fund (see footnote 2) enables the Department of Higher Education and Workforce Development (DHEWD) to support various universities. The \$13,015,145 in January 2021 disbursements are the first of 6 monthly payments through June 2021 and related appropriations are listed in Appendix C. While the disbursements are not necessarily made for COVID-19 purposes, we present them in this statement because the transfer originates from the FMAP Enhancement Fund, whose receipts reflect COVID-19 related funding sources. The legislature considers the presented Federal Budget Stabilization Fund's transfer and disbursements as a supplement to the General Revenue Fund. The intent of the transfer was to partially restore General Revenue reductions the legislature previously imposed in the DHEWD's fiscal year 2021 budget. This intent is corroborated by the reimbursement nature of disbursements within the FMAP Enhancement Fund. Revenue from federal reimbursements for state expenditures from the General Revenue Fund would not be restricted as to how the legislature could choose to spend it.

¹ The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services cannot directly expend any receipted monies from the fund, as it could during the fiscal year ended June 30, 2020.

³ Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to \$750 million.

⁴ This appropriation's expenditures for the fiscal year ended June 30, 2021, are a placeholder intended for the State Emergency Management Federal Stimulus Fund's Department of Mental Health Staff Offering Support Program appropriation. SAM II adjustments to reflect this were not fully processed by January 2021. Once processed, this appropriation's authority and expenditures for the fiscal year ended June 30, 2021, will return to zero. This stipend appropriation was obsoleted in September 2020, when it was replaced by an equivalent stipend appropriation also in the State Emergency Management Federal Stimulus Fund.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Forsyth

Missing Money	Cash utility deposits totaling \$2,000 were received, but not deposited, and cash receipts totaling \$1,403 were stolen from the city's vault.
Untimely and Questionable Utility Deposits	Utility deposits, totaling \$6,400, were not deposited until long after activation of utility services.
Accounting Controls and Procedures	The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the former Utility Clerk, City Clerk, and Finance Officer. The city's procedures for receipting, transmitting, recording, depositing, refunding, and reconciling money collected is poor. Physical controls over receipts and city keys need improvement.
Utility System Controls and Procedures	City personnel do not prepare proper reconciliations related to utility services. The city is not following its service shut off ordinance. The city does not have an ordinance regarding partial payments by customers who have delinquent accounts, and customers are allowed to make partial payments without entering into a written payment agreement and without Board approval. The city does not have adequate procedures to pursue collection of accounts receivable.
Electronic Data Security	The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to the city computers and data. Effective security controls are not in place to lock computers after a certain period of inactivity. The city does not store data backup files at an off-site location.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Forsyth, Missouri

We have audited certain operations of the City of Forsyth as they relate to the city's finances in fulfillment of our duties under Chapter 29, RSMo. Due to the concerns regarding missing money and untimely deposits, the State Auditor initiated the audit with the approval of the City of Forsyth Board of Aldermen. In addition, the City of Forsyth engaged KPM CPAs & Advisors to audit the City of Forsyth financial statements for the year ended August 31, 2019. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the period April 1, 2018, through March 31, 2020. The objectives of our audit were to:

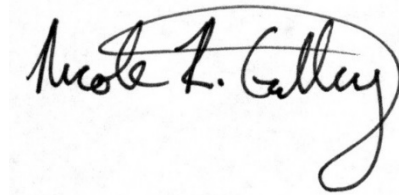

1. Evaluate the city's internal controls over significant management and financial functions.
2. Evaluate the city's compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.
4. Determine the extent of missing money from the city, if any.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal controls that are significant within the context of the audit objectives and assessed the design and implementation of such internal controls to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) missing money totaling at least \$3,403. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Forsyth.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with a large loop at the end of the last name.

Nicole R. Galloway, CPA
State Auditor

Audit Staff:	Kyle D. Goodin, MAcc, CFE

City of Forsyth

Introduction

Background

The former Utility Clerk, Carla Combs, began employment on September 4, 2018, and served until December 2, 2019. The City Clerk, Cheyenne Beasley, began employment on April 15, 2002, and remains employed by the city. The Finance Officer, Angela Leist, began employment on December 17, 2012, and remains employed by the city. These three employees were responsible for financial accounting functions and records of the city, including receipting, transmitting, and recording payments received, preparing and making deposits, and performing bank reconciliations as noted below.

- Receipting, transmitting, and recording - The former Utility Clerk, City Clerk, and Finance Officer collected and receipted all money collected by the city. They transmitted the money to the applicable employee responsible for recording the type of payment received. The former Utility Clerk recorded utility payments and utility deposits. New customers were required to pay a \$100 refundable utility deposit for residential and \$200 refundable utility deposit for businesses before receiving services. The former Utility Clerk also assisted the Finance Officer with recording court payments from April 2019 through November 2019. The City Clerk recorded park fees, building permits, dog licenses, and miscellaneous city receipts, and assisted the former Utility Clerk in recording utility payments and deposits.
- Depositing - The former Utility Clerk, City Clerk, and Finance Officer prepared bank deposits. The former Utility Clerk prepared the deposits for utility payments and utility deposits. The City Clerk prepared the deposits for park fees, building permits, dog licenses, and miscellaneous city receipts. The Finance Officer and the former Utility Clerk prepared the deposits for court receipts. The former Utility Clerk primarily took all deposits to the bank.
- Reconciling - The former Utility Clerk and City Clerk reconciled the daily receipt report generated from the city's electronic accounting and utility systems to deposit slips. The Finance Officer reconciled the deposit slips to the bank statements and reconciled all city bank accounts.

On October 15, 2019, city officials reported a burglary from the city's vault to the Taney County Sheriff's office. The Taney County Sheriff's office investigation determined \$1,403 of recorded cash receipts were missing from the vault. On November 27, 2019, discrepancies relating to 2 cash utility deposits were discovered by city officials and reported to the Taney County Sheriff's office on December 2, 2019. The Sheriff's investigation of the theft is ongoing.

On November 27, 2019, the Board of Aldermen voted by phone to terminate the former Utility Clerk due to poor accounting practices and inability to handle job duties. The Board reaffirmed the November 27, 2019, phone vote

City of Forsyth Introduction

to terminate the former Utility Clerk in a Board meeting on December 4, 2019.

In December 2019, the Taney County Sheriff's office contacted the State Auditor's Office (SAO) and requested assistance in reviewing discrepancies and accounting regularities related to utility deposits and billings. The SAO conducted an initial review of these matters in January 2020, under Section 29.221, RSMo. After review of the documentation and communications provided, the SAO determined further investigation was warranted under Section 29.221, RSMo.

In January 2020, the Board sent a letter and a copy of the resolution authorizing an audit of utility deposits and billing records from September 2018 through November 2019. In March 2020, the SAO agreed to conduct this audit but advised the city that *Government Auditing Standards* may require that procedures extend beyond the scope specified in the ordinance. In March 2020, the Board accepted the change in scope of the audit suggested by the SAO, and the audit began in April 2020.

The SAO issued subpoenas to the former Utility Clerk, the City Clerk, and the Finance Officer (see Appendixes A, B, and C) to compel them to produce records and documents related to their testimonies. Appendixes A through C include redactions. These redactions are of home addresses and bank account information.

The city's fiscal year is September 1 through August 31. The scope of our audit included, but was not necessarily limited to the period April 1, 2018, through March 31, 2020. We applied procedures to city receipts, utility billings, and municipal division transactions to identify the amount of missing money and methods used to perpetrate and conceal the theft. We also obtained information, regarding the former Utility Clerk's personal bank account, from the Taney County Sheriff's office.

City of Forsyth

Management Advisory Report

State Auditor's Findings

1. Missing Money

Cash utility deposits totaling \$2,000 were received, but not deposited, and cash receipts totaling \$1,403¹ were stolen from the city's vault. An additional \$6,400 of utility deposits were not deposited timely and appear questionable (see MAR finding number 2).

The lack of adequate controls and the absence of proper oversight, as discussed throughout this report, resulted in the missing money going undetected.

Undeposited utility deposits

Between May 2019 and November 2019, the former Utility Clerk did not deposit \$2,000 of recorded utility deposits (see Appendix D).

We compared manual receipt slips issued for utility deposits to utility deposits recorded in the utility system and to bank deposits to determine the amount of undeposited utility deposits. City records indicated the former Utility Clerk set up 20 new customers accounts and activated utility service in the utility system; however, the related utility deposits received totaling \$2,000 (\$100 each) were not recorded in the utility system or deposited. All of these utility deposits were paid in cash. Most utility deposits paid by check around the date of these cash receipts were deposited timely.

During a recorded interview with the former Utility Clerk, she indicated she was responsible for setting up new customers and activating service in the utility system, recording utility deposits in the utility system, preparing the related deposit slips, and depositing the utility deposits in the city's bank account. The former Utility Clerk also indicated in the same recorded interview that she could not explain why the utility deposits were not deposited, but felt responsible for the money.

Theft from city hall

City officials reported a theft of \$1,403 cash from the city's vault to the Taney County Sheriff's office on October 15, 2019 (see Appendix E). City officials found the vault opened with a master key,² which went missing sometime in August 2019, from the City Clerk's desk drawer (see MAR finding number 3.3). The City Clerk indicated in a recorded interview that she reported the missing key to the former Police Chief sometime in August 2019; however, city officials did not have the city hall or the vault locks changed.

The missing cash consisted of \$1,341 of municipal court receipts collected on Thursday, October 10, 2019, and a \$62 utility payment collected on Friday, October 11, 2019. The city was closed Monday, October 14, 2019, in

¹ The amount presented in the report finding is rounded to the nearest dollar. The amount presented in the report appendix is not rounded.

² The key was in the lock when the theft was found. The master key is designated with a specific number.

City of Forsyth
Management Advisory Report - State Auditor's Findings

observation of Columbus Day. The city's electronic accounting system and the former Utility Clerk indicated in a recorded interview she recorded the \$1,341 of municipal court receipts in the city's electronic accounting system on Friday, October 11, 2019. The former Utility Clerk also prepared the utility payment deposit and deposit slip. During a recorded interview, the former Utility Clerk indicated that she placed the deposit bag and money drawer in the vault and was the last clerk to leave city hall on Friday, October 11, 2019.

Recommendation

The Board of Aldermen continue to work with law enforcement officials on criminal prosecution regarding the undeposited utility deposits and stolen money; and take the necessary actions to obtain restitution.

Auditee's Response

The Board of Aldermen will continue to work with law enforcement officials regarding criminal prosecution and take necessary actions to obtain restitution.

2. Untimely and Questionable Utility Deposits

Numerous utility deposits were not deposited until long after activation of utility services. During the period November 2, 2018, through October 16, 2019, 64 utility deposits totaling \$6,400 were deposited between 20 and more than 121 days after activation of utility services and the timing of the deposits appears questionable (see Appendix F). Eighty-eight percent (\$5,600) of these untimely and questionable utility deposits were paid in cash. During a recorded interview, the former Utility Clerk indicated her procedures included depositing utility deposits the day of activation of utility services.

The following table provides information on the 64 utility deposits not deposited until after activation of utility services:

Time Period Deposited After Utility Services Activated	Number of Utility Deposits	Total Utility Deposits	Cash Utility Deposits	Check Utility Deposits
20 to 30 days	7	\$ 700	100	600
31 to 60 days	15	1,500	1,300	200
61 to 90 days	16	1,600	1,600	0
91 to 120 days	24	2,400	2,400	0
Over 121 days	2	200	200	0
Total	64	\$ 6,400	5,600	800

When the former Utility Clerk was asked in a recorded interview, why these utility deposits were not deposited, she indicated she did not know and could not remember.

In addition, on the morning of November 27, 2019, the Finance Officer and City Clerk discovered that two utility deposits paid with cash totaling \$200, that should have been on hand, were missing from the utility deposit receipt

City of Forsyth
Management Advisory Report - State Auditor's Findings

book and former Utility Clerk's desk drawer. The City Clerk indicated in a recorded interview that she asked the former Utility Clerk if the money could have fallen behind her desk and about an hour later when the desk was moved, the former Utility Clerk found one of the utility deposits behind her desk. The other \$100 utility deposit was not located at that time.

According to the City Clerk and Finance Officer, later, at approximately noon, the former Utility Clerk left city hall to go to the post office. According to the City Clerk in a recorded interview, shortly after the former Utility Clerk returned, the former Utility Clerk asked if anyone had looked in the recycle bin for the missing \$100 cash utility deposit. The City Clerk and the former Utility Clerk subsequently looked in the recycle bin, and the City Clerk discovered two \$50 bills (the other missing \$100 utility deposit). According to the City Clerk, this money appeared to have been "placed" on the side of the recycle bin and did not appear to have fallen in the recycle bin. During a recorded interview with the former Utility Clerk, auditors asked if the former Utility Clerk went to the bank on November 27, 2019, when she went to the post office, and the former Utility Clerk indicated she did not go to the bank that day. However, personal bank records of the former Utility Clerk indicate she cashed a personal check for \$100 at approximately 12 p.m. on November 27, 2019, and the bank provided her 2, \$50 bills for the withdrawal.

The untimely deposits of utility deposits and the 2 missing utility deposits identified on November 27, 2019, are questionable and give the appearance that these receipts may have been taken from the city and subsequently returned and deposited by the former Utility Clerk.

Recommendation

The Board of Aldermen should continue to work with law enforcement officials on criminal prosecution regarding the untimely and questionable utility deposits.

Auditee's Response

The Board of Aldermen will continue to work with law enforcement officials regarding criminal prosecution and take necessary actions to obtain restitution.

3. Accounting Controls and Procedures

Accounting controls and procedures need improvement. City personnel collect utility payments, utility deposits, court fines and costs, merchant licenses, building permits, dog licenses, park fees, and other miscellaneous fees. During the year ended August 31, 2019, city receipts totaled approximately \$963,000.

3.1 Oversight and segregation of duties

The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the former Utility Clerk, City Clerk, and Finance Officer. The former Utility Clerk, City Clerk, and Finance Officer each receipted, recorded, and prepared deposits for money collected. The former Utility Clerk also made deposits.

City of Forsyth
Management Advisory Report - State Auditor's Findings

Weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and proper oversight that led to the missing money and the untimely and questionable utility deposits discussed in MAR findings number 1 and 2.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary.

3.2 Receipting, recording, transmitting, depositing, reconciling, and refunding

The city's procedures for receipting, transmitting, recording, depositing, refunding, and reconciling money collected is poor. During our review of city records during the period of September 1, 2018, through March 31, 2020, we identified the following concerns:

Receipting and recording

- Manual receipt slips were not issued for all money recorded in the computerized accounting system. City procedure has been to issue a manual receipt slip for all payments collected except for utility payments where the utility stub is used as proof of payment. The City Clerk, former Utility Clerk, and Finance Officer did not issue manual receipt slips for 75 transactions totaling \$4,203, including \$1,528 for park fees, \$1,400 for utility deposits, and \$1,275 for other miscellaneous fees.
- The City Clerk, former Utility Clerk, and the Finance Officer did not account for the numerical sequence of manual receipt slips issued for utility deposits, park fees, and dog licenses/impound fees.
- The City Clerk, former Utility Clerk, and Finance Officer did not manually receipt or record 43 deposits totaling \$133,185 into the receipting module of the computerized accounting system. The Finance Officer instead recorded these deposits in the accounting system using journal entries. Most of these deposits were for payments received by mail related to a school resource officer contract and insurance claim reimbursements.

Recording

- The City Clerk, former Utility Clerk, and Finance Officer did not timely record 81 transactions totaling \$7,776 in the computerized accounting system, which included court, park, miscellaneous, and utility deposit receipts. For example, a \$96 court payment receipted on January 30, 2020, was not recorded in the accounting system until February 10, 2020; a \$20 park services payment receipted on April 23, 2019, was not recorded in the accounting system until October 24, 2019; an \$80 dog impound fee receipted on October 23, 2018, was not recorded in the accounting system until February 26, 2019; and a \$100 utility deposit

City of Forsyth
Management Advisory Report - State Auditor's Findings

received on February 25, 2019, was not recorded in the accounting system until April 22, 2019.

Transmitting

The City Clerk, former Utility Clerk, and Finance Officer transmitted various types of city receipts collected to each other; however, no documentation of the transmittal of this money between employees was prepared.

Depositing and reconciling

- Manual receipt slips issued for payments received are not reconciled to daily receipt reports and deposits, and utility deposits are held and not deposited until the customer's utility service is activated. As a result, as noted in MAR findings number 1 and 2, utility deposits were not deposited and some utility deposits were not deposited timely or intact.

The City Clerk indicated in a recorded interview that utility deposits are held and not deposited until utility service is activated because the computerized utility system will not allow money to be receipted on accounts not activated. However, these receipts should be deposited timely and intact regardless of the utility system's restrictions.

- Payments collected for park services, the municipal court, and other miscellaneous fees were also not deposited timely. Payments receipted, but not deposited timely included 19 for park services totaling \$1,085, 13 for the municipal court totaling \$813, and 3 for miscellaneous fees totaling \$245. For example, 3 receipts totaling \$300 receipted on September 9, 2019, were not deposited until September 25, 2019. The City Clerk indicated that because the amounts were generally small they were deposited at varying times.
- The city did not have procedures to reconcile business licenses issued and fees collected to amounts deposited. A list of business licenses issued is maintained and business licenses are prenumbered, but the list and licenses are not reconciled to fees collected and amounts deposited. Business license fees deposited totaled \$5,781 during the period September 1, 2018, through March 31, 2020.
- The city does not maintain adequate records for campground rental fees, and as a result, city officials cannot ensure all money collected is accounted for and deposited. The city deposited \$8,630 for campground rental fees during the period September 1, 2018, through March 31, 2020.

The city operates a campground site between April and October each year. Park attendants collect camp fees and the city uses a drop box for campers to make payments, when the attendants are not on duty. Park attendants transmit camp fees collected to the City Clerk, and city public works employees collect camp fees from the drop box and transmit them to the City Clerk. The city does not keep a record of camp fees collected

City of Forsyth Management Advisory Report - State Auditor's Findings

and does not try to reconcile the camp site rental charges to the collections.

Transmitting

Utility deposit refunds are not always made by check. Instead, if the account has not been activated, the refund is given in the manner the utility deposit was received by the customer (the customer's check, money order, or cash is returned). The city refunded 5, \$100 utility deposits during the time period reviewed.

Conclusion

Failure to implement adequate receipting, recording, transmitting, depositing, refunding, and reconciling procedures increases the risk that loss, theft, or misuse of money will go undetected and accounting records will contain errors.

3.3 Physical controls

Physical controls over receipts and city keys need improvement. City officials maintain utility deposits in a receipt book stored in the former Utility Clerk's unlocked desk drawer until deposited and payments received for dog licenses, park services, and other miscellaneous fees in envelopes in the City Clerk's unlocked desk drawer. As a result, various city employees have access to the money on hand.

In addition, the City Clerk maintained a master³ key to city hall in an unlocked desk drawer, and as a result, various city employees had access to the master key. As previously noted, the City Clerk reported the master key missing in August 2019, and the key was used to access the city vault in October 2019, when city receipts were stolen. City officials failed to change the locks at city hall or the vault after the key was reported missing.

To safeguard against possible loss or misuse of city funds and assets, receipts and master keys should be maintained in a secure location.

Recommendations

The Board of Aldermen:

- 3.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.
- 3.2 Ensure all receipts are deposited timely and intact, receipt slips and licenses issued are reconciled to the computerized systems and deposits, all refunds are made by check, prenumbered receipt slips are issued for all payments received, all payments received are timely recorded in the computerized systems, the numerical sequence of receipt slips is accounted for, transmittals of money between

³The master key unlocks all exterior and interior city hall doors and the vault.

City of Forsyth
Management Advisory Report - State Auditor's Findings

employees are documented, and adequate records of campground fees are maintained.

3.3 Maintain money collected and keys in a secure location and change the locks at applicable city properties when keys are lost.

Auditee's Response

3.1 *The city will segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.*

3.2 *Procedures have been put in place to ensure all receipts are recorded in the computerized system and deposited in a timely and intact manner; receipt slips and licenses issued are reconciled to computerized systems and bank deposits; prenumbered receipts are issued for all payments received and all refunds are made by check; the numerical sequence of receipt slips will be verified; transmittals of money between employees are initialed; and adequate records of campground fees are maintained.*

3.3 *Monies collected and keys are kept in a secure location. If keys are lost, locks will be changed.*

4. Utility System Controls and Procedures

Utility system controls and procedures need improvement. According to the city's audited financial statements, the city collected approximately \$898,000 for water, sewer, and trash service during the year ended August 31, 2019.

4.1 Utility reconciliations

City personnel do not prepare proper reconciliations related to utility services. The former Utility Clerk did not perform monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services. Such reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected timely.

In addition, the Public Works Supervisor did not perform monthly reconciliations of total gallons of water billed to gallons of water pumped. This reconciliation is necessary to help detect significant water loss or other problems and ensure all water usage is properly billed.

4.2 Shut off procedures

The city is not following its service shut off ordinance. Utility bills are printed and mailed on the last business day of the month with payment due by the 20th of the following month. The Board established an ordinance to shut off water service to any customer whose bill has not been paid by the last day of the month following services rendered. However, the city does not notify customers of a service shut off until after they are delinquent for 2 billing cycles.

City of Forsyth Management Advisory Report - State Auditor's Findings

To help maximize utility revenues, procedures should be developed to ensure utility service is shut off in accordance with city ordinances. If the Board intends for current practices to continue, ordinances should be revised.

4.3 Partial payments

The city does not have an ordinance regarding partial payments by customers who have delinquent accounts, and customers are allowed to make partial payments without entering into a written payment agreement and without Board approval. Currently, if an account is delinquent, and scheduled for shut off, the city allows payment of the past due portion or half of the total bill due to prevent the shut off.

An ordinance is necessary to establish and document the process to determine when payment agreements are allowed, how the payment amount is to be established, and the approval process for these arrangements. In addition, a signed written payment agreement is necessary to indicate the intent of the customer to pay the outstanding balance and to aid in accounting for and collection of amounts due.

4.4 Accounts receivable procedures

The city does not have adequate procedures to pursue collection of accounts receivable. City officials do not pursue collection of accounts more than 90 days past due. As of January 21, 2021, the city's utility billing trial balance report indicated accounts with balances more than 90 days past due totaled \$48,058.

According to the Finance Officer, many of these old accounts belonged to renters making it difficult to collect. In addition, the Board does not adequately monitor accounts receivable and determine which accounts are uncollectible. The city has not written off bad debts since 2013, and does not have written policies for either the collection or write off of old accounts.

The city should use all available means to collect amounts owed from tenants of these properties. Good business practices require establishment of adequate collection procedures to ensure accounts are collected timely and bad debts are kept to a minimum. To ensure revenues of the utility system are maximized, the city should start holding property owners liable for outstanding accounts, when applicable.

Recommendations

The Board of Aldermen:

- 4.1 Ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and of gallons of water billed to gallons pumped, and significant differences are investigated.
- 4.2 Ensure utility accounts are shut off in accordance with the established city ordinance or modify the ordinance to current practices.

City of Forsyth
Management Advisory Report - State Auditor's Findings

- 4.3 Discontinue allowing collection of partial payments or establish an ordinance outlining the procedures allowing customers to make partial payments. Ensure the procedures include preparation of a written payment agreement with each customer making partial payments.
- 4.4 Periodically review detailed accounts receivable records and take action to collect on delinquent accounts. The Board should establish written policies and procedures for the collection and writing off of accounts receivable, ensuring the factors considered for each decision are retained and each written off balance is approved and verified by a person independent of the transactions.

Auditee's Response

- 4.1 *Procedures have been put in place to reconcile amounts billed to amounts collected and delinquent accounts, gallons of water billed to gallons pumped, and investigate significant differences.*
- 4.2 *City ordinances will be modified to reflect shut off practices as ordered by the Board of Aldermen.*
- 4.3 *The Board of Aldermen will establish a partial utility bill payment program and ordinance and establish written payment agreements with each customer allowed to make partial payments.*
- 4.4 *The Board of Aldermen will adopt a written bad debt collection and account write-off policy. The Board will review delinquent accounts annually and approve the write-off of any accounts deemed uncollectible under the policy.*

5. Electronic Data Security

5.1 User identification and passwords

Controls over the city computers are not sufficient. As a result, city records are not adequately protected and are susceptible to unauthorized access or loss of data.

The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to the city computers and data. The City Clerk, current Utility Clerk, and Finance Officer share computers in the office and do not log off and log back on with their unique user identification and password when using the accounting and utility systems at another employee's computer. The City Clerk, former Utility Clerk, and Finance Officer also shared computers during the former Utility Clerk's employment. As a result, there is no assurance that the user listed in the system for posting a transaction is the person who did it. In addition, these officials are not required to change passwords periodically.

While a user identification and password are required to authenticate access, the security of these logon credentials is dependent on keeping them

City of Forsyth
Management Advisory Report - State Auditor's Findings

confidential and requiring users to enter their unique user identification and password when switching users. Allowing certain users to share computers without logging off and back on with their unique user identification and password, and not requiring passwords to be periodically changed, increases the risk of unauthorized access and/or changes to the system and records, and reduces assurance that access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique and confidential and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of the city computers and data.

5.2 Security controls

Effective security controls are not in place to lock computers after a certain period of inactivity. In recorded interviews, the Finance Officer stated her computer locks after about 2 hours, and the City Clerk stated her computer locks after about 30 to 40 minutes. Neither employee locks their computer when they leave the room.

Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. The extended period before the computers lock and the failure to lock computers when they are left unattended along with the routine shared use of computers increased the risk of unauthorized access. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

5.3 Data backup

The city does not store data backup files at an off-site location. Off-site storage would provide reasonable assurance data could be recovered if necessary. To help prevent loss of information and ensure all essential information and computer systems can be recovered, backup files should be stored at a secure, off-site location.

Recommendations

The Board of Aldermen:

- 5.1 Require employees use their unique user identification and password when using the accounting and utility systems, and they change those passwords periodically, to help prevent unauthorized access to the city computers and data.
- 5.2 Require each computer to have an effective security control in place to lock it after a certain period of inactivity.
- 5.3 Ensure backup files are stored at a secure, off-site location.

City of Forsyth
Management Advisory Report - State Auditor's Findings

Auditee's Response

- 5.1 *Procedures regarding the security of user identification and password have been implemented. Additionally, the accounting software vendor has upgraded user security controls.*
- 5.2 *Inactivity locks have been put in place.*
- 5.3 *Software updates in the last year have automated the off-site backup process. Backups are stored remotely on a nightly basis.*

City of Forsyth

Organization and Statistical Information

The City of Forsyth is located in Taney County. The city was incorporated in 1928 and is currently a fourth-class city. The city employed 18 full-time employees and 3 part-time employee on March 31, 2020.

City operations include fire and law enforcement services, utilities (water, sewer, and trash), street maintenance, building inspection, and park services.

Mayor and Board of Aldermen

The city government consists of a mayor and a 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at March 31, 2020, are identified below. The Mayor and the Board of Aldermen members receive no compensation for their service.

Kelly Doughery, Mayor
Larry Moehl, Alderman
Greg Doughery, Alderman
Cheryl Altis, Alderwoman
Jack Baker, Alderman

Financial Activity

A summary of the city's financial activity obtained from the city's audited financial statement report for the year ended August 31, 2019, follows:

Supporting Documentation of Missing Money and Untimely Deposits

The following appendixes provide supporting documentation for the missing money, untimely deposits, and subpoenas issued as discussed in MAR findings number 1 and 2 and are summarized in the following table.

Appendix	Type of Supporting Documentation
A	State Auditor Subpoena - Carla Combs
B	State Auditor Subpoena - Cheyenne Beasley
C	State Auditor Subpoena - Angela Leist
D	Undeposited Utility Deposits
E	Cash Receipts Missing from Vault
F	Untimely Deposits of Utility Deposits

Address and bank account numbers have
been redacted.

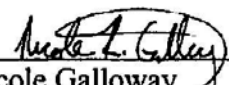

OFFICE OF MISSOURI STATE AUDITOR
SUBPOENA

To: Carla Combs
[Redacted]
[Redacted]

YOU ARE COMMANDED AND REQUIRED to appear
personally before the State Auditor or her representative(s) at the
Masonic Lodge, 100 Chiefs Court, Branson, MO 65616, at 10:00 a.m.
on October 15, 2020, for purposes of providing testimony and producing
for examination, copying, and interrogation the records and documents
listed on Exhibit A attached to this Subpoena.

ISSUED this 25th day of September, 2020, pursuant to Section
29.235.4(1), RSMo.

Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by hand delivery on this 5th
day of October, 2020.

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the City of Forsyth.

This request includes, but is not limited to, the following:

- Records related to Branson Bank accounts (including, but not limited to, account numbers [REDACTED] and [REDACTED];
- Any and all payroll records, timesheets, invoices, financial statements, board minutes, or any other City of Forsyth board records.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the State Auditor. Section 29.235.4(1), RSMo.

Address and bank account numbers have been redacted.

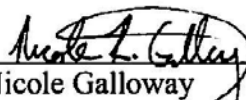

OFFICE OF MISSOURI STATE AUDITOR
SUBPOENA

To: Cheyenne Beasley
[Redacted]
[Redacted]

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative(s) at the City of Forsyth City Hall, 15405 US-160, Forsyth, MO 65653, at 1:00 p.m. on October 5, 2020, for purposes of providing testimony and producing for examination, copying, and interrogation the records and documents listed on Exhibit A attached to this Subpoena.

ISSUED this 16th day of September, 2020, pursuant to Section 29.235.4(1), RSMo.

Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by hand delivery on this 22nd day of September, 2020.

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the City of Forsyth.

This request includes, but is not limited to, the following:

- Records related to Branson Bank accounts (including, but not limited to, account numbers [REDACTED] and [REDACTED];
- Any and all payroll records, timesheets, invoices, financial statements, board minutes, or any other City of Forsyth board records.

Total Undeposited Receipts			\$ <u>2,000.00</u>		

(1) During recorded interviews, the City Clerk and Former Utility Clerk indicated the Former Utility Clerk was responsible for activating utility service, and subsequently recording and depositing utility deposits.

(2) If a utility deposit is paid after utility services have been provided, it is city policy to back date the utility service activation date to when services started being provided.

(3) The date on the receipt was not clear and the receipt may be dated August 25, 2019, or August 28, 2019.

(4) The method of payment recorded on this manual receipt slip indicated it was a check; however, the utility customer indicated to city officials he/she paid with cash.

(1) Based on the initials of the employee logged into the accounting system at the time of receipt, which is recorded in the system. However, because computers were shared by the former Utility Clerk, City Clerk, and Finance Officer, there is no assurance the user listed was the user that posted the transaction.

(2) A manual receipt slip was not issued for this payment. The payment was recorded in the accounting system, but was not deposited.

CITIZENS SUMMARY

Findings in the audit of Office of Administration Information Technology Services Division Security Controls

Service Level Agreements	The Office of Administration Information Technology Services Division (ITSD) has not comprehensively developed or updated service level agreements between the ITSD and the state agency customers it serves.
Contingency Planning Policy	The ITSD has not formally adopted or documented an enterprise-wide contingency planning policy, including overall contingency objectives, an organizational framework, and comprehensive procedures.
Electronic Communication Policy	The ITSD has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri State Records Commission.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Sarah H. Steelman, Commissioner
Office of Administration
Jefferson City, Missouri

We have audited certain internal controls, including security controls, designed to protect data and information maintained by the Office of Administration - Information Technology Services Division. This audit was conducted in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to:

1. Evaluate internal controls over significant management and financial functions.
2. Evaluate compliance with certain legal provisions.
3. Evaluate the economy and efficiency of certain management practices and information system control activities.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and information system control activities. The accompanying Management Advisory Report presents our findings arising from our audit of the Office of Administration - Information Technology Services Division.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
Audit Manager:	Alex R. Prenger, M.S.Acct., CPA, CISA, CFE, CGAP
In-Charge Auditor:	Patrick M. Pullins, M.Acct., CISA, CFE
Audit Staff:	Zachery L. Harris

Office of Administration

Information Technology Services Division Security Controls

Introduction

Background

The Information Technology Services Division (ITSD) is a division of the Office of Administration (OA). The ITSD was formed in January 2005 to consolidate information technology (IT) staff and funding for executive branch agencies.

The ITSD is responsible for coordinating and providing IT services to executive branch agencies. Services provided by the division include the operation of the State Data Center to provide a centralized computer facility used by state agencies and elected officials; operation of the state telecommunications network; desktop support; web, mainframe, and other communication platform and application development and maintenance; data management and database support; email services; help desk services; cyber security; and an IT education center for state employees.

The ITSD directly supports the following executive offices and state agencies: Agriculture, Commerce and Insurance,¹ Corrections, Economic Development, Elementary and Secondary Education, Governor's Office, Health and Senior Services, Higher Education and Workforce Development, Labor and Industrial Relations, Lieutenant Governor's Office, Mental Health, Natural Resources, Office of Administration, Public Safety,² Revenue,³ and Social Services.

Michael Cheles served as Chief Information Officer from October 2018 to December 2019. Jeffrey Wann was appointed Chief Information Officer in January 2020. At June 30, 2020, the division had 919 employees.

According to accepted standards, security controls are the management, operational, and technical safeguards or countermeasures prescribed for an information system to protect the confidentiality, integrity, and availability of the system and its information. Confidentiality refers to preserving authorized restrictions on information access and disclosure, including the means for protecting personal privacy and proprietary information. Integrity relates to guarding against improper information modification or destruction, and availability ensures timely and reliable access to and use of information.

Scope and Methodology

The scope of our audit included (1) internal controls established and managed by the ITSD, (2) policies and procedures, and (3) other management functions and compliance issues in place during the year ended June 30, 2020.

¹ Department of Commerce and Insurance except for Public Service Commission.

² Department of Public Safety except for Missouri National Guard, Missouri State Highway Patrol, and Missouri Gaming Commission.

³ Department of Revenue except for Lottery Commission.

Office of Administration
Information Technology Services Division Security Controls
Introduction

Our methodology included reviewing written policies and procedures, and interviewing various ITSD personnel. We obtained an understanding of internal control that is significant to the audit objectives and assessed the design and implementation of such internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

To evaluate the satisfaction of state agencies with the services provided by the ITSD, we surveyed 32 officials of 19 consolidated agencies (or divisions of agencies as applicable). Officials were also invited to forward the survey to other staff of their agency who could provide pertinent information. We received 25 responses. Respondents were given the option to remain anonymous, so it is unknown if all agencies/divisions provided responses. Responses are summarized in the Appendix.

We based our evaluation on accepted state, federal, and international standards and best practices related to information technology security controls from the following sources:

- Missouri Adaptive Enterprise Architecture (MAEA)
- National Institute of Standards and Technology (NIST)
- ISACA

Officials from the OA did not provide certain written representations to our office as requested. It is standard practice of the State Auditor's Office to require such representations, as allowed by Government Auditing Standards, to help ensure sufficient, appropriate evidence has been obtained. Historically, state agencies have not refused to provide such assurances.

We asked OA officials to provide, among other things, the following written representations:

- "We have not knowingly withheld from you any records that in our judgment would be relevant to your audit."
- "We are responsible for the division's compliance with provisions of laws, regulations, contracts, and grant agreements applicable to it; and we have identified, and disclosed to you, all such provisions that we believe have a significant effect on operations. We have complied with all aspects of laws, regulations, contracts, and grant agreements that would have a significant effect on operations in the event of noncompliance."

Office of Administration
Information Technology Services Division Security Controls
Introduction

OA officials did not provide these written representations and instead provided the following representations, which significantly altered the meaning of these representations:

- "We have not knowingly withheld from you any records you requested that in our judgment would be relevant to your review."
- "We are responsible for the division's compliance with the Revised Statutes of Missouri, state regulations, and contracts as they relate to security controls and, within the limits of our authority, have performed activities to comply with the same. We have not identified any grant agreements to which ITSD is a party related to security controls."

In effect, OA officials declined to provide assurance they (1) had not withheld relevant information from audit staff and (2) had disclosed all provisions of laws, regulations, contracts, and grant agreements that the agency believed would have a significant effect on the audit.

Refusal to provide such representations is concerning and may indicate information potentially relevant to our audit was knowingly withheld from us by OA officials.

Office of Administration

Information Technology Services Division Security Controls

Management Advisory Report - State Auditor's Findings

1. Service Level Agreements

The Office of Administration (OA) Information Technology Services Division (ITSD) has not comprehensively developed or updated service level agreements between the ITSD and the state agency customers it serves.

A service level agreement (SLA) is a document used by organizations entering into a partnership for the provision of information technology (IT) services. According to ISACA, an SLA is used to align IT enabled products and services and service levels with enterprise needs and expectations, including identification, specification, design, publishing, agreement, and monitoring of IT products and services. SLAs can be in-house between an organizational unit and its IT department, external between an entity and an outside service provider, or internal within the units of a service provider.⁴

While the ITSD provided an example of a current SLA in place between the division and a consolidated agency, the agreement is not comprehensive, and does not document the specific responsibilities and obligations of the agency or the ITSD. For example, the document did not discuss the specific systems to be covered by the agreement, responsibilities for governance or decision making regarding the systems, and reporting obligations of the parties. In addition, while the SLA, which was not dated but appeared to be from approximately 2005, was amended in 2010 and again in 2019 to address compliance with certain federal regulations, these amendments did not add any of these more substantial issues to the document.

An SLA is crucial to promote continuous and open communication between the parties to the agreement. Without such communication, there is an increased risk the ITSD will not appropriately understand or respond to customer expectations. This weakness could result in confusion or frustration from the customer, or potentially more severe outcomes such as system failure or data loss.

We surveyed officials of consolidated agencies (or divisions of agencies as applicable) to evaluate satisfaction with ITSD services, and to identify concerns over ITSD communication. Responses are summarized in the Appendix. The survey responses indicated while customers worked and communicated well with the front-line ITSD staff, some communications with ITSD could be improved. For example, one respondent mentioned instances in which the ITSD made changes impacting agency systems and data without notifying the agency. In addition, several respondents indicated resource constraints, particularly ITSD staffing, hindered the ability of their agency to use information technology to effectively carry out its mission.

⁴ Van Grembergen, Wim, Ph.D., Steven De Haes and Isabelle Amelinckx. "Using COBIT and the Balanced Scorecard as Instruments for Service Level Management." *Information Systems Control Journal*, Volume 4 (2003): 56-62.

Office of Administration
Information Technology Services Division Security Controls
Management Advisory Report - State Auditor's Findings

According to the *Information Systems Control Journal*,⁵ an "SLA is a necessity between a service provider and service beneficiary because a service can be called 'bad' or 'good' only if this service is clearly described. Moreover, it formalizes the needs and expectations of the organization and serves as a kind of guarantee for both parties. In this way, potential misunderstandings are reduced and a clear view is given on the priorities of the service and its delivery. . . . A balanced SLA is a compromise between the needs, expectations and requirements of the organization (user group) and the service provision capabilities and promises of the service provider. At the same time, it must protect the service provider by limiting liability, identifying responsibilities and rationally managing user expectations."

Similar conditions
previously reported

During our previous audits of or involving the ITSD, we also noted concerns regarding SLAs. In our 2009 audit of the ITSD consolidation process,⁶ ITSD officials indicated the existing SLAs would be reviewed and updated. A 2011 report⁷ noted the ITSD had not completed the process of implementing new SLAs with state agency customers. We noted this issue again in our 2012 audit of the ITSD,⁸ with ITSD officials again stating they were working on developing "meaningful service level agreements that satisfy both agency and ITSD needs."

Recommendation

The ITSD continue the development of new service level agreements that specify services to be provided and address communications with division customers.

Auditee's Response

ITSD will consider this recommendation but disagrees with the characterization of the lack of such agreements as a finding, as the audit report does not identify any applicable standard or authority requiring the same.

Auditor's Comment

SLAs are common practice between information technology service customers and providers, whether internal or external. Numerous standard-setting organizations provide guidance on SLAs. While not authoritative, we cited the article in the finding because it clearly explains the importance of developing and documenting such agreements.

⁷ SAO, Report No. 2011-056, *Department of Revenue - Taxation Division Security Controls*, issued September 2011.

⁸ SAO, Report No. 2012-073, *Office of Administration - Information Technology Services Division*, issued July 2012.

2. Contingency Planning Policy

The ITSD has not formally adopted or documented an enterprise-wide contingency planning policy, including overall contingency objectives, an organizational framework, and comprehensive procedures.

Contingency planning is unique to each individual system and agency. As the centralized IT support entity for all consolidated agencies, the ITSD shares responsibility with agency-owners to ensure each system has adequate contingency plans. The ITSD is also consequently responsible for coordinating these plans at an enterprise level to ensure the plans of each system and agency do not conflict, and to align plans to the extent possible to make efficient use of available tools and resources.

While the ITSD has worked with agencies to complete contingency plans for specific agency systems, there is no formal, documented enterprise-wide policy guiding how to develop appropriate, comprehensive contingency plans.

According to accepted standards, information systems are vital elements in most mission/business processes. Because information system resources are so essential to an organization's success, it is critical that identified services provided by these systems are able to operate effectively without excessive interruption. Contingency planning supports this requirement by establishing thorough plans, procedures, and technical measures that can enable a system to be recovered as quickly and effectively as possible following a service disruption. Contingency planning is unique to each system, providing preventive measures, recovery strategies, and technical considerations appropriate to the system's information confidentiality, integrity, and availability requirements and the system impact level.

Accepted standards further explain that the first step in the contingency planning process is to develop a contingency planning policy statement supported by senior leadership (typically the Chief Information Officer). This policy should define the agency's overall contingency objectives and should establish the organizational framework and responsibilities for information system contingency planning. The policy statement should also address roles and responsibilities. The policy should be supported with procedures covering training requirements, frequency of backups, offsite storage shipments, plan exercises, testing, and maintenance.

Prior SAO audits of specific agency systems have generally found such systems' contingency plans to be adequate. However, without a formally documented enterprise-wide contingency planning policy, there is an increased risk at the enterprise level and in individual system plans that critical components may be overlooked or inadequate, which may negatively impact the state's systems and data; or that existing system and agency plans'

Office of Administration
Information Technology Services Division Security Controls
Management Advisory Report - State Auditor's Findings

components will be in conflict, causing operational issues in the event multiple plans are exercised.

Recommendation

The ITSD formally adopt and document an enterprise-wide contingency planning policy to ensure appropriate, effective contingency plans are developed for individual agencies and systems, and to guide enterprise-wide decisions.

Auditee's Response

ITSD will consider this recommendation but disagrees with the characterization of the lack of such a policy as a finding, as the audit report does not identify any standard or authority requiring the same.

Auditor's Comment

The standards cited are issued by the National Institute of Standards and Technology (NIST). The specific citations referenced were provided to agency staff during the audit. While compliance with NIST guidance is not required, NIST guidance is considered best practice for many information technology areas, and is frequently cited in internal OA-ITSD security policy documents.

3. Electronic Communication Policy

The ITSD has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri State Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third-party platforms. ITSD officials indicated the division has no policies or procedures regarding communications via text messaging or personal email. As a result, electronic communications may not be retained in accordance with state law.

Section 109.210(5), RSMo, defines a public record as "documents, books, papers, photographs, maps, sound recordings or other material, regardless of physical form or characteristics, made or received pursuant to law or in connection with the transaction of official business." Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. The guidelines for managing electronic communications records can be found on the Secretary of State's website.⁹

To ensure compliance with state law, the division should develop written policies to address the use of personal email, social media and message accounts, and management and retention of electronic communications.

⁹ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/RecordsManagement/CommunicationsGuidelines.pdf>>, accessed October 22, 2020.

Office of Administration
Information Technology Services Division Security Controls
Management Advisory Report - State Auditor's Findings

Recommendation

The ITSD develop written records management and retention policies to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

ITSD will review the cited guidelines but disagrees with the characterization of the lack of such policies as a finding because the audit report does not identify any applicable standard or authority requiring separate policies for record retention based on the format of the record. Existing OA Policy B-36, like Section 109.210(5), RSMo, cited in this recommendation, recognizes that a record may be in a hard copy or electronic form.

Auditor's Comment

When we asked ITSD staff during the audit if any policies related to electronic communications management and retention existed, they indicated "an OA-ITSD policy responsive to your request has not been located." The policy cited by the ITSD in the response provided does not address the management and retention of electronic communications, especially in regards to text messaging, email, and other third-party platforms, but rather addresses public access to records ("Sunshine Law" compliance).

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 30 political subdivisions required to file a financial report by January 31, 2021, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in January 2021, after their filing deadline. The filing status for these 56 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name and title.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

January 2021

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 30 political subdivisions, other than cities, towns, and villages, with a fiscal year end of July 31, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 30 political subdivisions, 26 filed an annual financial report timely.

This report also includes the filing status for 56 political subdivisions, other than cities, towns, and villages, that filed their financial report in January 2021, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by January 31, 2021, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180. No cities, towns, or villages had a fiscal year end of July 31, 2020; therefore, no financial reports, addendums, or certifications were due by January 31, 2021.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in January 2021, after their filing deadline. The filing status for these 38 cities, 1 town, and 11 villages is presented in summary on page 3 and by individual entity in Appendixes A to C.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

January 2021

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

No cities, towns, or villages had a fiscal year end of July 31, 2020; therefore, no financial reports, addendums, or certifications were due by January 31, 2021.

This report includes the filing status for 38 cities, 1 town, and 11 villages that filed at least one of the items (financial report, addendum, or certification) in January 2021, after their filing deadline. Of these municipalities, 38 filed an annual financial report, 15 filed an addendum, and 6 filed a certification.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor

and

Members of the General Assembly

and

Kenneth J. Zellers, Director

Department of Revenue

and

Mike Leara, Chairman

Missouri Gaming Commission

and

Dr. Margie Vandeven, Commissioner

Department of Elementary and Secondary Education

Jefferson City, Missouri

To address our responsibilities of Section 313.822(3), RSMo, we have audited the revenues of and the transfers from the Gaming Proceeds for Education Fund to the Classroom Trust Fund and the expenditures from that fund, as part of our audit of the state's Comprehensive Annual Financial Report (CAFR), as of and for the year ended June 30, 2020, and have issued our report (Report No. 2021-006), dated February 25, 2021. No expenditures occur from the Gaming Proceeds for Education Fund. All revenue received by that fund is transferred to the Classroom Trust Fund. The state's CAFR is comprised of the financial statements of the governmental activities (including the Gaming Proceeds for Education Fund and the Classroom Trust Fund), the business-type activities, the aggregate discretely presented component units, each major fund (including the Public Education Fund which includes Gaming Proceeds for Education Fund and the Classroom Trust Fund), and the aggregate remaining fund information of the state of Missouri, and the related notes to the financial statements.

Our report expressed qualified opinions on the governmental activities (including the Gaming Proceeds for Education Fund and the Classroom Trust Fund) and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

Our audit determined the appropriation and expenditures from the Classroom Trust Fund decreased from fiscal year 2019 to fiscal year 2020, and the appropriation was used for educational purposes. No findings resulted from our audit procedures related to the Gaming Proceeds for Education Fund and the Classroom Trust Fund.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Anne L. Precythe, Director
Department of Corrections
Jefferson City, Missouri

To address our responsibilities of Section 217.595.6, RSMo, we have audited the revenues and the expenditures of the Working Capital Revolving Fund, as part of our audit of the state's Comprehensive Annual Financial Report (CAFR), as of and for the year ended June 30, 2020, and have issued our report (Report No. 2021-006), dated February 25, 2021. The state's CAFR is comprised of the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information (including the Working Capital Revolving Fund) of the state of Missouri, and the related notes to the financial statements.

Our report expressed qualified audit opinions on the governmental activities and the General Fund opinion units and unmodified opinions on the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information (including the Working Capital Revolving Fund) opinion units of the state of Missouri, as of June 30, 2020.

No findings resulted from our audit procedures related to the Working Capital Revolving Fund.

February 25, 2021

The Honorable Michael L. Parson
The Honorable Members of the Legislature
Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Comprehensive Annual Financial Report (CAFR) of the State of Missouri for the fiscal year ended June 30, 2020. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and her opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform guidance).

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the program level. Expenditures cannot exceed the individual appropriation amount. The Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Article IV, Section 27 of the Missouri Constitution, amended in 2014, requires the Governor to notify the General Assembly if the Governor reduces allotments when it appears revenues will be less than estimated. This Section then gives the General Assembly the authority to overturn any of the Governor's restrictions with a two-thirds vote, similar to the procedure to overturn a veto. Unexpended appropriations lapse at the end of each fiscal year, unless reappropriated to the following budget fiscal year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION AND OUTLOOK

State Economy

Missouri's economy saw its eighth consecutive year of Annual Real GDP growth in 2019. Missouri's GDP was \$290.9 billion in 2012 inflation-adjusted dollars; this is a 2.1% increase over 2018. Missouri's per capita personal income was \$49,589 in 2019, an increase from 2018. The national per capita income is \$56,663. While the State's per capita income is lower than the national average, so is the cost of living. In 2019, Missouri ranked 5th lowest in cost of living for states.

Personal Income Annual Growth Rate

Source: MERIC 2020 Missouri Economic Report

In March 2020, the WHO declared the COVID-19 outbreak a global pandemic, the President of the United States declared a national state of emergency, and the State ordered statewide social distancing measures. On April 6, 2020, the Governor issued a statewide "Stay Home Missouri" order as well as other Executive Orders declaring a state of emergency, closing public and charter schools in the State for the remainder of the academic year, and postponing elections. The "Stay at Home" order provided for social distancing, limitations on social gatherings, cessation of activities for all business not considered "essential" and requiring residents remain home unless engaging in certain "essential activities." On April 28, 2020, the State introduced a plan for the phased reopening of the State's economy. As of June 16, 2020, all statewide health orders were lifted.

The full financial impact of COVID-19 on the State, its economy, and its financial position will continue to change as circumstances and events evolve, but the State expects such impact to be substantial, but difficult to predict due to the dynamic nature of the outbreak. The State believes that it may be some time before it is able to determine the full impact of these events.

In May 2020, Missouri's unemployment rate was 10.1%, representing over 303,000 Missourians out of work, while the nation's unemployment rate was 13.3%, a significant increase from former years due to the COVID-19 pandemic that caused economic downturn, business closures, and layoffs across the nation. Prior to the COVID-19 pandemic, Missouri and the nation were experiencing record low unemployment numbers and a tight labor market.

Long-Term Financial Planning

During the 2014 legislative session, the legislature passed Senate Bill 509 and Senate Bill 496, relating to changes to the State's income tax structure. The legislation reduced the maximum tax rate on personal income and created an income tax deduction for business income as well as increased a personal exemption for individuals that have an adjusted gross income of less than \$20,000. (The federal Tax Cuts and Jobs Act of 2017 eliminated the personal exemption.) The implementation of the tax cut is gradual with a 0.10% decline each calendar year and will go into effect following fiscal years where net general revenue collections grow at least \$150 million. Estimates indicate that the bills will cost at least \$620 million annually once fully in effect, which will occur in fiscal year 2025 at the earliest, due to a phased implementation. General revenue growth for fiscal year 2017 and 2018 triggered the first two income tax reductions in tax year 2018 and 2019. The general revenue growth for 2019 did not trigger a tax reduction for tax year 2020.

The General Assembly passed several tax-related bills during the 2020 legislative session. The General Assembly passed House Bill 1682, which allows taxpayers to deduct contributions into a Long-Term Healthcare savings account and is estimated to reduce general revenue by \$5.4 million annually. The General Assembly also passed Senate Bill 676, which exempts the CARES Act Income Tax Refund from Missouri income tax and creates an income tax exemption for first responders and victims of specific terrorist attacks. This bill is estimated to reduce general revenue by \$36 million during fiscal year 2021 and beginning in fiscal year 2022 may reduce general revenue by \$300 thousand annually. The combined impact to general revenue during fiscal year 2021 estimated to be an approximately \$42 million loss. Once fully implemented, the legislation could reduce general revenue by approximately \$5 million annually.

The State took advantage of low interest rates in 2020 by refunding existing bonds. On March 26, 2020, the Board of Public Buildings of the State of Missouri issued its Special Obligation Refunding Bonds Series A 2020 in the amount of \$38,920,000 to refund Series A 2011 and issued Series B 2020 in the amount of \$172,850,000 to refund Series A 2012 and A 2013 on August 25, 2020. The Series A 2020 refunding saved the State approximately \$2.9 million and Series B 2020 refunding saved the State approximately \$22 million.

Relevant Financial Policies

Article X, Sections 16-24 of the Constitution of Missouri (the “Tax Limitation Amendment”), imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for fiscal year 1981, as defined in the Tax Limitation Amendment and adjusted annually, in accordance with the formula set forth in the amendment which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by one percent or more in any fiscal year the excess revenue will be refunded pro-rata, based on the liability reported on state income tax returns. If the excess revenue collected is less than one percent of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or if the General Assembly approves by a two-thirds vote an emergency declaration by the Governor. Strong economic growth resulted in revenues above the total state revenue limit in fiscal years 1995-1999. The State has refunded to income taxpayers \$979 million in excess revenue for these fiscal years. The revenue limit was not exceeded in fiscal years 2000 through 2020, inclusive. The State is currently \$4.38 billion below the limit and does not expect the limit to be exceeded in fiscal year 2021.

Major Initiatives

Highlights of the 2020 Regular Session include the passage of the following:

- **Professional Licensing and Reciprocity**

House Bill 1511 and House Bill 2046 expanded Missouri’s professional licensure reciprocity statutes. Any person may now apply for reciprocity, including Missouri residents and non-resident military spouses, if they have been licensed for at least a year and are at the same practical level in another U.S. jurisdiction (if that jurisdiction has minimum education requirements). HB 2046 prevents licensing boards from denying licenses strictly due to criminal history, creates a pathway from apprenticeships to occupational licensure, and updates athletic trainer statutes to reflect current practices.

- **COVID-19 Testing and CARES Act Stimulus**

Addressing the early stages of the COVID-19 pandemic, House Bill 1682 provided that if a health care provider recommended COVID-19 testing, testing would be free to the patient. The Department of Health and Senior Services is authorized to use CARES Act funding for this testing to pay for the portion of the expense that is not covered by the resident’s health insurance provider provided that such expenses do not exceed \$150 per test. Additionally, Senate Bill 676 exempted the economic payment from state income taxes to ensure that eligible Missourians would receive the full benefit of the federal CARES Act stimulus.

- **Mail-in Ballots and Absentee Voting**

Senate Bill 631 made several reforms to election law and addressed concerns related to the COVID-19 pandemic. Eligible voters may now request, and submit without notarization, absentee ballots for 2020 elections if they are in an at-risk category for contracting or have contracted the disease. Additionally, any registered voter may request a mail-in ballot for 2020 elections provided they request it by the second Wednesday before the election, include a notarization statement, and submit the ballot before the polls close on Election Day.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the CAFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

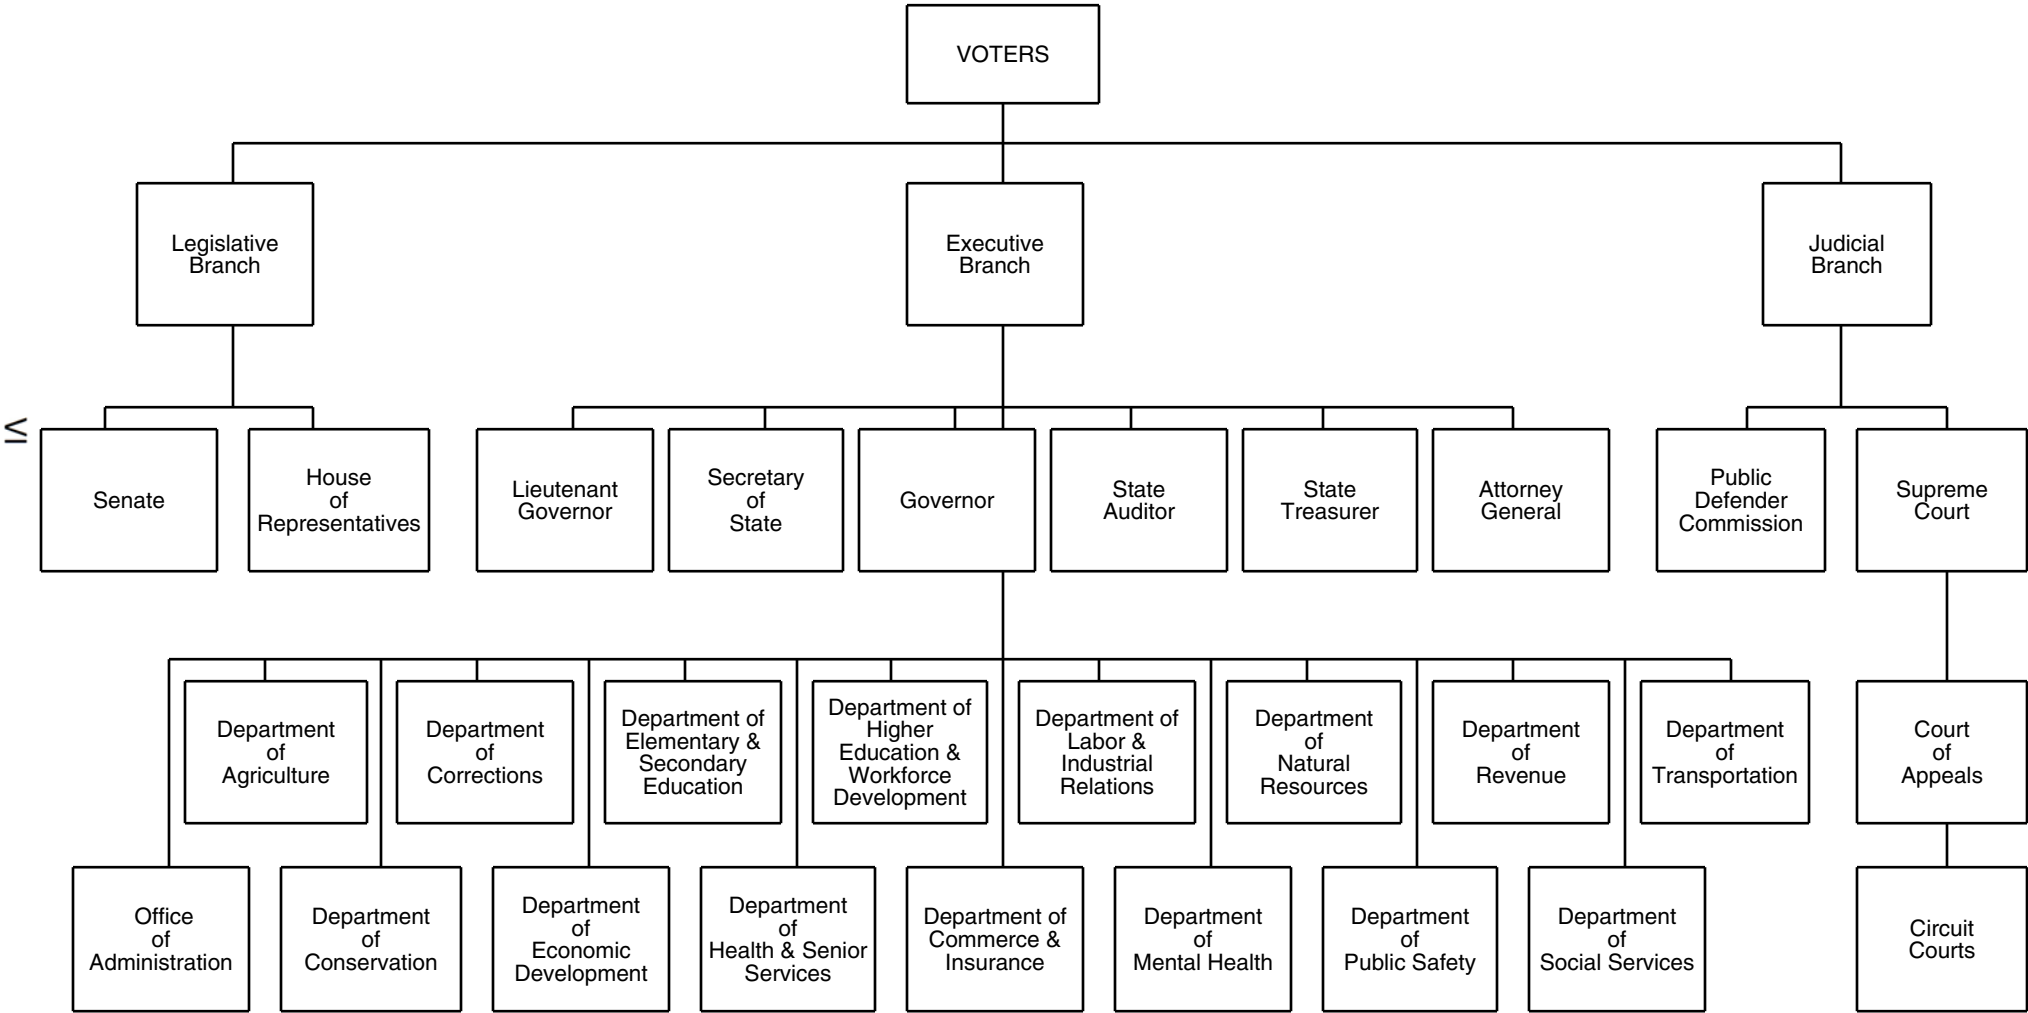

A handwritten signature in cursive script that reads "Stacy Neal".

INDEPENDENT AUDITOR'S REPORT

Honorable Michael L. Parson, Governor
and
Members of the General Assembly

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the state's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain entities. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based solely on the reports of the other auditors. Those entities were:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Conservation Employees' Insurance Plan; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan which represent 71 percent of the assets and 11 percent of the revenues of the governmental activities.
2. The State Lottery, a major fund, and the Petroleum Storage Tank Insurance Fund which represent 16 percent of the assets and 35 percent of the revenues of the business-type activities.

3. The aggregate discretely presented component units.
4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation agency funds which represent 93 percent of the assets and 97 percent of the additions of the fiduciary funds.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Conservation Employees' Insurance Plan, the Missouri State Employees' Insurance Plan, and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board, the Missouri Agricultural and Small Business Development Authority, and the State Environmental Improvement Energy Resources Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinions on the governmental activities and the General Fund opinion units and our unmodified opinions on all remaining opinion units.

Basis for Qualified Opinions on the Governmental Activities and the General Fund

We were not allowed access to tax returns and related source documents for income taxes. Access was denied based on the Department of Revenue's interpretation of the decision rendered by the Missouri Supreme Court in the case of *Director of Revenue v. State Auditor* 511 S.W.2d 779 (Mo. 1974). Approximately 26 percent of governmental activity revenues and 31 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded.

Qualified Opinions

In our opinion, based on our audit and the reports of other auditors, and except for the possible effects of the matter described in the "Basis for Qualified Opinions on the Governmental Activities and the General Fund" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the General Fund of the state of Missouri, as of June 30, 2020, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information of the state of Missouri, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 18 to the financial statements, the 2019 financial statements have been restated to correct misstatements. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; the Budgetary Comparison Schedule-General Fund, Major Special Revenue Funds; the Schedule of Changes in Net Pension Liability and Related Ratios; the Schedule of Proportionate Share of the Net Pension Liability; the Schedule of State Contributions; the Schedule of Changes in Total OPEB Liability and Related Ratios, the Schedule of Changes in Net OPEB Liability and Related Ratios; and the Schedule of Proportionate Share of the Collective Net OPEB Liability, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state of Missouri's basic financial statements. The supplementary information, as listed in the table of contents, and the other information, which consists of the introductory and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

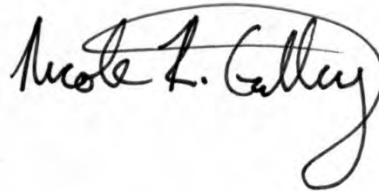

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the audit procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States

of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, and except for the possible effects on the supplementary information of the matter discussed in the "Basis for Qualified Opinions on the Governmental Activities and the General Fund" paragraph, the supplementary information, as listed in the table of contents, is fairly stated in all material respects, in relation to the basic financial statements as a whole.

The information in the introductory and statistical sections has not been subjected to the audit procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, our report dated February 25, 2021, on our consideration of the state of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters will be issued under separate cover in the Report on Internal Control, Compliance, and Other Matters. The purpose of our report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the state of Missouri's internal control over financial reporting or on compliance. Our report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of Missouri's internal control over financial reporting and compliance.

The Management's Discussion and Analysis provides a narrative overview and analysis of the financial activities of the State.

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's financial activities for the fiscal year ended June 30, 2020. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT

Government-Wide:

- *Net Position.* Assets and deferred outflows of the State of Missouri exceeded liabilities and deferred inflows at the close of fiscal year 2020 by \$29.1 billion. Of the \$29.1 billion, "unrestricted net position" is reported as a negative \$7.3 billion, offset by \$4.8 billion in "restricted net position", and \$31.6 billion net investment in capital assets.
- *Changes in Net Position.* The State's total net position increased by \$1.0 billion in fiscal year 2020. Net position for governmental-type activities increased by \$1.4 billion.
- *Excess of Revenues over (under) Expenses.* During fiscal year 2020, the State's total revenues of \$32.4 billion were \$1.0 billion greater than total expenses of \$31.4 billion (excluding capital contributions, transfers, and extraordinary items). Of these expenses, \$19.5 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled \$12.9 billion.

Fund-Level:

- *Governmental Funds – Fund Balance.* At the close of fiscal year 2020, the State's governmental fund assets exceeded liabilities by \$6.8 billion, an increase of \$965.1 million or 16.7% from the prior year. The increase was due to the net effect of several factors. Revenues increased \$1.3 billion, primarily from an increase in federal grants of \$1.5 billion and related expenditures in Human Services increased \$787.0 million due to an increase for Medicaid and Other Assistance Programs.
- *General Fund – Fund Balance.* At the end of the current fiscal year, the State's General Fund reported a balance of \$2.7 billion.

Additional information regarding individual funds begins on Page 8.

Debt Issued and Outstanding:

- The primary government's total long-term obligations related to bonds payable decreased \$81.4 million, or 3.1%, over the prior year. The outstanding bonds payable represents 18.6% of financial assets (cash, receivables, and investments) and 5.3% of total assets. On March 26, 2020, the Board of Public Buildings of the State of Missouri issued its Special Obligation Refunding Bonds, Series A 2020 in the amount of \$38,920,000 to refund on a current basis certain maturities of the Board's Special Obligation Refunding Bond Series A 2011. Additionally, bond payments of \$258,350,000 were made during the fiscal year. The State has financed purchases through direct borrowing with banks in the amount of \$22.8 million. Additional detail is available in *Note 12*.

Revenue Limit:

- The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1.0% or more must be refunded to the taxpayers each year. During fiscal year 2020, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the State's assets, deferred outflows, liabilities, and deferred inflows, with the difference between them reported as *net position*. Increases or decreases in net position may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents, insurance coverage, and inmate canteen. Also included are the operations of the State Lottery, Unemployment Compensation, and the Missouri Veterans' Homes funds.

Discretely Presented Component Units are operations for which the State has financial accountability, but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, Missouri Wine and Grape Board, and the State Environmental Improvement Energy Resources Authority.

Fund Financial Statements:

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. A reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, and publishing maps and documents. Also included are the operations of the State Lottery, Unemployment Compensation, and the Missouri Veterans' Homes funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery, Unemployment Compensation, and Missouri Veterans' Homes, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds and schedules for pension and other post-employment benefits. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules and statements for the Missouri Road Fund, non-major special revenue, debt service, capital projects, and permanent funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position:

The State's total net position increased \$1.0 billion during fiscal year 2020. Cash and cash equivalents and investments increased \$1.7 billion. This was mainly due to the deposit of \$2.1 billion in Coronavirus Relief Funds that the State received in fiscal year 2020 due to the global pandemic. This is offset by an unearned revenue of \$1.9 billion which represents the amount of unspent Coronavirus Relief funds at the end of fiscal year 2020. Accounts receivable increased \$1.6 billion, while accounts payable for tax refunds also increased mainly due to the delay in income tax filings following the State's extension of the deadline for filing income tax returns from April 15 to July 15. Capital assets increased \$403.9 million primarily related to an increase in investment in the State's infrastructure. The State issued the Board of Public Buildings Series A 2020 Refunding Bond in the amount of \$38.9 million to refund Series A 2011 of the Board of Public Buildings bonds. This refunding and bond payments resulted in a reduction of General Obligation and Other Bonds Payable of \$81.4 million. Net Pension Liability increased \$356.2 million most notably in the Missouri State Employees' Plan and Judicial Plans due to a reduction in the assumed rate of investment return from 7.25% to 7.10% and the recognition of prior year losses.

Net investment in capital assets, which includes capital assets, bonds payable, and capital lease/financed purchase obligations, is the largest component of the State's net position at \$31.5 billion or 108.5%. These assets include construction in progress, software in progress, infrastructure in progress, land, easements, land improvements, buildings, equipment, software, and trademarks which are not easily converted to cash or readily available to pay state debts as they come due. Net investment in capital assets and restricted net position, which do not represent resources available to pay day-to-day operating expenses, increased by \$998.8 million or 2.8%. The increase was primarily due to the increase in capital assets of \$403.9 million and a decrease in related outstanding bond, capital lease, and financed purchase obligation of \$161.4 million.

Restricted net position of the primary government totaled \$4.8 billion or 16.6% of total net position vs. 15.7% from the prior year. Net position is restricted for several reasons including constitutional, legal, enabling legislation, or external requirements. Examples of restricted net position include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

The following table displays the current and prior year government-wide condensed Statement of Net Position.

STATEMENT OF NET POSITION (In Thousands of Dollars)						
	Governmental Activities		Business-Type Activities		Total

Changes in Net Position:

The schedule below reflects how the State's net position changed during the year. The State collected program revenues of \$19.5 billion and general revenues of \$12.9 billion for total revenues of \$32.4 billion during fiscal year 2020. Expenses for the State during fiscal year 2020 were \$31.4 billion. Total net position, net of contributions and transfers, increased by \$1.0 billion.

The following table displays the current and prior year government-wide condensed Statement of Activities.

Governmental Activities

The net position of governmental activities increased \$1.4 billion in fiscal year 2020. General and program revenues of governmental activities were \$1.9 billion more in fiscal year 2020 than in fiscal year 2019, most notably due to an increase in charges for services, sales and use taxes, and income taxes.

As shown in the Revenues by Source chart below, approximately 45.7% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 47.2% of total revenue. Charges for services contributed 6.6% and various other revenues provided 0.5% of the remaining governmental activity revenue sources.

Revenues by Source

The State's governmental activities program expenses for fiscal year 2020 were \$841.8 million more than fiscal year 2019. The most notable increase is \$843.4 million in Human Services. This is mainly due to an increase for Medicaid and Other Assistance Programs.

As shown in the Expenses by Function chart below, expenses for Human Services comprised the largest portion of total governmental activities expenses at 56.9%, followed by Education at 26.3%.

Expenses by Function

Business-Type Activities

Net position of the State's business-type activities decreased \$380.2 million in fiscal year 2020, primarily caused by a decrease in cash in Unemployment Compensation. The decrease was due to an impacted in economy and a higher unemployment rate as a result of COVID-19.

Revenues of business-type activities totaled \$4.5 billion. As shown in the Revenues by Source chart below, 35.8% of the revenues came from charges for services. Operating grants and contributions provided 63.5% of the total revenues and all other revenues provided 0.7%.

Revenues by Source

Expenses of business-type activities totaled \$4.6 billion. As shown in the Expenses by Fund chart below, Unemployment Compensation makes up the largest portion with 69.2% of total business-type expenses. State Lottery comes in second at 26.5%, followed by Petroleum Storage Tank Insurance at 2.7%, Inmate Canteen at 0.7%, Missouri Veterans' Homes at 0.5%, State Parks and DNR at 0.3%, and State Fair Fees at 0.1%.

Expenses by Fund

FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

Governmental Funds:

At the end of fiscal year 2020, the State's governmental funds reported combined ending fund balances of \$6.8 billion. Approximately 64.5% is unrestricted and available for spending at the government's discretion. The remainder of fund balance is nonspendable and restricted to indicate that it is not available for new spending because it has already been allocated for: 1) inventories, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Funds	Total
Nonspendable	\$ 48,942	\$ 145	\$ 276	\$ 36,171	\$ 67,894	\$ 153,428
Restricted	598,678	232,296	151,383	885,643	379,924	2,247,924
Committed	662,067	1,697	1,923,984	—	39,026	2,626,774
Assigned	100,048	19,839	113,490	—	241,913	475,290
Unassigned	1,255,194	—	—	—	—	1,255,194
Total	\$ 2,664,929	\$ 253,977	\$ 2,189,133	\$ 921,814	\$ 728,757	\$ 6,758,610

The General Fund is the chief operating fund of the State. At the end of fiscal year 2020, the State's General Fund reported a total fund balance of \$2.7 billion, an increase of \$537.1 million from fiscal year 2019. During fiscal year 2020, the State received \$2.1 billion in Coronavirus Relief Funds, offset by \$1.9 billion in unearned revenue, which represents the unspent amount at the end of the fiscal year, causing an increase in cash and cash equivalents and investments and unearned revenue from the previous fiscal year. Accounts receivable increased \$1.5 billion, offset by an increase in deferred inflows of resources related to unavailable revenues of \$578.8 million, while accounts payable increased \$145.3 million with the majority of that relating to an increase in tax refunds. This is mainly due to the delay in income tax filings following the State's extension of the deadline for filing income tax returns from April 15 to July 15.

The Public Education Fund provides general and special education services to the children of the State and other related functions, such as library services and student loans. Revenues and expenditures both decreased, fund balance remained relatively stable versus fiscal year 2019, ending the year with a fund balance of \$254.0 million, a decrease of \$12.7 million from the previous fiscal year.

The Conservation and Environmental Protection Fund provides the preservation of the State's wildlife and environment. At the end of fiscal year 2020, the fund balance was \$2.2 billion, an increase of \$168.6 million from fiscal year 2019. Cash and cash equivalents and investments increased \$96.1 million while loans receivable increased \$57.6 million. This is primarily due to a bond refunding, which restructured the State Revolving Fund loan Program's Master Trust Pledge Agreement resulting in an excess of State Revolving Fund money being deposited from the Trustee bank and a decrease in the program's operating expenses. State Revolving Fund loans receivable also increased due to the issuance of new loans under the program.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Total fund balance increased \$241.8 million from fiscal year 2019. Revenues totaled \$1.4 billion while expenditures totaled \$1.9 billion. Total expenditures increased by \$104.1 million from fiscal year 2019, mainly due to an increase in capital outlays.

Proprietary Funds:

The State has three major proprietary funds: State Lottery, Unemployment Compensation, and Missouri Veterans' Homes Fund. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law." This tax finances benefits for workers who become unemployed through no fault of their own. The Missouri Veterans' Homes Fund accounts for fees to provide services for persons confined to one of the veterans' homes. The fund pays for the maintenance, use, or benefit of any of these institutions.

The State Lottery Fund's net position increased by \$2.3 million in fiscal year 2020, due mainly to an increase in sales revenue. Total operating revenues increased by 2.8%, while operating expenses increase by 3.4% in fiscal year 2020. Prize expense increased by \$47.4 million, while ticket sales increased by \$46.7 million. The sales increase was the result of an increase in Scratchers sales by \$120.7 million, or 13.2%, a decrease in Draw Game sales by \$69.3 million, or 15.8%, and a decrease in Pull-Tab sales by \$4.8 million, or 4.2%. The increase in Scratchers ticket sales can be attributed to strong sales of the \$5, \$10, \$20 and \$30 Scratchers games. Mega Millions and Powerball sales were responsible for most of the decrease in Draw Games sales. The decrease in Pull-Tab was a result of dispensers being inactivated for a portion of the year, in response to COVID-19.

The Unemployment Compensation Fund's net position decreased by \$365.3 million during fiscal year 2020, which is mainly due to an operating loss of \$402.0 million. Operating revenues increased by \$2.4 billion and operating expenses increased by \$2.9 billion. The COVID-19 pandemic and Stay-at-Home orders resulted in an unprecedented increase in unemployment claims throughout the Spring of 2020. During fiscal year 2020, actual payouts to individuals receiving regular unemployment benefits increased by 255.4 thousand individuals, or 348.2%. As a result of the pandemic, there was tremendous growth in actual benefits paid, claims filed, and individuals receiving benefits. The Federal Pandemic Unemployment Compensation program provided an additional \$600 per week to claimants receiving unemployment benefits. This benefit allowed the State to recover amounts owed to the Unemployment Compensation Fund, which offset some of the decline.

The Missouri Veterans' Homes Fund's net position decreased by \$8.7 million, or 7.4% in fiscal year 2020, verses a 13.7% decrease the previous fiscal year, primarily due to an increase of \$7.2 million in federal grants financed by the US Veterans Administration. This fund was previously presented as a non-major enterprise fund.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature, and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted amounts, and increases to estimated appropriations, which occur during the fiscal year.

Budgeted charges to appropriations for fiscal year 2020 from the General Fund were \$28.8 billion original budget and \$36.1 billion final budget. Actual spending was \$26.0 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year, but the expenditures may occur over several years.
- Capital improvement appropriations were restricted during the budget process.

Budgeted revenues/transfers in for fiscal year 2020 for the General Fund were \$27.8 billion original budget and \$29.3 billion final budget. Actual revenue/transfers in was \$27.5 billion. Due to COVID-19 and the uncertainty of federal support, larger than normal appropriations were passed to grant exceptional flexibility and ensure government responsiveness.

Refer to the *Notes to RSI*, Budgetary Reporting, on page 142 for more information on budgetary variances.

GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2020, was \$33.8 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure.

Capital Assets of the State include (in thousands):

	Governmental Activities	Business-Type Activities	Total
Construction in Progress	\$ 230,396	\$ 1,733	\$ 232,129
Software in Progress	95,811	30	95,841
Infrastructure in Progress	1,882,418	—	1,882,418
Land	3,089,341	32,649	3,121,990
Permanent Easements	6,332	—	6,332
Land Improvements	229,937	50,719	280,656
Temporary Easements	1,548	50	1,598
Buildings and Improvements	3,694,658	59,501	3,754,159

<i>Subtotal</i>	<i>62,990,702</i>	<i>202,246</i>	<i>63,192,948</i>
Less Accumulated Depreciation/ Amortization	(29,313,741)	(79,186)	(29,392,927)
Total Capital Assets, Net	\$ 33,676,961	\$ 123,060	\$ 33,800,021

Additional information on capital assets can be found in *Note 5* of this report.

Debt Administration:

At the end of fiscal year 2020, the primary government had total general obligation and other bonded debt outstanding of \$2.5 billion. Of this amount, \$44.5 million comprises debt backed by the full faith and credit of the government. The State had an additional \$22.8 million of financed purchases from direct borrowings obligation outstanding.

Principal amounts retired or refunded in fiscal year 2020 were \$21.6 million for general obligation bonds, \$277.1 million for other bonds, and \$14.2 million for direct borrowings.

The State of Missouri is proud to have maintained a Triple-A credit rating since 1989 from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds.

Outstanding Bonds Payable Financed Purchase Obligation of the State include (in thousands):

	Governmental Activities	Component Units	Total
General Obligation Bonds	\$ 44,530	\$ —	\$ 44,530
Other Bonds	2,464,135	2,232,533	4,696,668
Direct Placements	—	124,281	124,281
Financed Purchases from Direct Borrowings	22,759	59	22,818
Total	\$ 2,531,424	\$ 2,356,873	\$ 4,888,297

Additional information on long-term debt can be found in *Notes 11, 12, and 13* of this report.

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

As a major manufacturing, financial, and agricultural state, Missouri's economic health is tied closely to that of the nation. Missouri's personal income, which directly impacts individual income tax and sales tax, increased 3.3% in 2019. Personal income growth began to accelerate in 2017. Missouri's employment stood at 2.7 million in June 2020, about 7.2% below June 2019. The State's seasonally adjusted unemployment rate registered at 7.9% in June 2020, compared to 3.1% one year earlier. The national rate was 11.1% in June 2020.

Since 2013, personal incomes have increased, on average, 3.2% annually for the State and 4.0% for the nation. The average income of Missouri citizen was \$49,589 in 2019, which was lower than the national average of \$56,663. Missouri's per capita personal income grew 3.3% compared to national growth in per capita income of 3.5% from 2018 to 2019. While the State's per capita income is lower than the national average, so is the cost of living. Missouri is among the most affordable states as it had the fifth lowest cost of living in the United States in the first quarter of 2020. The below graph depicts the components of personal income, with transfer payments (such as social security, Medicare, etc.) comprising 19.6% of the State's total personal income, due in part to the State's aging population.

Source: U.S. Bureau of Economic Analysis 2019

The State of Missouri's net general revenue collections in fiscal year 2020 were \$8.9 billion, a 6.6% decrease from fiscal year 2019 collections. This decrease is primarily due to the shifting of the due date for state income taxes from April 15 to July 15 which resulted in a significant amount of fiscal year 2020 revenues being pushed into fiscal year 2021.

The State's economic outlook for fiscal year 2021 anticipates improvement in employment and wages, and consumption from their sharp COVID-19 induced decline. Since fiscal year 2020 finished significantly below forecast and revenue projections for fiscal year 2021 have been lowered, the Governor has begun fiscal year 2021 with \$438.5 million in restrictions placed on general revenue spending. If necessary, the Governor may restrict additional spending during the fiscal year.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Administration, Division of Accounting, P.O. Box 809, Jefferson City, MO 65102.

*The **Governmental Funds** focus on current financial resources.*

Governmental Fund Financial Statements

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Major Special Revenue Funds:

Public Education - Provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection - Provides for the preservation of the State's wildlife and environment.

Major Capital Projects Fund:

Missouri Road Fund - Accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system.

Non-Major Funds

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements for non-major funds as part of Supplementary Information.

STATE OF MISSOURI
RECONCILIATION OF THE BALANCE SHEET OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION
June 30, 2020
(In Thousands of Dollars)

Total Fund Balances - Governmental Funds	\$ 6,758,610
--	--------------

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental funds are not financial resources and are not reported in the funds. These assets consist of (Note 5):

Construction in Progress	230,378	
Software in Progress	94,550	
Infrastructure in Progress	1,882,418	
Land	3,081,007	
Permanent Easements	6,332	
Land Improvements	226,345	
Temporary Easements	1,548	
Buildings and Improvements	3,200,612	
Equipment	1,266,740	
Software	266,050	
Trademarks	17	
Infrastructure	52,044,786	
Accumulated Depreciation/Amortization	(28,919,065)	33,381,718

Deferred inflows of resources related to the State's revenues that will be collected after year-end, but are not available soon enough to pay for the current period's expenditures are deferred in the funds.	1,629,992
--	-----------

Deferred outflows of resources related to pensions and OPEB (Other Postemployment Benefits) are applicable to future reporting periods and therefore, not reported in the funds.	1,447,107
--	-----------

Deferred outflows of resources related to asset retirement obligations are applicable to future reporting periods and therefore, not reported in the funds.	820
---	-----

Deferred inflows of resources related to pensions and OPEB are applicable to future reporting periods and therefore, not reported in the funds.	(452,371)
---	-----------

Deferred outflows of resources related to deferred charges or credits on debt refundings are applicable to future reporting periods and therefore, not reported in the funds.	29,202
---	--------

Deferred inflows of resources related to deferred charges or credits on debt refundings are applicable to future reporting periods and therefore, not reported in the funds.	(876)
--	-------

Some liabilities are not due and payable in the current period and therefore, not reported in the funds. Those liabilities consist of (Note 11):

Due to Other Entities	(1,429)	
General Obligation and Other Bonds Payable	(2,508,665)	
Unamortized Bond Premium	(129,062)	
Accrued Interest on Bonds	(23,604)	
Obligation under Financed Purchases	(9,198)	
Obligation under Capital Lease	(17,742)	
Pollution Remediation	(48,264)	
Asset Retirement Obligations	(1,792)	
Compensated Absences	(185,296)	
Claims Liability	(26,184)	
Contingent Liabilities	(2,201,833)	
Net Other Postemployment Benefit Obligation	(2,859,398)	
Net Pension Liability	(6,789,847)	(14,802,314)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities are included in governmental activities in the Statement of Net Position.	369,282
--	---------

Net Position of Governmental Activities	\$28,361,170
---	--------------

The notes to the financial statements are an integral part of this statement.

The notes to the financial statements are an integral part of this statement.

STATE OF MISSOURI
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES IN
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2020
(In Thousands of Dollars)

Net Change in Fund Balances - Total Governmental Funds	\$ 962,567
--	------------

Amounts reported for governmental activities in the Statement of Activities are different because:

Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the Increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement.	2,581
---	-------

Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount that capital outlays of \$1,149,685, exceeds depreciation/amortization of \$712,297 in the current period.	437,388
--	---------

In the Statement of Activities only the gain/loss on the sale of assets is reported, whereas in the governmental funds, the proceeds from the sales increase financial resources. Thus the change in net position differs from the change in governmental fund balance by the net book value of the assets sold.	(21,454)
--	----------

The net effect of the donation of capital assets increased net position.	143
--	-----

Deferred inflows do not provide current financial resources and are not recognized as revenues until available in governmental funds.	577,859
---	---------

Pension and OPEB (Other Postemployment Benefits) contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability and OPEB liability are measured a year before the report date. Pension expense and OPEB expense, which are the change in the net pension liability and the net change in OPEB liability, adjusted for changes in deferred outflows and inflows of resources related to pensions and OPEB, is reported in the Statement of Activities.

Pension Contributions	586,640
Pension Expense	(1,204,830)
OPEB Contributions	89,720
OPEB Expense	(89,441)

Deferred outflows of resources related to deferred charges on asset retirement obligations are applicable to future reporting periods and therefore, not reported in the funds.	(36)
---	------

Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of Net Position (Note 11):

Bonds Issued	(217,290)	
Bond Premiums and Refunding Costs	(24,739)	
Bonds Retired	298,700	
Financed Purchases Issued	(2,135)	
Financed Purchase Payments	6,339	
Capital Lease Payments	1,587	
		62,462

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, not reported as expenditures in governmental funds (Note 11):

Amortization of Bond Premium and Refunding Costs	21,389	
Increase in Accrued Interest	(473)	
Decrease in Pollution Remediation	541	
Increase in Due to Other Entities	(26)	
Increase in Compensated Absences	(13,368)	
Increase in Contingent Liabilities	(99,539)	
Decrease in Claims Liability	3,456	
		(88,020)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue and expense of internal service funds are reported with governmental activities.	66,336
--	--------

Change in Net Position of Governmental Activities	\$ 1,381,915
---	--------------

The notes to the financial statements are an integral part of this statement.

*The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.*

Proprietary Fund Financial Statements

Major Funds

State Lottery - Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation - Accounts for contributions and payments collected under the provisions of the “Unemployment Compensation Law” to pay benefits.

Missouri Veterans' Homes - Accounts for fees to provide services for persons confined to one of the veterans' homes.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14, *The Financial Reporting Entity*, for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39, *Determining Whether Certain Entities are Component Units*, added a requirement to include all entities whose relationship with the State would make it misleading to exclude it. Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34*, improves financial reporting by amending GASB Statement No. 14, *The Financial Reporting Entity*, and Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, in blending component units: 1) if there is a financial benefit or burden relationship with the primary government; 2) management of the primary government has operational responsibility for the component unit's activities; and 3) if the total outstanding debt is expected to be repaid entirely or almost entirely with the resources of the primary government. GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*, requires component units to be blended if they are incorporated as not-for-profit corporations and the primary government is the sole corporate member.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

Governmental Funds:

Board of Fund Commissioners – The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

Board of Private Investigator and Private Fire Investigator Examiners – The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators and private fire investigators in Missouri. The seven member board shall consist of three private investigators, two private fire investigators, and two public members, appointed by the Governor. The Board is appointed by the primary government. It is therefore considered a blended special revenue fund and shown in the financial statements as part of the primary government.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

Coordinating Board for Early Childhood – The Board was created by state law within the Missouri Children's Services Commission. The Board's purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri's children from birth through age five. The 17 member Board is composed of representatives from the Governor's Office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. The majority of the board members are appointed by the primary government and, therefore, separate financial statements are not required for the Board.

Missouri State Penitentiary Redevelopment Commission – The Commission was established to coordinate the planning and redevelopment of the old Jefferson City Correctional Center. The ten member commission consists of three members appointed by the Jefferson City mayor, three members appointed by the Cole County Commission, and four members appointed by the Governor. The majority of the board members are appointed by the primary government. Therefore, it is considered a blended special revenue fund and is shown in the financial statements as part of the primary government.

Internal Service Funds:

Board of Public Buildings – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds and pay the costs of operations.

Conservation Employees' Insurance Plan – The Plan provides health and life insurance coverage to eligible employees and retirees of the Missouri Department of Conservation. The Plan is administered by a five member board of trustees made up of three members of the Plan appointed by the Conservation Commission which consist of two Conservation employees and Division Chief, the Chief Financial Officer, and the Human Resources Division Chief. Copies of the Plan's financial statements may be requested from:

Missouri Department of Conservation
P.O. Box 180
Jefferson City, Missouri 65102

Transportation Self-Insurance Plan – The Plan provides fleet vehicle liability, workers' compensation, and general liability insurance. The Plan is administered by the Missouri Department of Transportation. Additional information may be requested from:

Missouri Department of Transportation
Financial Services Division
P.O. Box 270
Jefferson City, Missouri 65102

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

Missouri State Employee's Insurance Plan – The Plan was created to provide basic life insurance to eligible members and is administered through the Missouri State Employees' Retirement System (MOSERS). Death benefits, optional life insurance, and long-term disability benefits are also provided by the Plan for certain members. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

Missouri Consolidated Health Care Plan (MCHCP) – The Plan was created by state law to provide medical benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate; two members of the House; three members appointed by the Governor; the Director of the Department of Health and Senior Services; the Director of the Department of Commerce and Insurance; the Commissioner of Administration; two members of the system who are current employees; and one member of the system who is a retiree. The management of MCHCP is the responsibility of the Executive Director who is appointed by the Board. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

MoDOT/MSHP Medical and Life Insurance Plan – The Plan provides health and life insurance coverage to eligible employees, retirees, and their dependents of the Missouri Department of Transportation (MoDOT) and the Missouri State Highway Patrol (MSHP). The Plan is administered by a board of trustees consisting of four active MoDOT employees, one retired MoDOT employee appointed by the Director of MoDOT, two active MSHP employees, and one retired MSHP employee appointed by the Superintendent of MSHP. Additional information may be requested from:

Missouri Department of Transportation
Financial Services Division
P.O. Box 270
Jefferson City, Missouri 65102

Pension (and other employee benefit) trust funds:

Missouri State Employees' Retirement System (MOSERS) – The System was created by state law and provides retirement, survivor, and disability benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate, two members of the House, two members appointed by the Governor, three members elected by the System's members, the State Treasurer, and the Commissioner of Administration. The management of MOSERS is the responsibility of the Executive Director who is appointed by the Board. The MOSERS Board of Trustees also oversees the State's Deferred Compensation Plan which is administered by a third party. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System
P.O. Box 209
Jefferson City, Missouri 65102-0209

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) – The System provides retirement, survivor, and disability benefits to qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff. The System is administered by a board of trustees consisting of three members of the Missouri Highways and Transportation Commission, the Director of the Missouri Department of Transportation, the Superintendent of the Missouri State Highway Patrol, one member of the Senate, one member of the House, one member elected by MoDOT employees, one member elected by the Missouri State Highway Patrol employees, one retired member elected by retired MoDOT employees, and one retired member elected by retired Missouri State Highway Patrol employees. Copies of the System's financial statements may be requested from:

Missouri Department of Transportation and
Highway Patrol Employees' Retirement System
P.O. Box 1930
Jefferson City, Missouri 65102-1930

Missouri Consolidated Health Care Plan (MCHCP) State Retiree Welfare Benefit Trust – The Trust was established on June 27, 2008, to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the State and their dependents who meet eligibility requirements, except those covered by other State sponsored post-employment benefit plans. The Trust is administered by the MCHCP board of trustees, which also administers the benefits for the active participants of the Plan. The net position and activity related to active participants are reported in an internal service fund. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan
P.O. Box 104355
832 Weathered Rock Court
Jefferson City, Missouri 65110-4355

Missouri State Public Employees' Deferred Compensation Plan – The Missouri State Public Employees' Deferred Compensation Plan is administered by ICMA-RC and oversight of the Plan is provided by the MOSERS board of trustees. Under this Plan, employees are permitted to defer a portion of their current salary until future years. In addition, eligible employees have the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, the State contributes \$25, \$30, or \$35 per month on behalf of any employee who contributes at least that amount to the Missouri State Public Employees' Deferred Compensation Plan and who has been an employee of the State for at least one year. However, due to budget constraints, the State's contribution amount was suspended in March 2010. Copies of financial statements for both Plans may be requested from:

Non-Major

Missouri Development Finance Board - The Board was created by state law as an independent, self-supporting, body corporate and politic to promote economic development of the State and was created within the Department of Economic Development. The Board is empowered to issue taxable, tax-exempt, and public purpose infrastructure industrial revenue bonds or notes; provide loans or loan guarantees to eligible businesses; provide loans and grants to political subdivisions to fund public infrastructure improvements; and issue tax credits against certain state income taxes in exchange for contributions made to the Board. The twelve member board is made up of the Lieutenant Governor and the Directors of the Department of Economic Development, the Department of Natural Resources, and the Department of Agriculture, who serve as ex-officio voting members, and eight members appointed by the Governor and confirmed by the Senate. Copies of the Board's financial statements may be requested from:

Missouri Development Finance Board
Governor Office Building
200 Madison Street, Suite 1000
Jefferson City, Missouri 65102

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Significant Accounting Policies (cont.)

Missouri Agricultural and Small Business Development Authority - The Authority was created by state law and is authorized to issue bonds to finance agricultural and small business development loans for property acquisitions/renovations and pollution control facilities throughout the State. If for any reason, the Authority ceases to exist, all rights and properties of the Authority will pass to the State. Its governing body consists of seven members appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's financial statements may be requested from:

Missouri Agricultural and Small
Business Development Authority
P.O. Box 630
1616 Missouri Boulevard
Jefferson City, Missouri 65102

Missouri Transportation Finance Corporation - The Corporation is a not-for-profit corporation organized under the Missouri Nonprofit Corporation Law. The Corporation is financed by federal highway and transit dollars, plus state and local matching funds. It is authorized to issue revenue bonds. The Corporation provides loans to assist public and private entities to fund highway and transportation projects throughout the State. Missouri Transportation Finance Corporation's board determines which applicants are extended loans. Copies of the Corporation's financial statements may be requested from:

Missouri Transportation Finance
Corporation
P.O. Box 270
105 West Capitol Avenue
Jefferson City, Missouri 65102

Missouri Wine and Grape Board - The Board was created by state law to further growth and development of the grape growing industry in Missouri and foster the expansion of the grape market for Missouri grapes. The eleven member board consists of seven members representing the grape and wine industry, food service industry, or media marketing industry. The four other members include the director of the Department of Agriculture and the presidents of the Missouri Grape Growers Association, the Missouri Vintners Association, and the Missouri Wine Marketing and Research Council. Copies of the Board's annual report may be requested from:

Missouri Wine and Grape Board
P.O. Box 630
1616 Missouri Boulevard
Jefferson City, Missouri 65102

State Environmental Improvement and Energy Resources Authority - The Authority was created by state law and is authorized to finance, acquire, construct, and equip projects to reduce, prevent, and control pollution and develop the energy resources of the State. The Authority is governed by a five-member board appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's annual report may be requested from:

State Environmental Improvement and
Energy Resources Authority
425 Madison Street
Jefferson City, Missouri 65101

Related Organizations

Related organizations are excluded from the financial reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members. Related organizations of the State of Missouri include:

Missouri Health and Educational Facilities Authority - finances health and educational facilities.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

Missouri Higher Education Loan Authority – provides a secondary market for loans made under the Federal Family Education Loan Program.

Missouri Housing Development Commission – finances the purchase, development or rehabilitation of affordable housing and funds housing assistance.

Missouri Technology Corporation – promotes the modernization of businesses through the development of science and technology applications.

Missouri Public Entity Risk Management Fund – provides liability protection to participating public entities, their officials, and employees.

Jackson County Sports Complex Authority – responsible for construction, operation, and financing of the Jackson County Sports Complex.

Kansas City Regional Sports Complex Authority – responsible for the study and review of all current major sports leagues, clubs, or franchises in Kansas City.

St. Charles County Convention and Sports Facility Authority – responsible for planning, constructing, and managing convention and sports facilities in the St. Charles area.

Missouri Cotton Growers' Organization – organized for boll weevil eradication.

Universal Service Board – organized to ensure just, reasonable, and affordable rates for comparable essential local telecommunication services throughout the State.

Interstate Commission for Adult Offender Supervision – responsible for promoting public safety and protecting the rights of victims through the control and regulation of the interstate movement of adults placed under community supervision.

Board of Trustees of the Missouri Mesothelioma Risk Management Fund – provides coverage of liabilities for participating employers relating to mesothelioma awards.

P-20 Council – organized to create a more efficient and effective education system that more adequately prepares students for the challenges of entering the workforce.

Missouri Propane Safety Commission – responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri.

Missouri Family Trust Board of Trustees – provides trust services for persons with disabilities.

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The Statement of Net Position presents the reporting entity's non-fiduciary assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, and private-purpose trust fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets, deferred outflows, liabilities, and deferred inflows associated with the operation of these funds are included on the Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net position. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. The agency fund financial statements are presented on the accrual basis of accounting.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to the college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

General Fund – accounts for all current financial resources not required by law or administrative action to be accounted for in another fund. Major revenues include contributions and taxes.

Public Education – provides general and special education needs of the State and other related areas such as library services and student loans. Major revenues include contributions and taxes.

Conservation and Environmental Protection – provides for the preservation of the State's wildlife and environment. Major revenues include contributions, taxes and licenses, fees, and permits.

Missouri Road Fund – accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Major revenues are from contributions.

State Lottery – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes. Major revenues are from sales of lottery tickets.

Unemployment Compensation – accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits. Major revenues include federal and employer contributions.

Missouri Veterans' Homes - accounts for fees to provide services for persons confined to one of the veterans' homes. Major revenues are from contributions and fees from services provided.

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

Proprietary Funds include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

Fiduciary Funds include pension (and other employee benefit) trust funds, private-purpose trust funds, and agency funds. These funds account for assets held by the State in a trustee capacity or as an agent for individuals, other governments, and other entities.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

Discretely Presented Component Units:

Major

College and Universities account for moneys from student tuition and fees, federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, grants, and other revenue sources. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of 92 days or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. This definition excludes Fiduciary funds. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3*).

E. Investments

These are long-term investments with an original maturity greater than 92 days, which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. Repurchase agreements held by the State Treasurer's Office are reported at amortized cost. The Missouri State Public Employees' Deferred Compensation Plan and the Missouri State Public Employees' Deferred Compensation Incentive Plan report their Stable Value Funds at contract value. The Missouri State Employees' Retirement System reports their cash equivalents at cost plus accrued interest. All other investments of the State are reported at fair value.

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and agency funds.

F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" or "due from primary government/component units" on the Balance Sheet and Statement of Net Position. Payables are classified as "due to other funds" or "due to primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 16*). These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Position. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government-Wide Statement of Net Position. Interfund receivables/payables between the primary government and the component units or the fiduciary funds are reclassified as accounts receivable/payable at the government-wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

G. Advances to/from Other Funds

Long-term interfund receivables are classified as “advances to other funds” or “advances to primary government/component units” on the Balance Sheet and Statement of Net Position. Long-term interfund payables are classified as “advances from other funds” or “advances from primary government/component units” on the Balance Sheet and Statement of Net Position (see *Note 16*). These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Inventory balances for governmental funds are shown in the nonspendable fund balance classification. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

I. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated acquisition value at the time received. Capital assets acquired through lease agreements and financed purchases are capitalized at the inception of the agreement (see *Notes 5,6 and 12*).

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – \$15,000, buildings and improvements – \$15,000, software and trademarks – \$5,000, and equipment – \$1,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 to 50 years, land improvements and building improvements – 15 to 20 years, temporary easements – term of easement, equipment – 2 to 5 years, software – 3 to 5 years, trademarks – 10 years, and infrastructure – 12 to 50 years. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State’s non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 years, land improvements and building improvements – 20 years, equipment – 5 to 15 years, and software – 3 to 5 years.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

J. Deferred Outflow of Resources and Deferred Inflow of Resources

In addition to assets, the Statement of Net Position/Balance Sheet may report a separate line item for deferred outflows of resources. Deferred outflows of resources consist of the decrease of net position by the State that is applicable to a future reporting period and will not be recognized as outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position/Balance Sheet may report a separate line item for deferred inflows of resources. Deferred inflows of resources consist of the increase of net position by the State that is applicable to a future reporting period and will not be recognized as inflow of resources (revenue) until then.

K. Unearned Revenues

Unearned revenues are amounts collected in advance of the year in which earned.

L. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 11*).
2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 12*).
3. Outstanding principal for bonds issued by the Board of Public Buildings, bonds issued by the Health and Educational Facilities Authority, the Regional Convention and Sports Complex Authority, the Missouri Development Finance Board, and the State Road Bonds issued by the Missouri Highways and Transportation Commission. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental funds when paid (see *Note 12*).
4. Bond premiums are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize bond premiums during the current period. Premiums on debt issuances are reported as other financing sources (see *Note 11*).

5. Obligations under leases and financed purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6, 11, and 12*).
6. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 11 and 23*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

7. Asset Retirement Obligations are measured based on the best estimate of the current value of outlays expected to be incurred. These liabilities include all legally enforceable amounts associated with the future retirement of a tangible capital asset. Liabilities and expenditures are recognized for goods and services used for asset retirement activities upon receipt of those goods and services (see *Note 24*).
8. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds, but are recorded as expenditures when paid (see *Note 11*).

Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State. However, unused sick leave may be converted to additional credited service upon retirement (usable only for benefit computation, not eligibility).

9. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred, but not reported. Expenditures are recorded in the fund from which the liability is paid (see Notes 11, 22, and 25).
10. The State provides postemployment health care (OPEB) and life insurance benefits to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT/MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing multiple-employer defined benefit plan, while MHPML and CEIP are single-employer defined benefit plans. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. The University of Missouri's OPEB plan is a single-employer defined benefit plan for all qualified employees.

For the purposes of measuring the total/net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position and additions to/deductions from have been recognized on the same basis as they are reported by the plans. Employer contributions are recognized as revenue and reported when due and payable. Benefits are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value (see *Note 8*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

11. The State has two major retirement systems which cover substantially all State employees and a retirement plan for University of Missouri employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple employer defined benefit public employee retirement plan administered by MOSERS. MOSERS also administers the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employee retirement plan. The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value (see *Note 7*).

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

M. Net Position and Fund Balance

The difference between fund assets, deferred outflows, liabilities, and deferred inflows is reported as "Net Position" on the government-wide, proprietary, fiduciary, and component unit fund statements and "Fund Balance" on the governmental fund financial statements.

Net Position is reported in three categories:

Net Investment in Capital Assets – An account used to segregate the portion of net position attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes, and other debt that are attributed to acquisition, construction, or improvement of those assets.

Restricted Net Position – An account used to segregate the portion of net position that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2020, net position restricted by enabling legislation equaled \$592,360,000 for governmental activities.

Unrestricted Net Position – An account used to segregate the portion of net position that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

Governmental Fund Balance Classifications

The State's fund balances are classified as:

Nonspendable – Amounts that are not expected to be converted to cash or amounts that are legally or contractually required to be maintained intact.

Restricted – Amounts that are restricted for specific purpose due to constraints that are externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the legislature. Committed amounts cannot be used for other purposes unless the General Assembly passes legislation to remove the restraints.

Assigned – Amounts that are constrained by the legislature's intent to be used for a specific purpose, but do not meet the criteria for restricted or committed. The constraint for assigned fund balance is established by the Revised Statutes of the State of Missouri.

Unassigned – Amounts that do not meet the criteria of any of the classifications listed above.

Negative Fund Balance

A negative fund balance is prohibited in all fund balance classifications except Unassigned. When a negative fund balance exists, the shortfall would be covered by the next fund balance classification for that specific purpose.

N. Interfund Transactions

During the fiscal year, the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. Interfund transactions consist of these three types:

1. Transactions that would be treated as revenues or expenditures/expenses, if they involved organizations external to the State, are similarly treated when involving other funds of the State. Major transactions that fall into this category include payments to internal service funds from other funds for services rendered and to agency funds for contributions for employee benefits.
2. Transactions that reimburse another fund for an expense reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.
3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 17*). These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the governmental activities are eliminated at the Government-Wide Statement of Activities.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 1 - Significant Accounting Policies (cont.)

O. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

Property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

Note 2 - Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2020:

- GASB 84, *Fiduciary Activities*, changes the definition and reporting of fiduciary activities. The State as a whole plans to implement this statement during fiscal year 2021. However, one of the discretely presented component units, the University of Missouri, and the department-wide financial statements provided by the Missouri Department of Transportation for the Missouri Road Fund early implemented during fiscal year 2020. Please reference the separately presented audited financial statements of these entities for more information.
- A portion of GASB Statement No. 92, *Omnibus 2020*, which addresses the following:
 - When accounting for risk financing and insurance-related activities of public entity risk pools, amounts that (a) are recoverable from reinsurers or excess insurers and (b) relate to paid claims and claim adjustment expenses may be reported as reductions of expenses but are not required to be.
 - The terms derivative and derivatives in National Council on Governmental Accounting and GASB pronouncements should be replaced with derivative instrument and derivative instruments, respectively.

Implementation of this statement did not have any impact on the financial statements.

- GASB Statement 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, extended the effective dates of some of the GASB pronouncements that were scheduled to be implemented for Fiscal Year 2020. Therefore, several GASB statements that were intended to be implemented during fiscal year 2020 will not be implemented until fiscal year 2021.
- A portion of GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*. The portion implemented addresses instances when a legally separate organization does not have a governing board. This did not cause any entity changes for fiscal year 2020.
- Technical Bulletin No. 2020-1, *Accounting and Financial Reporting Issues Related to the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) and Coronavirus Diseases*, provides guidance on the reporting requirements for resources received from certain programs established by the CARES Act. It also provides clarification on the presentation of certain inflows resulting from the CARES Act and outflows incurred in response to a coronavirus disease. This guidance is reflected in the financial statements.

The State of Missouri reclassified 2 funds for the fiscal year ending June 30, 2020. The Petroleum Storage Tank Insurance Fund was reclassified from a major fund to a non-major fund. The Missouri Veterans' Home Fund was reclassified from a non-major fund to a major fund.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 3 - Deposits and Investments

The State Treasurer's Office maintains a cash and short-term investment pool that is used by substantially all state funds of the primary government. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets – Cash and Cash Equivalents," and "Restricted Assets – Investments" as reported at June 30, 2020.

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer's Office to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% in excess of FDIC coverage with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on State law.

Primary Government

At June 30, 2020, the bank balance of the primary government's deposits was \$1,551,358,000. Of the bank amount, \$54,220,000 was exposed to custodial credit risk by being uninsured and collateralized with securities held by the pledging financial institutions, \$652,334,000 was held by the U.S. Treasury, and the remainder was not exposed to custodial risk.

Fiduciary

At June 30, 2020, the bank balance of the deposits of the fiduciary funds was \$71,890,000.

Component Units

Information on the component units' deposits is available within their individual financial statements.

B. Investments

Statutes authorize the State Treasurer's Office to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury, or Agency securities of any maturity. There have been no violations of these investment restrictions during fiscal year 2020.

The State Treasurer's Office minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer's Office also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the State Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer's Office minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, Wells Fargo Bank, National Association, or at one of the State Treasurer's Office approved collateral custodians.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 3 - Deposits and Investments (cont.)

Primary Government

At June 30, 2020, the reported amount of the primary government's investments was \$5,723,376,000. Of this amount, \$194,132,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

Fiduciary

At June 30, 2020, the reported amount of the fiduciary funds investments was \$16,869,370,000.

Component Units

Information on the component units investments is available within their individual financial statements.

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. Statutes also authorize investment of funds not held by the State Treasurer's Office. The externally-held internal service funds, the agency and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, fixed income securities, mutual funds, and investments in limited partnerships. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity, or in certain instances, a weighted average maturity in years. The State Treasurer's Office minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 2.5 years, and holding at least 25% of the portfolio's total market value in securities with a maturity of 12 months or less.

	Maturity in Years					Total Fair Value *
	Less than 1	1-5	6-10	More than 10	No Maturity	
All Fund Types except Fiduciary Funds and Component Units:						
U.S. Treasury Securities	\$ 119,543	\$ 99,420	\$ 11,409	\$ 9,091	\$ —	\$ 239,463
U.S. Agency Securities	1,250,480	1,885,907	—	—	—	3,136,387
U.S. Government Guaranteed Mortgages	307	2,877	—	—	—	3,184
Collateralized Mortgage Obligations	186	3,993	—	—	—	4,179
U.S. Agency-Sponsored Securities	13,400	139,452	—	—	—	152,852

*The State Treasurer's Office reports their repurchase agreements in the amount of \$1,739,000 at amortized costs. The Missouri State Public Employees Deferred Compensation Plan and the Missouri State Public Employees Deferred Compensation Incentive Plan reports their Stable Value Funds in the amounts of \$505,000 and \$360,000 respectively, at contract value. The Missouri State Employees' Retirement System reports their cash equivalents in the amount of \$815,000, at cost plus accrued interest.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer's Office from investing more than 10% of the total time deposits with any single financial institution. State investment policy limits investment in commercial paper to 10% of the total portfolio per issuer and no more than 15% of the total portfolio may be invested in repurchase agreements with a single counterparty. Addendum A to the investment policy limits the total amount of linked deposits a financial institution may receive to 20% of the statutory cap set forth in Section 30.753.1 RSMo. There are no restrictions in the amount that can be invested in U.S. securities. During fiscal year 2020, the State did not have any instances of noncompliance with these requirements and policies.

Note 3 - Deposits and Investments (cont.)

Fair Value Measurement

The State of Missouri categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurements and Application*. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

- Level 1 – Unadjusted quoted prices for identical instruments in active markets.
- Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are unobservable.
- Level 3 – Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lower level input that is significant to the valuation. The State's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The State Treasurer's Office uses the market approach for the determination of the fair value of investments, except for repurchase agreements, which are measured at amortized costs.

Debt, equities, and investment derivatives classified in level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

Debt securities and liabilities classified in level 2 have non-proprietary information that was readily available to market participants from multiple independent sources, which are known to be actively involved in the market. Pricing inputs may include market quotations, yields, maturities, call features, and ratings. A portion of the derivative securities classified in level 2 are securities whose values are derived daily from associated traded securities. Other investments listed as level 2 include debt securities where an independent pricing evaluator had direct observable information, including: trading volume, multiple sources of market data and benchmark spreads. FX forwards are included due to the valuation coming from observable forward rates on the underlying currencies. The equity index swap is included because valuation inputs include an observable interest rate and the underlying index.

Private equity securities classified at level 2 are valued at the price observed in subsequent market activity.

Investments listed as level 3 include debt securities where an independent pricing evaluator did not have direct observable information for comparable securities. Significant inputs used in the valuation are not available aside from the evaluator providing the price. Direct investments in private equity, real estate, credit, and real assets are included because the valuation techniques utilize discounted cash flows or other non-observable market information.

The following is a description of valuation methodologies used for assets recorded at fair value.

¹Activist equity – This value is 100% from MPERS. Consisting of one fund, this strategy focuses on obtaining publicly traded shares of companies and effecting changes within the companies that it owns whether that be value creation through operational, financial or corporate governance changes. The fund's focus is on European and Nordic companies. Due to contractual lock-up restrictions and the necessity for activist managers to retain capital in order to realize desired company changes, this strategy's investments are eligible for redemption on a rolling three-year basis.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 3 - Deposits and Investments (cont.)

²Long/short equity hedge funds – This value is 100% from MPERS. Consisting of one fund, this strategy invests in both long and short in Asia Pacific equity securities, with a goal of adding growth and minimizing market exposure. Due to contractual lock-up restrictions, the value of these investments is eligible for redemption in the next six months.

³Equity market neutral hedge fund – This value is 100% from MOSERS. This consists of one fund whereby the strategy invests in both long and short in U.S. and global equity securities, with the goal of having little to no net market exposure. This investment is redeemable quarterly and is not subject to lockup restrictions.

⁴Event driven hedge funds – This value is 93.5% from MOSERS (with a redemption period of 60 days) and 6.5% from MPERS (with a redemption period of 90 days). Consisting of one fund for MOSERS and one fund for MPERS, this strategy seeks to gain an advantage from pricing inefficiencies that may occur in the onset or aftermath of a corporate action or related event. This investment is redeemable semi-annually and is not subject to lockup restrictions for MOSERS. Due to contractual lock-up restrictions, the value of this investment is eligible for redemption in the next four months for MPERS.

⁵Fund-of-funds – This value is 100% from MOSERS. Consisting of one fund, this fund seeks to provide diversification by holding a number of funds within a single fund structure. This investment is redeemable monthly, and is not subject to lock-up restrictions.

⁶Global asset allocation – This value is 100% from MPERS. Consisting of one fund, this strategy is highly diversified and uses fundamental research to develop systematic rules for trading positions. Due to contractual lock-up restrictions, the value of this fund is eligible for redemption in the next 35 days.

⁷Pending liquidated hedge funds – This value is 96.0% from MOSERS and 4.0% from MPERS. MOSERS has 11 hedge funds that have been fully redeemed as of June 30, 2020, which are awaiting final distribution of the proceeds. MPERS has a small investment in two hedge funds that are in liquidation and have been closed, and MPERS is awaiting the sale of the final assets.

⁸Macro hedge funds – This value is 100% from MOSERS. Consisting of two funds, this strategy seeks to take advantage of macroeconomic dislocations between countries by trading a number of different markets and financial instruments. These investments are redeemable monthly and quarterly, and are not subject to lock-up restrictions.

⁹Merger arbitrage hedge fund – This value is 100% from MOSERS. Consisting of one fund, this strategy invests in the common stock of companies that are involved in publicly announced mergers and seeks to generate attractive returns while dampening volatility. This investment is redeemable monthly, and is not subject to lock-up restrictions.

¹⁰Multi-strategy hedge fund – This value is 76.1% from MOSERS and 23.9% from MPERS. Consisting of one fund for MOSERS and two funds for MPERS, this strategy aims to pursue varying strategies in order to diversify risks and reduce volatility. These investments are redeemable quarterly, but is subject to lock-up restrictions for MOSERS. Due to lock-up restrictions, the value of these investments is eligible for redemption in the next six months for MPERS.

¹¹Risk premia hedge funds – This value is 100% from MOSERS. Consisting of one fund, this strategy seeks to capture hedge fund betas through the use of systematic, bottoms up security selection across major hedge fund strategies. Style premia such as value, momentum and carry help build the long/short portfolios. This investment is redeemable at least monthly, and is not subject to lock-up restrictions.

¹²Quantitative hedge funds – This value is 100% from MOSERS. Consisting of two funds, this strategy attempts to achieve uncorrelated returns using advanced statistical methods to select securities across liquid public markets. These investments are redeemable monthly, and are not subject to lock-up restrictions.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 3 - Deposits and Investments (cont.)

¹³Structured credit – relative value – This value is 100% from MPERS. Consisting of one fund, this strategy's main focus is to benefit from valuation discrepancies that may be present in related financial instruments by simultaneously purchasing or selling these instruments. As of June 30, a full redemption has been requested and will be received over the next four quarters.

¹⁴Commingled equity funds – This value is 81.8% from MOSERS (with a redemption period of 2-10 days) and 18.2% from MPERS (with a redemption period of 0-30 days). These international equity funds (4 for MOSERS and 3 for MPERS) are considered to be commingled in nature. For MPERS, due to contractual lock-up restrictions, 65% of this capital is eligible for redemption in one month; the remaining 35% has daily liquidity.

¹⁵Commingled fixed income funds – This value is 100% from MOSERS. Two fixed income funds are considered to be commingled in nature. These investments are redeemable daily with a redemption period of 2 days.

¹⁶Commingled short-term investment funds – This value is 100% from MOSERS. Two short-term investment funds are considered to be commingled in nature. These investments are redeemable daily with a redemption period of 0 days.

¹⁷MOSERS Investment Portfolio (MIP) fund – This value is 85.7% from the Deferred Compensation Plan and 14.3% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur monthly. The significant investment strategies are designed to achieve long-term total returns, comprised of capital appreciation and income. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments nor do the Plans have any contractual obligations to further invest in any of these funds.

¹⁸Missouri target date funds – This value is 78.8% from Deferred Compensation Plan and 21.2% from the Deferred Compensation Incentive Plan. Participant transactions (purchases and sales) may occur daily. The significant investment strategies of the funds are to seek the highest total return over time, consistent with the fund's asset mix. The asset allocations within these target date funds adjust automatically over time. Each fund invests more aggressively in its early years and becomes more conservative as it reaches its time horizon. There are no unfunded commitments. There are generally no restrictions as to the redemption of these investments nor are there any contractual obligations to further invest in any of these funds.

¹⁹Private equity, real estate and timber funds – This value is 85.1% from MOSERS and 14.9% from MPERS. MOSERS' private equity portfolio consists of 43 funds with exposure to buyout funds, distressed funds, infrastructure, energy, secondary, royalty funds, and special situations. The real estate portfolio, comprised of six funds, invests mainly in U.S. commercial real estate. The timber portfolio consists of one fund in liquidation which invests in global timberland. The fair values of the majority of these funds has been determined using net assets valued one quarter in arrears plus current quarter cash flows. These funds are not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which, on average, can occur over the span of 5 to 10 years. MPERS invests in three core private real estate funds that are commingled in nature. While each of these funds have daily liquidity, due to contractual restrictions, MPERS has to give 90 days notification of withdrawals.

The State Treasurer's Office requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (such as A1/P1) as rated by at least two Nationally Recognized Statistical Rating Organizations (NRSROs). The Treasurer does not have any additional policies regarding credit ratings of investments.

Note 3 - Deposits and Investments (cont.)

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars.

C. Securities Lending Program

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Fixed income, international equity and domestic equity securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of market value for domestic loans and 105% of market value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default.

MOSERS had no securities lending activity in fiscal year 2020.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. MPERS custodial bank, Northern Trust, is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

MPERS may lend securities and receive cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. MPERS cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers are required to deliver collateral for each loan equal to: 1) 102% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities denominated in United States dollars or whose primary trading market is located in the United States, and 2) 105% of the fair value of the loaned securities plus any accrued interest in the case of loaned securities not denominated in United States dollars or whose primary trading market was not located in the United States.

MPERS did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

MPERS and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2020, the cash collateral fund had a fair value of \$108,568,000.

At June 30, 2020 and June 30, 2019, MPERS had earned \$194,000 and \$166,000, respectively, on the securities lending program.

Component Units:

Information on the component units securities lending program is available within their individual financial statements.

Note 3 - Deposits and Investments (cont.)

D. Derivatives

Missouri State Employees' Retirement System:

While the Board has no formal policy specific to derivatives, Missouri State Employees' Retirement System (MOSERS), through its external investment managers, holds investments in futures contracts, swap contracts and forward foreign currency exchange. MOSERS does not anticipate additional significant market risk from the derivative arrangements. The forward foreign currency exchange contracts are used primarily to hedge against changes in exchange rates related to foreign equities. For the year ended June 30, 2020, the change in fair value of the foreign exchange contracts resulted in \$300,000 of investment loss. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligation as credit evaluations and credit limits are monitored by the investment managers. At June 30, 2020, MOSERS Foreign Currency Forward Contracts had a pending receivable of \$551,000 and a pending payable of \$550,000 resulting in a final asset of \$1,000.

The following table (in thousands of dollars) summarizes the various contracts in MOSERS portfolio as of June 30, 2020. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Futures Contracts:

Notional Amount	Exposure
\$105,229	\$(2,479)

Swap Contracts:

Notional Amount	Counterparty Exposure
\$3,538,793	\$142,802

Foreign Currency
Forward Contracts:

Notional Amount	Exposure
\$1	\$1

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

MPERS has an investment policy which holds investments in future contracts, swap contracts, options contracts, and forward foreign currency exchange contracts. Derivative financial instruments involve credit risk and market risk. The notional value related to these derivative instruments are generally not recorded on the financial statements; however, the change in fair value of these instruments is incorporated in performance.

The following table (in thousands of dollars) summarizes the various contracts in MPERS portfolio as of June 30, 2020. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Type	Notional/Fair Value	Unrealized Gain (Loss)
Futures Contracts	\$ 438,617	\$ (6,438)
Swap Contracts	144,907	(15,900)
Total	\$ 583,524	\$ (22,338)

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 3 - Deposits and Investments (cont.)

Through the use of derivatives, MPERS is exposed to risk that the counterparties involved in the contracts are unable to meet the term of their obligation. MPERS investment managers seek to control this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures. MPERS anticipates the counterparties will be able to satisfy their obligations under the contracts. The associated counterparty's credit rating is an A+.

Component Units:

Information on the component units derivatives is available within their individual financial statements.

E. Assets Held in Escheat

The Unclaimed Property Division of the Missouri State Treasurer's Office holds unclaimed stocks, bonds, mutual fund positions, and other securities that have been turned over by their holders on behalf of the securities' owners. The State takes custody of these securities until the owner claims them or if unclaimed, liquidates them after 18 to 24 months. The State holds the securities in order to return them to their owners. The State does not report these securities as investments because they do not meet the Governmental Accounting Standards Board's definition of "investments". This is because the State does not hold the securities for income or profit, nor do the securities have a present service capacity for the State. A total of \$20,145,000 of these unclaimed securities is shown as "Assets Held in Escheat" on the private-purpose trust funds combining statement of fiduciary net position in Unclaimed Property.

A. Budget Reserve Fund				

The Budget Reserve Fund is established in Article IV, Section 27(a) of the Missouri Constitution. The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any other fund when necessary to meet the cash requirements of the State. However, the Budget Reserve Fund must be paid back with interest prior to May 16th of the fiscal year in which the transfer was made.

Budget stabilization expenditures may occur in a fiscal year in which the Governor reduces the expenditures of the State or any of its agencies below their appropriation or in which there is a budget need due to a natural disaster as proclaimed by the Governor to be an emergency. An appropriation from the Budget Reserve Fund may be granted by a two-thirds vote of the members elected to each House. The maximum amount which may be appropriated at any one time for budget stabilization purposes is one-half the sum of the balance of the Budget Reserve Fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes but not yet appropriated for repayment to the fund. One-third of the amount expended or transferred from the Budget Reserve Fund for budget stabilization purposes plus interest shall stand appropriated to the Budget Reserve Fund during each of the next three fiscal years from the fund which received the budget stabilization appropriation. The balance of the Budget Reserve Fund at June 30, 2020, was \$654,523,000.

Capital Asset Impairments

Multiple software in development projects were stopped in fiscal year 2020 due to cancellation, changing business processes, functionality being addressed by a separate project, or being on hold for an extended period, which resulted in an impairment loss of \$402,000. This loss is reported as a program expense in the government-wide financial statements.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 6 - Leases

Capital

The State has entered into various agreements to lease land, buildings, and equipment. GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee to be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease liability).

Capital leases for the internal service funds, enterprise funds, and college and universities are reported as a long-term obligation in those funds along with the related assets. Capital leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the capital leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of the future minimum lease payments for capital leases (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds	Internal Service Funds	College and Universities
2021	\$ 2,239	\$ 307	\$ 12,912
2022	2,239	307	13,049

2086-2090	2,502	—	—
2091-2095	2,502	—	—
2096-2100	2,502	—	—
2101-2103	1,501	—	—
Total Minimum Lease Payments	51,637	1,870	96,383
Less Amount Representing Interest	(33,895)	(54)	(5,318)
Present Value of Net Minimum Lease Payments	\$ 17,742	\$ 1,816	\$ 91,065

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 6 - Leases (cont.)

The State has entered into a lease with the Missouri Development Finance Board. The State's obligation under this lease does not constitute a general obligation or other indebtedness of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued \$28,995,000 of Leasehold Revenue Bonds Series 2005 for the purpose of purchasing buildings in Florissant, St. Louis, and Jennings. In May 2006, the Board issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 for the purpose of purchasing one building in St. Louis. In June 2013, the Board issued \$21,820,000 of Leasehold Revenue Refunding Bonds Series A 2013 and \$7,450,000 of Leasehold Revenue Refunding Bonds Series B 2013 for the purpose of refunding \$20,805,000 of Leasehold Revenue Bonds Series 2005 and \$7,100,000 of Leasehold Revenue Bonds Series 2006, respectively. The payments on these leases are subject to annual appropriation by the State legislature.

Following is a summary of the future minimum lease payments to pay interest and principal of the Leasehold Revenue Bonds (in thousands of dollars):

Fiscal Year Ending June 30	Internal Service Funds
2021	\$ 2,414
2022	2,413
2023	2,409
2024	2,407
2025	2,409
2026-2030	12,036
2031	2,402
Total Minimum Lease Payments	26,490
Less Amount Representing Interest	(3,985)
Present Value of Net Minimum Lease Payments	<u>\$ 22,505</u>

Assets acquired through these capital lease agreements are recorded as capital assets at the lower of the present value of the minimum lease payments or the fair value at the time of acquisition. The following is the value of the property under capital lease by asset category as of June 30, 2020 (in thousands of dollars):

	Governmental Funds	Internal Service Funds	College and Universities
Land	\$ —	\$ —	\$ 518
Buildings	21,964	39,134	41,859
Equipment	—	—	26,180
	<u>\$ 21,964</u>	<u>\$ 39,134</u>	<u>\$ 68,557</u>

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 6 - Leases (cont.)

Operating

The State has entered into various operating leases for land, buildings, and equipment. Most of these leases are classified as operating because the lease period is one year with multiple renewal options. The Department of Natural Resources (DNR) has a yearly obligation of \$11,000 in FY20 for leased property for the Katy Trail easement which is paid out of governmental funds. The obligation will continue in perpetuity, increasing in 5 year increments. The contract conditions and amount for the easement can change with the sale of the property requiring the easement. If the property requiring the easement is sold, a new contract would be negotiated with the new property owners. Future minimum commitments due under operating leases as of June 30, 2020, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds	Enterprise Funds	Component Units
2021	\$ 25,998	\$ 740	\$ 14,473
2022	2,031	432	11,810
2023	1,703	432	10,529
2024	1,600	332	15,421
2025	1,804	261	11,504
2026-2030	1,652	126	6,034
2031-2035	—	126	—
Total Minimum Commitments	<u>\$ 34,788</u>	<u>\$ 2,449</u>	<u>\$ 69,771</u>

Expenditures for rent under operating leases for the years ended June 30, 2020 and June 30, 2019, were \$28,093,000 and \$24,434,000, respectively.

Note 6 - Leases (cont.)

Rental Revenue

The State leases certain state owned facilities to entities outside the State. These lessor arrangements are generally long-term commitments which either generate revenue from otherwise idle property or better serve Missouri's citizens by providing convenient access to products and services. The total asset value of the State's leased facilities and land is \$390.9 thousand. For component units, the total asset value is \$117.1 million less accumulated depreciation of \$34.7 million. Future minimum receivables, payable from lessor arrangements as of June 30, 2020, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds	Component Units
2021	\$ 73	\$ 5,704
2022	73	5,156
2023	73	4,797
2024	77	4,588
2025	78	4,407
2026-2030	402	18,032
2031-2035	433	17,710
2036-2040	469	17,587
2041-2045	451	10,432
2046-2050	408	5,225
2051-2055	463	2,359
2056-2060	526	2,359
2061-2065	359	1,754
2066-2070	—	642
Total Minimum Receivables	<u>\$ 3,885</u>	<u>\$ 100,752</u>

Note 7 - Retirement Systems

The State has two major retirement systems which cover substantially all State employees. These systems are the Missouri State Employees' Retirement System (MOSERS) and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). MOSERS is comprised of the Missouri State Employees' Plan (MSEP), a cost-sharing multiple-employer, defined benefit public employee retirement plan and the Judicial Plan, a single-employer defined benefit public employee retirement plan. MPERS is a single-employer defined benefit public employees' retirement plan.

Plan Descriptions

The Missouri State Employees' Plan (MSEP) is a cost-sharing multiple-employer, defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 104.010 and 104.312-104.1215, RSMo.

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 1, 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 7 - Retirement Systems (cont.)

The Judicial Plan is a single-employer, defined benefit public employee retirement plan administered by MOSERS. The Plan is administered in accordance with Sections 476.445 - 476.690, RSMo. The Judicial Plan covers eligible members appointed/elected before January 1, 2011. The Judicial Plan 2011 covers eligible members appointed/elected for the first time on or after January 1, 2011.

MOSERS provides retirement, survivor, and disability benefits to its members. General employees are fully vested after 5 years of creditable service if covered by the MSEP, MSEP 2000, and MSEP 2011 plans. Elected officials are fully vested after 4 years of creditable service and Members of the General Assembly are fully vested after 6 years of creditable service. The base retirement benefits are calculated by multiplying the employee's final average pay by a specific factor multiplied by the years of credited service. The retirement eligibility requirements are as follows for general employees:

MSEP

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 55 with at least 10 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.6% multiplied by the final average pay multiplied by years of credited service.

MSEP 2000

Age 62 with 5 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 57 with at least 5 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

MSEP 2011

Age 67 with 5 years of service
Age 55 with age and service equaling 90 or more (Rule of 90)
Employees may retire early at age 62 with at least 5 years of service with reduced benefits.
The base benefit in the general employee plan is equal to 1.7% multiplied by the final average pay multiplied by years of credited service.

Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less than 12 years of service or age 60 with less than 15 years of service with a reduced benefit that is based upon years of service relative to 12 or 15 years.
The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

Judicial Plan 2011

Age 67 with 12 years of service
Age 62 with 20 years of service
Employees may retire early at age 67 with less than 12 years of service with reduced benefits or age 62 with less than 20 years of service with a reduced benefit based on years of service.
The base benefit for members with 12 or more years of service is equivalent to 50% of compensation on the highest court served.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 7 - Retirement Systems (cont.)

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their future benefit in a lump sum payment. To qualify, a member must have left state employment on or after October 1, 1984 and prior to September 1, 2002, have less than 10 years of service, not be within 5 years of retirement eligibility, meet age requirements, and have a benefit present value of less than \$10,000.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer, defined benefit public employee retirement plan administered in accordance with Sections 104.010-104.1093, RSMo.

MPERS is considered a single-employer plan because its membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. The MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan-2011 Tier. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000 and before January 1, 2011. The Year 2000 Plan-2011 Tier covers employees hired on or after January 1, 2011. Employees covered by the Closed Plan and the Year 2000 Plan are fully vested after 5 years of creditable service. Employees covered by the 2011 Tier are fully vested after 5 years of creditable service if they were active on or after January 1, 2018.

The retirement eligibility requirements are as follows:

Closed Plan

MoDOT and non-uniformed patrol members:

Age 65 and active with 4 or more years
of service
Age 65 with 5 or more years of service
Age 60 with 15 or more years of service
Age 48 with sum of age and service
equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 55 and active with 4 or more years
of service
Age 55 with 5 or more years of service
Age 48 with sum of age and service
equaling 80 or more (Rule of 80)
Mandatory retirement at age 60

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 7 - Retirement Systems (cont.)

All non-uniformed members may retire early, with reduced benefits, at age 55 with at least 10 years of service.

The base benefit in the Closed Plan is equal to 1.6% multiplied by the final average pay multiplied by years of creditable service for non-uniformed members. For members of the uniformed patrol, the base benefit is equal to 2.1333% multiplied by the final average pay multiplied by years of creditable service.

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the increase in the Consumer Price Index for all urban consumers for the United States (CPI-U). The minimum rate is 4% and the maximum rate is 5%, until the cumulative amount of COLAs equals 65% of the original benefit. Thereafter, the 4% minimum rate is eliminated and the annual COLA rate will be equal to 80% of the increase in the CPI-U (annual maximum of 5%). For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI-U, up to a maximum rate of 5%.

Year 2000 Plan

MoDOT and non-uniformed patrol members:

Age 62 with 5 or more years of service
Age 48 with sum of age and service
equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 48 with sum of age and service
equaling 80 or more (Rule of 80)
Mandatory retirement at age 60 with
5 or more years of service

All members may retire early with reduced benefits at age 57 with at least 5 years of service.

The base benefit in the Year 2000 Plan is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 80, and uniform patrol members retiring at the mandatory retirement age (currently 60), receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI-U, up to a maximum rate of 5%.

Year 2000 Plan-2011 Tier

MoDOT and non-uniformed patrol members:

Age 67 with 5 or more years of service
Age 55 and active with sum of age and service
equaling 90 or more (Rule of 90)

Uniformed patrol members:

Age 55 and active with 5 or more years
of service
Mandatory retirement at age 60 with no
minimum service amount, active only.

Active MoDOT and non-uniformed patrol members may retire early with reduced benefits at age 62 with at least 5 years of service. Terminated and vested uniformed patrol members may retire at age 67 with 5 or more years of service.

The base benefit in the 2011 Tier is equal to 1.7% multiplied by the final average pay multiplied by years of creditable service. Members retiring under the Rule of 90, and uniform patrol members retiring at the mandatory retirement age (currently 60) or at age 55 with 5 years of creditable service, receive an additional temporary benefit until age 62. The temporary benefit is equivalent to 0.8% multiplied by final average pay multiplied by years of creditable service. COLAs are provided annually based on 80% of the change in the CPI-U, up to a maximum rate of 5%.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 7 - Retirement Systems (cont.)

Single-Employer Plans:

Employees Covered by Benefit Terms – Single-Employers Only

As of June 30, 2019 valuation, membership consisted of the following:

	<u>Judicial Plan</u>	<u>MPERS</u>
Retirees, beneficiaries, and the disabled currently receiving benefits	585	9,035
Terminated employees entitled to, but not yet receiving benefits	36	2,042
Active		
Vested	414	5,199
Nonvested	—	2,222
Total Membership	<u>1,035</u>	<u>18,498</u>

Contributions

Per Chapter 104.436, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MOSERS Board. Employees in the MSEP 2011 Plan are required to contribute 4.00% of their annual pay. The State's required contribution rates for the MSEP and the Judicial Plan for the year ended June 30, 2019, were 20.21% and 63.71% of annual payroll, respectively. The contribution rates as a percentage of covered payroll for the MSEP and the Judicial Plan for the year ended June 30, 2019, were 20.21% and 63.63%, respectively. Contributions to the pension plan from the MSEP Plan and the Judicial Plan were \$326,951,000 and \$38,555,000 respectively, for the year ended June 30, 2019.

Per Chapter 104.070, RSMo, contribution requirements of the active employees and the participating employers are established and may be amended by the MPERS Board of Trustees. Beginning January 1, 2011, employee contributions of 4.00% of gross pay are required for those covered by the Year 2000 Plan-2011 Tier. Employer contributions are determined through annual actuarial valuations. Administrative expenses are financed through contributions from participating employers and investment earnings. The state's required contribution rate, as adopted by the MPERS Board of Trustees, for the year ended June 30, 2019, was to be at least 58.00%. The contribution rate as a percentage of covered payroll for the MPERS plan year ended June 30, 2019, was 58.00%. Contributions to the pension plan from the MPERS plan were \$210,167,000.

For the portion of the MSEP Plan relating to the State's component units, the required contribution rate for the year ended June 30, 2019, was 20.21%. The contribution rates as a percentage of covered payroll for the year ended June 30, 2019, was 20.21%. Contributions to the pension plan were \$64,387,000 for the year ended June 30, 2019.

Note 7 - Retirement Systems (cont.)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2020, a liability was reported for the State's proportionate share of the net pension liability for the MSEP and the MSEP-CU plans based on an actuarial valuation as of June 30, 2019. The State's proportionate share of the net pension liability was based on the State's actual share of contributions to the pension plan relative to the actual contributions of all participating employers for plan year ended June 30, 2019.

The State reported the following proportionate share of the net pension liability and the pension expense for the fiscal year ended June 30, 2020 (in thousands of dollars):

	<u>MSEP</u>	<u>MSEP-CU</u>
Pension Expense	\$ 1,035,084	\$ 188,850
Proportionate share:		
2020	83.27 %	16.40 %
Net Pension Liability	\$ 5,030,722	\$ 990,703

Single-Employer Plans:

The State's net pension liability and related information for the Judicial and MPERS plans for the fiscal year ended June 30, 2020 (in thousands of dollars):

Net difference between projected and actual earnings on pension plan investments	390,586	7,955	—	76,918	—	—	14,499	—
Changes in proportion and differences between plan contributions and proportionate share of contributions	25,138	—	—	3,717	282	—	—	27,850
Contributions subsequent to the measurement date	362,950	39,123	210,872	70,006	—	—	—	—
Total	\$983,976	\$59,279	\$288,370	\$191,072	\$58,762	\$ 2,940	\$49,553	\$ 39,366

Amount reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the measurement period of the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources			
	MSEP	Judicial	MPERS	MSEP-CU
2021	\$ 311,557	\$ 7,811	\$ 20,304	\$ 45,978
2022	158,891	6,041	2,481	19,508
2023	49,602	2,382	3,932	7,900
2024	42,215	982	1,228	8,313
Totals	\$ 562,265	\$ 17,216	\$ 27,945	\$ 81,699

Actuarial Assumptions

The total pension liability at June 30, 2020, is based upon the June 30, 2019 actuarial valuation for MOSERS and MPERS using the entry age normal actuarial cost method. Significant actuarial assumptions used in the June 30, 2019, actuarial valuations are the following:

	MSEP and MSEP-CU	Judicial	MPERS
Price Inflation	2.35 %	2.35 %	3.00 %
Salary Increases	2.85-8.35%	2.60-4.80%	3.00-12.45%
Investment Rate of Return	7.10 %	7.10 %	7.00 %

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 7 - Retirement Systems (cont.)

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2015, for MOSERS. In addition, the investment return assumption was reduced from 7.25% to 7.10% for the June 30, 2019 valuation. Other assumption changes were decreases in the payroll and wage growth assumptions. MOSERS mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table, projected to 2026 with scale MP-2015 and scaled by 120% for the MSEP and 98% for the Judicial Plan. The pre-retirement mortality table used was the RP-2014 Employee Mortality Table, projected to 2026 with scale MP-2015 and scaled by 95% for males and 90% for females.

Amounts reported in the June 30, 2019, actuarial report are assumptions reflecting adjustments to expected rates of withdrawal, disability, normal and early retirement, mortality, and merit and seniority pay for MPERS. The actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2012, through June 30, 2017. Mortality rates, for post-retirement mortality, used in evaluating allowances to be paid to non-disabled pensioners were the RP-2014 Healthy Mortality Tables projected to 2022 using projection scale MP-2017. Pre-retirement mortality used were the RP-2014 Employee Mortality Table projected to 2022 using projection scale MP-2017 and multiplied by a factor of 65%. Disabled pension mortality was based on RP-2014 Disabled Retiree Annuitant Mortality Tables projected to 2022 using projection scale MP-2017.

The long-term (30 year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for the MSEP and Judicial Plan and arithmetic real rates of return for MPERS for each major asset class included in the target allocation are summarized in the table below:

Target Asset Allocation - New Portfolio

Asset Class	MSEP and MSEP-CU		Judicial		MPERS	
	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return

Discount Rate

A single discount rate based on the expected rate of return on pension investments of 7.10%, 7.10%, and 7.00% was used to measure the total pension liability for MSEP, Judicial Plan, and MPERS, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and the employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate for MPERS. The projection of cash flows used to determine the discount rate assumed that contributions will be made using actuarial determined rates from employers for MOSERS. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
MSEP Net Pension Liability	6.10% \$6,346,497	7.10% \$5,030,722	8.10% \$3,924,476
Judicial Plan Net Pension Liability	6.10% \$522,724	7.10% \$459,150	8.10% \$404,862
MPERS Net Pension Liability	6.00% \$2,088,979	7.00% \$1,614,108	8.00% \$1,217,786
MSEP-CU Net Pension Liability	6.10% \$1,249,819	7.10% \$990,703	8.10% \$772,849

University of Missouri Retirement System

Plan Description

The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer defined benefit plan for all qualified employees. As authorized by Section 172.300, RSMo, the University's Board of Curators administers the Retirement Plan and establishes its terms.

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at a certain rate times the credited service years times the compensation base (average consumption for the five highest consecutive salary years). The rate is 2.2% if the employee was hired before October 1, 2012, or 1.0% if the employee was hired after September 30, 2012. Academic members who provide summer teaching and research service receive additional summer service credit. The Board of Curators may periodically approve increases to the benefits paid to existing pensioners. However, vested members who leave the University prior to eligibility for retirement are not eligible for these pension increases. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. Up to 30% of the retirement annuity can be taken in a lump sum payment. In addition, the standard annuity can be exchanged for an actuarially-equivalent annuity selected from an array of options with joint and survivor, period certain, and guaranteed annual increase features.

As of June 30, 2020, membership consisted of the following:

Vested members	18,352
Inactive vested members	5,046
Pensioners and beneficiaries	10,836
Total Membership	<u>34,234</u>

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 7 - Retirement Systems (cont.)

In April 2019, the University's Board of Curators approved a new retirement plan for newly hired or rehired employees starting October 1, 2019. Employees starting on or after that date, will be enrolled in a defined contribution plan and the defined benefit plan of the University will be closed to new entrants. Rehires on or after October 1, 2019 will also be enrolled into the new defined contribution plan regardless of their vested status in the defined benefit plan. Vested defined benefit employees that are rehired on or after October 1, 2019 will no longer receive creditable service credit within the defined benefit plan.

Contributions

The University's contributions to the Retirement Plan are equal to the actuarially determined contribution requirement (ADC). The ADC for those employees hired before October 1, 2012 averaged 11.4% of covered payroll for the year ending June 30, 2020. The ADC for those employees hired after September 30, 2012, averaged 7.8% of covered payroll for the year ended June 30, 2020. Employees are required to contribute 1% of their salary up to \$50,000 in a calendar year and 2% of their salary in excess of \$50,000. An actuarial valuation of the Plan is performed annually and the University's contribution rate is updated on July 1, to reflect the actuarially determined funding requirement from the most recent valuation, as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year. The University contributed \$118,234,000 during the fiscal year ended June 30, 2020.

Employees hired after September 30, 2012, participate in a single employer, defined contribution plan. Each year the University contributes 2% of each employee's eligible salary to a 401(a) plan. Employees are able to contribute to a 457(b) and 403(b) plan. The University will match up to 3% of the employee's contribution to the 457(b) plan with the University's match funds going into the 401(a) plan. Employees in the defined contribution plans are immediately 100% vested in their contributions. Employees hired or rehired beginning October 1, 2019, will participate in a single- employer, defined contribution plan. Employees will be automatically enrolled in the plan to contribute 8% of eligible salary into a 457(b) plan. Each year the University will match up to 8% of each employer's eligible salary to a 401(a) plan. The University's matching contributions vest following three years of consecutive or nonconsecutive service. The defined contribution plan recognized \$26,781,000 of pension expense net of \$3,720,000 of forfeitures for the year ended June 30, 2020.

Net Pension Liability

The Retirement Plan's net pension liability was measured as of June 30, 2020. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of October 1, 2019. Roll-forward procedures were used to measure the Retirement Plan's net pension liability as of June 30, 2020. For the year ended June 30, 2020, fiduciary net position as a percentage of the total pension liability amounted to 76.71%.

Changes in net pension liability (in thousands of dollars):

	Total Pension Liability (TPL) (a)	Fiduciary Net Pension (FNP) (b)	Net Pension Liability (NPL) (a) - (b)
Balances at June 30, 2019	\$ 4,571,623	\$ 3,757,413	\$ 814,210
Changes for the year:			
Service Cost	66,239	—	66,239
Interest	323,553	—	323,553
Differences between expected and actual experience	68,943	—	68,943
Contributions – Employer	—	118,234	(118,234)
Contributions – Employee	—	16,484	(16,484)

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 7 - Retirement Systems (cont.)

Pension Expense

Annual pension expense consists of service cost and interest on the pension liability less employee contributions and projected earnings on pension plan investments. The difference between actual and expected earnings is recorded as a deferred outflow/inflow of resources and recognized in pension expense over a five year period.

For the year ended June 30, 2020, the Retirement Plan recognized pension expense of \$243,021,000. At June 30, 2020, deferred outflows of resources and deferred inflows of resources related to pensions were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 76,279	\$ 15,050
Changes in assumptions	116,739	—
Net difference between projected and actual earnings on pension plan investments	188,145	—
Total	<u>\$ 381,163</u>	<u>\$ 15,050</u>

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of these items:

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources
	Recognition
2021	\$ 84,017
2022	112,430
2023	103,515
2024	61,943
2025	4,208
Totals	<u>\$ 366,113</u>

Actuarial Assumptions

The October 1, 2019 actuarial valuation utilized the entry age actuarial cost method. The discount rate used to measure the total pension liability was 7.20%. Actuarial assumptions included:

Inflation	2.20 %
Salary Increases	3.6% - 4.5%
Investment Rate of Return	7.20 %

For purposes of determining actuarially required contributions, the actuarial value of assets was determined using techniques that spread effects of short-term volatility in the market value of investments over a five-year period. The underfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis over 24 years from the October 1, 2019 valuation date. Mortality rates were based on the RP-2014 Combined Health Mortality Table projected using Scale MP-2017 and RP-2000 Combined Health Mortality Table projected to 2023 using Scale BB for the October 1, 2019 valuation date.

The actuarial assumptions used in the October 1, 2019 valuation were based on the results of the most recent quinquennial study of the University's own experience covering 2012 to 2016.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 7 - Retirement Systems (cont.)

The annual money-weighted rate of return is calculated as the internal rate of return on pension investments, net of pension plan investment expense. The money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on pension plan investments for the year ended June 30, 2020 was 0.6%. The following table provides long-term expected rates of real return:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Public equity	32.0 %	5.2 %
Private equity	10.0 %	5.7 %
Sovereign bonds	15.0 %	1.0 %
Inflation linked bonds	17.0 %	0.8 %
Private debt	3.0 %	4.4 %
Risk balanced	10.0 %	7.6 %
Commodities	5.0 %	2.2 %
Real estate	8.0 %	4.5 %
	<u>100.0 %</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.20%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that the University contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate, as well as, what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	6.20%	7.20%	8.20%
MU Net Pension Liability	\$1,704,483	\$1,109,623	\$607,118

Separate financial statements are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2020 financial report, which is publicly available. Copies of this report may be requested from:

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 8 - Other Postemployment Benefits

In addition to the retirement benefits described in Note 7, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the Missouri Department of Transportation and Highway Patrol Employees' Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). MCHCP is a cost-sharing multiple-employer, defined benefit other postemployment benefits plan, MOSERS is an insured, defined benefit insurance plan, and MHPML and CEIP are single-employer defined benefit public employees' other postemployment benefits plans.

Plan Descriptions

Missouri Consolidated Health Care Plan (MCHCP) operates a cost-sharing multiple-employer, defined benefit Other Postemployment Benefits Plan (OPEB), the State Retiree Welfare Benefit Trust (SRWBT). Employees may participate at retirement, if eligible to receive a monthly retirement benefit from either Missouri Employees' Retirement System (MOSERS) or another retirement system whose members grandfathered for coverage under the MCHCP by law. The terms and conditions governing postemployment benefits, are vested with the MCHCP Board of Trustees within the authority granted under sections 103.003 - 103.178, RSMo. MCHCP provides medical, dental, and vision benefits, and the Strive Employee Life & Family program for the exclusive benefit of current and future retired employees of the state and their dependents who meet eligibility requirements, except those retired members covered by other OPEB plans of the state. Covered categories include active employees, participants and spouses in payment status, participants with a deferred benefit, and disabled participants.

The Missouri Department of Transportation and Highway Patrol Employees' Medical and Life Insurance Plan (MHPML) is a single-employer, defined benefit OPEB plan administered in accordance with Section 104.270, RSMo. MHPML is not a separate legal entity and is self insured. The plan does not maintain assets in a trust and pays expenses on a pay-as-you-go basis. The plan assets are neither legally protected from creditors nor are they dedicated to providing OPEB benefits. The State has no legal obligation to pay the benefits. MHPML provides healthcare insurance benefits to employees who retired from the Department who participated in the Medical and Life Insurance Plan when they were an active employee and had a minimum of five years creditable service. Coverage categories include retirees, certain disabled employees, spouses, certain dependents and survivors of deceased employees and retirees. At July 1, 2019, the number of participants covered by the plan included 6,185 retirees or beneficiaries currently receiving benefits, 92 retirees entitled to but not yet receiving benefits, and 7,526 active employees.

The Conservation Employees' Benefits Plan (CEIP) is a single-employer defined benefit OPEB plan administered by the Conservation Employees' Benefits Plan Board of Trustees in accordance with Article IV, Section 42 of the Missouri Constitution. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The benefit plan for the Department of Conservation is not irrevocable.

CEIP provides for the continuation of medical insurance benefits for retirees and their dependents. Coverage categories include active employees, retirees and surviving spouses, and spouses of current retirees. At June 30, 2019, 1,300 active employees, 849 retirees and surviving spouses, and 408 spouses of current employees were participating in the plan.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 8 - Other Postemployment Benefits (cont.)

Contributions

Contributions are established and may be amended by the MCHCP Board of Trustees with the authority granted under sections 103.003 - 103.178, RSMo. Contributions to MCHCP by the State are not legally or contractually required. For the fiscal year end June 30, 2019, employers contributed 4.99% for the period July 1, 2018 through January 31, 2019; 6.19% for the period February 1, 2019 through April 15, 2019; and 4.33% for the period April 16, 2019 through June 30, 2019, of covered payroll. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Contributions to the OPEB plan for MCHCP and MCHCP-CU was \$82,295,000 and \$35,000, respectively for the year ended June 30, 2020.

The contribution requirements for MHPML are recommended by the Medical and Life Insurance Plan's Board of Trustees and are approved by the Missouri Highways and Transportation Commission. The Commission contributes a percentage of medical premiums for retirees. For those who retired on or prior to January 1, 2015, an amount ranging from 40.0% to 57.0% of the premium is contributed, dependent on the level of coverage. Medical premiums, for employees who retire on or after January 1, 2015, are based on total years of service, with the Commission contributing 2.0% per year of service, not to exceed 50.0% of the total premium, with the retiree responsible for the remaining balance of the premiums. Benefit projections for financial reporting purposes are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and the historical pattern of cost sharing between employer and the plan members to that point. Contributions to the Plan for the year ended June 30, 2020 was \$23,639,000.

The contribution requirements for CEIP are established by a trust agreement between the Conservation Commission and the Conservation Employees' Benefits Plan Board of Trustees, which grants the authority to establish and amend benefit terms and financing requirements to the Board of Trustees. The Commission contribution toward retiree medical premium is based on tenure or years of service with the State. At the time of retirement, employees who have 25+ years of service receive a 35% contribution, 20-24 years of service receive a 30% contribution, 15-19 years of service receive a 25% contribution, vested status up to 14 years of service receive a 20% contribution, and employees who retired prior to January 1, 2013 continue to receive a 35% contribution towards their premium. Benefit projections for financial reporting purposes are based on an established policy of the retiree's paying the premium amount less any direct subsidy paid by the Commission based on years of service and date of retirement. Contributions to the Plan for the year ended June 30, 2020 was \$2,961,000.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Cost-Sharing Multiple Employer Plan:

At June 30, 2020, a liability was reported for the State's proportionate share of the collective net OPEB liability for the MCHCP and the MCHCP-CU plans based on an actuarial valuation as of July 1, 2019. The State's proportionate share of the collective net OPEB liability was calculated by dividing the State's contribution to the SRWBT by the total contributions from all applicable employers during the measurement period. From the previous valuation, the discount rate changed from 5.90% to 5.24%.

The State reported the following proportionate share of the collective net OPEB liability and the OPEB expense for the fiscal year ended June 30, 2020 (in thousands of dollars):

	<u>MCHCP</u>	<u>MCHCP-CU</u>
OPEB Expense	\$ 61,643	\$ 10
Proportionate share:		
2020	99.61 %	0.04 %
Net OPEB Liability	\$ 1,761,801	\$ 746

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Other Postemployment Benefits (cont.)

Amount reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability for the measurement period of the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands of dollars):

June 30	Net Deferred Outflows/Inflows of Resources			
	MCHCP	MHPML	CEIP	MCHCP-CU
2021	\$ (4,413)	\$ (55,170)	\$ (334)	\$ (19)
2022	(4,413)	(55,170)	(334)	(19)
2023	(4,371)	(55,170)	(334)	(18)
2024	(5,062)	(31,439)	370	(19)
2025	(5,267)	(20,246)	(636)	(19)
Thereafter	(8,652)	(2,653)	—	(50)
Totals	<u>\$ (32,178)</u>	<u>\$ (219,848)</u>	<u>\$ (1,268)</u>	<u>\$ (144)</u>

Actuarial Assumptions

The total OPEB liability at June 30, 2020, is based upon the the July 1, 2019 actuarial valuation date for MCHCP and MHPML, and the June 30, 2019 actuarial valuation date for CEIP, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the actuarial valuations are the following:

MCHCP and MCHCP-CU	
Price Inflation	3.0%
Salary Increases	4.0%
Investment Rate of Return	5.24%
Healthcare Cost Trend Rate	Non-Medicare is 6.00% for fiscal year 2019; the rate decreases by 0.25% per year to an ultimate rate of 5.0% in fiscal year 2023 and later. Medicare is 10.0% in fiscal 2019 and 2020, 22.0% in fiscal 2021, 10.0% in fiscal 2022 and 2023, 9.5% in fiscal 2024, 9.0% in fiscal 2025, 8.5% in fiscal 2026 then 8.0% in fiscal 2027 decreasing by 1.0% per year to an ultimate rate of 5.0% in fiscal year 2030 and after.
MHPML	
Price Inflation	2.0%
Salary Increases	2.5%
Investment Rate of Return	3.51%
Healthcare Cost Trend Rate	6.0% for 2019, decreasing to 4.5% for 2025 and later years.
CEIP	
Price Inflation	2.3%
Salary Increases	4.0%
Investment Rate of Return	2.21%
Healthcare Cost Trend Rate	Pre-65 rate of 6.6% for 2019, gradually decreasing to an ultimate rate of 3.7% for 2073 and beyond. Post-65 trend rate of 6.3% for 2019, gradually decreasing to an ultimate rate of 3.7% for 2073 and beyond.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 8 - Other Postemployment Benefits (cont.)

MCHCP's actuarial assumptions used in the July 1, 2019 valuation for SRWBT involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The valuation to determine the SRWBT's total OPEB liability is required to be performed at least every two years, but is performed annually. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations. The collective total OPEB liability for June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2019, with updated procedures used to roll forward the total OPEB liability to June 30, 2019. The cost method utilized for the valuation year June 30, 2019, was the entry age normal, level percentage of payroll. Mortality rates were based on RP-2016 for Employees/Annuitants without collar adjustments using Scale MP-2016. The last experience study was conducted for the period July 1, 2008 through June 30, 2012. The last independent actuarial review of the reasonableness and accuracy of actuarial assumptions, actuarial cost methods, and valuations was conducted as of June 30, 2019.

MHPML's actuarial assumptions used in the July 1, 2019 valuation were determined using a measurement date of July 1, 2019. The inflation rate was based on the actuary's long-term estimate of inflation as of July 1, 2017 and July 1, 2018. The salary increases were based on projected salaries, which include COLA's. The discount rate was based on Bond Buyer General Obligation 20-Bond Municipal Bond Index. Mortality rates were based on the 2018 Pub-2010 Public Retirement Plans Safety Employees Mortality Table weighted by Headcount project by MP-2018 and the RP 2014 Employees and Health Annuitants Mortality table, headcount weighted, fully generational projected by Scale MP-2016 for July 1, 2019. The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2018 through June 30, 2019. From the previous valuation, the discount rate changed from 3.87% to 3.51%.

CEIP's actuarial assumptions used in the June 30, 2019 valuation were determined using a measurement date of June 30, 2020. The discount rate was based on the 20-year Bond General Obligation Index. Mortality rates were based on Pub-2010 Mortality for General Employees, Healthy Annuitants and Contingent Survivors, with generational projection per Scale MP-2019. The plan has not had a formal actuarial experience study performed. From the previous valuation, the discount rate changed from 3.50% to 2.21%.

For MCHCP, the long-term expected rate of return on OPEB plan investments was determined as a blend of the plan sponsor's best estimate on the expected return on plan assets and the 20-year high quality municipal bond rate as of the measurement date. The target asset allocation and best estimates of arithmetic real rate of returns for each major asset class are listed below.

Asset Class	MCHCP and MCHCP-CU	
	Target Allocation	Long-Term Expected Real Rate of Return
Large Cap Stocks	16.0%	8.5%
Mid Cap Stocks	7.0%	8.8%
Small Cap Stocks	7.0%	8.8%
High-Yield Bonds	5.0%	9.0%
BarCap Aggregate Bonds	63.0%	3.7%
Cash Equivalants	2.0%	3.3%
	<u>100.0%</u>

Note 8 - Other Postemployment Benefits (cont.)

Discount Rate

A single discount rate based on the expected rate of return on OPEB investments of 5.24%, 3.51%, and 2.21% was used to measure the total OPEB liability for MCHCP, MHPML, and CEIP, respectively. For MCHCP, the projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions will be made at required rates, actuarially determined. For years where the expected benefit payments can be covered by projected trust assets, expected returns are used. For years where payments are not expected to be covered by trust assets, the municipal Bond Buyer 20-Bond General Obligation Index rate is utilized.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

Regarding the sensitivity of the net OPEB liability for MCHCP and total OPEB liability for MHPML and CEIP, to changes in the single discount rate, the following presents the State's liability, calculated using a single discount rate, as well as, what the plan's liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
MCHCP Net OPEB Liability	4.24% \$2,090,855	5.24% \$1,761,801	6.24% \$1,501,274
MHPML Total OPEB Liability	2.51% \$1,273,993	3.51% \$1,064,325	4.51% \$902,165
CEIP Total OPEB Liability	1.21% \$183,763	2.21% \$149,715	3.21% \$123,864
MCHCP-CU Net OPEB Liability	4.24% \$886	5.24% \$746	6.24% \$636

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Regarding the sensitivity of the net OPEB liability for MCHCP and the total OPEB liability for MHPML and CEIP, to changes in healthcare cost trend rates, the following presents the plan's liability, calculated using healthcare cost trend rates, as well as, what the plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase
MCHCP Net OPEB Liability	\$1,481,511	\$1,761,801	\$2,118,116
MHPML Total OPEB Liability	\$882,361	\$1,064,325	\$1,304,988
CEIP Total OPEB Liability	\$124,948	\$149,715	\$182,747
MCHCP-CU Net OPEB Liability	\$628	\$746	\$897

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separate financial reports issued by MCHCP:

Missouri Consolidated Health Care Plan
P.O. Box 104355
Jefferson City, Missouri 65110-4355
www.mchcp.org

Missouri State Insured Defined Benefit Insurance Plan

The Missouri State Insured Defined Benefit Insurance Plan is administered through The Standard, which is a third party administrator with oversight by Missouri State Employees Retirement System (MOSERS). In the event that the Standard becomes insolvent, the Missouri Guarantee Association will work with the Standard to see what assets are available to handle their liabilities and the MO Guarantee Association would handle the open and unpaid claims up to the maximum outlined in Section 376.717, RSMo.

Retiree Life Insurance

Members who retire on or after October 1, 1985, or retirees of the Department of Labor and Industrial Relations (DOLIR) who retire on or after January 1, 1996, are eligible for \$5,000 of state-sponsored basic life insurance coverage if they retire directly from active employment. This group plan is financed on a percentage of payroll and is purchased as a group policy through competitive bids. Premiums are contributed as provided by Section 104.515, RSMo. Retirees of the DOLIR who retire prior to January 1, 1996, are eligible for state-sponsored insured defined benefit coverage in the same amount of coverage they were receiving through the DOLIR. The coverage for this closed group is purchased as a group policy at a current cost of \$2.07 per thousand dollars of coverage, per month as provided by Section 288.225, RSMo. The cost for fiscal year 2020 was \$1,954,000.

Long-Term Disability Insurance (LTD)

MOSERS provides LTD coverage for eligible members and generally includes those active members of MOSERS' retirement plans who do not have other disability coverage and are not yet eligible to receive normal (unreduced) retirement benefits. There were 31,737 members covered under the program as of June 30, 2020. This insured defined-benefit coverage is billed on percentage of covered payroll (0.55%). Purchased as group policy through competitive bids, LTD is administered by The Standard Insurance Company. The cost for the year ended June 30, 2020, was \$8,385,000. Premiums are contributed by the State and its component employers as provided for by Section 104.515, RSMo.

Note 8 - Other Postemployment Benefits (cont.)

University of Missouri System

Plan Description

In addition to the retirement benefits described in *Note 7*, the University of Missouri operates a single-employer, defined benefit Other Postemployment Benefits (OPEB) Plan. The assets of the OPEB Trust Fund are irrevocable and legally protected from creditors and dedicated to providing postemployment benefits in accordance with the plan. The OPEB plan provides postemployment medical, dental, and life insurance benefits to employees who retire from the University after attaining age 55 and before reaching age 60 with ten or more years of service, or after attaining age 60 with five or more years of service. As of January 1, 2018, employees must be 60 years old and have 20 years of service at the date of retirement to access the same percentage subsidy as retirees prior to January 1, 2018. Employees with age plus years of service less than 80, but with more than 5 years of service as of January 1, 2018, will receive a subsidy of \$100 per year of service up to a maximum of \$2,500 annually. Employees with less than 5 years of service as of January 1, 2018, will not receive an insurance subsidy or be eligible to participate in the University's plans.

As of June 30, 2020, 8,309 retirees were receiving benefits, and an estimated 8,907 active University employees may become eligible to receive benefits under the plan. Postemployment medical, dental and life insurance benefits are also provided to long-term disability claimants who were vested in the University's Retirement Plan at the date the disability began, provided the onset date of the disability was on or after September 1, 1990. As of June 30, 2020, 119 long-term disability claimants met those eligibility requirements. The terms and conditions governing the postemployment benefits to which employees are entitled are at the sole authority and discretion of the University's Board of Curators. The OPEB plan does not issue a separate financial report.

Contributions

Postemployment benefits are funded through both employer and employee contributions. Contribution requirements of employees and the University are established and may be amended by the University's Board of Curators. For employees retiring prior to September 1, 1990, the University contributes 2/3 of the medical benefits premium and 1/2 of the dental plan premium. For employees who retire on or after September 1, 1990, the University contributes towards premiums based on the employee's length of service and age at retirement.

The University makes available two group term life insurance options. Option A coverage is equal to the retiree's salary at the date of retirement, while Option B is equal to two times the amount. For each Option, graded decreases in coverage are made when the retiree attains specific age levels. The University pays the full cost of Option A and approximately 91% of Option B coverage. Coverage for group term life insurance ends on January 1 following the retiree's 70th birthday.

For the year ended June 30, 2020, participant contributions were \$17,763,000, or approximately 52.4%, of the total premiums through their required contributions, which vary depending on the plan and coverage selection. In fiscal year 2020, the contribution rate as a percentage of covered payroll was 3.37% and the University contributed \$20,672,000.

The University also makes available two long-term disability options to its employees. Option A coverage is equal to 60% of the employee's salary on the date the disability began, when integrated with benefits from all other sources. Option B coverage is equal to 66-2/3% of the employee's salary, integrated so that benefits from all sources will not exceed 85% of the employee's salary. Both options have a 149-day waiting period and provide benefits until age 65. The University pays the full cost of the Option A premium, while employees enrolled in Option B pay the additional cost over the Optional A premium.

Note 8 - Other Postemployment Benefits (cont.)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2020, the net OPEB liability for the University was based on an actuarial valuation as of June 30, 2020 and measured as of that date. For the year ended June 30, 2020, fiduciary net position as a percentage of the net OPEB liability amounted to 9.67%.

Changes in net OPEB liability (in thousands of dollars):

	Total OPEB Liability (TOL)	Fiduciary Net Position (FNP)	Net OPEB Liability (NOL)
Balances at June 30, 2019	\$ 492,066	\$ 38,426	\$ 453,640
Changes for the year:			
Service Cost	4,019	—	4,019
Interest	17,004	—	17,004
Differences between expected and actual experience	(4,425)	—	(4,425)
Changes in assumptions	(81,032)	—	(81,032)
Contributions – Employer	—	20,672	(20,672)
Contributions – Employee	—	17,763	(17,763)
Net Investment Income	—	920	(920)
Benefit payments, including refunds of employee contributions	(20,652)	(38,413)	17,761
Administrative Expenses	—	(2)	2
Net Changes	(85,086)	940	(86,026)
Balances at June 30, 2020	<u>\$ 406,980</u>	<u>\$ 39,366</u>	<u>\$ 367,614</u>

For the year ended June 30, 2020, the University recognized OPEB expense of \$791,000. At June 30, 2020, deferred outflows of resources and deferred inflows of resources related to OPEBs were reported from the following sources (in thousands of dollars):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 22,968	\$ 3,641
Changes in assumptions	—	101,010
Net difference between projected and actual earnings on OPEB plan investments	—	2,116
Total	<u>\$ 22,968</u>	<u>\$ 106,767</u>

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 8 - Other Postemployment Benefits (cont.)

The University recognizes differences between actual and expected investment performance included in deferred outflows/inflows of resources on a straight-line basis over five years. Differences between expected and actual experience on actuarial assumptions are amortized over the average expected remaining service life of the University's employees. The following table summarizes the future recognition of those items (in thousands of dollars):

Fiscal Year Ended June 30	Net Deferred Outflows/Inflows of Resources Recognition
2021	\$ (20,233)
2022	(20,050)
2023	(19,732)
2024	(16,405)
2025	(8,146)
Thereafter	767
Totals	<u>\$ (83,799)</u>

Actuarial Assumptions

The total OPEB liability at June 30, 2020, is based upon the June 30, 2020 actuarial valuation, using the entry age normal, as a level percentage of pay, actuarial cost method. Significant actuarial assumptions used in the actuarial valuations are the following:

Price Inflation	2.2%
Salary Increases	Varies based on age: 0.1% to 6.0%(including inflation) for academic and administrative; 0.1% to 3.0% (including inflation) for clerical and service
Investment Rate of Return	2.21%
Pre-65 Medical and HSP Plans Trend Rate	7.00% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Pre-65 Rx trend rate	7.53% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached.
Post-65 Medical and Rx Trend Rate	5.00% decreasing by 0.25% per year until an ultimate trend of 4.50% is reached
Dental trend rates	2.0% all years.

The University's actuarial assumptions used in the June 30, 2020 valuation involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Benefit projections for financial reporting purposes are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and the historical pattern of cost sharing between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. For healthy retiree mortality rates, the RP-2014 Healthy Employee/Annuitant Mortality Table projected generationally using Scale MP-2017 was used. For disabled retiree mortality rates, the RP-2014 Disabled Annuitant Mortality Table projected generationally using Scale MP-2017 was used.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 8 - Other Postemployment Benefits (cont.)

Discount Rate

The discount rate used to measure the total OPEB liability was 2.21% for the year ended June 30, 2020. The projection of cash flows used to determine the discount rate assumed that the University would not make additional contributions to the OPEB Trust and would continue to fund the plan on a pay-as-you-go basis. Based on these assumptions, the OPEB Plan's fiduciary net position was not projected to cover a full year of projected future benefit payments. Therefore, all future benefit payments are discounted at the current index rate for 20 year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

Regarding the sensitivity of the net OPEB liability for the University, to changes in the single discount rate, the following presents the University's liability, calculated using a single discount rate, as well as, what the plan's liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Single Discount Rate Assumption	1% Increase
	1.21%	2.21%	3.21%
Net OPEB Liability	\$430,532	\$367,614	\$316,449

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Regarding the sensitivity of the net OPEB liability for the University, to changes in healthcare cost trend rates, the following presents the University's liability, calculated using healthcare cost trend rates, as well as, what the plan's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher (in thousands of dollars):

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase
Net OPEB Liability	\$330,111	\$367,614	\$412,966

Detailed information concerning the Plan is presented in the University's 2020 financial report, which is publicly available. Copies of this report may be requested from:

Note 9 - Deferred Compensation

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Copies of the Plan's financial statements may be requested from:

Plan Administrator
c/o MOSERS
P.O. Box 209
907 Wildwood Drive
Jefferson City, Missouri 65102-0209

Missouri State Public Employees' Deferred Compensation Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, any employee of the State is eligible to participate in the Plan if he/she has been an employee of the State for at least 12 consecutive months preceding any employer contributions to the Plan, and is making continuous monthly deferrals of at least \$25 to the Missouri State Public Employees' Deferred Compensation Plan. As of March 2010, employer incentive (match) associated with the State of Missouri Deferred Compensation Plan was suspended. Participating employees are 100% vested.

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employers as well as rollovers from other qualified plans. During fiscal year 2020, net rollovers and contributions to ICMA-RC were \$22,094,000.

Copies of the Plan's financial statements may be requested from:

Plan Administrator

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 12 - Debt

Bonds:

Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements. On the Government-Wide Statement of Net Position, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement.

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. The principal and interest amounts are transferred one year in advance from the General Fund or other funds to the debt service funds from which principal and interest payments are made. Three types of general obligation bonds are currently outstanding. Proceeds from the Water Pollution Control Bonds were used to provide funds for the protection of the environment through the control of water pollution. Proceeds from the Fourth State Building Bonds were used to provide funds for improvements of buildings and property of higher education institutions, Department of Corrections, and the Division of Youth Services. Proceeds from the Stormwater Control Bonds were used to provide funds to protect the environment through the control of stormwater.

To take advantage of lower interest rates, the Board of Fund Commissioners has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Water Pollution Control Bonds:				
Series A 2010-Refunding	7/27/10	\$ 81,450	A 2001	\$ 15,030
			A 2002	20,225
			B 2002-Refunding	12,990
			A 2005-Refunding	8,595
			A 2007	31,385
Fourth State Building Bonds:				
Series A 2010-Refunding	7/27/10	9,060	A 2002-Refunding	8,970
			A 2005-Refunding	1,470
Series A 2012-Refunding	9/27/12	100,395	A 2002-Refunding	110,535
Stormwater Control Bonds:				
Series A 2010-Refunding	7/27/10	15,150	A 2001	7,320
			A 2002	8,475
			A 2005-Refunding	905

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2020, \$594,494,240 of the Water Pollution Control Bonds; \$250,000,000 of the Fourth State Building Bonds; and \$45,000,000 of the Stormwater Control Bonds have been issued. The remaining authorization for the Water Pollution Control Bonds is \$130,505,760 and for Stormwater Control Bonds is \$155,000,000. There is no remaining authorization for the Fourth State Buildings Bonds.

As of June 30, 2020, general obligation debt service requirements for principal and interest in future years were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2021	\$ 15,880	\$ 1,666	\$ 17,546
2022	16,560	964	17,524
2023	12,090	302	12,392
Totals	<u>\$ 44,530</u>	<u>\$ 2,932</u>	<u>\$ 47,462</u>

Other Bonds:

The Board of Public Buildings of the State of Missouri, upon the approval of the General Assembly, issues revenue bonds for building projects and commits state agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and to pay the costs of operations. The total amount authorized for the Board equals \$1,545,000,000.

To take advantage of lower interest rates, the Board of Public Buildings has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Board of Public Buildings:				
Series A 2011-Refunding	09/27/11	\$ 143,020	A 2001	\$ 126,850

Note 12 - Debt (cont.)

State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29-34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2020, the Missouri Highways and Transportation Commission had issued \$3,990,565,000. In addition, Senate Concurrent Resolution 14 authorized \$301,000,000 in Missouri Highways and Transportation Commission bonds to renovate bridges and other important transportation infrastructure. In fiscal year 2020, the Third Lien State Road Bonds, Series B 2019 were issued in the amount of \$178,370,000. These bonds are payable from the General Revenue Fund.

To take advantage of lower interest rates, the Missouri Highways and Transportation Commission has issued Bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Commission (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded

Note 12 - Debt (cont.)

Non-Major

Missouri Development Finance Board:

In December 2000, the Board issued \$6,500,000 in St. Louis Convention Center Hotel Series 2000B, taxable infrastructure facilities revenue bonds and \$14,600,000 in St. Louis Convention Center Hotel Series 2000C, tax-exempt infrastructure facilities revenue bonds, respectively for the purpose of paying the costs of acquiring land and constructing a parking garage. These bonds were remarketing in June 2020 as \$4,590,000 2020B and \$4,730,000 2020C bonds, replacing 2000B and 2000C, respectively. Bonds are payable, both principal and interest, out of revenues derived from the operation of the parking garage.

In April 2010, the Board issued \$9,000,000 in Seventh Street Garage Series 2010, tax exempt infrastructure facilities revenue bonds.

The Missouri Development Finance Board Revenue Bonds issued and outstanding as of June 30, 2020, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Missouri Development Finance Board:						
Revenue Bonds						
Series 2010	Variable	monthly	4/10	5/1/40	\$ 9,000	\$ 4,252
Series 2020B	Variable	monthly	12/00	12/1/20	4,590	4,590
Series 2020C	Variable	monthly	12/00	12/1/20	4,730	4,730
Total Missouri Development Finance Board Revenue Bonds					<u>\$ 18,320</u>	<u>\$ 13,572</u>

As of June 30, 2020, the debt service requirements for principal and interest in future years for the Missouri Development Finance Board Revenue Bonds were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	Totals
2021	\$ 552	\$ 265	\$ 817
2022	562	253	815
2023	574	240	814
2024	585	227	812

⁽¹⁾ Detailed information for college and universities are not shown.

Financed Purchases from Direct Borrowings:

The State has entered into various agreements for financed purchases from direct borrowings for buildings, equipment, and software. Through contracts with Central Bank, the State has a \$14.0 million obligation outstanding as of June 30, 2020, for governmental activities. These financed purchases are secured with collateral of capital assets in the amount of \$28.1 million. In the event of default, the lease shall be terminated and the resulting property returned to the lessor. If the termination is the result of non-appropriation, the State shall deliver the property to the lessor within 10 business days after the termination of the lease schedule. If the property is not delivered within 10 business days, then the State shall also be responsible for the payment of damages in an amount equal to the amount of the lease payments that would have thereafter come due on the lease schedule had it not been terminated. The State had an unused line of credit in the amount of \$15.2 million at the end of fiscal year 2020.

The State has entered into an agreement for financed purchases from direct borrowings for energy star equipment through a contract with Bank of America. These purchases are secured with capital assets as collateral with a value of \$44.2 million. The State has a \$6.4 million obligation outstanding as of June 30, 2020, for governmental activities. In the event of default, the lease shall be terminated and the resulting property returned to the lessor. If the termination is the result of non-appropriation, the State shall deliver the property to the lessor within 10 business days after the termination of the lease schedule. If the property is not delivered within 10 business days, then the State shall also be responsible for the payment of damages in an amount equal to the amount of the lease payments that would have thereafter come due on the lease schedule had it not been terminated. The State had no available line of credit at the end of fiscal year 2020.

Through a contract with IBM, the State has \$2.4 million of financed purchases from direct borrowings outstanding as of June 30, 2020, for governmental activities. These financed purchases are secured with capital assets in the amount of \$6.3 million. The State of Missouri can terminate the agreement with written notice prior to 90 days of each starting anniversary. Upon termination, the State will pay to IBM all amounts due and payable including cross-band allotment offerings, deferred payment settlement amounts for the listed software products, termination and/or financing prepayments and applicable taxes on or before the termination. The deferred payments settlement amount represents the non-financed amounts. The deferred payments are \$1.3 million if terminated on July 1, 2020. The State of Missouri may elect to cancel the fixed term license program under the agreement by giving IBM 30 day's written notice and may receive a prorated credit for a prepaid term. The prorated credit may be used to purchase IBM programs prior to the end date or termination of the remaining agreement. The credits are not transferable, cannot be converted to cash, and upon expiration eligible credit will be forfeited. The State had no available line of credit at the end of fiscal year 2020.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 12 - Debt (cont.)

As of June 30, 2020, debt service requirements for principal and interest in future years for direct borrowings were as follows (in thousands of dollars):

Fiscal Year Ending	Financed Purchases from Direct Borrowings					
	Governmental Funds		Internal Service Funds		College and Universities	
	Principal	Interest	Principal	Interest	Principal	Interest
2021	\$ 3,738	\$ 179	\$ 7,099	\$ 255	\$ 17	\$ 4
2022	3,345	96	4,954	94	18	3
2023	1,647	30	1,503	14	19	1
2024	378	5	5	—	5	—
2025	90	1	—	—	—	—
Total	<u>\$ 9,198</u>	<u>\$ 311</u>	<u>\$ 13,561</u>	<u>\$ 363</u>	<u>\$ 59</u>	<u>\$ 8</u>

Note 13 - Defeased Debt

A. Current Year Debt Defeasance

On December 4, 2019, the Missouri State University issued the Auxiliary Enterprise System Revenue Bonds, Series 2019A, in the amount of \$15,980,000, with interest rates ranging from 4.0% to 5.0%, to refund \$17,325,000 of the Series 2010B Build America Bonds. As a result, this bond is considered defeased and the liabilities for the bonds have been removed from the financial statements. As a result of the refunding, the University reduced its total debt service payments by \$1,134,209 to obtain an economic gain (difference between present values of the old and the new debt service payments) of \$1,084,722.

On December 4, 2019, the Missouri State University issued the Missouri Health and Educational Facilities Revenue Bonds, Series 2019B, in the amount of \$6,780,000, with interest rates ranging from 2.75% to 4.00%, to advance refund \$6,935,000 of the Series 2010B Build America Bonds. As a result, this bond is considered defeased and the liabilities for the bonds have been removed from the financial statements. As a result of the refunding, the University reduced its total debt service payments by \$469,681 to obtain an economic gain (difference between present values of the old and the new debt service payments) of \$443,446.

B. Cumulative Debt Defeasances

Various bond issues have been defeased by the advance refunding of bonds. Irrevocable escrow accounts, containing proceeds of the refunding bond issues in the form of cash and U.S. government securities, are used to pay principal, interest, or redemption prices of the defeased bonds as and when due.

For financial reporting purposes, the following debt has been defeased and therefore removed as a liability from the governmental activities and college and universities Statement of Net Position.

College and Universities - As of June 30, 2020, bonds outstanding of \$82,610,000 are defeased.

Note 15 - Deferred Inflows and Outflows

Deferred outflows of resources are defined as consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are defined as acquisition of net assets by the government that is applicable to a future reporting period. Deferred outflows increase net position, similar to assets and deferred inflows decrease net position, similar to liabilities.

Conservation and Environmental Protection	\$ 108

The loans from the component units were for animal waste treatment systems.

During the consolidation process for the Government-Wide Statement of Net Position, interfund payables and receivables were eliminated as follows: \$1,000 on the face of the Proprietary Funds Statements of Net Assets and governmental activities in the amount of \$8,870,000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 17 - Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2020, were as follows (in thousands of dollars):

Transfers In:					
	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Governmental Funds
Transfers Out:					
General Fund	\$ —	\$ 1,047,154	\$ 1,048	\$ 50,000	\$ 275,185
Public Education	32,446	—	—	—	—
Conservation and Environmental Protection	749	—	—	—	1,086
Non-Major Governmental Funds	15,152	4,003	—	456,665	5,570
State Lottery	—	319,716	—	—	—
Unemployment Compensation	2,219	—	—	—	4,019
Non-Major Enterprise Funds	197	—	—	—	689
Internal Service Funds	3,411	—	—	—	26
Totals	\$ 54,174	\$ 1,370,873	\$ 1,048	\$ 506,665	\$ 286,575

Continues Below

	Missouri Veterans' Homes	Non-Major Enterprise Funds	Internal Service Funds	Totals
Transfers Out:				
General Fund	\$ —	\$ —	\$ 20	\$ 1,373,407
Public Education	—	—	—	32,446
Conservation and Environmental Protection	—	—	—	1,835
Non-Major Governmental Funds	13,000	—	2	494,392
State Lottery	—	—	—	319,716
Unemployment Compensation	—	—	—	6,238
Non-Major Enterprise Funds	—	—	—	886
Internal Service Funds	—	90	33	3,560
Totals	\$ 13,000	\$ 90	\$ 55	\$ 2,232,480

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets

During fiscal year 2020, there were transfers of \$9,000 from internal service funds to the General Fund. These were transfers of capital assets and are therefore not reported on the Governmental Funds Statements of Revenues, Expenditures, and Changes in Fund Balances or on the reconciliation above. This is because governmental funds use the modified accrual basis of accounting and therefore do not report capital assets on their financial statements.

Enterprise	100,704	(382)	100,322
Internal Service	300,394	70	300,464
Total Proprietary Funds	\$ 284,277	\$ (367)	\$ 283,910
DISCRETELY PRESENTED COMPONENT UNITS			
College and Universities	\$ 6,226,386	\$ 33,080	\$ 6,259,466
Total Component Units	\$ 6,226,386	\$ 33,080	\$ 6,259,466

Breakdown of restatements by type:

- General Fund, the restatement was due to a decrease in accounts receivable of \$20,000 and a decrease of accounts payable of \$533,000.
- Public Education, the restatement was due to a decrease in accounts receivable of \$30,072,000 and a decrease in deferred inflows for unavailable revenues of \$30,044,000.
- Conservation and Environmental Protection, the restatement was due to a decrease in accounts receivable of \$13,522,000 and a decrease in deferred inflows for unavailable revenue of \$13,520,000.
- Missouri Road Fund, the increase in fund balance of \$2,569,000 was due to the implementation of GASB Statement No. 84, *Fiduciary Activities*.
- Non-major special revenue funds, the restatement was due to a decrease in accounts receivable of \$1,268,000, a decrease in deferred inflows for unavailable revenues of \$1,248,000, and a decrease in accounts payable of \$478,000.
- Missouri Veterans' Homes, the restatement was due to an decrease in capital assets (net of accumulated depreciation/amortization) of \$53,000 and an increase of obligations under financed purchase of \$2,000.
- Non-major enterprise funds, the restatement was due to a decrease in loans receivable of \$65,000 and a decrease in capital assets (net of accumulated depreciation/amortization) of \$317,000.
- Non-major internal service funds, the restatement was due to a decrease in accounts receivable of \$208,000, an increase of capital assets (net of accumulated depreciation/amortization) of \$1,071,000, and an increase of obligations under financed purchase of \$793,000.
- Discretely presented component units - colleges and universities, the increase in net position of \$33,080,000 for University of Missouri was due to the implementation of GASB Statement No. 84, *Fiduciary Activities*.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 18 - Restatements (cont.)

Purpose for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net position for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, internal balance decreased by \$82,000, capital assets (net of accumulated depreciation/amortization) decreased by \$2,016,000, obligations under financed purchase decreased by \$1,570,000, obligations under lease purchase increased by \$7,876,000, asset retirement obligation increased by \$3,000, deferred outflows decreased \$3,831,000 relating to deferred outflows for OPEB contributions subsequent to the measurement date, and a decrease in net position of \$44,812,000 due to the recognition of revenue previously classified as a deferred inflow of resources in the special revenue funds causing it to no longer be a reconciling item to the Statement of Net Position.

On the Government-Wide Statement of Activities, net position for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds and by a increase in internal balance of \$82,000.

Note 19 - Fund Deficit

The following funds had a deficit balance:

Enterprise Funds – State Lottery and Missouri Veterans’ Homes, Internal Service Funds – Natural Resources Cost Allocation, Economic Development Administrative, and Professional Registration Fees and Component Unit Funds – Missouri Wine and Grape – At June 30, 2020, these funds had a net position deficit of \$8,865,000, \$125,550,000, \$20,786,000, \$3,333,000, \$9,948,000, and \$683,000 respectively. These funds have deficit balances due to the fiscal year 2015 implementation of GASB 68 and the reporting of net pension liabilities and the fiscal year 2018 implementation of GASB 75 and the reporting of OPEB liabilities. It is expected that these liabilities will be funded over time.

Enterprise Fund – Petroleum Storage Tank Insurance – At June 30, 2020, this fund had a net position deficit of \$48,658,000. The deficit at June 30, 2019 was \$45,569,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2025, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Under Section 319.132, RSMo, the Board of Trustees has authority to increase the transport load fee to a maximum of \$60 per 8,000 gallons. In addition, under Section 319.133, RSMo, the Board can increase annual participation fees to a maximum of \$500 per tank per year. These facts, along with the knowledge that PSTIF's claim reserves are set using very conservative assumptions, assure that adequate revenues will be available to meet its liabilities. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

** No certificates were provided under Chapter 100

Housing

The Missouri Low Income Housing Tax Credit (MOLIHTC) is authorized by Sections 135.350-135.363, RSMo, and provides a tax credit to qualified owners of affordable rental housing. To qualify upon application, a development must 1) rent at least 20% of its units to families earning 50% of the area median family income, 2) rent at least 40% of its units to families earning 60% of the area median family income, each adjusted for family size or 3) rents at least 40% of its units to families whose income does not exceed the income limitation designated for the respective unit, where the average of the income-designated units may not exceed 60% AMGI. The MOLIHTC generates equity investments that are purchased by the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. The investor of the MOLIHTC can redeem the credit by applying it dollar for dollar to the following types of tax liabilities: income tax, corporate franchise tax, insurance premium tax, other financial institutions tax, or express company tax. MOLIHTC properties must comply with tenant eligibility, property maintenance, and fair housing law throughout a 15-year period. The Missouri Housing Development Commission monitors the properties for compliance and reports non-compliance to the Internal Revenue Service and Missouri Department of Revenue. Property owners found to be out of compliance are subject to recapture through the provisions of Section 135.355, RSMo and IRS §42. No new MOLIHTC's have been authorized by the State since 2017. Redemptions were made on MOLIHTC's authorized/issued in prior years. The MOLIHTC reduced state taxes by \$131,706,000 during fiscal year 2020.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 20 - Tax Abatement's (cont.)

The Neighborhood Preservation Tax Credit is authorized by Sections 135.475-135.487, RSMo, and provides incentives for homeowners in lower income areas who rehabilitate or construct owner-occupied homes in qualifying or eligible areas of the State. Upon application, the eligible property must be in a qualifying area with a median household income of less than 70% of the median household income for the metropolitan statistical area (MSA) or non-MSA; or be located in an eligible area with a median household income of 70-89% of the median household income for the applicable MSA or non-MSA. Recipients are eligible to receive a credit for 15% of eligible costs up to \$25,000 per residence for new residences in eligible areas; 15% of eligible costs up to \$40,000 per residence for new residences in qualifying areas; 25% of eligible costs with a minimum of \$10,000 and not to exceed \$25,000 per residence for substantial rehabilitation in eligible areas; 35% of eligible costs with a minimum of \$5,000 or 50% of purchase price and not to exceed \$70,000 per residence for substantial rehabilitation in qualifying areas; and 25% of eligible costs with a minimum of \$5,000 and not to exceed \$25,000 per residence for non-substantial rehabilitation in qualifying areas. The abatement's can be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. A taxpayer, other than the owner-occupant who receives a certificate of tax credit, shall have 30 days within the date of the sale to furnish satisfactory proof that the residence was sold at market to the Director of the Department of Economic Development (DED). If the Director determines that the residence was not in good faith intended for long-term owner occupancy, then the Director may revoke any tax credits issued and seek recovery of those credits pursuant to Section 620.017, RSMo. There are no other commitments made as part of the agreement. The Neighborhood Preservation Tax Credit reduced state taxes by \$3,659,000 during fiscal year 2020.

Business Recruitment

Missouri Quality Jobs is authorized by Sections 620.1875-620.1890, RSMo and provides tax incentives to qualified companies for facilitating the creation of new jobs or the retention of existing jobs in the State. This program has been replaced by Missouri Works, except for current projects. To qualify, the company must create a minimum number of jobs within the project facility within 2 to 3 years after the approval of the Notice of Intent and must maintain those jobs for the duration of the benefit. The average wage of the new jobs must equal or exceed the average county wage and the company must offer health insurance and pay at least 50% of the premium. The company must also submit an annual report. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. Missouri Quality Jobs reduced state taxes by \$37,669,000 during fiscal year 2020.

The Missouri Works - Business Incentives is authorized by Sections 620.2000-620.2020, RSMo and provides tax incentives for qualified companies to create or retain jobs in the State. There are several sub-programs under this program with different qualifications for each. To qualify for the credits, a company must create or retain a minimum number of new jobs at the project facility with average wages of 80%, 90%, 100%, 120%, or 140% of the county average wage, depending upon the sub-program. The company must offer health insurance and pay at least 50% of the premium. The company must meet the requirement for new private capital investments, ranging from \$0 to \$500 million. The company must meet the required number of jobs at the applicable % of the county average wage within 2 years of the Approval of the Notice of Intent and must maintain those minimums for the duration of the benefit. The company must also submit an annual report documenting the jobs created, total payroll, and health insurance requirements. Companies may retain 100% of withholding tax that would otherwise be paid into the State or receive tax credits based on the percentage of new payroll or a combination of both for the new or retained jobs approved. The credits can be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. Taxes may be recaptured due to misrepresentation, out-of-state relocation, or failure to file an annual report. The agreement requires 100% of the benefits received to be repaid within 60 days for misrepresentation or out-of state location or one year for failure to file an annual report. There are no other commitments made as part of the agreement. Missouri Works - Business Incentives reduced state taxes by \$113,472,000 during fiscal year 2020.

Note 20 - Tax Abatement's (cont.)

Missouri Works New Jobs Training and Job Retention Training are authorized by Sections 620.800-620.809, RSMo. New Jobs Training provides assistance to eligible companies to train workers in newly created jobs. To qualify, the company must create new jobs in the state; the project must include eligible training costs, as well as other eligibility criteria such as types of occupations, wage rates, and turnover rates. Job Retention Training provides training assistance to eligible companies for job retention efforts. To qualify, a project must be for an existing Missouri company making a capital investment of at least 5 times the total project costs, retaining at least 100 eligible jobs at the facility for at least one year, be located in a border community, or be determined to represent substantial risk of relocation. Eligible companies for both programs include manufacturing, research and development, or those engaged in interstate commerce. The company must retain the eligible jobs in the project for at least 5 years and use the funding only toward eligible project costs. These programs are administered locally through community colleges. While the recipient's taxes are not actually reduced, a portion of normal withholding payments (paid to the Department of Revenue) are deferred to pay for eligible project costs. The amount that can be deferred is 2.5% of the payroll for the first 100 jobs in the project and 1.5% of the payroll for the remaining jobs in the project. The company may file withholding claims for the project until the budgeted project funds are disbursed; typically for a period of 3-5 years, with maximum limit of 8 years. There are no other commitments under these programs. Recapture provisions apply in accordance with Section 620.017, RSMo in which the recipient shall repay training funds under these programs if the jobs included in the project are moved out of Missouri or are eliminated within five years of the date the project is approved by DED. The Director of the Division of Workforce Development within DED shall have the authority and discretion to exempt the recipient in whole or in part of such repayment. Missouri Works New Jobs Training and Job Retention Training reduced state taxes by \$3,674,000 and \$2,906,000, respectively, during fiscal year 2020.

The Missouri Manufacturing Jobs Act is authorized by Section 620.1910, RSMo and provides incentives in the form of retaining withholding taxes to expand manufacturing facilities for an existing product or the creation of a new product. This program sunset in 2016 and no new applications are being accepted. To qualify, manufacturing companies must have a North American Industry Classification System (NAICS) of 33611, which is an establishment primarily engaged in (1) manufacturing complete automobile and light duty motor vehicles or (2) manufacturing automobile and light duty motor vehicle chassis. The company must manufacture goods at a facility in the state throughout the period benefits are received, and make a capital investment at a facility of at least \$75,000 per retained job for the manufacture of a new product within 2 years of beginning to retain withholding taxes or commit to make a capital investment of at least \$50,000 per retained job at the facility for the modification or expansion of the manufacture of an existing product within 2 years of beginning to retain withholding taxes. Qualified suppliers of an eligible manufacturer must attest to DED that they derive more than 10% of its total annual sales revenue from sales to a qualified manufacturing company, add 5 or more new jobs for a period of 3 years, pay wages for the new jobs equal to or exceeding the county average wage using the NAICS industry classification, but are not less than 60% of the statewide average wage, and the company must offer health insurance and pay at least 50% of the premium. If qualified, the company is allowed to retain 100% of the withholding tax that would otherwise have been paid in to the state for those jobs for 10 years for qualified manufacturers or 3 to 5 years for qualified suppliers. There are no provisions for recapture and no other commitments are made as part of the agreement. The Missouri Manufacturing Jobs Act reduced state taxes by \$13,840,000 during fiscal year 2020.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 20 - Tax Abatement's (cont.)

Business Use Incentives for Large-Scale Development (BUILD) is authorized by Sections 100.700-100.850, RSMo. The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. The costs are financed through the issuance of Board of Certificates (bonds or notes), where the principal and interest will be repaid by the business. Businesses are then reimbursed for these repayments through the issuance by the Board of Missouri state income tax credits. The businesses may use these credits against taxes, which would otherwise be due, or to obtain a refund if the business has insufficient Missouri income tax liability to offset the credit. A business can apply these credits against income tax, bank tax, insurance premium tax, or other financial institutions tax. To qualify, an eligible industry in manufacturing, processing, assembly, research and development, agricultural processing or services in interstate commerce must invest a minimum of \$15 million; or \$10 million for an office industry in an economic development project; and create a minimum of 100 new jobs at the project facility within 3 years, or a minimum of 500 jobs if the project is an office industry, or a minimum of 200 new jobs if the project is an office industry located within a distressed community as defined in Section 135.530, RSMo. The tax credits become subject to recapture if the company does not expend the minimum investment on or before the first test date established in the program agreement, or create and maintain the minimum number of new jobs on or before the first test date. The first test date is the last day of the closest calendar quarter ending 3 years following bond closing. The tax credits are also subject to recapture if the company eliminates or announces its intention to eliminate all the new jobs at the project within 2 years of the first test date. If subject to recapture, the company shall, within 30 days following written demand from the Board, reimburse the Board in full for the face amount of the tax credits received from the date of execution of the program agreement to the date of such demand. There are no other commitments made as part of the agreement. The BUILD program reduced state taxes by \$8,898,000 during fiscal year 2020.

The Enhanced Enterprise Zone is authorized by Sections 135.950-135.973, RSMo and provides tax credits to new or expanding businesses in enhanced enterprise zones. To qualify, a company must create or maintain at least 2 new jobs and make at least \$100,000 in eligible investments. In addition, a Notice of Intent must be approved by DED, and the business must submit an annual report. Eligibility for the credit is determined by the zone based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Taxes are reduced by claiming a tax credit against the Missouri income tax liability owed to the state. The tax credits are calculated at 2% of new payroll and 0.5% of new investment. There are no provisions for recapture and no other commitments are made as part of the agreement. The Enhanced Enterprise Zone reduced state taxes by \$4,716,000 during fiscal year 2020.

The Business Facility Tax Credit is authorized by Sections 135.100-135.150 and Section 135.258, RSMo and provides to facilitate the expansion of new or existing facilities in Missouri. To qualify, a Notice of Intent must be approved by DED; the facility must create at least 2 new jobs and make \$100,000 in eligible investments or pursuant to House Bill 191 (2009), for "headquarters" that commence operations and "headquarters" of certain "employee-owned" businesses that commence or expand operations must create 25 new jobs and make \$1,000,000 in new investment. The company must submit an annual report to DED. Taxes are reduced by claiming a tax credit against the Missouri tax liability owed to the state. The tax credits are calculated as \$75 to \$150 per new job and \$75 to \$150 for each \$100,000 in new investment for up to 10 years. The tax credits for headquarters are calculated as the greater of \$400 per new job plus 4% of new investment or \$500 per new job plus \$500 per each \$100,000 in new investment for up to 10 years. The credit may be applied against income tax, insurance premium tax, or insurance company retaliatory tax. This program has sunset as of January 1, 2005 except headquarters that commence or expand operations on or before January 1, 2025 may be eligible for the program. There are no provisions for recapture and no other commitments are made as part of the agreement. The Business Facility Tax Credit reduced state taxes by \$7,556,000 during fiscal year 2020.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 20 - Tax Abatement's (cont.)

The Amateur Sports Ticket Sales Tax Credit is authorized by Section 67.3000, RSMo and provides an incentive to encourage the location of competitively bid amateur sporting events in Missouri. Upon application, applicants must submit predictions on the anticipated economic benefit to the state. Applicants will be evaluated based upon anticipated and verified economic performance. The program is available to one or more certified sponsors, endorsing counties, endorsing municipalities, or a local organizing committee, acting individually or collectively. The program provides tax credits equal to the lesser of: \$5 per admission ticket sold to the event; or 100% of eligible costs incurred by the applicant. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit and may be taken against income tax, bank tax, insurance premium tax, and other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Amateur Sports Ticket Sales Tax Credit reduced state taxes by \$1,392,000 during fiscal year 2020.

The Rebuilding Communities Tax Credit is authorized by Section 135.535, RSMo and provides a tax credit for eligible businesses locating, relocating, or expanding within a distressed community. This program has been replaced by Missouri Works, except for current projects. To qualify, a business must have fewer than 100 full-time employees, 75% of which must be located in the distressed community; be primarily engaged in manufacturing, biomedical, medical devices, scientific research, animal research, computer software design, computer software development or computer programming, which includes Internet, web hosting, and other information technology, wireless, wired or other telecommunications, or a professional firm. The business must submit an annual tax credit application documenting eligible expenditures on the project to DED. Once approved, the tax credit is calculated at 40% or 25% of the qualifying expenditures and may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Rebuilding Communities Tax Credit reduced state taxes by \$17,000 during fiscal year 2020.

The Development Tax Credit is authorized by Sections 32.100-32.125, RSMo and provides incentives to facilitate a business project in order to create new jobs. This program has been replaced by Missouri Works, except for current projects. Tax credits are issued to approved taxpayers that make an eligible donation to a non-profit corporation. The non-profit leases assets to an approved company. The company must create a specified number of jobs within 2 years and be in a distressed or blighted area. In many instances, the taxpayer that makes the donation is also the company that is creating the economic impact. The donor that makes the contribution must submit a tax credit application to DED. Once approved, taxes are reduced by claiming a tax credit against Missouri tax liability owed to the state. The tax credit is calculated at 50% of the eligible donation and may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, other financial institutions tax, or express company tax. No other commitments are made as part of the agreement. DED may recapture tax credits up to the amount issued if the non-profit fails to complete the project or comply with the agreement. The non-profits only and not the donors are subject to the recapture. The Development Tax Credit reduced state taxes by \$175,000 during fiscal year 2020.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 20 - Tax Abatement's (cont.)

Chapter 100 Personal Property Tax Exemption is authorized by Section 144.054 (2), RSMo and provides a state and local sales tax exemption on tangible personal property leased by a company from the City or County. To qualify, cities and counties may apply to DED on behalf of eligible companies for which Chapter 100 bond proceeds are used to purchase tangible personal property, which is leased back to the company. DED may apply discretionary benefit exemption if the benefit contained in a formal DED proposal is accepted by the company. Since DED cannot enact the sales tax exemption on the lease without the underlying Municipality Chapter 100 in place, any inclusion in a formal DED proposal will be coordinated with the Municipality and their economic developer. The proposal must have been accepted by the company prior to any project announcements, no approval or issuance of the bonds may have taken place, and the tangible personal property may not have been purchased prior to the acceptance of the proposal. The project must also be competitive, have comprehensive local incentive participation, have above average wages with benefits, be located in an economically distressed or blighted area, have a positive state fiscal impact, and have an indication that the municipality has offered the local Chapter 100 exemptions. The company receives the exemption on sales tax as the facility, construction materials, and certain tangible personal property may be purchased as exempt by the City or County and then leased back to the company. The company will be responsible for the payment of sales tax on purchases exceeding the maximum accepted in the proposal, ineligible purchases, or the revenue stream generated by lease of ineligible personal property. There are no provisions for recapture and no other commitments are made as part of the agreement. The sales tax is applicable to the lease payments made over a period not to exceed 20 years by statute and restricted further by local ordinance. The sales tax exemptions are only applicable if tangible personal property purchases are made within established project time periods, as listed on the certificate. For fiscal year 2020 no certificates were provided for the exemption of state sales tax related to lease payments of tangible personal property under a Chapter 100 structure.

Data Center Sales Tax exemption is authorized by Section 144.810, RSMo and incentivizes the location and expansion of data centers in the state by providing an exemption of the sales and use taxes associated with a variety of activities necessary to build a new facility or expand an existing facility. To qualify, companies must create 5 new jobs and \$5 million in investment for expanding facilities or create 10 new jobs and \$25 million in investment for new facilities within certain time frames. A company is refunded their sales and use taxes for new purchases related to the data center project for the period prior to meeting the threshold for participation and then are exempt for a period of no more than 10 years for expanding facilities or 15 years for a new facility. Taxes may be subject to recapture if the full investment projected is not met or if the jobs created are not maintained, causing the cost/benefit to the State to be negative, or if the company does not meet the minimum thresholds. Taxes will be recaptured up to the amount that creates a positive cost/benefit to the state, or if the company does not meet the minimum thresholds, the full exemptions to date must be repaid. No other commitments are made as part of the agreement. The amount that state taxes were reduced is confidential under Section 32.057, RSMo.

Redevelopment

The Historic Preservation Tax Credit is authorized by Sections 253.545-253.561, RSMo and provides an incentive for the redevelopment of commercial and residential historic structures in the state. Upon application, the eligible property must be listed on the National Register of Historic Places, be certified by the Department of Natural Resources (DNR) as contributing to the historical significance of a certified historic district listed on the National Register, or located within a local historic district that has been certified by the U.S. Department of Interior. The costs and expenses associated with the rehabilitation must exceed 50% of the total basis of the property. All approved applicants must commence rehabilitation within 2 years of the date of issuance of the letter of approval from DED. The program provides state tax credits equal to 25% of eligible costs and expenses of the rehabilitation of approved historic structures, which the recipient is able to use to reduce their outstanding tax liability in an amount equal to the value of their tax credit. The credit may be applied against income tax, bank tax, insurance premium tax, or other financial institutions tax. There are no provisions for recapture and no other commitments are made as part of the agreement. The Historic Preservation Tax Credit reduced state taxes by \$88,487,000 during fiscal year 2020.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 20 - Tax Abatement's (cont.)

Brownfield Remediation is authorized by Sections 447.700-447.718, RSMo and provides incentives to businesses or developers to redevelop property contaminated with hazardous waste. To qualify, the property must be abandoned or underutilized for at least 3 years, and contaminated with hazardous substance, the applicant cannot be a responsible party, the project must be accepted into DNR Voluntary Cleanup Program, the project must be endorsed by city or county government, must create at least 10 new jobs or retain 25 jobs, the project must create a positive net state economic benefit, and must demonstrate need for the credits. The recipient is able to reduce their outstanding tax liability in an amount equal to the value of the tax credit. The tax credits may be issued for up to 100% of eligible costs and expenses for remediating the project property. The tax credit may also include up to 100% of the costs of demolition that are not directly part of the remediation activities. The amount of the credit available for demolition not associated with remediation cannot exceed the total amount of credits approved for remediation including demolition required for remediation. DED will issue 75% of the credits upon adequate proof of payment of the costs; the remaining 25% will not be issued until a clean letter has been issued by DNR. The tax credits may be applied against income tax, corporate franchise tax, bank tax, insurance premium tax, or other financial institutions tax. The tax credits may be subject to recapture in the event the owner sells the abandoned or underutilized property within a 5 year period after the receipt of remediation tax credits, grants, loans or loan guarantee. Subject to Sections 447.700-447.718, RSMo, the owner shall repay a portion of the tax credits and grant funds provided based on the percentage of the owner's investment for the project to DED's total financial assistance, upon achieving an annual internal rate of return of 25%. The internal rate of return calculation shall be documented by the owner's capital gains tax calculation. Owner investment is equity and debt for the eligible project. At the end of the project, a purchaser who has performed voluntary remediation action certifies to DNR that the goals of the purchaser's voluntary remediation plan have been attained. DNR verifies the remediation plan goals are achieved and issues a certificate that states that the site has been cleaned up to DNR standards pertaining to the property itself and therefore protects both current and future owners of the property. Brownfield Remediation reduced state taxes by \$9,645,000 during fiscal year 2020.

Note 21 - Commitments

Contracts

The Department of Conservation had contracts outstanding of \$990,000 for construction and \$74,000 for land acquisition contracts at June 30, 2020. These contracts are funded through the special revenue funds from specific sales tax, fees, and permits.

The Department of Natural Resources had construction contracts outstanding at June 30, 2020 of \$73,000. These projects are funded through a special revenue fund, a capital projects fund and an enterprise fund.

The Department of Transportation had long-term contracts of \$996,525,000 outstanding at June 30, 2020. These contracts are paid from capital projects funds with approximately 78% federal reimbursement expected.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 21 - Commitments (cont.)

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding at June 30, 2020 of \$30,539,000. Approximately 40.2% will be paid from the General Fund, 39.5% from special revenue funds, 17.7% will be paid from the capital projects funds, and 2.6% will be paid from an enterprise fund.

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to \$11.2 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2020 was \$364,000. Payment of principal and interest must be completed by March 2038.

As of June 30, 2020, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling \$145,519,000. The payments are as follows:

2021	\$	27,224,000
2022		28,133,000
2023		29,073,000
2024		30,043,000
2025		31,046,000

Truman State University had approximately \$243,000 in outstanding commitments for various construction contracts at June 30, 2020.

Southeast Missouri State University had outstanding commitments of approximately \$3,350,000 related to construction contracts at June 30, 2020.

Missouri State University had approximately \$16,000,000 in outstanding commitments for various construction contracts at June 30, 2020.

University of Central Missouri had approximately \$5,640,000 in outstanding commitments related to construction contracts at June 30, 2020.

Northwest Missouri State University had approximately \$8,855,000 in outstanding commitments related to various construction contracts at June 30, 2020.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 22 - Risk Management and Insurance

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to state statute, through the State's Legal Expense Fund, which is a component of the General Fund in this report. This insurance covers all state employees.

The Workers' Compensation and Legal Expense Fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. Incurred but not reported (IBNR) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage. OA-Risk Management also procures property insurance for approximately 3% of all state buildings, with the remainder uninsured. The buildings are insured through purchased property insurance and through the Property Preservation Fund. Buildings insured through the Property Preservation Fund are backed with bonded debt through the Board of Public Buildings.

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol, and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated pending self insurance claims represent the expected losses to be realized on known claims pending and include minor non-incremental claims adjustment expenses. Estimated unreported claims represent expected losses or claims incurred but not reported. Amounts are reported based on actuarial calculations. Liabilities for incurred losses related to workers' compensation and general and vehicle liability claims are reported at their discounted value, assuming an investment yield of 2.0%.

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan for active employees is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is established from an actuarial report, which is based on data by MoDOT and claims administrators.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for participants and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a non-major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discount rates ranging between 1.00% and 3.50% based on expected future investment yield assumptions. The University of Missouri System is included with college and universities as a major component unit of the State.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 22 - Risk Management and Insurance (cont.)

Missouri State University is exposed to various risks of loss. These include loss related to torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and employee health, dental, and accidental benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to general liability, workers' compensation, natural disasters, and employee health benefits. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self-Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self-insures the workers' compensation benefits for all state employees, including University employees.

Southeast Missouri State University is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, business interruption, errors and omissions, employee injuries and illnesses; natural disasters and employee health and accident benefits. The University purchases commercial insurance and also receives coverage through the State of Missouri for these risks of loss. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

Changes in the balances of claims liability (in thousands of dollars) during the current and prior fiscal years are as follows:

	Type of Insurance Claims	Fiscal Year Claims Liability 6/30/2019	Current Year Claims and Estimated Changes	Claim Payments	Fiscal Year Claims Liability 6/30/2020

Risk Management Pool:

The State of Missouri participates in the property program of the Midwestern Higher Education Compact (MHEC) as defined in Section 173.700, RSMo. This program was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by institution. The MHEC Risk Management Oversight Committee directs the major operations of the program overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 23 - Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources (DNR) was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Section 260.371.7, RSMo, states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2020, the State was participating in the cleanup of seventeen Superfund sites. Total pollution remediation obligation for these sites totaled approximately \$48.3 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of Conservation and Environmental Protection.

The Missouri Department of Transportation (MoDOT) is in remediation activities related to buildings and grounds caused by contamination and a fuel leak. The current pollution remediation obligation for these sites total approximately \$4.0 thousand. The potential for additional pollution remediation exists, however, any future remediation obligations are not yet estimable.

The Department of Public Safety, Office of the Adjutant General, has been named as a potentially responsible party in the Pools Prairie Superfund site in Newton County, Missouri. The site is listed on the National Priorities List (NPL) and is governed by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). At this time, the Department of Public Safety's portion of the costs for the cleanup cannot be determined.

Changes in the balances of pollution remediation liability (in thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	Type of Pollution Remediation	Fiscal Year Remediation Liability 6/30/2019	Current Year Assessments and Estimated Changes	Payments	Fiscal Year Remediation Liability 6/30/2020	Due Within One Year
DNR	Superfund Sites	\$ 48,801	\$ 1,059	\$ (1,600)	\$ 48,260	\$ 2,653
MoDOT	Buildings and Grounds Remediation	4	—	—	4	—
Total Governmental Activities		<u>\$ 48,805</u>	<u>\$ 1,059</u>	<u>\$ (1,600)</u>	<u>\$ 48,264</u>	<u>\$ 2,653</u>

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 23 - Pollution Remediation and Landfill Closure and Postclosure (cont.)

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2020, the DNR, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be \$343.2 million. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

As of June 30, 2020, Missouri Department of Natural Resources (DNR) had ten active Municipal Solid Waste Landfills (MSWLFs), one Municipal Solid Waste Landfill (MSWLF) site in bankruptcy, one disposal transfer station and there was no defaults. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with the DNR Solid Waste Management Law and Regulations. At June 30, 2020, it is expected that \$1.5 million will be paid over the remaining monitoring periods. This is the amount of the assigned fund balance that has been designated on the General Fund balance sheet for forfeited assets.

The University of Missouri System has been working with the Voluntary Cleanup Program at DNR to characterize subsurface contamination on a University owned property. The University received the results of the two-year sampling process in fiscal year 2016. The University is awaiting a determination from DNR. The site is now on the National Regulatory Commission (NRC) license and must be decommissioned. Upon further review of the documents, the University determined that it does not believe that the documents support the decision to add the site to the NRC license due to an overestimated quantity of isotopes managed at the site. The University made a formal request to remove the site from the NRC license. NRC responded with a request for more information, including a dose assessment, which is estimated at a cost of \$15.0 thousand. If the NRC finds the dose assessment to be unacceptable, then the University will be required to fully decommission the site, including a sampling plan. The cost of a sampling plan to characterize the chemical contamination is estimated at \$1.0 million. The University has not commenced any actions requiring the recognition of a liability for this property.

Note 24 - Asset Retirement Obligations

The State has a legally enforceable obligation to perform future asset retirement obligations (ARO) related to its tangible capital assets.

The Missouri Department of Natural Resources (DNR) has a total ARO of \$1,720,000 for gas chromatographs, radiation detectors, petroleum above ground storage tanks, and permitted sewage treatment plants. Gas chromatographs and radiation detectors are considered radioactive sources and will not be accepted by the State's Surplus Property Program, thus requiring a cost for disposition. These ARO's are measured at the current cost of returning the items to the vendor. Gas chromatographs have remaining useful lives of 3 - 9 years and radiation detectors have remaining useful lives of 0 to 8 years. The ARO for petroleum above ground storage tanks is measured using the best estimate for taking the tanks out of service, which consists of emptying the tanks, removing the secondary containment, and proper disposal. Remaining useful lives of the tanks are 0 to 15 years. Aboveground storage tanks are regulated under the Missouri Code of State Regulations 2 CSR 90-30.050.16. The ARO for permitted sewage treatment plants is measured using the best estimate for closure of the facilities, which includes submitting a closure plan to DNR addressing wastewater and sludge removal, dewatering activities, removal of treatment structures, and removal of solid waste or leaving in place as a clean fill. Remaining useful lives of the plants is 0 to 47 years. Permitted sewage treatment plants are regulated by the Missouri Code of State Regulations 10 CSR 20-6-011.12 and the Federal Clean Water Act. The ARO for these items would be funded by state appropriations.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 24 - Asset Retirement Obligations (cont.)

The Missouri Department of Transportation (MoDOT) has an ARO of \$44,000 to properly dispose of all nuclear gauges used to measure physical properties of materials during its construction projects. The ARO is measured using the current cost of returning the items to the vendor and the assets have remaining estimated useful lives of 15 years. Disposal of the nuclear gauges is required by the Nuclear Regulatory Commission - NUREG 1556 Volume 1 Rev 2. The ARO will be funded by state appropriations.

The Department of Public Safety (DPS), Office of the Adjutant General, has an ARO of \$30,000 to take two underground storage tanks out of service. The ARO is measured using the current cost for closure and the assets have estimated remaining useful lives of 24 years. Underground storage tanks are regulated under the Missouri Code of State Regulations 10 CSR 26. The ARO will be funded by state appropriations.

The University of Missouri (MU) has an ARO based on its ownership of two nuclear research reactors which are regulated by the U.S Nuclear Regulatory Commission (NRC). The NRC requires the University to submit decommissioning funding plans every three years to retain the right to operate the reactors. The decommissioning funding plans update and adjust changes in costs to remediate and the extent of the estimated future contamination. The cost to decommission the reactors is based on a formula as set forth by the NRC as part of the licensing of the facilities. The ARO as of the end of fiscal year 2020 was \$62,433,000. The remaining useful lives of the reactors was 22 years.

The balances of the asset retirement obligations (in the thousands of dollars) during the current fiscal year are as follows:

<u>Governmental Activities</u>	<u>ARO Liability at June 30, 2020</u>
DNR	\$ 1,718
MoDOT	44
DPS	30
Total Governmental Activities	<u>\$ 1,792</u>
 <u>Business-Type Activities</u>	
DNR	<u>\$ 2</u>
 <u>Component Units</u>	
MU	<u>\$ 62,433</u>

Note 25 - Contingencies

Contingent Claims Liabilities

Contingent claims liabilities are reported when it is probable a loss has occurred and the amount can be reasonably estimated. These losses include estimates of claims which have been incurred but not reported, including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Position. Expenditures are recognized as payments are made.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 25 - Contingencies (cont.)

As of June 30, 2020, the amount of contingent liabilities was \$27.8 million. Changes in reported liability since June 30, 2019, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2019-2020	\$ 30,405	\$ 7,859	\$ (10,434)	\$ 27,830
2018-2019	48,923	13,628	(32,146)	30,405
2017-2018	71,150	4,368	(26,595)	48,923

Section 287.220.8, RSMo, requires an actuarial study of the Second Injury Fund be made every year to determine solvency of the fund. Figures presented below for current year claims and changes in estimates are based on the 2019 actuarial study. As at June 30, 2020, the amount of liabilities for Second Injury Fund was \$2.2 billion. Changes in reported liability since June 30, 2019, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2019-2020	\$ 2,071,889	\$ 178,673	\$ (76,559)	\$ 2,174,003
2018-2019	1,953,168	213,020	(94,299)	2,071,889
2017-2018	1,840,186	213,633	(100,651)	1,953,168

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements by the grantor agency for expenditures disallowed under grant agreements. The State believes such disallowances, if any, would be immaterial in the next fiscal year.

Tort Claim Lawsuits:

The Attorney General, on behalf of other state agencies, is involved in litigation for tort claims including wrongful death, motor vehicle accidents, medical malpractice, assault and battery, and deliberate indifference, as well as employment discrimination claims not included in the 2020 liability amount. It is reasonably possible an adverse court decision may incur an estimated loss of \$4.9 million.

Department of Social Services:

Little Sisters of the Poor v. Department of Social Services, No. 18AC-CC00262 (Cole County Circuit Court). This petition for review was filed on July 12, 2018, by 335 nursing facilities participating in the MO HealthNet program. They claim that the reduction of a per diem reimbursement rate by the department was invalid and contrary to the department's own regulation. The Cole County Circuit Court entered an order and judgment on May 22, 2019, concluding the department had violated its own regulation, the Medicaid Act requirements that apply to rate reductions, and the Equal Protection Clauses of the United States and Missouri Constitutions. If upheld, the resulting cost to the department and the State would be approximately \$44 million. The State filed a notice of appeal on June 28, 2019 and the Missouri Court of Appeals reversed. The nursing facilities have applied for transfer to the Supreme Court of Missouri. The ultimate resolution of the case on appeal cannot be predicted with any degree of certainty.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 25 - Contingencies (cont.)

Department of Health and Senior Services:

The Nurse Student Loan Program provides forgivable student loans to eligible Missouri undergraduate, graduate, post-graduate, and doctoral nursing students in exchange for service in underserved communities and facilities in the state. Current annual award levels, based on statute, are a one-time amount of \$2,500 for LPN students and \$5,000 for professional nursing students. Loans are repaid either through service in an underserved area, or via cash repayment at 9.5% simple interest. For repayment via service, participants provide one year of professional service for each school year a loan is received, up to a maximum of 5 years. The number of loans awarded per year varies based upon available funding, number of previous students anticipating continued funding, and number of eligible new applicants.

The Health Professional Student Loan Program is a competitive state program that awards forgivable loans to students pursuing health care training leading to Missouri licensure. Eligible disciplines are primary care physicians, primary care dentists, and dental hygienists. The amount of funding provided depends upon the student's chosen discipline and educational status. Repayment of loans can be completed either through obtaining employment to earn forgiveness or through cash repayment at 9.5% simple interest. Forgiveness is based upon the number of loans received and is earned at a rate of one year of professional service for each loan received, up to a maximum of 5 years. Qualifying employment is considered as full-time, direct patient care at a facility located in an area of need also referred to as a Health Professional Shortage Area.

The purpose of the Missouri Health Professional State Loan Repayment Program (SLRP) is to improve access to primary care by assisting rural and underserved communities with recruitment and retention of primary care providers. SLRP offers eligible healthcare providers an opportunity to receive up to \$50,000 in financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services at an ambulatory public, nonprofit or private nonprofit primary care practice site located in a federally designated Health Professional Shortage Area (HPSA).

The Missouri Nurse Loan Repayment Program (NLRP) offers Registered Nurses (RNs) and Advanced Practice Registered Nurses (APRNs) an opportunity to receive financial assistance towards the repayment of their qualifying educational loans in exchange for a minimum two-year commitment to provide healthcare services in an area of defined need in the State of Missouri.

For all types of loan programs, in the event of a default, i.e. the loanee does not complete the service agreement, the loan status changes to repayment. In the event the loanee does not repay according to the terms of their agreement, the Department of Health and Senior Services will work with the Attorney General's Office to try to collect the outstanding receivables. The current total amount of loans outstanding is \$6.4 million; the total amount in repayment is \$2.4 million. There is no correlation between who will or will not repay their debt once a default has occurred since it is subject to each individual case and the legal remedies pursued. Therefore the amount of loss cannot be reasonably estimated.

Department of Corrections Settlements:

Hootselle v. Department of Corrections, No. 12AC-CC00518 (Cole County Circuit Court). This lawsuit was filed on August 14, 2012 by several corrections officers alleging that the Missouri Department of Corrections failed to compensate them for pre- and post-shift activities, including passing through security checkpoints and retrieving equipment such as keys and radios. The officers' union was later added as a plaintiff and asserted claims for breach of its collective bargaining agreement. Following a jury trial on the plaintiffs' breach of contract claims in August 2018, the court entered judgment against the State and for the class of \$113.7 million. The State filed a notice of appeal and the Missouri Court of Appeals affirmed the judgment. The case was transferred to the Supreme Court of Missouri and argued, but the decision has not yet been handed down. The ultimate resolution of the case on appeal cannot be predicted with any degree of certainty.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 25 - Contingencies (cont.)

Tobacco Master Settlement Agreement:

Under the 1998 Tobacco Master Settlement Agreement ("MSA"), Missouri receives annual settlement payments in perpetuity from Participating Manufacturers ("PMs") of tobacco products. Each year on or about April 15th, Missouri receives an annual payment typically between \$120 and \$140 million. Annual MSA payments are subject to a downward adjustment if the PMs lose more than 2% of their pre-MSA market share to Non-Participating Manufacturers ("NPMs"). Individual states may avoid their share of this "NPM Adjustment" by enacting and diligently enforcing model legislation, which imposes certain escrow obligations on NPMs.

The tobacco manufacturers contest Missouri's enforcement of the model legislation for 2004 and subsequent years, each of which is subject to binding arbitration. Arbitration regarding diligent enforcement for 2004 is ongoing. The state appointed arbitrator passed away in August 2019 and the state parties have selected another arbitrator who will begin reviewing the evidence and hear additional matters and argument in 2020. If the panel finds that Missouri was not diligent in 2004, the State will face a downward adjustment on the annual payment following the panel's determination. The ultimate resolution of the 2004 proceeding, the timing of the panel's decision, and the outcome of any subsequent arbitration proceedings between the tobacco manufacturers and Missouri cannot be predicted with any degree of certainty.

Contingent Gains

Contingencies that might result in gains are not reported on the statements since they are not realizable.

Natural Resource Settlements:

The Department of Natural Resources works jointly with the United States Fish and Wildlife Service and United States Forest Service to recover damages from parties responsible for causing injuries to natural resources. Funds from these settlements are typically held in the federal treasury in a joint account administered by the United States Department of Interior. Expenditures of these funds may only be by mutual agreement of the Missouri Trustee Council (the Department of Natural Resources, the United States Fish and Wildlife Service and, at times, United States Forest Service) and such funds may only be used to restore, replace, or acquire natural resources similar to those that were injured. As of June 30, 2020, the balance of Missouri-related joint settlement funds in the Department of Interior restoration fund is approximately \$49 million.

Note 26 - Nonexchange Financial Guarantees

The following nonexchange financial guarantees are extended by the Missouri Agricultural and Small Business Development Authority (MASBDA) and the Missouri Department of Agriculture (MDA). The exchange financial guarantees are not recognized as a liability, which indicates that the State will most likely not be required to make a payment related to the nonexchange financial guarantees. As of June 30, 2020, the State extends the following financial guarantees:

Programs	Maximum Guarantee Period	Total Number of Loans Outstanding	Total Dollar Amount of Loans Outstanding (in thousands)	Total Dollar Amount Guaranteed by the State (in thousands)
Missouri Value-Added Loan Guarantee Program	10 Years	2	\$ 212	\$ 106
Single-Purpose Animal Facilities Loan Guarantee Program	10 Years	4	318	159
Crop and Livestock Loan Guarantee Program	2 Years	11	29	14

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 26 - Nonexchange Financial Guarantees (cont.)

Missouri Value-Added Loan Guarantee Program

The Missouri Value-Added Loan Guarantee Program, authorized in Sections 348.400-348.415, RSMo, provides up to a 50% first-loss guarantee on loans, of \$250,000 or less, made by lenders for the purpose of agricultural business development. The loan guarantee is for a duration of up to 10 years. The program is intended to create new economic activity by creating or retaining jobs. Loans guaranteed by the value-added loan guarantee program can be used to finance agricultural property, which includes land, buildings, structures, improvements, and equipment used for the purpose of processing, manufacturing, marketing, exporting, or adding value to an agricultural product. Loans may also be guaranteed to buy stock in a new generation processing entity that processes an agricultural product. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were four loan defaults under this program in fiscal year 2020. The outstanding balance on judgments for amounts owed to the State totals \$50,200.

Single-Purpose Animal Facilities Loan Guarantee Program

The Single-Purpose Animal Facilities Loan Guarantee Program, authorized in Sections 348.185-348.225, RSMo, is designed to provide banks and other lenders with a 50% first-loss guarantee on loans of up to \$250,000 for up to 10 years. Independent livestock producers may use the loans to finance, refinance or restructure breeding or feeder livestock, earthworms, land, buildings, facilities, equipment, machinery and animal waste systems for producing poultry, swine, beef and dairy cattle, or other livestock. In the event of a default, the MASBDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. There were no loan defaults under this program in fiscal year 2020.

Crop and Livestock Loan Guarantee Program

The Crop and Livestock Loan Guarantee Program, authorized in Section 261.027(3), RSMo, is a 50% guarantee on a loan made to a 4-H and Future Farmers of America (FFA) member who borrows money to purchase livestock, input, etc., for their Supervised Agriculture Education (SAE) project. Loans eligible for the program are limited to the purchase of livestock, feed, seed, fertilizer, and other miscellaneous out-of-pocket expenses directly related to the project. In the event of a default, the MDA will work with the Attorney General's Office or the loan recipient's bank to try to collect. As of June 30, 2020, there are four loan defaults under this program. The outstanding balance on judgments for amounts owed to the State totals \$1,500.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 27 - Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

The Authority is considered a joint venture of the State, County, and City because it constitutes a contractual agreement for public benefit in which the State, County, and City retain an ongoing financial responsibility for the Convention and Sports Facility Project Bonds. In August 1991, the Authority issued \$258,670,000 of Convention and Sports Facility Project Bonds. The bonds were sponsored in the amount of \$132,910,000 by the State (Series A), \$65,685,000 by the County (Series B), and \$60,075,000 by the City (Series C). In December 1993, the Authority issued \$181,885,000 in Convention and Sports Facility Project and Refunding Bonds to advance refund \$101,410,000 and \$50,275,000 of the outstanding 1991 Series A and Series B bonds, respectively, and for additional construction costs. The bonds were sponsored in the amount of \$121,705,000 by the State (Series A) and \$60,180,000 by the County (Series B). In February 1997, the Authority issued \$61,285,000 in Series C refunding bonds to advance refund \$47,155,000 of the outstanding 1991 Series C bonds. In August 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 to refund \$2,845,000 and \$113,170,000 of Series A 1991 and Series A 1993 refunding bonds, respectively, and for additional construction costs. In May 2007, the Authority issued \$49,585,000 in Series C 2007 refunding bonds to refund \$61,285,000 of original principal of the Series C 1997 refunding bonds. In August 2013, the Authority issued \$65,195,000 in Series A 2013 refunding bonds to refund \$65,385,000 of Series A 2003 bonds and issued \$32,560,000 in Series B 2013 refunding bonds to refund \$32,180,000 of Series B 2003 bonds.

Pursuant to a financing agreement entered into in August 1991, and terminating in August 2021, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County, and City under the financing agreement are sufficient to pay the principal and interest on the bonds. See *Note 12* for the specific debt service requirements that make up the State's ongoing financial responsibility for this joint venture.

Summary financial information for the Authority as of and for the fiscal year ended December 31, 2019, is presented below (in thousands of dollars):

Total Assets	\$ 158,429
Total Deferred Outflows of Resources	204
Total Assets and Deferred Outflows of Resources	<u>\$ 158,633</u>
Total Liabilities	\$ 43,552
Total Net Position	115,081
Total Liabilities and Net Position	<u>\$ 158,633</u>
Total Revenues	\$ 24,799
Total Expenses	15,098
Net Increase in Net Position	<u>\$ 9,701</u>

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 28 - Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a major component unit of the State. For the college and universities, except the University of Missouri, the net appreciation/depreciation of the endowments is \$1,641,000. Of this amount, \$2,132,000 is reported as restricted non-expendable, \$(442,000) is reported as restricted expendable, and \$(49,000) is reported as unrestricted net position. The University of Missouri reported a net appreciation/depreciation of restricted non-expendable net position in the amount of \$35,533,000 which consisted of both realized and unrealized gains and losses on investment. For detailed information on the college and universities, please see the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.134, RSMo. These policies are entity specific and vary with each institution.

Note 29 - Conduit Debt

As of June 30, 2020, the Missouri Development Finance Board issued \$1,637,968,000 in Private Activity Bonds and \$2,624,104,000 in Public Purpose and Refunding Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2020, were approximately \$319,588,000 and \$928,170,000, respectively. The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

As of June 30, 2020, the State Environmental Improvement and Energy Resources Authority (EIERA), a component unit of the State of Missouri, had an outstanding balance of approximately \$816,715,000 in Tax Exempt Revenue Bonds. Of this outstanding amount, \$449,050,000 is for Water Pollution Control and Drinking Water Revenue Bonds issued on behalf of the Department of Natural Resources. The State of Missouri has no liability for repayment of these revenue bonds beyond the resources provided by related loan programs. The bonds are limited obligations of EIERA.

Note 30 - Subsequent Events

Bonds

In August 2020, the Board of Public Buildings of the State of Missouri issued \$172,850,000 of Special Obligation Refunding Bonds, Series B 2020. The bonds bear interest from 4.00% to 5.00%, due in semi-annual installments beginning October 1, 2020. The bonds were issued to refund the Board's Special Obligation Refunding bonds, Series A 2012 and Series A 2013, which had outstanding principal of \$185,850,000 and \$19,635,000 respectively.

Federal Emergency Management Agency

On January 21, 2020, the President issued a *Memorandum to Extend Federal Support to Governors' Use of the National Guard to Respond to COVID-19 and to Increase Reimbursement and Other Assistance Provided to States*. The memorandum provides a 100 percent federal cost share for all work eligible for assistance under Public Assistance Category B, pursuant to the Stafford Act, performed from January 21, 2021 through September 30, 2021. On February 2, 2020, the President issued a *Memorandum on Maximizing Assistance from the Federal Emergency Management Agency* which provides that the 100 percent cost share is retroactive for eligible work performed from January 20, 2020 through January 20, 2021.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2020

Note 30 - Subsequent Events (cont.)

CARES

Between August and October 2020, the State's college and universities signed an agreement to participate in federal subsidy programs as part of the CARES act, which flows through the State for the Coronavirus Relief Fund and Governor's Emergency Education Relief funds.

Southeast Missouri State University

On August 11, 2020, the University issued \$57,480,000 Series 2020 System Facilities Refunding Revenue Bonds to pay off the Series 2013 bonds.

Missouri Southern State University

The University entered into an energy savings contract with a third party for \$11.1 million of capital improvements to be paid for through 2035 from energy savings obtained through the capital improvements with payments estimated to total \$200,000-\$300,000 quarterly, beginning in March 2022.

University of Missouri

On October 11, 2020, the University announced the start of a new foundation, the Kummer Institute Foundation. A donation of \$300 million from an external donor was given to the foundation, which will support a new school, provide scholarships and fellowships, as well as support research.

Missouri State University

In August 2020, a public-private partnership between The Vecino Group, LLC and the Springfield Business Development Corporation, for the University's Jordan Valley Innovation Center Expansion, was finalized and related contracts executed.

***Required Supplementary Information (RSI)** includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, Schedule of Changes in Net Pension Liability and Related Ratios, Schedule of Proportionate Share of the Net Pension Liability, Schedule of State Contributions, Schedule of Changes in Total OPEB Liability and Related Ratios, Schedule of Changes in Net OPEB Liability and Related Ratios, Schedule of Proportionate Share of the Collective Net OPEB Liability, and the Notes to RSI on Budgetary Reporting.*

STATE OF MISSOURI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY REPORTING
June 30, 2020

Budgetary Presentation:

A Budgetary Comparison Schedule is presented as Required Supplementary Information for the State's General Fund and Major Special Revenue Funds. Revenues and expenditures are reported on a budgetary basis where actual revenues are recognized when cash is received, and actual expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2020, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budget. This report can be viewed at <http://oa.mo.gov/accounting/reports/annual-reports/appropriation-activity-reports>. The original budget expenditures and transfers are for what was originally appropriated for each fund. The final budget expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any reappropriations to the next fiscal year.

Once a year, the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the final budget column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with State statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between budgeted and actual expenditures and transfers out on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2020, is shown below (in thousands):

	Final Budget Transfer		Actual Transfer	
	In	Out	In	Out
GENERAL FUND	\$ 4,963,669	\$ (4,963,669)	\$ 2,515,457	\$ (2,515,457)
SPECIAL REVENUE FUNDS				
Public Education	405,367	(405,367)	322,869	(322,869)
TOTAL	<u>\$ 5,369,036</u>	<u>\$ (5,369,036)</u>	<u>\$ 2,838,326</u>	<u>\$ (2,838,326)</u>

Budgetary Control:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Under normal circumstances, budgeted expenditures cannot exceed estimated revenues and other sources of funding, including beginning fund balances. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue. However, for the fiscal year ended June 30, 2020 due to the COVID-19 global pandemic and the state of emergency, additional expenditure authority was granted. It is not expected that the State of Missouri will use all of the authority granted.

Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

*After post-valuation adjustments.

Note: This schedule is ultimately required to show information for ten years. However, until a full ten-year trend is compiled, only the years that information is available will be reported.

Notes to the Schedule:

Changes of benefit terms. Senate Bill 62 (SB 62), which contained changes to the benefit structure for Missouri State Employees' MSEP 2011 Plan and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System Year 2000 Plan-2011 Tier, was passed by the 2017 legislature. The provisions of the bill decreased vesting from ten to five years of service, but also included provisions that essentially offset the cost of the vesting change. As a result, SB 62 had no impact on the employer contribution rate and created a decrease to the UAAL for the MSEP 2011 Plan of \$1.6 million.

Changes of assumptions.

For MOSERS: The board reduced the investment return assumption used in the June 30, 2019 valuation to 7.10%.

For MPERS: No changes in assumptions.

For MU: No changes in assumptions.

*Based on a measurement date of the preceding fiscal year and actuarial valuation as of the July 1, 2019.

Note: This schedule is ultimately required to show information for ten years. However, until a full ten-year trend is compiled, only the years that information is available will be reported.

Notes to the Schedules:

Neither MHPML or CEIP have assets that are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Changes of benefit terms. There were no changes in benefit terms.

Changes of assumptions.

For MCHCP: The discount rate changed from 5.90% to 5.24%, in the July 1, 2019 valuation.

For CEIP: The discount rate changed from 3.50% to 2.21% in the June 30, 2019 valuation.

MHPML: The discount rate changed from 3.87% to 3.51% in the July 1, 2019 valuation.

For MU: Claims and trends from the Base and Buyup Medicare advantage plans were revised to reflect future expectations. Also, the discount rate used for the valuations was changed from 3.87% to 2.21% in the June 30, 2020 valuation.

***Supplementary Information** includes the Budgetary Comparison Schedule and Reconciliation for the Major Capital Projects Fund (Missouri Road Fund), as well as the Combining and Individual Fund Statements for the General Fund and all Non-Major Funds.*

The Combining and Individual Fund Statements

Major Funds

General Fund - Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the “major fund” classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison statement is provided for all non-major governmental funds.

*The **Special Revenue Funds** account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.*

Non-Major Special Revenue Funds:

Professional Registration - Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

Judicial Protection and Assistance - Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

Agriculture and State Fair - Provides for inspections of products, market development, and awards for competition at the State Fair.

Social Assistance - Provides financial, health, and other services to qualifying individuals.

Transportation and Law Enforcement - Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

Unemployment and Workers' Compensation - Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

Reimbursements and Other - Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

*The **Permanent Funds** account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.*

Permanent Funds:

Arrow Rock State Historic Site Endowment - Accounts for moneys transferred from the State Parks Earnings Fund, as well as other moneys or property received by grant, gift, donation, or bequest specified for the enhancement of the Arrow Rock State Historic Site.

Confederate Memorial Park - Accounts for the income from investments acquired by gifts, donations, and bequests to be used for the maintenance of the Confederate Memorial Park.

State Public School - Accounts for all moneys, bonds, lands, and other properties belonging to or donated to the State for public school use in establishing and maintaining free public schools.

Smith Memorial Endowment Trust - Accounts for moneys bequeathed for the use and benefit of the Crippled Children's Service.

*The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises.*

Non-Major Enterprise Funds:

State Fair Fees - Accounts for the fairground admission fees used to improve the grounds and to pay the operating costs of the State Fair.

State Parks - Accounts for park concessions and contributions which are used to acquire and operate state parks.

Natural Resources Revolving Services - Accounts for moneys received from the delivery of services and the sale or resale of maps, plats, reports, studies, records, and other publications and documents.

Historic Preservation Revolving - Accounts for gifts, grants, and contributions used to acquire, preserve, restore, maintain, or operate any historical properties.

Petroleum Storage Tank Insurance - Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

State Agency for Surplus Property - Accounts for the surplus property operation.

Department of Revenue Information - Accounts for fees received by the Department of Revenue for publications and used to pay the costs of providing this information.

Inmate Canteen - Accounts for sales of the canteen or commissary which is used to improve offender recreational, religious, or education services.

*The **Internal Service Funds** account for the financing of goods or services provided by one department or agency to other departments or agencies of the State on a cost-reimbursement basis.*

Internal Service Funds:

Natural Resources Cost Allocation - Accounts for the administrative costs of the Department of Natural Resources.

Mental Health Interagency Payments - Accounts for moneys received through interagency agreements for services provided by other agencies.

State Facility Maintenance and Operation - Accounts for moneys collected from tenants for rent to cover the costs of operations in state-owned office buildings and institutions, charges to tenants in leased space to cover costs of real estate administrative services, and charges to capital improvement projects to cover the costs of project management services.

Office of Administration Revolving - Accounts for the following operations: printing services, flight operations, vehicle management, garage services, data processing and telecommunication services, building and grounds, insurance services, postage, and personnel administration.

Working Capital Revolving - Accounts for the operation of correctional industry programs and correctional farm programs.

General Government Revolving - Accounts for various service operations of the House of Representatives, Supreme Court, Adjutant General, Senate, Treasurer, and Department of Corrections.

Social Services Administrative Trust - Accounts for moneys transferred or paid to the Department of Social Services from any governmental entity or the public for goods and services provided.

Economic Development Administrative - Accounts for moneys collected for goods and services provided to other divisions and used to pay the cost of providing such services.

Professional Registration Fees - Accounts for moneys received from the professional boards for administrative services.

Conservation Employees' Insurance Plan - Accounts for health insurance coverage on a self-insured basis and life insurance coverage by a third party provider for Department of Conservation employees.

Transportation Self-Insurance Plan - Accounts for highway and highway patrol moneys used to pay workers' compensation claims. Moneys are also used to pay auto claims against the Department of Transportation.

Missouri State Employees' Insurance Plan - Accounts for long-term disability and death benefits provided on a self-insured basis for state employees.

Missouri Consolidated Health Care Plan - Accounts for medical care benefits provided on a self-insured basis for active state employees.

MoDOT and MSHP Medical and Life Insurance Plan - Accounts for the medical coverage provided on a self-insured basis and death benefits provided on an insured basis to Department of Transportation employees and members of the Missouri State Highway Patrol.

*The **Fiduciary Funds** account for assets held by the State in a trustee or agent capacity.*

Pension (and Other Employee Benefit) Trust Funds:

Missouri State Employees' Retirement System:

Missouri State Employees' Plan - Accounts for retirement, survivor, and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Judicial Plan - Accounts for retirement, survivor, and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System - Accounts for retirement, survivor, and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri Consolidated Health Care Plan State Retiree Welfare Benefit Trust - Accounts for health and welfare benefits paid for the exclusive benefit of current and future retired employees of the State who are not covered under another state-sponsored other post-employment benefit plan.

Missouri State Public Employees' Deferred Compensation Incentive (IRC 401a) Plan - Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan - Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

Private-Purpose Trust Funds:

Alternative Care Trust - Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

Johnson-Travis Memorial Trust - Accounts for all moneys, stocks, and securities given to the State by Miss Pansy Johnson or for the benefit of the Pansy Johnson-Travis Memorial State Gardens. Moneys will be used solely to establish, develop, and maintain the gardens.

Unclaimed Property - Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends, and interest of banks unable to locate the owners.

Agency Funds:

Social Security Contributions - Accounts for the receipt of contributions from various state funds for the State's share of social security contributions, which are due to the Federal Social Security Administration.

Missouri State Employees' Voluntary Life Insurance - Accounts for moneys withheld from employees' compensation for the contracts entered into with life insurance companies.

Program - Accounts for the receipt of various taxes, refundable deposits, and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

Institution - Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

*The **Component Units** account for all transactions relating to legally separate entities which, for reporting purposes, are a part of the State.*

Non-Major Component Units:

Missouri Development Finance Board - Accounts for moneys from bond proceeds, gifts, and grants to make loans for industrial development.

Missouri Agricultural and Small Business Development Authority - Accounts for moneys from bond proceeds, gifts, and grants to make loans for property acquisitions/renovations and pollution control facilities.

Missouri Transportation Finance Corporation - Accounts for moneys from federal, state or local sources, and from bond proceeds to be used for projects approved by the Missouri Highways and Transportation Commission.

Missouri Wine and Grape Board - Accounts for moneys derived from the privilege of selling wine to be used for marketing development in developing programs for growing, selling, and marketing of grape products grown in Missouri.

State Environmental Improvement Energy Resources Authority - Accounts for moneys derived from the issuance of revenue bonds and notes to finance, acquire, construct and equip projects for the purpose of reducing, preventing or controlling pollution and to provide for the development of energy resources of the State of Missouri.

Changes in Fund Balances - Governmental Funds.....	223

Revenue Capacity

These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Revenue Base - Taxable Sales by Industry.....	225
Revenue Base - Personal Income by Industry.....	226
Personal Income Tax Revenue.....	227
Personal Income Tax Rates.....	228
Revenue Payers by Industry.....	229
Personal Income Tax Filers/Liability.....	230

Debt Capacity

These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Ratios of Outstanding Debt.....	231
Pledged Revenue Coverage.....	233

Demographic and Economic Information

These schedules contain demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

Demographic Indicators.....	234
Economic Indicators.....	235
Principal Employers.....	236

Operating Information

These schedules contain operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

State Employees by Function.....	237
Operating Indicators by Function.....	238
Capital Asset Statistics by Function.....	240

Sources: *Unless otherwise noted, the information in these schedules is derived from the State of Missouri Comprehensive Annual Financial Report for the years shown.*

¹ Revenues for Missouri Road Fund consist of a portion of the taxes and fees received by the State from the motor fuel tax, sales tax on motor vehicles, use tax on motor vehicles, revenue derived from motorists for their usage of the highways of the State, federal grants, and bond proceeds.

² Operating Expenses do not include depreciation/amortization.

³ Coverage equals net available revenue divided by debt service.

**Compilation of 2020 Criminal Activity
Forfeiture Act Seizures**

Report No. 2021-005

February 2021

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Compilation of 2020 Criminal Activity Forfeiture Act Seizures

Background	State law requires prosecuting attorneys and the Attorney General to report seizures made under the Criminal Activity Forfeiture Act (CAFA) to the State Auditor and the Director of the Department of Public Safety.
CAFA Seizure Reports Submitted	The State Auditor's Office received 116 CAFA seizure reports from prosecuting attorneys and the Attorney General for property seized during the 2020 calendar year. State law states intentional or knowing failure to comply with reporting requirements shall constitute a class A misdemeanor.
Disposition of the Seizures Reported	The overall dollar value for property seized in 2020 was \$4,190,685. Of that total, \$449,926 was returned, \$1,626,927 was transferred to a federal agency, and \$28,437 was transferred to the state. The disposition for \$1,976,806 was pending at the time of reporting, and no disposition was reported for \$48,003. The dispositions reported by each prosecuting attorney and the Attorney General are included in a report appendix.
Reporting of Seizures Information	State law states prosecuting attorneys and the Attorney General are to report the date, time, and place of the seizure; property seized; estimated value of the property seized; person(s) from whom the property was seized; criminal charges filed; and disposition of the seizure, forfeiture, and criminal actions.

Because of the nature of this compilation, no rating is provided.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

As required by Section 513.607, RSMo, we have compiled the 2020 Criminal Activity Forfeiture Act (CAFA) seizure reports submitted to the State Auditor by prosecuting attorneys and the Attorney General. The compilation is limited to information submitted to the State Auditor's Office. We have not audited the reports submitted and, accordingly, do not express an opinion or any other form of assurance on them. The primary objectives of this compilation were to:

1. Compile the 2020 CAFA seizure information reported.
2. Identify officials who submitted 2020 CAFA seizure reports to the State Auditor.

Section 513.607, RSMo, requires prosecuting attorneys and the Attorney General to report CAFA seizures for the previous calendar year by January 31, to both the Director of the Department of Public Safety and the State Auditor. Of the 116 potential reporting officials, we received reports from each official.

Compliance with Section 513.653, RSMo, which requires law enforcement agencies involved in using the federal forfeiture system to submit reports regarding federal seizures and the proceeds therefrom to the State Auditor's Office, will be separately reported.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Director of Audits:	Kelly Davis, M.Acct., CPA, CFE
Senior Analyst:	Jill Wilson, MBA

Compilation of 2020 Criminal Activity Forfeiture Act Seizures

Executive Summary

CAFA Seizure Reports Submitted

The State Auditor received 116 of the total possible 116 Criminal Activity Forfeiture Act (CAFA) seizure reports from prosecuting attorneys and the Attorney General for property seized during calendar year 2020.

Section 513.607.10, RSMo, states intentional or knowing failure to comply with any reporting requirement shall be a class A misdemeanor punishable by a fine of up to \$1,000.

Disposition of the Seizures Reported

We compiled the disposition of seizures as reported by prosecuting attorneys and the Attorney General for property seized during calendar year 2020. The following table lists the overall dollar value of the dispositions by category as reported to the State Auditor for 2020, 2019, and 2018.

Reported Disposition	2020		2019		2018	
Pending	\$ 1,976,806	47.2 %	\$ 2,360,882	39.9 %	\$ 2,067,837	22.7 %
Returned	449,926	10.7	755,664	12.8	571,892	6.3
Transferred to Federal Agency	1,626,927	38.8	2,661,582	45.0	5,767,867	63.4
Transferred to State	28,437	0.7	73,851	1.2	100,915	1.1
Other	60,586	1.5	59,480	1.0	44,658	0.5
Disposition Not Reported	48,003	1.1	3,508	0.1	549,548	6.0
Total	\$ 4,190,685	100.0 %	\$ 5,914,967	100.0 %	\$ 9,102,717	100.0 %

See Appendix I for the 2020 CAFA seizures disposition as reported by each prosecuting attorney and the Attorney General.

Reporting of Seizures Information

Section 513.607.8, RSMo, states prosecuting attorneys and the Attorney General are to report the date, time, and place of the seizure; property seized; estimated value of the property seized; person(s) from whom the property was seized; criminal charges filed; and disposition of the seizure, forfeiture, and criminal actions. See Appendix II for the number of 2020 CAFA seizures reported with this information.

This appendix compiles only the data and dispositions pertaining to 2020 CAFA seizures, the total estimated value of seizures reported, and the number of seizures categorized by the type of information reported for each prosecuting attorney and the Attorney General. Criminal charges filed and criminal actions were only counted if a criminal case was in existence for the seizure. We did not verify this data. Information regarding seizures in previous years is not reflected in this compilation.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of December 2020 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In December, the state spent \$310.9 million from federal COVID-19 assistance (Appendix A). Through the end of December, the state has received \$3.275 billion and spent \$2.26 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$482 million) and funding passed through to counties and the City of St. Louis (\$521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, and other disaster relief purposes.

Senior Auditor:	Jeffrey Roberts, CISA, CFE
Staff Auditor:	Kristin A. Clink, MBA, CISA, CFE

Federal Funding for COVID-19 Response

December 2020

Executive Summary

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of December 31, 2020, approximately \$18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.¹ The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

¹ The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

Federal Funding for COVID-19 Response
December 2020
Executive Summary

- Not charge premiums that exceed those that were in place as of January 1, 2020.
- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.
- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of December 31, 2020, approximately \$36.2 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund² may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

The state has received approximately \$2.38 billion in Coronavirus Relief Fund assistance including nearly \$173.5 million for St. Louis County and \$122.7 million for Jackson County.³ Twenty-five percent of the remaining state share (approximately \$521 million) was distributed to other counties in the state and the City of St. Louis based on population. In early July, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

² From the U.S. Department of the Treasury, CFDA number 21.019.

³ The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

Federal Funding for COVID-19 Response
December 2020
Executive Summary

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:⁴

1. Medical expenses such as:
 - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
 - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
 - Costs of providing COVID-19 testing, including serological testing.
 - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
 - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.
2. Public health expenses such as:
 - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
 - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.
 - Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
 - Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
 - Expenses for public safety measures undertaken in response to COVID-19.
 - Expenses for quarantining individuals.
3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially

Federal Funding for COVID-19 Response
December 2020
Executive Summary

dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
 - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
 - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
 - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
 - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
 - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
 - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.
5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
 - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
 - Expenditures related to a state, territorial, local, or tribal government payroll support program.
 - Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.
6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used

Federal Funding for COVID-19 Response
December 2020
Executive Summary

to cover necessary expenditures.⁵ If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government.

The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in Coronavirus Relief Fund assistance from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. Any transferred funds must be repaid to the State Emergency Management Federal Stimulus Fund prior to June 30, 2021. In May, the OA transferred \$250 million from the stimulus fund to the General Revenue Fund. The state transferred the \$250 million back to the stimulus fund in December plus interest earned on the money of \$957,214. The state transferred the interest because interest earned on CARES Act funds must be spent in accordance with CARES Act requirements.

Under the CARES Act, the state has also been awarded as of December 31, 2020, approximately \$3.34 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately \$166 million with some of this funding going directly to rural health departments from the federal government.

Missouri's funding from the Consolidated Appropriations Act, 2021 will be discussed in the next monthly report.

In December, the state spent \$310.9 million from federal COVID-19 assistance (Appendix A). Through the end of December, the state has received \$3.275 billion and spent \$2.26 billion from this assistance. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds (\$482 million) and funding passed through to counties and the City of St. Louis (\$521 million).

Secretary of State Federal Stimulus Fund	4,050,173	589,921	0	0	3,460,252
Total all Funds	\$ 3,275,117,520	2,257,252,550	266,640,405	351,756,084	932,749,291

¹ During the fiscal year ending June 30, 2020, the Secretary of State used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The Secretary of State receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements.

² For the fiscal year ended June 30, 2021, this fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Through December 2020, a cumulative \$158 million was transferred from this fund to the General Revenue Fund. The transferred funds use federal COVID-19 funding to reimburse expenditures that were previously incurred using state funds in the General Revenue Fund. This utilizes a temporary decrease in the state's share of program costs. In the interest of displaying the net effect of these transfers, which ultimately represent use of COVID-19 funding, we reclassified them from transfers out to disbursements in this statement. These amounts will not appear under the FMAP Enhancement Fund in Appendix C. Because the Department of Social Services (DSS) has cumulatively transferred the maximum allowed under House Bill 2011, section 11.702, the DSS is awaiting further legislative decision items or accounting transfers to utilize the remaining \$218,538,362 fund balance.

³ The General Assembly has authorized the Office of Administration (OA) to transfer up to \$750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earns, must be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred \$250 million in May 2020, and repaid the \$250 million plus \$957,214 in earned interest in December 2020 (see Appendix A transfers in). The interest is considered CARES Act revenue because the U.S. Treasury requires the state to use interest earned on CARES Act funds for the same purposes as the funding received.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

Federal Funding for COVID-19 Response
Statement of Appropriations and Expenditures - Federal COVID-19 Related Funds
Fiscal Year 2020 and Fiscal Year 2021 through December 31, 2020

	Year Ended June 30, 2021 (through December 31, 2020)			Year Ended June 30, 2020		
	Appropriation Authority ¹	Expenditures	Remaining Balance	Appropriation Authority ¹	Expenditures	Lapsed Balance
University of Missouri - operation of various campuses and programs	36,939,413	0	36,939,413			
University of Missouri - St. Louis - Biotech	133,378	0	133,378			
University of Missouri - State Historical Society	288,022	0	288,022			
MODOT - for a transportation cost-share program with local communities, provided these funds shall not supplant, and shall only supplement, the current planned allocation of road and bridge expenditures under the most recently adopted state transportation and improvement plan, including all amendments thereto, as of the date of passage of this bill by the General Assembly, and provided the MODOT and DED work cooperatively to select projects with the greatest economic benefit to the State	25,000,000	0	25,000,000			
University of Missouri - Precision Medicine Initiative	10,000,000	0	10,000,000			
Total Federal Budget Stabilization Fund	103,512,261	0	103,512,261			
Total All Funds	\$ 6,315,957,130	947,045,061	5,368,912,069	5,500,254,776	1,150,698,707	4,349,556,069

¹ The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

² For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services cannot directly expend any receipted monies from the fund, as it could during the fiscal year ended June 30, 2020.

³ Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to \$750 million.

⁴ Statewide Accounting System (SAM II) adjustments between December 1, 2020, and December 31, 2020, have retroactively changed this appropriation's total expenditures for the fiscal year ended June 30, 2020, since the previous report. In the future, it is possible that additional retroactive adjustments impacting that fiscal year could occur for this appropriation and for other ones.

⁵ This appropriation's expenditures for the fiscal year ended June 30, 2021, are a placeholder intended for the State Emergency Management Federal Stimulus Fund's Department of Mental Health Staff Offering Support Program appropriation. SAM II adjustments to reflect this were not fully processed by December 2020. Once processed, this appropriation's authority and expenditures for the fiscal year ended June 30, 2021, will return to zero. This stipend appropriation was obsoleted in September 2020, when it was replaced by an equivalent stipend appropriation also in the State Emergency Management Federal Stimulus Fund.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 377 political subdivisions required to file a financial report by December 31, 2020, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in December 2020, after their filing deadline. The filing status for these 8 entities is presented in summary on page 3 and by individual entity in Appendix B-D.

A handwritten signature in black ink, reading "Nicole R. Galloway", is positioned above the printed name and title.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Political Subdivision Filings

December 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 377 political subdivisions, other than cities, towns, and villages, with a fiscal year end of June 30, 2020. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 377 political subdivisions, 290 filed an annual financial report timely.

This report also includes the filing status for 8 political subdivisions, other than cities, towns, and villages, that filed their financial report in December 2020, after their filing deadline.

NICOLE GALLOWAY, CPA

Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by December 31, 2020, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 261 cities, 5 towns, and 62 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in December 2020, after their filing deadline. The filing status for these 15 cities and 5 villages is presented in summary on page 4 and by individual entity in Appendixes B to G.

Nicole R. Galloway, CPA
State Auditor

The following staff participated in the preparation of this report:

Director of Audits:	Jon Halwes, CPA, CGFM
General Counsel:	Paul Harper, JD
Senior Analyst:	Jill Wilson, MBA

Monthly Report on Municipal Court and Revenue Filings

December 2020

Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at <http://auditor.mo.gov>.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of \$500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than \$5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 261 cities, 5 towns, and 62 villages with a fiscal year end of June 30, 2020, whose financial report was due by December 31, 2020. Of the 328 municipalities, 240 filed the financial report timely. Of the 230 municipalities required to file an addendum, 106 filed timely. Of the 117 municipalities required to file a certification, 70 filed the certification timely.

Monthly Report on Municipal Court and Revenue Filings
December 2020
Executive Summary

This report includes the filing status for 15 cities and 5 villages that filed at least one of the items (financial report, addendum, or certification) in December 2020, after their filing deadline. Of these municipalities, 9 filed an annual financial report, 11 filed an addendum, and 1 filed a certification.

Nicole Galloway, CPA

Missouri State Auditor

Jackson County

Departmental and Other County Policies and Procedures

Report No. 2021-001

January 2021

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Jackson County Departmental and Other County Policies and Procedures

Assessment Department	The county's total assessed valuation increased by 19.75 percent as a result of the 2019 biennial reassessment, an increase that was over 70 percent more than any other county in the state and significantly higher than the typical biennial reassessment increase. Several lawsuits were filed against the county over the increases, and many property owners appealed the increased valuation. While several of the appeals from 2019 are still pending, various appeals resulted in the assessed valuation of approximately 13,000 parcels being decreased approximately \$246 million. In addition, the county did not always timely enter into written contracts for assessment and reappraisal-related services, and did not require invoices submitted to the county to provide sufficient details of the services provided and expenses billed to the county. The Director of Assessment did not file, or timely file annual reports showing every residential and commercial real estate parcel with certain increases from the previous year as required by county code. The Assessment department also has not developed a method (map) to track all parcels located within Tax Increment Financing (TIF) boundaries in the county, and does not keep a complete and accurate listing of all TIF districts within the county.
Accounting Controls over Receipts and Bank Accounts	Significant improvements are needed in the handling of receipts of the Collections department at both the Kansas City and Independence courthouse locations. The Parks and Recreation department lacks adequate controls and procedures to account for gate fees at Adair Park. The Chief Administrative Officer has not prepared timely monthly and annual bank account reports and reconciliations in compliance with county code.
County Property Leases	Improvements are needed in the handling of county property leases. The Old City Hall was leased for 50 years at \$1 a year with the provision the tenant would restore and maintain the property. A site visit showed the property to be vacant and in poor condition. The county did not conduct a cost-benefit analysis to determine if it was reasonable to continue to own the regional animal shelter and fund animal shelter operations when the majority of the animals sheltered are for the City of Independence.
Former Sheriff's Equipment	The Sheriff's office does not have documentation indicating the former Sheriff returned all county issued equipment including a handgun, handheld radio, ballistic vest, and voice recorder, following his resignation.
Electronic Data Security	The Information Technology department did not maintain or monitor network access logs and did not timely revoke network access of terminated employees.
Electronic Communication Policies	The county has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Sunshine Law	The County Counselor has not established procedures to ensure all Sunshine Law requests are submitted to his office for review and assistance with compliance. The County Counselor does not maintain a log to ensure all requests are accounted for properly and a log is also not maintained by various officials or departments. Fees charged for Sunshine Law requests are not always compliant with the Sunshine Law.
County Boards and Commissions	The list of county boards and commissions and their members maintained by the Clerk of the County Legislature and the list included on the county's website are not always accurate and complete. The County Executive did not ensure vacancies and expired terms on boards and commissions were filled timely.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

- Excellent:** The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.
- Good:** The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.
- Fair:** The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.
- Poor:** The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA

Missouri State Auditor

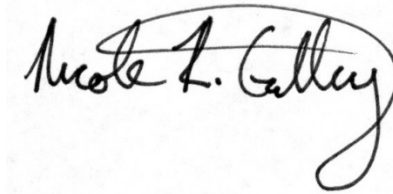

Honorable Chairman of the Jackson County Legislature
and
Members of the Jackson County Legislature
and
Frank White, Jr., Jackson County Executive
Jackson County, Missouri

We have audited certain operations of Jackson County - Departmental and Other County Policies and Procedures in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of Jackson County in response to a formal request from the Jackson County Legislature. The county engaged BKD LLP, Certified Public Accountants (CPAs), to audit the county's financial statements for the years ended December 31, 2018, and 2017. To minimize duplication of effort, we reviewed the CPA firm's reports. The scope of our audit included, but was not necessarily limited to, the 2 years ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over certain management operations and financial functions related to departmental and other county policies and procedures.
2. Evaluate the county's compliance with certain legal provisions related to departmental and other county policies and procedures.
3. Evaluate the economy and efficiency of certain management practices and procedures related to departmental and other county policies and procedures, including certain financial transactions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Jackson County - Departmental and Other County Policies and Procedures.

A handwritten signature in black ink, reading "Nicole R. Galloway". The signature is fluid and cursive, with the first name "Nicole" and last name "Galloway" clearly distinguishable. It is written over a faint, rectangular background.

Nicole R. Galloway, CPA
State Auditor

The following auditors participated in the preparation of this report:

Senior Director:	Randall Gordon, M.Acct., CPA, CGAP
Audit Manager:	Pamela Allison, CPA, CFE
In-Charge Auditor:	Robert McArthur II, CFE
Audit Staff:	Rex Murdock, M.S.Acct.
	John-Henry T. Jarwood, MBA, CFE
	Amanda G. Flanigan, MAcc

Jackson County

Departmental and Other County Policies and Procedures

Introduction

Background

The State Auditor was requested on February 26, 2018, by the Jackson County Legislature under Section 29.200.3, RSMo, to conduct a performance audit of Jackson County. On January 3, 2018, the County Executive made a recommendation to the County Legislature to request a comprehensive audit of the county's fiscal and procurement process by the State Auditor's Office (SAO). The County Legislature agreed with this recommendation and passed Resolution 19745 on February 26, 2018, requesting the State Auditor perform an audit of the county. This request was accepted by the SAO and audit fieldwork started in December 2018.

This is the last audit report that will be issued as part of the audit of Jackson County. Four other reports have been previously issued as part of the audit of Jackson County including: Jackson County Community Backed Anti-Crime Tax (COMBAT) Fund, Jackson County No-Bid Contracts and Other Expenditures, Jackson County Budgets and Transfers, and Jackson County Payroll and Personnel Issues.

Scope and Methodology

The scope of this audit included evaluating (1) internal controls, (2) policies and procedures, and (3) other management functions and compliance requirements in place during the 2 years ended December 31, 2018.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; gathering information regarding various departmental and other county operations through discussions with various current and past county personnel and reviewing the information obtained; and testing selected transactions. To gain an understanding of legal requirements governing departmental and other county operations, we reviewed applicable state laws, the county charter, county code, and written policies and procedures; and interviewed various individuals.

We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to these provisions.

Jackson County

Departmental and Other County Policies and Procedures

Management Advisory Report - State Auditor's Findings

1. Assessment Department

Assessment department controls and procedures need improvement.

1.1 Assessment services

The county's total assessed valuation increased by 19.75 percent as a result of the 2019 biennial reassessment, an increase that was over 70 percent more than any other county in the state¹ and significantly higher than the typical biennial reassessment increase. In addition, the county did not enter into timely written contracts and contract amendments, or require adequate supporting documentation to support assessment expenditures.

Reassessments

A comprehensive biennial reassessment process for 2019 was performed to appraise all county properties at their real value. This resulted in an increased assessed valuation for approximately 257,000 of 300,000 residential and commercial parcels (86 percent), totaling over \$2 billion. As a result of these increases, several lawsuits were filed against the county and many properties subsequently went through one or more of the following appeals processes:

- The Director of Assessment hears informal reviews from citizens not satisfied with their assessed value, as allowed by county policy.
- The Jackson County Board of Equalization (BOE) holds hearings rendering decisions on appealed assessed values, as required by Section 138.060, RSMo.
- The State Tax Commission (STC) hears appeals not satisfied through the BOE process, as required by Section 138.430, RSMo. Appeals to the STC must be filed within 30 days of the BOE's decision.

Based on the data we received through January 2020, the assessed valuation of approximately 13,000 parcels had been decreased approximately \$246 million as a result of the various appeals. The appeals process for 2019 is still continuing due to the significant number of 2019 appeals and the COVID-19 pandemic. The County Counselor indicated on December 7, 2020, "We still have some BOE cases to finish from 2019 at this point, approximately 220 total with 70 commercial and 150 residential. Property owners will get thirty days from the BOE decision to appeal to the STC. Since the BOE is still hearing 2019 appeals, there may be additional appeals to the STC for the 2019 valuations. There should not be too many appeals to the STC from those still pending BOE cases. The BOE has determined to finish all 2019 cases by the end of December." In addition, the County Counselor indicated on November 5, 2020, "According to the record that we have reviewed there are

¹ State Auditor's Office (SAO), Report Number 2019-120, *2019 Property Tax Rates*, issued December 2019.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

approximately 35 appeals still pending before the STC at this time from 2019."

After the 2019 reassessment the county and its reassessment consultant, that had been under contract since June 2014, mutually agreed to not renew the reappraisal assessment service contracts that ended on September 30, 2019. Subsequently in October 2020, following 3 requests for proposals, the Legislature passed a resolution authorizing a new consultant contract at a total cost of \$17.8 million for the following services:

- Maintenance of assessment records and data including data collection, analysis and data entry of records at a cost of \$5.8 million.
- A computer assisted mass appraisal system to replace "aging county software that no longer functions correctly" at a cost of \$2.7 million.
- Reassessment services for the 2023 biennial reassessment at a cost of \$9.3 million.

Contract/contract amendment
timeliness

As similarly noted in the Jackson County No-Bid Contracts and Other Expenditures report,² the county did not always timely enter into written contracts.

- The county did not timely enter into several contracts and contract amendments with the assessment and reappraisal services consultant discussed above. For example, after the initial contract expired on December 31, 2016, the county was billed \$120,000 for assessment services provided in January and February 2017 (\$60,000 per month) by the consultant prior to signing a contract renewal on February 10, 2017. The county subsequently paid for these services on February 16, 2017, and March 2, 2017.

In addition, the county did not enter into the 2nd renewal contract until April 17, 2018, changing the term from January through December 2018, to January 2018 through September 2019. As a result, all services and expenses incurred from January through April 16, 2018, were incurred without a signed contract. For example, the county was billed \$47,628 on April 13, 2018, by the consultant for "Extraordinary expenses due - from prior to the second renewal term." The county subsequently paid these expenses on April 19, 2018.

² SAO, Report Number 2020-075, *Jackson County No-Bid Contracts and Other Expenditures*, issued September 2020.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

- The county did not timely enter into the original contract and 2 subsequent amended contracts with another consultant to provide assistance to the Assessment department with its communications plans, services and outreach regarding the department and the appeals process, and other assessment services. The original contract and 2 subsequent amendments were all entered into after the stated start dates of July 1, 2014, 2015, and 2016, respectively.

Supporting documentation

As similarly noted in the Jackson County No-Bid Contracts and Other Expenditures report, the county did not require invoices submitted to the county to provide sufficient documentation of the details of the services provided and expenses billed to the county, limiting the county's ability to review the invoices for reasonableness, compliance with bids/contracts, and accuracy.

An invoice submitted by the second consultant only indicated "professional services preformed [*sic*] Jackson County Assessment Division March 1 to March 31, 2017." The invoice did not provide dates of hours worked, services performed, or expenses incurred. While we reviewed only one payment totaling \$3,000, the county paid this consultant \$54,000 during 2016 and 2017.

Conclusion

It is essential the county closely monitor the maintenance of assessment records and data, the implementation of the new computer-assisted appraisal system, the reassessment services for the biennial reassessments, and the training of staff to ensure effective and efficient future reassessments. Clear, detailed, and timely written contracts are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure county money is used appropriately and effectively. Also, closely monitoring compliance with contract terms is important to ensure county resources and assets are used wisely. Section 432.070, RSMo, provides that no county shall enter into a contract unless the contract is ". . . in writing and dated when made" To ensure prudent and proper use of county funds, payments should only be approved when adequate supporting documentation is submitted. Only by receiving detailed supporting documentation can the county ensure invoices for payment of professional services are legitimate and accurate, and comply with county disbursement policies.

1.2 Changes in assessed
valuation reports

The Director of Assessment did not file, or timely file annual reports showing every residential and commercial real estate parcel with a 50 percent or greater increase in assessed valuation, or an increase in excess of \$50,000 for residential real estate and \$100,000 for commercial real estate from the previous year as required by county code.

The former Director of Assessment did not file the 2018 report as required and the Legislative Auditor indicated the 2019 and 2020 reports were not filed

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

by the current Director of Assessment until after the May 31 deadline and only after being prompted by the County Legislature. The 2019 report, initially submitted on June 26, 2019, erroneously only included properties that had an increase of over 50 percent and \$50,000 for residential and over 50 percent and \$100,000 for commercial, as opposed to an increase of over 50 percent **or** \$50,000 for residential and over 50 percent **or** \$100,000 for commercial. The 2019 report was corrected and resubmitted on July 1, 2019. The 2020 report was submitted June 2, 2020. According to the Legislative Auditor, when she receives this report, she submits it to the Legislature and/or advisors to the BOE for review.

Chapter 20, Section 2000, of county code indicates, "On or before May 31 of each year, the Director of Assessment shall file with the clerk of the county legislature and the legislative auditor a report showing every real estate tax parcel classified 'residential' with an increase in assessed valuation from the previous year in excess of 50% of the previous valuation or in excess of \$50,000, and every parcel classified 'commercial' with an increase in assessed valuation from the previous year in excess of 50% of the previous year's valuation or in excess of \$100,000." By not submitting this report timely and accurately significant changes in assessed valuation are not properly disclosed to all required parties.

1.3 Tax Increment Financing projects

The Assessment department has not developed a method (map) to track all parcels located within Tax Increment Financing (TIF) boundaries in the county. In addition, the Assessment department does not keep a complete and accurate listing of all TIF districts within the county.

A TIF is an economic development tool that redirects local tax revenues to the redevelopment of eligible properties that are otherwise economically unfeasible. Sections 99.800 to 99.865, RSMo, the Real Property Tax Increment Allocation Redevelopment Act, enables cities to finance certain redevelopment costs with the incremental tax revenue generated by the net increase in assessed valuation resulting from the redevelopment. When a TIF plan is adopted, real estate taxes in the redevelopment area are frozen at the current level, or base valuation. By applying the real estate tax rate of all taxing districts having taxing power within the redevelopment area to the increased assessed valuation resulting from redevelopment, a tax "increment" is produced. The real estate tax increments are referred to as payments in lieu of taxes (PILOTS).

Assessment department personnel indicated they sometimes relied on the various taxing jurisdictions to request funds from the TIFs to ensure that the amounts owed were being paid out as required. As a result, the Assessment department sometimes failed to distribute monies to taxing jurisdictions.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

For example, the Assessment department³ failed to properly identify 5 parcels of real estate within the Raytown Live TIF district, resulting in a failure to properly distribute PILOTS. In 2016, several years after the TIF district was formed, the developer subdivided several parcels within project area 2, subsequently adding 5 additional parcels within this TIF district. While these new parcels were added to the county tax system and real estate taxes were assessed, PILOTS were not distributed for tax years 2016, 2017, and 2018, because the Assessment department failed to identify these parcels as part of the TIF district within the tax system. The Collections department subsequently distributed \$21,649 in PILOTS to the Raytown Live TIF on October 16, 2020.

In addition, at our request, Assessment department personnel prepared a listing of current TIF projects within each TIF district. Our review of the listing identified various errors or incomplete information. For example, some terminated projects were included in the listing, some current projects were not included in the listing, and some district information was not indicated, including ordinance number, approval date, beginning year, and/or ending year. According to Assessment department personnel, an accurate listing of all TIF projects in each TIF district within the county had not been maintained for over a decade and the new listing was created after our request.

A complete and accurate map showing the boundaries of each TIF district, along with a listing of TIF projects, can serve as useful management tools for the Assessment department and county leaders by properly identifying and tracking progress of the developments. The lack of a complete and accurate TIF listing and map prevents the Assessment department from knowing what TIFs are active, and the county is dependent on local jurisdictions for accurate disbursement of TIF amounts.

Recommendations

The County Legislature and County Executive:

- 1.1 Closely monitor the biennial reassessment process both in the immediate and future years. In addition, the County Legislature and County Executive should enter into timely written contracts and contract amendments, and ensure invoices received are adequately detailed to support the county's review.
- 1.2 Ensure the Director of Assessment submits changes in assessment reports in compliance with county code.

³ Until late 2018, TIF administration was handled by the Economic Development department and then was taken over by the Assessment department.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

- 1.3 Ensure the Assessment department maintains a complete and accurate listing of TIFs and map of TIFs within its boundaries, ensuring PILOTS are properly identified and distributed to taxing jurisdictions.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

2. Accounting Controls over Receipts and Bank Accounts

Significant improvements are needed in the handling of receipts of the Collections department and the Parks and Recreation department. In addition, the Chief Administrative Officer (CAO) has not prepared timely monthly and annual bank account reports and reconciliations in compliance with county code.

Property taxes and other monies collected by the Collections department totaled over \$900 million during each of the 2 years ended December 31, 2018. Gate receipts for Adair Park collected by the Parks and Recreation department totaled approximately \$79,000 during the 2 years ended December 31, 2018. At December 31, 2018, the county maintained 65 bank accounts with balances totaling approximately \$426 million.

2.1 Collections department

As a result of a cash count performed on June 5, 2019, at 2 Collections department locations, the following concerns were noted:

- Collections department personnel at the Kansas City courthouse location do not manually receipt or record checks and money orders received in the mail on a mail log, record them in the electronic accounting system, or deposit them timely or intact because mail receipts are processed as time allows. The Kansas City courthouse location had 1,130 checks and money orders, totaling approximately \$687,000, in receipts received in the mail that had not been receipted, recorded in the electronic accounting system, or deposited at the time of our cash count. Of the approximately \$687,000 on hand, letters postmarked between May 1 and May 25, 2019, totaled \$324,212. The postmark date was not recorded for \$39,447 received. Some of the checks and money orders were dated in March and April 2019. These monies were subsequently recorded in the electronic accounting system and deposited by the Collections department between June 6 and June 14, 2019.

In addition, the transmittal of monies from taxpayer service personnel (who initially receive the mailed receipts) to cash receivable (cage) personnel (who record and deposit the mailed receipts) is not documented, and checks and money orders are not restrictively endorsed immediately upon receipt. The Taxpayer Service Administrator or Supervisor transmits the monies to the cage; however, the transmittal is

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

not documented. Ninety-six checks and money orders (8.5 percent) totaling \$52,157 were not restrictively endorsed. At the time of our cash count, these checks and money orders were being held in the cage until cash receivable personnel could record them and prepare them for deposit.

- Collections department personnel at the Independence courthouse location do not manually receipt or record checks and money orders received in the mail on a mail log, record them in the electronic accounting system, or deposit them timely or intact. Two checks dated May 8, 2019, and May 29, 2019, totaling \$358 were still on hand on June 5, 2019, and were not receipted or recorded in the electronic accounting system. These 2 checks were also not restrictively endorsed. These checks were subsequently recorded in the electronic accounting system and deposited by the Collections department personnel on June 5, 2019.
- Monies transmitted to the Collections department, at the Kansas City courthouse location, from other county departments were also not always receipted, recorded in the electronic accounting system, or deposited timely.

For example, \$501 (including \$476 of cash) collected by the Clerk of the Legislature between May 1, 2019, and May 17, 2019, was transmitted to the Collections department on May 28, 2019, and was still on hand in the Collections department on June 5, 2019, but had not been receipted or recorded. Also, a \$50,961 check on hand, dated May 22, 2019, for the Corrections department phone commissions had not been receipted or recorded. In addition, none of the 6 checks on hand were restrictively endorsed. These monies were subsequently deposited by the Collections department on June 6, 2019, and recorded in the electronic accounting system.

Failure to implement adequate receipting, recording, and depositing procedures, increases the risk that loss, theft, or misuse of monies received will go undetected.

2.2 Parks and Recreation department

The Parks and Recreation department lacks adequate controls and procedures to account for gate fees at Adair Park.

Adair Park has various amenities, but the primary use of Adair Park is a girls' softball complex. The Parks and Recreation department contracts with 2 vendors to operate the gate at this complex charging \$5 for adults, \$3 for ages 6 - 15, and no charge for ages 5 and younger. According to the contract, the Parks and Recreation department receives 40 percent of the gate fees after the vendors' labor costs are deducted, with the vendors receiving the remaining 60 percent.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

These contracts do not require reporting of gate fee collections, including the number of adults and children paying gate fees, less vendor labor costs. Vendors are also not required, at a minimum, to certify the accuracy of gate fee collections. Additionally, the county does not periodically perform a review of the vendors' gate fee procedures to ensure adequate controls are in place to prevent risk of loss, theft, or misuse of gate fees. As a result, the county cannot be assured receipts from Adair Park gate fees are properly accounted for, labor costs are properly documented, and the county is properly paid the remaining fees as required by the contracts.

2.3 Bank account reports and reconciliations

The CAO has not prepared monthly bank account balance reports or filed an annual report showing the most recent bank reconciliations as required by county code. Also, the CAO does not always perform timely bank reconciliations as noted in the following table.

Month/Year of Financial Activity	Date Bank Reconciliation Prepared and Reviewed
September 2017	January 18, 2018
December 2017	April 10, 2018
March 2018	June 22, 2018
June 2018	August 30, 2018
September 2018	February 8, 2019
December 2018	March 27, 2019

Chapter 5, Section 555, of the county code provides, "On a monthly basis, the Chief Administrative Officer shall file a report with the Clerk of the County Legislature and the Legislative Auditor showing the balance of each County bank account with a balance in excess of \$100,000, and the balance of the same account for the same period during the previous year." In addition, Chapter 5, Section 556, provides, "On a monthly basis, the Chief Administrative Officer shall perform or cause to be performed book to bank account reconciliations for all County bank accounts and reconciliations for all political subdivision property tax collection accounts. In addition, on or before March 31 of each year, the Chief Administrative Officer shall file a report with the Clerk of the Legislature and the Legislative Auditor showing the most recent reconciliations performed pursuant to this section."

Failure to report monthly bank account balances, perform timely bank reconciliations, and file an annual report indicating the most recent bank reconciliations performed increases the risk of misstatements of cash balances, including misstatements due to fraud, and possible misappropriation of assets.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

Recommendations

The County Legislature work with the County Executive to:

- 2.1 Ensure monies received in the mail are manually receipted or recorded on a mail log, the transmittal of monies between personnel is documented, monies are recorded in the electronic accounting system and deposited timely and intact, and checks and money orders are restrictively endorsed immediately upon receipt.
- 2.2 Ensure vendors remit reports of gate fee collections less labor costs and/or certify the accuracy of gate fees paid the county, and periodically perform a review of the vendors' gate fee collections.
- 2.3 Ensure the CAO prepares and files monthly and annual reports with the Clerk of the County Legislature and Legislative Auditor and prepares monthly bank reconciliations timely in accordance with county code.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

3. County Property Leases

Improvements are needed in the handling of county property leases.

Old (Independence) City Hall

The county should reevaluate the lease agreement it entered into as landlord for the property at 200 South Main, Independence, commonly known as "Old City Hall," because the property has not been repaired and redeveloped as intended.

The county acquired the 200 South Main property in 1996 and used the building for office space until 2009. In 2010, the county requested proposals for redevelopment, reuse, and lease of the property. In evaluating responses the county wanted to identify a respondent "whose proposal will enhance and benefit the surrounding neighborhood and also provides a benefit to County residents." The county received 1 proposal to lease the property and 1 proposal to purchase the property. In August 2011, the Director of Public Works recommended accepting the lease proposal because of the county's desire to maintain ownership. The former County Executive and the County Legislature approved a 50-year lease agreement with the lessor for \$1 per year.

The lease indicated the "Tenant shall only use and occupy the Property for general office purposes and for no other purpose without the Landlord's prior written consent. Tenant agrees to restore and maintain the Property in a clean, orderly, healthful condition . . ." However, a site visit performed on November 9, 2020, revealed the property is currently vacant and will require

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

significant work in order for it to be useful. The following photographs⁴ show the poor condition of the interior and exterior of the building:

⁴ The photographs presented show (1) the building entrance and (2) the interior of the building. The second photograph was taken from outside the building through a window.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

Due to the property not being used, the lack of the redevelopment, and the current state of disrepair, the property does not provide a benefit to county residents.

City of Independence
Regional Animal Shelter

The county did not conduct a cost-benefit analysis to determine if it was reasonable to continue to own the regional animal shelter and fund animal shelter operations when the majority of the animals sheltered are for the City of Independence.

Jackson County costs related to the shelter for the 3 years ended December 31, 2019, and the number of animals sheltered for unincorporated Jackson County and the City of Independence for the 3 years ended December 31, 2019, were as follows:

	Year Ended December 31,		
	2019	2018	2017
Total Jackson County costs incurred related to animal shelter	\$ 693,853	875,009	939,832
Estimated animals sheltered for unincorporated Jackson County	184 (1)	264	129
Estimated animals sheltered for City of Independence	986	718	866
Total estimated animals sheltered	1,170	982	995
Percentage of animals sheltered for unincorporated Jackson County	16%	27%	13%
Jackson County estimated average cost per animal	\$ 3,771 (1)	3,314	7,286

(1) The contract with the shelter manager/operator was terminated effective July 15, 2019, at which time the City of Independence took over the operations. However, tracking data for animals sheltered by the shelter manager/operator were not available from January 1 through July 15, 2019. Data were provided by the City of Independence for July through December 2019, and included additional details for owner surrenders, stray surrenders, and field intakes for unincorporated Jackson County animals not previously reported by the former shelter manager/operator. We doubled this total in order to obtain an estimated average cost per animal for 2019.

Significantly more animals were sheltered for the City of Independence than those sheltered for unincorporated Jackson County.

The county contracted for the shelter's operation with a not-for-profit until the contractor terminated the contract on July 15, 2019. At that time, the county negotiated with the City of Independence and turned over management and operational responsibilities to the city for 2 years, with options to extend the contract annually. Under the agreement, the city agreed to sell to the county approximately 7 acres of land that the shelter is located on for \$240,000; however, this transaction has not been finalized. This amount had been agreed upon between the county and the city in 2012. The county then leased the shelter, site, and all the existing furniture, fixtures, and equipment to the city for \$1. The county remained responsible for repaying the 2010 special obligation bonds that were issued to finance the construction of the shelter and agreed to pay the city \$100,000 annually in order to assist with transition

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

costs. At December 31, 2018, the bonds outstanding totaled approximately \$4.6 million.⁵

The county was unable to provide any cost-benefit analysis documenting how continuing to own and fund shelter operations was determined reasonable and in the best interest of the county.

Due to the lack of analysis, there is less assurance this agreement with the City of Independence is reasonable and fiscally responsible.

Recommendation

The County Legislature and County Executive reevaluate these property lease agreements to ensure they are in the best interest of the county.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

4. Former Sheriff's Equipment

The Sheriff's office does not have documentation indicating the former Sheriff returned all county issued equipment including a handgun, handheld radio, ballistic vest, and voice recorder, following his resignation. An equipment return sheet is typically filled out by all employees upon resignation; however, no return sheet was found for the former Sheriff.

According to equipment records obtained from the Sheriff's office, one handgun was returned but a second handgun issued to the former Sheriff was not returned. The Sheriff's office asserted that other records show the second handgun was returned; however, those records were not provided to audit staff when requested.

Personnel policy, Section 11.22.B, regarding voluntary separation from county employment indicates, "All County owned property shall be returned to the County by the last date of employment unless otherwise directed by the Appointing Authority." In addition, the Sheriff's office indicated an unofficial policy allowed officers to retain their ballistic vests after the vests' effective life spans.

Recommendation

The County Legislature work with the County Executive to ensure records are kept documenting the return of all county issued equipment, or reasons why certain items were not returned, following an employee's departure in accordance with county policy.

⁵ In September 2020, the county authorized \$4.5 million in special obligation refunding bonds to refinance the county debt on the facility. In addition, the county has had discussions with the city regarding future ownership and operation of the facility.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

5. Electronic Data Security

The Information Technology (IT) department did not maintain or monitor network access logs and did not timely revoke network access of terminated employees.

5.1 Network access logs

The county did not maintain or monitor network access logs prior to June 24, 2019. The IT department utilizes a network security software system to authenticate users and workstations, and handle security policy and other aspects of network administration. However, the IT department did not know the user log function had been disabled. According to IT department personnel, the user log function was likely disabled due to server storage capacity concerns. Upon this discovery, the user log function was immediately activated and server storage capacity is no longer a concern.

Without an effective method to identify, log, and monitor significant security-relevant events, there is an increased risk that unauthorized or inappropriate system activity may not be detected.

5.2 User accounts

The IT department did not always timely revoke access to the county network when an employee terminated employment. County network access for 2 former Sheriff's office employees, who terminated employment in March and May 2018, was not revoked until January 2019, approximately 9 and 7 months, respectively, after their terminations.

County network access for terminated employees should be promptly deleted to reduce the risk of a compromised password and unauthorized access to and use of network data.

Recommendations

The County Legislature work with the County Executive to:

- 5.1 Ensure network access logs are maintained and monitored.
- 5.2 Ensure network access for terminated employees is promptly revoked.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

6. Electronic Communication Policies

The county has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms. According to the Director of Information Technology, development of an email retention policy has previously been proposed and such a policy drafted, but a formal policy has never been approved.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.⁶

Development of written policies to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law.

Recommendation

The County Legislature and County Executive develop written records management and retention policies to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

7. Sunshine Law

Oversight

The county does not fully comply with the Sunshine Law or County Code provisions establishing procedures for Sunshine Law requests.

The County Counselor has not established procedures to ensure all Sunshine Law requests are submitted to his office for review and assistance with compliance. The County Counselor estimated his office reviews approximately 95 percent of all Sunshine Law requests, and most of the remaining 5 percent are handled by the Finance and Purchasing department. The County Counselor does not maintain a log to ensure all requests are accounted for properly and a log is also not maintained by various officials or departments. While the Sunshine Law does not require a log to be maintained,

⁶ Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <<https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>>, accessed October 21, 2020.

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

a log would aid in tracking all Sunshine Requests and in documenting compliance with the law.

Chapter 12 of the County Code provides for the County Legislature; each elected official; various division chiefs, department directors, and similar officers; and boards and commissions to each have their own custodian of records. Section 1204.1, indicates all custodian of records are to immediately submit Sunshine Law requests "to the County Counselor for his review and assistance in compliance." Without centralized oversight of all Sunshine Law requests, the county could subject itself to lawsuits and fines and risk loss of credibility with its constituency.

Sunshine Law requests

Fees charged for Sunshine Law requests are not always compliant with the Sunshine Law. We noted the following concerns:

- The Sheriff's office improperly charges photocopying fees at \$2 for the first page and \$0.25 per page for each additional page.
- The prior County Counselor allowed individual attorneys handling Sunshine Law requests to determine the fees charged. The hourly rate quoted for research for an October 2018 Sunshine Law request was \$33 per hour. No documentation was provided indicating how the \$33 was determined.

Chapter 12, Section 1206.2.a, of the county code indicates "The fee for photocopies is \$.10 per single-sided page of a document not larger than 9" x 14" in size." In addition, Section 1206.2.b, indicates the Custodian of Records "may charge such fees as are authorized Pursuant to Section 610.026 of the Revised Statutes of Missouri or any amendments thereto."

Section 610.026.1(1), RSMo, provides that a public governmental body may charge up to 10 cents per page for standard paper copies, the average hourly rate of pay for clerical staff to duplicate documents, and the actual cost of the research time for fulfilling the request. This provision also requires the public governmental body to produce the requested information using employees capable of searching, researching, and copying the records that will result in the lowest cost.

Political subdivisions should ensure charges for public record requests comply with the Sunshine Law. Improper or unreasonable charges place an unnecessary burden on a political subdivision's constituents and could result in limiting government transparency.

Recommendation

The County Legislature and County Executive ensure all Sunshine Law requests are reviewed by the County Counselor and are properly accounted for, and fees are charged in compliance with county code and state law.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

The County Executive provided a written response. See Appendix B.

8. County Boards and Commissions

The list of county boards and commissions and their members maintained by the Clerk of the County Legislature and the list included on the county's website are not always accurate and complete. In addition, the County Executive did not ensure vacancies and expired terms on boards and commissions were filled timely.

Boards and commissions are created for various purposes by county code or state statute. The County Executive is required to appoint the majority of the members of the boards and commissions. The Clerk of the County Legislature maintains a list to track each board and commission, board and commission members' names, terms, vacancies, and expired terms. The Clerk of the County Legislature updates this list as resignations occur and appointments are made to various boards and commissions. This information is used to update the county's boards and commissions website. The boards and commissions listing provided by the Clerk of the County Legislature in July 2019 included 29 boards and commissions. We compared the listing to information provided on the county's boards and commissions website, recent Jackson County legislation, and various other websites.

Incomplete and inaccurate records

A comparison of the Clerk of the County Legislature's list to the county's website identified the following concerns:

- Only 19 of the 29 boards and commissions included on the Clerk of the County Legislature's listing were included on the county's website.
- Four of the 23 boards and commissions included on the county's website were not included on the Clerk of the County Legislature's listing.
- Some information included on the Clerk of the County Legislature's listing did not agree to information included on the county's website. Information included on both the listing and website appeared either incomplete or outdated.

Complete, accurate, and updated lists and websites regarding boards and commissions and the applicable board and commission members are necessary for the County Executive to monitor board and commission vacancies and expired terms, and appoint board and commission members. In addition, accurate information is needed for citizens interested in applying to serve on these boards and commissions.

Unfilled vacancies and expired terms

We also reviewed the number of vacancies and expired terms for the 23 boards and commissions included on the county's website. Seven of the 23

Jackson County
Departmental and Other County Policies and Procedures
Management Advisory Report - State Auditor's Findings

boards and commissions had at least one vacancy or expired term and 4 of the 7 had significant vacancies and/or expired terms as follows:

- The Community Mental Health Fund Board, a 15-member board, had 3 vacancies and 12 expired terms.
- The Ethics, Human Relations and Citizen Complaints Board, a 7-member board, had 1 vacancy and 6 expired terms.
- The Pension Plan Board of Trustees, an 11-member board, had 8 expired terms.
- The Plan Commission, a 9-member commission, had 1 vacancy and 8 expired terms.

Procedures to fill board and commission vacancies timely are necessary to ensure boards and commissions have sufficient members to function properly. Unfilled vacancies can make it more difficult or impossible for boards and commissions to establish a quorum to meet and conduct business. Also, unfilled vacancies may prevent balanced decision-making on boards and commissions because the backgrounds and interests associated with the vacant positions would not be represented. Not timely replacing members with expired terms appears to violate the intent of Article XI of the county Charter, as well as applicable chapters of county code governing term length provisions of members of various boards and commissions.

Recommendation

The County Legislature and County Executive establish procedures to ensure board and commission lists and websites are complete, accurate and updated. In addition, the County Executive should work to fill vacancies and expired terms timely.

Auditee's Response

The County Legislature provided a written response. See Appendix A.

Nicole Galloway
Missouri State Auditor
Truman State Office Building
301 West High Street, Rm 880, P.O. Box 869
Jefferson City, MO 65102

Honorable Auditor Galloway,

In February 2018 the Jackson County Legislature formally requested an independent audit by the Missouri State Auditor to provide assurance to all County elected officials and the citizens of Jackson County that the assets of the County are safeguarded through proper internal controls that fully comply with applicable State and County laws.

Once again, the County Legislature greatly appreciates the State Auditor's time and efforts in conducting an audit and issuing a report of the Jackson County Departmental and Other County Policies and Procedures as the fifth and final report of multiple areas of review.

The County Legislature fully supports the recommendations as well as the need for improvement in management policies, practices and procedures and is committed to actions strengthening oversight efforts of county operations and internal controls through policymaking measures to establish best practice standards that fall within the County Legislature's powers and duties of the Jackson County Charter.

Harry S. Truman, Presiding Judge, 1927-1934

Jefferson City, MO 65102

via email: robert.mcarthur@auditor.mo.gov,
pamela.allison@auditor.mo.gov

Dear Madam:

1.1

The Administration is committed to continuing to work with the County Legislature in all aspects of the state mandated reassessment process, including, but not limited to, the timely execution of contracts. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

1.2

The Administration will work with the County Assessor to ensure that all reports are completed and submitted within the deadlines established by the County Legislature. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

1.3

The Administration will work with municipalities throughout the County to ensure they are properly and promptly notifying the County of any new TIFs within the County. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

2.1-2.2

In 2020, the County's Park + Recreation Department modified the terms of the Adair Park vendor agreement to include, in part, the recommendations made by this report. Due to the currently ongoing COVID-19 pandemic, no youth softball tournaments were held at Adair Park in 2020. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

Jackson County Courthouse 415 East 12th Street Kansas City, Missouri 64106
Office: 816-881-3333 / Fax: 816-881-3133

Appendix B
Jackson County - Departmental and Other County Policies and Procedures
Auditee Response - County Executive

Page 2

2.3

The Administration will ensure that all reports are completed and submitted within the deadlines established by the County Legislature. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

3.

The Administration will work with the Legislature to ensure that all property lease agreements are in the best interest of the county. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

4.

The Administration will work with the Legislature to ensure that all property is returned by former county associates. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

5.1-5.2

The Information Technology Department has made the changes necessary to ensure that network access logs are properly maintained and monitored, as well as terminating the network access for former county associates promptly. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

6.

The Administration will work with the County Legislature to update our record retentions policies to reflect electronic communications. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

Appendix B
Jackson County - Departmental and Other County Policies and Procedures
Auditee Response - County Executive

Page 3

7.

The Administration will work with the County Counselor's Office and County Legislature to ensure that all open-records requests are being properly reviewed, billed, and responded to. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

8.

The Administration will work with the County's Information Technology and Communication's Departments to ensure that information contained on the county's website is accurate and up to date. The Administration will also continue to work to fill the numerous boards and commissions with talented, engaged, and diverse individuals to best serve our community. In addition, the Administration will continue to review the findings and recommendations contained within this report, and in collaboration with the County Legislature make any additional changes necessary.

Regards,

Frank White, Jr.
Jackson County Executive

cc: Robert McArthur II, Senior Auditor III
Pamela Allison, Supervising Manager of the Public Corruption and Fraud Division
